## REFERENCE MARKS USED IN PRECEDING COLLEGE TABLES.

TABLE ONE.

* All departments. † Co-education of the sexes. ‡ Education of women only. § For the education of colored students. ‡‡ Medical Department at Mobile, Ala. †† At Athens, Tenn., also.

(*a*) Co-education excepting in Art Department.
(*b*) Co-education in Medicine and Law.
(*c*) No restriction as to race.
(*d*) Number of instructors and students given does not include the Horace Mann or Speyer schools.
(*e*) Branches at Tufts College and Boston.
(*f*) Confined strictly to post-graduate work. The national university of the church.
(*g*) Academic and Technical Departments at Fayetteville; Law and Medical Departments at Little Rock; Normal School (for negroes), Pine Bluff, Ark.
(*h*) And at Chicago.
(*i*) Co-education in graduate and Medicine Departments.
(*j*) For Indians and colored youths, both sexes.
(*k*) Not Co-educational except in Art Dept.
(*l*) Radcliffe College is the women's college affiliated with Harvard University. The number of instructors and students shown at Radcliffe College are not included in the Harvard totals.
(*m*) Formerly St. Ignatius Col., organized 1869.
(*n*) Affiliated with Disciples of Christ.
(*o*) Comprises Adelbert College for men. College for women and professional departments.
(*p*) Branch of Carnegie Library with 420,000 volumes.
(*q*) Co-education in Teachers' Courses and Summer Sessions.
(*r*) Schools Pharmacy and Medicine at Chicago.
(*s*) Medical Department at Galveston.
(*t*) Excluding Radcliffe and including the Summer School.
(*u*) School of Mines at Rolla, Mo., which is included in figures.
(*v*) Also at Cleveland, Ohio.
(*w*) Co-education in Law, Pedagogy, Graduate, Summer, and Commerce. The Undergraduate Schools are at University Heights, Bronx Borough, New York City; Law, Pedagogy, Graduate, and Commerce, Accounts and Finance at Washington Square; Medicine at East Twenty-sixth Street and First Avenue.
(*x*) College of Liberal Arts at St. Paul, Minn.; College Physicians and Surgeons at Minneapolis.
(*y*) Report at close of 1912.
(*z*) Women admitted to Graduate, Law, Teachers' course, Biology and Music.
(*aa*) Dean of Medical Dept., W. E. Grant, M. D.; Law Dept., C. B. Seymour, LL. B.; Arts and Science Dept., John L. Patterson, M. A., M.Litt.
(*bb*) Co-education in Graduate School for Ph. D. Art and Music.
(*cc*) Including Summer School.
(*dd*) For immigrants.
(*ee*) Not in session until June, 1914.
(*ff*) Co-education in Post-graduate courses.
(*gg*) Correspondence University.
(*hh*) Co-education in the professional schools.
(*ii*) Women admitted as day students.
(*jj*) Extension courses for both sexes.
(*kk*) Co-educational in Faculty of Art.

TABLE TWO.

(*k*) May 31 to June 3.
(*y*) Report at close of 1912.

TABLE THREE.

† At U. S. Military Academy tuition is free. Cadets are paid $709.50 per year each by the Government, out of which they pay their own expenses for board, clothing, etc.; living expenses average about $237 per annum.

‡‡ At U. S. Naval Academy tuition is free. Midshipmen are paid $600 per year each by the Government, out of which they pay their own expenses for board, clothing, etc.; living expenses average about $24 per month. Each candidate must deposit $280 before admission.

‡ Education of women only.

†† Income from tuition, board or incidental charges only. ** Maintained by the city.

(*a*) Including books.
(*b*) In making up the figures for Columbia University, Barnard College, Teachers' College, and the New York College of Pharmacy are included, because these institutions, although independent corporations financially, are integral parts of the educational system of Columbia University.
(*c*) Exclusive of benefactions.
(*d*) Average—academic, $182-446; engineering, $250-445; law, $347-510; medicine, $305-458.
(*e*) Arts College, free.
(*f*) Average.
(*h*) Residents, $220; non-residents, $360.
(*i*) Living expenses included in tuition charges.
(*j*) Report at close of 1912.
(*k*) Medical and dental, $200.
(*m*) Free to State residents.
(*n*) Law, $150; medical, $125.
(*u*) None except law, $40.
(*w*) Literary, $35; professional, $75-$125.
(*y*) Charges for books, fees, etc., included in living expenses.
(*z*) Free to citizens of United States.
(*bb*) Law, $40.
(*ee*) Free to $150.
(*gg*) $125 except medical, $150; dental, $150.
(*tt*) Medicine, $150; law, $50. None to undergraduates.
(*g*) $100 provided by scholarship.
(*v*) Free, except law $25, books $30.
(*w*) $20 to $125 for graduates.

## ACADEMIC DRESS.

Academic dress, the acknowledged badge of the scholar, is now worn by the majority of universities and colleges in this country. Mr. G. C. Leonard, Director of the Intercollegiate Bureau of Academic Costume at Albany, N. Y., adapted the gowns, hoods and caps now used in America from the English styles, to a system formulated by an Intercollegiate Commission, whereby the exact degree of each wearer may be determined. This code has been officially recognized by over five hundred institutions and the bureau is now chartered by the University of the State of New York.

There are three distinct types of gowns and hoods—the bachelor's, the master's and the doctor's. The bachelor's gown is most commonly worn and has long pointed sleeves; the master's gown has long closed sleeves with a slit through which the forearm protrudes; the doctor's gown has velvet bars on round open sleeves and velvet facings down the front. Caps worn with such gowns are the regulation mortar boards with black silk tassels.

Hoods representing degrees from American universities, with a few exceptions, follow the intercollegiate code. Besides the distinguishing shapes of bachelor's, master's and doctor's hoods, this code provides that they shall be lined with silk showing the colors of the institution which conferred the degree and bordered with the shade of velvet that represents the department of learning to which the degree pertains, as follows: Arts and letters, white; theology and divinity, scarlet; laws, purple; philosophy, blue; science, gold yellow; fine arts, brown; medicine, green; music, pink; pharmacy, olive; dentistry, lilac; forestry, russet; veterinary science, gray; library science, lemon; pedagogy, light blue; commerce and accountancy, drab.

## HONORARY FRATERNITIES.

**United Chapters of Phi Beta Kappa.**—The Phi Beta Kappa Society was founded at William and Mary College, Williamsburg, Va., December 5, 1776, and now consists of 78 chapters located in as many of the leading colleges and universities in the land. The total living membership is about 26,000—20,000 men and 6,000 women. Until 1883 the growth of the society was comparatively slow, but since the organization of the United Chapters the development has been rapid, many chapters having been organized. Women were first admitted in 1875, and the first charter to a woman's college, Vassar, was granted in 1898. Smith, Wellesley, Mt. Holyoke and Goucher College of Baltimore have since received charters. The first woman to be honored by election to the Senate was President Mary E. Woolley of Mt. Holyoke College. The present officers are: *President*, Prof. Edwin A. Grosvenor, LL. D., Amherst, Mass.; *Vice President*, Dean Edward A. Birge, Madison, Wis.; *Secretary*, Rev. Oscar M. Voorhees D. D., 350 East 146th Street, New York City; *Treasurer*, David Layton, M. S., New York, N. Y. "The Phi Beta Kappa Key" is the official publication of the United Chapters which was authorized by the tenth National Council. The society is growing rapidly, over 1,200 members being received last year. The eleventh National Council of the United Chapters of Phi Beta Kappa was held at the College of the City of New York on September 10, at which time the revived chapter at the University of Alabama received recognition and eight chapters were granted in favor of the following institutions; Radcliffe College, Cambridge, Mass., University of Georgia, Athens, Ga.; University of Washington, Seattle, Wash.; University of North Dakota, Grand Forks,; Lawrence College, Appleton, Wis.; Pomona College, Claremont, Cal.: University of Washington, St. Louis, Mo.; Carleton College, Northfield, Minn. President Woodrow Wilson is a Phi Beta Kappa man, as are his predecessors, William H. Taft and Theodore Roosevelt.

**Sigma Xi.**—An honorary scientific society founded at Cornell University in 1886, and having twenty odd chapters in the principal colleges and universities of the country. It is not secret. The performance of creditable scientific research in the natural and applied sciences, together with a high standard of scholarship, constitutes the basis of membership. Women are admitted as well as men.

**Sigma Tau.**—An honorary engineering fraternity for Juniors and Seniors with three requirements, viz., scholarship, practicality and sociability. It was founded February 22, 1904, at University of Nebraska and now has 375 members and six chapters. Prof. L. W. Chase, of 815 Poynty Ave., Manhattan, Kan., is National Secretary.

**Tau Beta Pi.**—An engineering honorary society founded at Lehigh University in 1885. It now has 27 chapters and about 5,450 members. R. C. Matthews, University of Tennessee, at Knoxville, is the National Secretary.

**Alpha Omega Alpha.**—An honorary medical society in which scholarship is the membership qualification, and which admits women on the same basis as men. It was founded by Dr. William W. Root at College of Physicians and Surgeons at Chicago in 1902. It now has 17 chapters and 1,500 members. Dr. William W. Root, Staterville Springs, N. Y., is the National Secretary.

**Acacia Fraternity.**—An intercollegiate organization for Master Masons founded at the University of Michigan in 1904, now has a membership of 2,179 and 24 active chapters. The National Secretary is Harry E. Kilmer, Centerview, Mo.

**Theta Nu Epsilon.**—Is the only Greek letter inter-fraternal class society. It was founded at Wesleyan University in 1870, was badly disorganized for several years and was reorganized in 1907. The society is incorporated under New York laws and is represented in fifty-three colleges of the United States, the membership being 16,000. Prof. Thomas J. Smull, of Ohio-Northern University, is President and the National Secretary is George R. Beehler, Lansford, Penn.

**The Professional Fraternities** now number over 50, with a membership exceeding 40,000. They are located in both technical and professional schools. With the exception of Theta Xi (Engineering-Scientific), members of professional fraternities may also belong to the general college fraternities.

**Local or "One-College" Fraternities** exist in nearly all colleges, and some date back as early as 1825. There are about 75, with a membership approximating 10,000. The women's local fraternities number about 50, with a total membership of about 3,500.

## PROMINENT LIVING GRADUATE MEMBERS.

**Alpha Chi Rho.**—Joseph F. Johnson, Dean of New York University; William R. Shepherd, Professor of History, Columbia University; Isaac Joachim Schwatt, Professor of Mathematics, University of Pennsylvania; Howard Long, Admiralty lawyer; Right Rev. Frank A. McElwain, D. D., Suffragan Bishop of Episcopal Church in Minnesota; C. M. Spofford, Professor of Engineering, Massachusetts Institute of Technology.

**Alpha Delta Phi.**—Theodore Roosevelt, ex-President of the United States; Joseph H. Choate, ex-Ambassador to England; Hamilton W. Mable, author; Charles W. Eliot, ex-President of Harvard University; Benjamin Ide Wheeler, President of the University of California; Francis Lynde Stetson, railroad magnate.

**Alpha Sigma Phi.**—Hon. Franklin MacVeagh, ex-Secretary of United States Treasury Department; Simeon E. Baldwin, Governor of Connecticut; Hon. Wayne MacVeagh, ex-Ambassador to Turkey and Italy; Charles P. Taft, publisher; Henry Holt, publisher; Albert D. White, ex-Ambassador to Russia, Germany and Great Britain; George C. Holt, United States Circuit Court Judge, New York; Cyrus Northrop, President Emeritus of the University of Minnesota; Homer B. Sprague, President of University of North Dakota; Fred B. Kernochan, City Magistrates' Court, New York.

**Alpha Tau Omega.**—Irving Bacheller, author; Luke Lea, United States Senator

PROMINENT LIVING GRADUATE MEMBERS—*Continued.*

from Tennessee; Erskine M. Ross, United States Circuit Court Judge; Willis D. Weatherford, International Secretary of Y. M. C. A.; Walter H. Page, Ambassador to Great Britain; Mazyck P. Ravenel, expert on bacteriology; Norval Richardson and Leroy Scott, authors; C. R. Breckenridge, Ambassador to Russia.

**Beta Theta Pi.**—Horace H. Lurton, Willis Van Devanter, Joseph R. Lamar, Associate Justices of the United States Supreme Court; William E. Borah, United States Senator from Idaho; Boies Penrose, United States Senator from Pennsylvania; Townsend Scudder, Justice of the New York Supreme Court; Edward C. Stokes, ex-Governor of New Jersey; Benjamin B. Odell, ex-Governor of New York; George Fitch, author; Willis O. Robb, manager of New York Fire Insurance Exchange; William R. Baird, patent lawyer.

**Chi Phi.**—Samuel M. Felton, railroad President; Hiram W. Johnson, Governor of California; Frank K. Lane, Secretary of United States Labor Department; William A. Atterbury, Vice-President of Pennsylvania Railroad; Lee S. Overman, United States Senator from North Carolina; R. E. Byrd, of Virginia General Assembly; W. H. Pope, Chief Justice of New Mexico; Sidney E. Mezes, President of the University of Texas; Dr. John B. Deven, surgeon.

Melville Hanna, of Cleveland, Ohio, to Union College; Frederika Gode, divided equally between the Metropolitan Museum of Art and the American Museum of Natural History; anonymous, to the Tuberculosis Preventorium for Children; Andrew Jackson Smith, of Patchogue, N. Y., to the sick and needy of the village; John M. Lohse, to the Metropolitan Museum of Art; Charles Schoolhouse, to various charities.

Others who gave $10,000 were: James Calleran, of Des Moines, to Talladega College; Mr. and Mrs. Eugene Meyer, to Cornell University; H. C. Frick, to the Red Cross fund for the flood sufferers; Alice E. and Edith Davies Kingsbury, to Yale; anonymous, to the Jesse Wheeler Benedict fund of Yale.

The following funds were raised: Mountainside Hospital, Montclair, N. J., $225,000; Scott fund, $375,000; Union American Hebrew Congregation, $157,000, for Hebrew Union College; American Red Cross, $58,850; Booth Memorials, $100,000; for Baptist Missionary Home, $450,000; Foreign Missions of Methodist Church, $1,157,409; Home Rule, $10,000; Newsboys' Club House, $50,000; St. John's Hospital, Cleveland, Ohio, $150,000; Woman's Auxiliary of the Cathedral of St. John the Divine, $500,000; St. Anthony's Hospital, $150,000; Bigelow Memorial, $100,000; Columbus Hospital, N. Y., $200,000; Saturday and Sunday Association, $117,707; New York Association for the Blind, for a lighthouse, $100,000; Red Cross, for flood sufferers, $2,000,000; World Sunday School Convention, $300,000; Federation of Jewish Charities, $200,000; Madison Avenue Baptist Church, $300,000; Society for the Propagation of the Faith, $1,610,315; for sunday-school work in Chicago, $100,000; for a dispensary for the House of St. Giles the Cripple, in Brooklyn, $100,000; the United Charities, $60,000.

The General Education Board distributed amounts to colleges. Among them were: Allegheny, $50,000; Lake Forest, $50,000; Whitman, $125,000; Pomona, $150,000; Union, $75,000; $35,000 to three negro schools; J. B. Stetson University, $50,000; Northwestern University, Ill., $100,000; Williams College, $100,000; Boys' Corn Club work, $180,650; for the promotion of girls' canning and poultry clubs throughout the South, $75,000; for agricultural demonstration in Maine, $14,500; in New Hampshire, $7,500; University of Rochester, $168,000.

The principal contributors to the $4,062,000 fund of the Y. M. C. A. in November, 1913, are as follows: John D. Rockefeller, $500,000; Mrs. Willard D. Straight, $300,000; Cleveland H. Dodge, $325,000; Miss Grace H. Dodge, $300,000; Anonymous (Lady Friend), $215,000; Mrs. Finley J. Shepard, $200,000; Henry C. Frick, $100,000; $50,000—Mrs. William Douglas Sloane, Mrs. D. Willis James, Julius Rosenwald, Chicago; Anonymous, Mr. and Mrs. George W. Perkins, J. P. Morgan & Co.; $40,000—William K. Vanderbilt, Anonymous; $25,000—Mrs. Harry Payne Whitney, Mrs. Cyrus H. McCormick, Sr., New York Telephone Company, Mrs. Cyrus H. McCormick, Jr., Mrs. John W. Gates, John D. Rockefeller, Jr., George W. Perkins, Mrs. John D. Rockefeller, Mrs. Clarence M. Hyde, Mr. and Mrs. Stephen V. Harkness, Mrs. Hamilton McK. Twombly,

Mrs. John T. Pratt, John T. Pratt, Coleman du Pont (on behalf of the Equitable Building), Anonymous, Mrs. E. S. Harkness (in memory of E. Thomas Stillman), Mrs. S. B. Harkness; $10,000—Frederick W. Vanderbilt, John D. Archbold, in memory of R. R. McBurney, Mr. and Mrs. James Stokes, Mrs. John French and family, Mr. and Mrs. William Fellowes Morgan, Robert S. Brewster, Mrs. Morris K. Jesup, John Sloane, Miss Eleanor de Graff Cuyler, Mrs. Charles H. Senff, Samuel Thorne, Mrs. Charles B. Alexander, Mrs. Andrew Carnegie, James Talcott, William Sloane, Mrs. Elliott F. Shepard, Mrs. Henry M. Flagler, George Grant Mason, Mrs. Joseph Milbank, Stevens C. Clark, In memory of Phoebe Ann Thorne for Colored Y. M. C. A.

St. Thomas's Episcopal Church expended $268,000 for charity.

The United Hebrew Charities distributed $258,198 to the poor.

The American Board of Foreign Missions spends $1,000,000 annually for mission work.

Foreign missionary gifts from American Protestant churches aggregate $11,000,000.

## OCCUPATIONS OF COLLEGE GRADUATES.

The United States Bureau of Education in May, 1913, made public statistics showing the occupations of college graduates, from 1642 to 1900, from returns furnished by thirty-seven colleges and universities. Taking three periods a century apart gave these percentages:

| Occupation. | 1696-1700. | 1796-1800. | 1896-1900. | Occupation. | 1696-1700. | 1796-1800. | 1896-1900. |
|---|---|---|---|---|---|---|---|
| Ministry | 65.6 | 21.4 | 5.9 | Education | 4.7 | 5.7 | 26.7 |
| Law | 1.6 | 30.5 | 15.6 | Business | 1.6 | 5.6 | 18.8 |
| Medicine | 3.1 | 8.4 | 6.6 | Public Service | 9.4 | 1.1 | 1.0 |

# Color Chart

## SHOWING MEASURE OF HARMONY OF COLORS IN COMBINATIONS IN DECORATIONS, CLOTHING AND VARIOUS ORNAMENTATION.

| | Nile. | Olive. | Orange. | Purple. | Red. | Salmon. | Sky Blue | Tan. | Wine. | Yellow. |
|---|---|---|---|---|---|---|---|---|---|---|
| Blue | Bad | Fair | Strong | Weak | Fair | Fair | Weak | Good | Fair | Strong |
| Brown | Fair | Good | Weak | Strong | Weak | Weak | Good | Bad | Weak | Bad |
| Cream | Good | Good | Good | Good | Good | Good | Good | Weak | Good | Weak |
| Green | Weak | Weak | Fair | Strong | Strong | Strong | Bad | Fair | Fair | Bad |
| Gray | Good | Good | Good | Good | Good | Good | Good | Bad | Good | Fair |
| Helio | Bad | Bad | Bad | Weak | Bad | Bad | Weak | Good | Bad | Strong |
| Lavender | Fair | Bad | Bad | Weak | Bad | Bad | Bad | Good | Bad | Bad |
| Maroon | Bad | Fair | Bad | Bad | Weak | Bad | Bad | Fair | Weak | Strong |
| Myrtle | Bad | Weak | Strong | Strong | Fair | Strong | Bad | Good | Fair | Bad |
| Navy | Bad | Good | Strong | Weak | Fair | Strong | Good | Good | Good | Strong |
| Nile | ... | Weak | Bad | Bad | Bad | Fair | Weak | Fair | Bad | Bad |
| Olive | Weak | ... | Strong | Bad | Bad | Bad | Bad | Weak | Weak | Bad |
| Orange | Bad | Strong | ... | Strong | Weak | Weak | Bad | Fair | Bad | Bad |
| Purple | Bad | Bad | Strong | ... | Weak | Bad | Bad | Good | Weak | Strong |
| Red | Bad | Bad | Weak | Weak | ... | Weak | Bad | Good | Weak | Strong |
| Salmon | Fair | Bad | Weak | Bad | Weak | ... | Fair | Good | Bad | Bad |
| Sky Blue | Weak | Bad | Bad | Bad | Bad | Fair | ... | Good | Bad | Fair |
| Tan | Fair | Weak | Fair | Good | Good | Good | Good | ... | Good | Weak |
| Wine | Bad | Weak | Bad | Weak | Weak | Bad | Bad | Good | ... | Strong |
| Yellow | Bad | Bad | Bad | Strong | Strong | Bad | Fair | Weak | Strong | ... |

NOTE—When it is desired to use in window trims, decorations, etc., two colors which make a displeasing combination, the introduction between them of gray, white or black relieves the discord. White in conjunction with any color intensifies that color. Black has the opposite effect. For pink use the salmon line; for ivory use the cream line; for pearl use the gray line.

# Practical Etiquette.

## AS OBSERVED IN AMERICAN SOCIETY.

### CALLS.

The hours for women's formal calls are between 3 and 6 in the afternoon. Men may call in the evening or on Sunday afternoons if their engagements are such as to make it impossible for them to call upon the "At Home" day. A formal call should not last more than fifteen or twenty minutes. On an "At Home" day it may be even more brief. Calls should always be paid on a woman's "day," if possible. On other days it is permissible for her to give orders to her servants that she is "not at home."

The first call is made by an old resident on a new comer. A bride receives calls before she pays them. A visiting stranger should be called upon by residents before she is expected to pay any calls herself.

The reception of an invitation to any social function, whether the invitation be accepted or declined, constitutes a social debt to be discharged by a call. Failure to do this is a slight to the hostess. The guests invited to a wedding must call on the mother of the bride soon after the wedding, and call promptly on the bride as soon as she is settled after her marriage. Calls are in order after a bereavement in a family. Calls of inquiry, when there is illness in a household, are also desirable. Such calls as these are made whether social calls are due or not.

First calls should be returned within a week or ten days after they are received. The call should be on the "At Home" day, when feasible. Calls of purely formal acquaintances should be exchanged at least once a season if the social relations between them is to be maintained.

A man, in calling, leaves his overcoat, overshoes, and umbrella in the hall. At a first call he may carry his hat and cane into the drawing-room with him, although this is not obligatory. At later calls he should leave them in the hall.

A woman wearing overshoes and a storm-coat when calling may leave them in the hall with her umbrella.

When a man and a woman are calling together it is the man's place to wait for the woman to give the signal to leave. When two women are calling together it is the place of the senior of the two to make the first move. It is bad form to linger over the leave-takings after a start has been made.

### CARDS.

Men's calling cards should be small, thin, and perfectly plain except for the inscription in script, old English, or block lettering. The man's full name or the initials of his Christian names and his surname should be given, always preceded by "Mr.," unless it is followed by "Jr.," or in cases where a title or a degree is appended. A physician may have his name preceded by "Dr." or followed by "M. D." A clergyman's card may either read "Reverend John H. Smith," or, if he has a degree, "John H. Smith, D. D."

The address should be in the lower right-hand corner. If both a house and a club address are given, the latter is in the lower left-hand corner, the former in the lower right-hand corner.

Abbreviations or nicknames of any sort are out of place on a card. So are fac-simile signatures.

The married woman's calling card is a little larger than that used by the unmarried woman. The cards for women are larger and heavier than those for men, are very plain, and are lettered in the same fashion. The matron's card bears her married name, as "Mrs. David James Pitkin." The address is in the lower right-hand corner, the "At Home" day in the lower left-hand corner. The hours at which she is "At Home" are also mentioned if she wishes to limit these.

The unmarried woman's card bears simply the title and the surname, if she is the oldest or only daughter, as "Miss Brown." A younger daughter's given name should appear, as "Miss Eleanor Brown." Young girls in their early social seasons have their names engraved on the same cards with their mothers. A widow's card may bear either her married name, as she wrote it in her husband's lifetime, or her own given names preceding her surname.

When visiting a friend who is stopping in the house of some one who is a stranger to the caller, the latter leaves a card for the hostess as well as for the friend. In calling on other than an "At Home" day, the cards are handed to the maid at the door, after the inquiry as to whether or not the hostess is at home. They are left in either case.

Cards may be made to take the place of a call on occasions of condolence, congratulation, or inquiry. They may be left in person or sent by post. The former method is better form.

### INVITATIONS AND ANNOUNCEMENTS.

An invitation to a large and formal dinner should be sent out not less than a week or ten days in advance. A reply should be sent within twenty-four hours. If the invitation is written in the third person the reply should be couched in the same form. If it is framed in a less formal way the answer should be in similar fashion. A written regret should, of course, be sent if a person, after accepting an invitation to dinner, is prevented from being present.

Invitations to large weddings are sent out from two to four weeks before the ceremony. No reply is necessary to an invitation unless especially requested. When a guest is unable to attend a home wedding cards should be sent to the parents of the bride the day of the marriage. No acknowledgment is demanded for cards to a church wedding, although cards should be left for the bride's mother after the marriage. A good general rule for all invitations, except those to church weddings, is to reply to them as promptly as possible. Announcement cards should be met by a call on the bride's mother, or by cards left for her, and by personal cards sent to the bride upon her return from her wedding trip, or by a call in person on her "At Home" days. Out of town friends should send cards, and the failure to acknowledge the receipt of a wedding announcement, by a note or cards, is a serious breach of good manners, and warrants the inference that the recipient is either ignorant or indifferent to the courtesy.

Cards should be left in acknowledgment of announcement of an engagement or a birth. The notes of condolence which should always be sent to a bereaved family should be acknowledged by a note, or by a card bearing a word of thanks or appreciation.

## THE VANDERBILTS.

DESCENDANTS OF COMMODORE CORNELIUS VANDERBILT.

Born on Staten Island, N. Y., 1794; married, 1st, Sophia Johnson, 1813, she d. 1867; 2d, Frances Crawford, 1869; died 1877.

## NATIVE LANGUAGE OF THE FOREIGN WHITE STOCK IN THE UNITED STATES.

The Census Bureau on December 2, 1913, published the following table showing the mother tongues of the foreign-born population and natives of foreign-born parents in the United States, according to the Census of 1910.

The full list of mother tongues as reported at the Thirteenth Census is given for the total foreign white stock (which includes the foreign-born and natives of foreign or mixed parentage) and for the foreign-born whites separately, as follows:

| Mother Tongue. | Total Foreign White Stock, 1910. | Foreign-Born White. |
|---|---|---|
| All mother tongues | 32,243,382 | 13,345,545 |
| English* | 10,037,420 | 3,363,792 |
| Germanic: | | |
| German | 8,817,271 | 2,759,032 |
| Dutch and Frisian | 324,930 | 126,045 |
| Flemish | 44,806 | 25,780 |
| Scandinavian: | | |
| Swedish | 1,445,869 | 683,218 |
| Norwegian | 1,009,854 | 402,587 |
| Danish | 446,473 | 186,345 |
| Latin and Greek: | | |
| Italian | 2,151,422 | 1,365,110 |
| French | 1,357,169 | 528,842 |
| Spanish | 448,198 | 258,131 |
| Portuguese | 141,268 | 72,649 |
| Rumanian | 51,124 | 42,277 |
| Greek | 130,379 | 118,379 |
| Slavic and Lettic: | | |
| Polish | 1,707,640 | 943,781 |
| Bohemian and Moravian | 539,392 | 228,738 |
| Slovak | 284,444 | 166,474 |
| Slavic and Lettic—*Con.:* | | |
| Russian | 95,137 | 57,926 |
| Ruthenian | 35,359 | 25,131 |
| Slovenian | 183,431 | 123,631 |
| Sebro-Croatian— | | |
| Croatian | 93,036 | 74,036 |
| Dalmatian | 5,505 | 4,344 |
| Servian | 26,752 | 23,403 |
| Montenegrin | 3,961 | 3,886 |
| Bulgarian | 19,380 | 18,341 |
| Slavic, not specified | 35,195 | 21,012 |
| Lithuanian and Lettish | 211,235 | 140,963 |
| Miscellaneous: | | |
| Yiddish and Hebrew | 1,676,762 | 1,051,767 |
| Magyar | 320,893 | 229,094 |
| Finnish | 200,688 | 120,086 |
| Armenian | 30,021 | 23,938 |
| Syrian and Arabic | 46,727 | 32,868 |
| Turkish | 5,441 | 4,709 |
| Albanian | 2,366 | 2,312 |
| All other | 790 | 646 |
| Unknown | 313,044 | 116,272 |

* Includes persons reporting Irish, Scotch or Welsh.

## NATIONAL ACADEMY OF DESIGN.

### NATIONAL ACADEMICIANS.

Elected.
1899. Adams, Herbert, 131 West 11th Street.
1902. Alexander, J. W., 123 East 63d Street.
1899. Barse, George R., Jr., 7 West 43d Street.
1902. Beaux, Cecilia, 20 Gramercy Park.
1894. Beckwith, J. Carroll, 57 West 46th Street.
..... Bellows, Geo. W.
1905. Benson, Frank W., Salem, Mass.
1903. Bitter, Karl, 44 West 77th Street.
1888. Blashfield, Edwin H., Carnegie Hall.

Walker, C. Howard, Boston, Mass.
Warner, Everett L.
Webb, J. Louis, 32 East 42d Street.
Wendt, Wm., Los Angeles, Cal.
Whittemore, Wm. J., 318 West 57th Street.
Yates, Cullen, 939 Eighth Avenue.
Young, Chas. Morris.
Young, Mahonri, 1931 Broadway.

COUNCIL, 1913-1914.

*President*, John W. Alexander; *Vice-President*, Herbert Adams; *Corresponding Secretary*, Harry W. Watrous; *Recording Secretary*, Charles C. Curran; *Treasurer*, Francis C. Jones; Wm. Rutherford Mead, Alex. T. Van Laer, Adolph A. Weinman, Edwin H. Blashfield, Henry B. Snell, J. Alden Weir.

The addresses given in the list refer to the city of New York when not otherwise specified. The National Academy was founded in 1826. The schools of the National Academy are open from the first Monday in October to the middle of May. Circulars containing rules and other details may be had on application at the Academy, corner Amsterdam Avenue and West 109th Street.

## NATIONAL SCULPTURE SOCIETY.

The National Sculpture Society, with headquarters at New York, was incorporated in 1896. It is composed of lay and sculptor members, and has for its object the spreading of the knowledge of good sculpture, the fostering of the taste for ideal sculpture and its production, both for the household and museums; the promotion of the decoration of public and other buildings, squares, and parks with sculpture of a high class; the improvement of the quality of the sculptor's art as applied to industries, and the providing, from time to time, for exhibitions of sculpture and objects of industrial art in which sculpture enters. The officers are as follows:

*President*—Isidore Konti. *Vice-Presidents*—Wm. A. Boring, Charles Grafly. *Secretary*—J. Scott Hartley. *Treasurer*—I. Wyman Drummond. Class expiring May, 1914: Robert I. Aitken, Solon H. Borglum, Charles Keck, Isidore Konti, Edmund T. Quinn, Arnold W. Burnett. Class expiring May, 1915: Herbert Adams, Karl Bitter, A. Sterling Calder, I. Wyman Drummond, A. A. Weinman and Lloyd Warren. Class expiring May, 1916: Wm. A. Boring, Charles Grafly, John Flanagan, A. P. Proctor, John De Witt Warner, Mahonri Young.

## ROYAL ACADEMY.

*President*—Sir Edward John Poynter, Bart. *Keeper and Librarian*—A. C. Gow. *Treasurer*—Sir Aston Webb. *Secretary*—Vacant pro tem. *Registrar*—E. F. Dixon.
*Honorary Retired Academician:* 1878, Yeames, Wm. Frederick.

ROYAL ACADEMICIANS.

1909 Belcher, John.
1911 Bramley, Frank.
1891 Brock, Sir Thomas, K.C.B.
1908 Clausen, George.
1910 Cope, Arthur Stockdale.
1877 Davis, Henry Wm. Banks.
1891 Dicksee, Frank.
1887 Fildes, Sir Luke.
1910 Forbes, Stanhope A.
1902 Frampton, Sir George J.
1891 Gow, Andrew C.
1881 Graham, Peter.
1910 Hacker, Arthur.
1910 Hemy, Charles N.
1890 Herkomer, Sir Hubert von, C. V. O.
1897 Jackson, Sir Thomas Graham, Br.
1909 John, Sir Wm. Goscombe.
1898 Leader, Benj. Williams.
1876 Leslie, George Dunlop.
1898 Lucas, John Seymour.
1905 Murray, David.
1881 Ouless, Walter William.

ROYAL ACADEMICIANS—*Continued.*

1911 Parsons, Alfred.
1876 Poynter, Sir Edward John, Bart.
1881 Rivière, Briton.
1895 Richmond, Sir Wm. Blake, K.C.B.
1869 Sant, James.
1897 Sargent, John Singer.
1909 Shannon, James J.
1911 Short, Sir Frank.
1906 Solomon, Solomon J.
1887 Stone, Marcus.
1888 Thornycroft, Wm. Hamo.
1895 Waterhouse, John Wm.
1903 Waterlow, Sir Ernest A.
1903 Webb, Sir Aston, C.V.C.C.B.
1893 Woods, Henry.
1907 Wyllie, William Lionel.

ASSOCIATES.

## American Academy of Arts and Letters.

THE first seven members of the American Academy of Arts and Letters were selected by the National Institute of Arts and Letters from its own body in 1904 by ballot. The seven were William Dean Howells, Augustus St. Gaudens, Edmund Clarence Stedman, John La Farge, Samuel L. Clemens, John Hay and Edward MacDowell. In order to become eligible to the American Academy one must first be a member of the National Institute of Arts and Letters. This society was organized at a meeting of the American Social Science Association in 1898. The qualification for membership is stated in the Constitution, "It shall be notable achievement in art, music or literature." The number in the Institute is limited to 250, and the election is by ballot.

The American Academy of Arts and Letters numbers fifty members, and the officers are William Dean Howells, President; William Milligan Sloane, Chancellor; Robert Underwood Johnson, 327 Lexington Ave., New York City, Permanent Secretary.

The following are the present members of the Academy, there being two vacancies:

William Dean Howells
Henry James
Henry Adams
Thomas Raynesford Lounsbury
Theodore Roosevelt
John Singer Sargent
Alfred Thayer Mahan
Daniel Chester French
John Burroughs
James Ford Rhodes
Horatio William Parker
William Milligan Sloane
Robert Underwood Johnson
George Washington Cable
Andrew Dickson White
Henry van Dyke
William Crary Brownell
Basil Lanneau Gildersleeve
Woodrow Wilson
Arthur Twining Hadley
Henry Cabot Lodge
Francis Hopkinson Smith
Edwin Howland Blashfield
William Merritt Chase
Thomas Hastings
Hamilton Wright Mabie
Brander Matthews
Thomas Nelson Page
Elihu Vedder
George Edward Woodberry
Kenyon Cox
George Whitefield Chadwick
Abbott Handerson Thayer
John Muir
Charles Francis Adams
Henry Mills Alden
George de Forest Brush
William Rutherford Mead
John W. Alexander
Bliss Perry
Abbott Lawrence Lowell
James Whitcomb Riley
Nicholas Murray Butler
Paul Wayland Bartlett
Owen Wister
Herbert Adams
Augustus Thomas
Timothy Cole

## ROCKEFELLER FOUNDATION.

The State of New York granted a charter to the Rockefeller Foundation in 1913. The exact amount of money to be donated was not stated. The incorporators are John D. Rockefeller, John D. Rockefeller, Jr., Frederick T. Gates, Harry Pratt Judson, Simon Flexner, Starr J. Murphy, Jerome D. Greene, Wicklisse Rose, and Charles O. Heydt. The officers are: *President*—John D. Rockefeller, Jr. *Secretary*—Jerome D. Greene. *Treasurer*—L. G. Myers. *Assistant-Treasurer*—Harry L. Fish. Members of the executive committee are: John D. Rockefeller, Jr., Jerome D. Greene, Simon Flexner, Starr J. Murphy, Charles O. Heydt. Headquarters, 26 Broadway, New York City.

## The Forty Immortals of the French Academy.

| | Year Elected. | Name. | Born. | Predecessor. |
|---|---|---|---|---|
| 1 | 1874 | Alfred Jean François Mezières | Paris, 1826 | St. Marc-Girardin. |
| 2 | 1886 | Othénin P. de Cléron, Comte d' Haussonville. | Gurcy, 1843 | Caro. |
| 3 | 1888 | Jules Arnaud Arsène Claretie | Limoges, 1840 | Cuvillier-Fleury. |
| 4 | 1890 | Charles Louis de Saulses de Freycinet | Foix, 1828 | Emile Augier. |
| 5 | 1891 | Louis Marie Julien Viaud (Pierre Loti) | Rochefort, 1850 | Octave Feuillet. |
| 6 | 1892 | Ernest Lavisse | Nouvion, 1842 | Jurien de la Gravière. |
| 7 | 1894 | Paul Bourget | Amiens, 1852 | Maxime Du Camp. |
| 8 | 1895 | Jules Lemaitre | Orleans, 1853 | Jean Victor Duruy. |
| 9 | 1896 | Jacques Anatole Thibault (Anatole France). | Paris, 1844 | Comte de Lesseps. |
| 10 | 1897 | Albert Comte de Mun | Lumigny, 1841 | Jules Simon. |
| 11 | 1897 | Gabriel Hanotaux | Beaurevoir, 1853 | Challemel-Lacour. |
| 12 | 1899 | Henri Léon Emile Lavedan | Orleans, 1859 | Henri Meilhac. |

| 38 | .... | Vacant | ..... | H. Poincaré. |
| 39 | .... | Vacant | ..... | |
| 40 | .... | Vacant | ..... | |

* The French Academy is one of five academies, and the most eminent, constituting the Institute of France. It was founded in 1635 by Cardinal Richelieu, and reorganized in 1816. It is composed of 40 members, elected for life, after personal application and the submission of their nomination to the head of the state. It meets twice weekly, at the Palace Mazarin, 23 Quai Conti, Paris, and is "the highest authority on everything appertaining to the niceties of the French language, to grammar, rhetoric, and poetry, and the publication of the French classics." The chief officer is the secretary, who has a life tenure of his position. The office is at present vacant. A chair in the Academy is the highest ambition of most literary Frenchmen.

The other academies of the Institute of France are: The Academy of Inscriptions and Belles-Lettres, with 40 members; Academy of Sciences, with 68 members; Academy of Fine Arts, with 40 members (as follows: Painting, 14; sculpture, 8; architecture, 8; engraving, 4; musical composition, 6), and Academy of Moral and Political Science, with 40 members. All members are elected for life.

## Harvest Moon.

The Harvest Moon is the full moon that makes its appearance at the time of the harvest or about the Autumnal equinox. Because of the small angle that is made by the moon's orbit with the horizon, it rises at the same time for several days and it enables the farmer to continue his work after sunset.

Hunters' Moon follows the Harvest Moon and is similar inasmuch as it rises at the same hour for several days. It is called Hunters' Moon because the crops having been harvested, there is nothing to interfere with the pleasures of the sportsman.

## The New Poet Laureate.

On June 2, 1913, Alfred Austin, the British Poet Laureate, died at the age of 77 years. He was appointed in 1896 by Queen Victoria as the successor of the late Lord Tennyson.

To fill the vacancy caused by the death of Mr. Austin, King George V., on July 16, 1913, appointed Dr. Robert Bridges. He is a retired physician who has written eight volumes of verse, without a world-wide reputation. He was born October 23, 1844, on the Isle of Thanet, was educated at Eton and Oxford, became a physician, retiring from the medical profession in 1882 and has written various plays and poems, an "Essay on Milton's Prosody" and "Critical Essay on Keats." Among his shorter poems are "The Growth of Love," "Prometheus the Firegiver" and "Eros and Psyche." His home is at Chilswell, Boar's Hill, Oxford. Dr. Bridges married Monica Waterhouse, daughter of Alfred Waterhouse, of the Royal Academy, in 1884. They have one son and two daughters.

## THE DRAMA SOCIETY.

It is an organization of art-loving playgoers on a basis that secures to regular members of the society the best seats, for the best productions only, at the box-office price. There are no dues, and no initiation fees. Only two conditions are imposed: first, that the members yearly attend ten productions found worthy of the intelligent playgoer, within the first month of the run; and, second, that the subscriptions of regular members shall not exceed one thousand tickets to each play.

*President*—Mrs. E. R. Hewitt, P. O. Box 462 Madison Square, New York City. *Secretary*—John Corbin, 131 East Fifteenth Street, New York City. *Treasurer*—Thomas W. Lamont. *Executive Committee*—Mrs. August Belmont, Mrs. George G. Haven, Jr., Mrs. Philip Lydig, Mrs. Frederic B. Pratt, Mrs. W. K. Vanderbilt, Mrs. Egerton L. Winthrop, Jr., Mr. Walter P. Eaton and Mr. Robert P. Perkins.

## ACTORS' FUND OF AMERICA.

*President*—Daniel Frohman. *First Vice-President*—Joseph R. Grismer. *Second Vice-President*—F. F. Mackay. *Treasurer*—William Harris. *Secretary*—E. D. Miner. *Assistant Secretary*—W. C. Austin.

The Actors' Fund was established in 1882 to provide assistance for disabled and needy members of the theatrical profession, and burial for such as leave no means therefor. The Actors' Fund Home, West New Brighton, Staten Island, under the direction of the Actors' Fund of America, was opened May 10, 1902. This is a home for aged and needy actors and actresses. There are 29 honorary members and 385 life members. Office, 1476 Broadway, N. Y. City.

# The Alfred B. Nobel Prizes.

THE Swedish scientist, Alfred B. Nobel, the inventor of dynamite, died in 1896, bequeathing his fortune, estimated at $9,000,000, to the founding of a fund, the interest of which should yearly be distributed to those who had mostly contributed to "the good of humanity." The interest is divided in five equal shares, given away, "One to the person who in the domain of physics has made the most important discovery or invention, one to the person who has made the most important chemical discovery or invention, one to the person who has made the most important discovery in the domain of medicine or physiology, one to the person who in literature has provided the most excellent work of an idealistic tendency, and one to the person who has worked most or best for the fraternization of nations, and the abolition or reduction of standing armies, and the calling in and propagating of peace congresses."

The prizes for physics and chemistry are awarded by the Swedish Academy of Science, that for physiological or medical work by the Caroline Institute (the faculty of medicine in Stockholm), that for literature by the Swedish Academy in Stockholm, and the peace prize is awarded by a committee of five persons, elected by the Norwegian Storthing.

In accordance with these statutes the awarders of the prizes (the four above named institutions) elect fifteen deputies for two consecutive years, the Academy of Science electing six, and the other prize awarders three each. These deputies elect for two consecutive years four members of the Board of Directors of the Nobel Institute, which board, exclusively consisting of Swedes, must reside in Stockholm. A fifth member, the President of the board, is nominated by the Government. The Board of Directors has in its care the funds of the Institution, and hands yearly over to the awarders of the prizes the amount to be given away. The value of each prize is on an average $40,000. The distribution of the prizes takes place every year on December 10, the anniversary of Mr. Nobel's death. Full information can be obtained from "Nobelstiftelsens Styrelse" (The Board of Directors of the Nobel Institute), Stockholm, Sweden.

The awards made until now have been: Physics, 1901, W. C. Röntgen, German; 1902, H. A. Lorentz and P. Zeeman, Hollanders; 1903, H. A. Becquerel, P. Curie, and Marie Curie, all French; 1904, Lord Rayleigh, English; 1905, Prof. Philipp Leonard, of Kiel University, German; 1906, Prof. J. J. Thomson, of the University of Cambridge, English; 1907, Prof. Albert A. Michelson, of the University of Chicago, American; 1908, Professor Gabriel Lippman, University of Paris, French; 1909, William Marconi, Italian, and Professor Ferdinand Braun, of Strassburg, German; 1910, Prof. Johannes Diederik Van der Waals, Dutch; 1911, Professor Wilhelm Wien, of Wurzburg University, German; 1912, Gustaf Dalen, gas engineer at Stockholm, Swiss; 1913, Professor H. Kamerlingh Onnes, of the University of Leyden, German.

Chemistry: 1901, J. H. van Hoff, Professor of the Berlin University, Hollander; 1902, E. Fischer, German; 1903, S. A. Arrhenius, Swede; 1904, Sir William Ramsay, English; 1905, Adolph von Boeyer, German; 1906, Prof. Henri Moissan, French; 1907, Prof. Edonard Buchner, of the Berlin University, German; Sir William Crookes, English; 1908, Professor Ernest Rutherford, University of Manchester, English; 1909, Professor Wilhelm Ostwald, German; 1910, Professor Otto Wallach, of the University of Gottingen, German; 1911, Madame Marie S. Curie, of the University of Paris, French; 1912, Professor Griggnard, of Nancy, French, and Professor Paul Sabatier, of Toulouse University, French; 1913, Professor Werner, of Zurich, Swiss.

Medicine: 1901, E. A. von Behring, German; 1902, R. Ross, English; 1903, N. R. Finsen, Dane; 1904, Pavloff, Russian; 1905, Prof. Robert Koch, German; 1906, Prof. Ramon y Cajal, Spanish; Professor Golgi, French; 1907, Dr. Laveran, of Paris, French; 1908, Dr. Paul Ehrlich, of Berlin, German, and Professor Elie Metschnikoff, Pasteur Institute, Paris, Russian; 1909, Professor Theodor Kocher, of Berne, Swiss; 1910, Dr. Albrecht Kossel, Professor of Physiology at Heidelberg University, German; 1911, Professor Alivar Gullstrand, of Upsala University, Swedish; 1912, Dr. Alexis Carrel of the Rockefeller University, New York, French; 1913, Dr. Charles Richet, of Paris, French.

Literature: 1901, R. F. A. Sully-Prudhomme, French; 1902, Th. Mommsen, German; 1903, Björnstjerne Björnson, Norwegian; 1904, Frederic Mistral, French, and José Echegaray, Spaniard; 1905, Henry Sienkiewicz, Pole; 1906, Professor Carducci, Italian; 1907, Rudyard Kipling, English; 1908, Professor Rudolf Eucken, Jena University, German; 1909, Selma Lagerlof, Swede; 1910, Paul Johann Ludwig Heyse, German; 1911, Maurice Maeterlinck, Belgian; 1912, Gerhard Hauptmann, dramatic poet, German; 1913, Rabindranath Tagore, British Indian poet, Bengalese.

Peace: 1901, Henri Duuant, Swiss, and Fr. Passy, French; 1902, E. Ducommun and A. Gobat, both Swiss; 1903, W. R. Cremer, English; 1904, The Institution of International Law, the first award to an institution; 1905, Baroness von Suttner, Austrian; 1906, President Theodore Roosevelt, American; 1907, Ernesto Teodoro Moneta, Italian, and Louis Renault, French; 1908, K. P. Arnoldson, Swede, and M. F. Bajer, Dane; 1909, Baron d'Estournelles de Constant, French, and M. Beernaert, Belgian; 1910, International Permanent Peace Bureau, Berne; 1911, Professor T. M. C. Asser, founder of the Institute de Droit International, Dutch, and Alfred Fried, editor of the Journal Freiedens-Warte, of Vienna, Austrian; 1912, no award, but is now awarded to United States Senator Elihu Root, of New York, American; 1913, Senator Henri La Fontaine, formerly President of the Permanent International Peace Bureau at Berne, Switzerland, Belgian.

# Art Progress in the United States.

BY HENRY TYRRELL.

FREE art in America is the long-sought boon conferred by the new Underwood Tariff law. For over a third of a century, educators, artists, art institutions and lovers of the fine arts generally have recognized that a tax on works of art retards the progress of a country in both the power to appreciate and the ability to create works of art. Therefore the Payne-Aldrich bill of 1909, which compromised on admitting free of duty art over twenty years old and taxing more recent works fifteen per cent., was counted a step in the right direction. The new Tariff bill, which is now a law, may be justly hailed as the triumphant culmination of the long controversy. The absurd 20-year limitation is abolished on paintings in oil, mineral, water and other colors, and on original drawings and sketches in pen-and-ink, pencil, chalk or pastel. Original statuary and sculpture by professional sculptors comes in free; also artists' proof etchings (unbound), engravings and woodcuts. Anything that does not come within these provisions, such as objects of utility, copies of paintings, additional replicas, copies or reproductions of sculpture, etchings, woodcuts or engravings that are not artists' proofs or that are bound, still carry a duty of fifteen per cent. Works of art classed under the head of antiquities (except rugs and carpets), collections illustrating the progress of the arts, works in bronze, marble, terra cotta, parian, pottery or porcelain, and objects of art of ornamental character or educational value, that are more than one hundred years old, are also exempt from duty.

The Association of American Painters and Sculptors, represented by its counsel, John Quin, before the Ways and Means Committee of the House and the Finance Committee of the Senate in the Congressional debates on the new Tariff bill, is to be credited with a leading role in the promotion of the legislation which has made free art an actuality. This same association, of which Arthur B. Davies is President, gave its first international exhibition of modern art at the Sixty-ninth Regiment Armory, New York City, during the four weeks of February 17 to March 15, 1913. The event proved one of sensational interest, not only as a significant demonstration of the vitality of the modern progressive movement in painting and sculpture, but also because of its success in a material and practical way. Commodious exhibition space was found for no less than 1,100 catalogued paintings, sculptures and drawings by American and European artists chosen as illustrating the universal advance from Ingres, Courbet, Delacroix and the "Meo of 1830," through Corot, Puvis de Chavannes, Daumier, Cezanne, Manet, Gauguin, Van Gogh, Sisley, Monet, Redon, Renoir and Pissaro, to Matisse and the Post-Impressionists, and finally the Cubist incoherencies of Picasso, Picabia and Marcel Du Champ, with the symbolistic sculptures of Brancusi, Bernard, Lehmbruck and other extremists in stone and plaster. The attendance during the four weeks reached a total of over 56,000, practically all paid admissions. Some 200 paintings and pieces of sculpture were sold, at prices ranging from $100 to $2,000. The show was subsequently transferred to Chicago and finally to Boston.

John E. D. Trask, chief of the Department of Fine Arts of the Panama-Pacific International Exposition to open at San Francisco in 1915, announces the appointment of advisory committees for the various art centres of the United States, under the chairmanship, respectively, of John W. Alexander, New York; Edmund C. Tarbell, New England; Edward W. Redfield, Pennsylvania and South Atlantic States; and Frank Duveneck, Middle West. The membership of these committees includes over a hundred of the foremost American artists of to-day. Mr. Trask himself has organized in London and Paris further committees with a view to securing full representation of the work of American artists residing abroad, as well as of the contemporaneous schools of Europe. With a guarantee fund of $500,000 for the purchase of pictures to remain permanently in California, the prospect is set forth that the Panama-Pacific Exposition will give a lasting stimulus to art in the West comparable to that bestowed elsewhere by the Philadelphia Centennial, the Chicago World's Fair, and the Louisiana Purchase commemoration at St. Louis.

The death of J. Pierpont Morgan, which took place at Rome on March 2, 1913, removed a dominating figure from the world of art, as from that of finance. Mr. Morgan initiated a new era in the collection of works of art. It is largely through his influence that the art centre of the world is now being transferred from Europe to America and that the commercial value of masterpieces of art of every description has quadrupled within the last decade. The unprecedented collection—or, rather, group of collections—removed by Mr. Morgan in the year before his death from London and Paris to New York represents a money value variously estimated at from $50,000,000 to $75,000,000. All these treasures have been temporarily deposited in the Metropolitan Museum of Art; and, while their ultimate disposition, which rests with their late owner's son, J. P. Morgan, Jr., is not as yet decided, they are to be placed for an indefinite time on public exhibition, in accordance with the wishes of both father and son. For their accommodation, a large new wing is to be added to the Museum buildings, the City Board of Estimate having voted an appropriation of $750,000 to this end. Meanwhile, inasmuch as some time must elapse before the construction of the new wing can be completed, Dr. Edward Robinson, Director of the Museum, has made arrangements for the immediate temporary instalment of the whole Morgan collection, so that it may be accessible to the public early in the present year (1914). For this extraordinary exhibition, embracing a total of 4,100 objects, practically the entire upper floor of the recent addition to the Museum buildings at the northeast corner will be set aside. The objects to be shown may be divided into the following main groups: Enamels, including the snuff boxes and other small enamelled objets d'art of the 18th century; classical bronzes and jewelry, bronzes of the Gothic and Renaissance periods; silver, metal work, watches and clocks; jewels, crystals and objects in amber; Italian majolica, early French faïence, French and German porcelains, Chinese porcelains, Venetian glass; tapestries, furniture, ivories, small carvings in boxwood and hone-stone; sculptures, miniatures and paintings. A group of the principal paintings, including the famous Raphael "Madonna of St. Anthony of Padua," have already been on view for nearly a year past, in the Gallery of Special Exhibitions. These will be transferred to the galleries containing the rest of the Morgan collection; and in addition to them the fourteen decorative pieces painted by Fragonard for Mme. Du Barry, the royal favorite of Louis XV., will be shown.

Apropos of former United States Senator W. A. Clark's recent declaration that his celebrated collection of paintings—which he intends shall be held intact for all time and never dispersed—is increasing in commercial value every year, and is worth to-day a great deal more than he paid for it, the query has been proposed by William B. McCormick: Will the Million Dollar Picture Arrive? According to the principal New York art dealers, it is not only a probability, but a practical certainty, of the near future. There are, of course, a number of world masterpieces—such as Raphael's "Sistine Madonna," Titian's "Assumption of the Virgin," Rembrandt's "Syndics," or Botticelli's "Spring," which any one of a dozen American collectors would eagerly take at the $1,000,000 figure, if they were on the market. They are not, and probably never will be. But the still unexplored resources of private collections in Europe are boundless, and so are the wealth and enthusiasm of the 20th century American collector. Already we have in this country at least six pictures, not top-notchers in their respective lines, that were acquired by their present owners at half a million dollars, if not more, apiece. These include the Morgan Raphael, mentioned above; Mr. Widener's Rembrandt ("The Mill"); Mr. Kahn's Frans Hals group, and the three Velasquez portraits acquired respectively by Mr. Frick, Mr. Huntington and the late Benjamin Altman.

"The great American fortunes," writes Jules Claretie, of Paris, "have profoundly modified all conditions. * * * In a short time, when we want to see the most celebrated pictures of our own school, we shall have to take a liner and cross the Atlantic."

## BY MAZIE E. CLEMENS.

### AMERICAN NATIONAL OPERA HOUSE.

LOVERS of opera in New York will have an opportunity to indulge in it to their heart's content this season. With the Metropolitan Opera House giving twenty-three weeks of opera and the Century providing a thirty-two-week programme, there will be added a season at the new American National Opera House, under the direction of Oscar Hammerstein.

The opera situation received a new twist when Oscar Hammerstein announced his re-entry into the operatic field in New York. His first intention was to give a season of grand opera in French and Italian. He later decided to postpone the project until the following Autumn and to devote this season to the production of standard works, in addition to several new operas, in English at popular prices.

Particular interest will be taken in Mr. Hammerstein's venture because of his highly artistic though not financial success in the domain of opera several seasons ago at the Manhattan Opera House. At that time he furnished several novelties, such as "Elektra," "Sapho," "Griseildis" and "Herodiade," and introduced artists of genuine merit. His latest venture, therefore, will be closely watched.

Early in June work was begun on the erection of his new edifice, the American National Opera House, located at Fifty-first Street and Lexington Avenue, which will open about January 15. It was erected under the supervision of Harry Hammerstein and has a seating capacity of 2,900 and standing room for 700 the latter number being permissible because of the three large foyers 50 by 100 feet. The stage is 60 feet deep by 90 feet wide, with a curtain opening of 46 feet. In addition to a 50 by 100 feet promenade over the balcony, which is floored with maple so as to provide for dancing during intermission, there is one balcony and one gallery. Fifty boxes are arrayed equally on each side of the stage.

Director Hammerstein declared that he would dedicate the new house with a performance of "Romeo and Juliet," with Orville Harrold, tenor, and Frances Selmon, soprano; both Americans.

Mr. Hammerstein will especially give French works. Several translations of each opera will be submitted from which he will select the one best suited to the music.

### METROPOLITAN OPERA HOUSE.

The twenty-three weeks' season of 1913-14 at the Metropolitan Opera House began on November 17 under the management of Gatti-Casazza, the Italian director, who enters upon his sixth year as impresario in America. "La Gioconda," by Ponchielli (1834-1882), was selected for the inaugural occasion. This lyric drama was first sung at the Scala in Milan on April 8, 1876, and at Covent Garden, May 31, 1883, and is after Victor Hugo's "Angelo." On the present occasion it was given a brilliant performance. Caruso, as great a favorite as ever, sang the famous "Cielo e mar" with all his accustomed fervor and Emmy Destinn gloriously sang the title part. Margarete Matzenauer was an effective Laura and Maria Duchêne was admirable as La Cieca. Barnaba, the spy, was sung by Amato, who was in excellent voice. De Segurola was Alvise.

Interest centred, on November 21, in the appearance of Giovanni Martinelli, a new tenor, who is only twenty-eight years of age. He appeared unheralded during the carnival season at Milan in 1911, and later appeared as Dick Johnson in a performance of "The Girl of the Golden West" at the Costanzi, Rome. Rodolfo in "La Bohème" was the vehicle used to introduce Mr. Martinelli. Aside from the extreme nervousness that he showed in the first act, which could be readily understood on such an occasion, he displayed a pure lyric tenor voice, strong in timbre and wide in range, though lacking in warmth. Lucrezia Bori made a charming Mimi and sang splendidly. Bella Alten was Musetta; Scotti gave an admirable portrayal of Marcello; De Segurola was Colline and Didur was Schaunard.

The third opera to be given was Mozart's "Magic Flute," on November 19. Frieda Hempel was the Queen of Night and sang excellently; Emmy Destinn, as Pamina, was in glorious voice; Jacques Urlus made a good Tamino; Carl Braun's voice was heard to advantage as Sarastro; Putnam Griswold's grand bass was at its best, and Otto Goritz's characterization of Papageno was capital. Mr. Hertz conducted and deserved eloquent praise for his intelligent reading of the score. Margaret Ober made her début as Ortrud in "Lohengrin," on November 21. In addition to possessing a powerful voice of beautiful quality, she has ability to act. On the same occasion Jacques Urlus was Lohengrin and Mme. Fremstad was Elsa. The new tenor, Giovanni Martinelli, was heard in "La Bohème," on November 20. Verdi's "A Masked Ball," was revived on November 23. Caruso, as Riccardo, the Governor, displayed all the beauties of his voice; Amato was Renato, Emmy Destinn was Amelia and Margarete Matzenauer was the witch. Donizetti's "Lucia" was used, on November 26, to introduce the new tenor, Italo Cristalli. He was disappointing.

An opportunity was given, at last, for New Yorkers to hear Strauss's opera "Der Rosenkavalier" ("The Rose Cavalier"). It was first mounted in Dresden in 1911 and last year at Covent Garden. Hugo von Hofmannsthal is the librettist. The action takes place in Vienna during the reign of the Empress Marie Theresa.

The motif of the piece is a waltz. In fact, each character is shown by its own motif. But it is the "Baron Ochs Waltz" which prevails, and the second act closes with a Viennese waltz. The orchestra for this opera is not as large as that for "Salome" or "Elektra." Frieda Hempel was a beautiful Princess, Anna Case sang Sophie, Otto Goritz was Baron Ochs and Margarete Ober was the ardent lover, Octavian.

The new singers engaged at the Metropolitan are Sophie Breslau, Lillian Eubank, Margarete Ober, Rudolf Berger, Giovanni Martinelli, Luigi Marini, Carl Schlegel and Robert Leonhardt. Miss Eva Swan is premiere danseuse and Mr. Lionel Mapleson is librarian.

The following is a review of the season 1912-13 continued from the 1913 ALMANAC:

There were 161 performances of 36 works. Besides, Delibes's ballet "Coppelia" was given twice. Wagner led in the number of his operas and their performances—35 presentations of nine operas and music dramas. Puccini came second, with 28 performances of 5 works. Verdi came next, with 16 presentations of 5 operas. The company also gave 14 performances in Brooklyn, 2 in Albany and 7 in Atlanta. The Philadelphia-Chicago Company gave 5 presentations, including "Hamlet," "Thais," "Louise," "Conchita" and "Le Ranz des Vaches." The last two named made very little impression in this city.

The lack of coloratura soprano singers in late years was mostly responsible for the neglecting of several works, such as "Il Barbiere di Siviglia." Rossini's masterpiece, however, found a place in the répertoire on January 1, with Frieda Hempel as Rosina. She has a voice of great flexibility, though lacking in warmth and tone shading. A new tenor, Umberto Macnez, made his first New York appearance, and Pasquale Amato made his initial appearance as Figaro.

At the matinée, on January 4, Mary Garden appeared as Carmen and delighted a large audience. The performance also brought out Leon Campagnola, of the Paris Opéra, as Don José. He disclosed a sympathetic, well trained, if light, voice.

A young Italian composer, Riccardo Zandonai, wrote the music of the distinct novelty, "Conchita," which the Chicago-Philadelphia Company gave on February 11. It was first heard in Milan in 1911 and in London the following year. The libretto was adapted from Pierre Louy's "La Femme

et le Pantin" ("The Woman and the Puppet"), by Carlo Zangarini and Maurice Vaucaire. The music contains very little melody and is too often shrill and lacking in richness and continuity. It tells the story of a young woman who spent much of her time singing and dancing, like Carmen, in a cigar factory of Seville. To escape the unwelcome attentions of a lover, Mateo, she goes to Cadiz and sings for the frequenters of a café. Mateo finds her and begs her to leave the undesirable surroundings for a home with him. But she scoffs and torments him until, enraged and in desperation, he beats her. This brutality convinces her of the sincerity of his affections and she yields to his wooing. An entirely new singer was heard, Tarquina Tarquini, in the title rôle. She possesses a resonant and pure voice, besides ability to act. She enacted the part of the wayward heroine at the first production in Milan and subsequently in London, Chicago and Philadelphia. Charles Dalmores, in the part of Mateo, had an opportunity to display his excellent voice, while Ruby Heyl, as Ruffino, and Edna Darch, as Dolores, had rôles in which they displayed effective singing. Mr. Campanini conducted in his usual masterly manner.

The week beginning February 23 saw two new productions, Wilhelm Kienzl's "Der Kuhreigen," given in a French translation with a French title, "Le Ranz des Vaches," and Walter Damrosch's "Cyrano." The former was heard in Vienna in 1911. The libretto was made by Dr. Richard Batka, of Prague, from "Vom Sterbenden Rokoko," a story of the French Revolution. Throughout the work there are several charming and tuneful passages. Charles Dalmores gave a very satisfying representation of Thalier; Helen Stanley, as the Marchioness, showed her pure soprano voice to advantage, and Hector Dufranne was an admirable revolutionary leader.

A third attempt was made by the Metropolitan Opera Company to encourage American art by the selection of an American opera by a native American composer, when "Cyrano" was brought out on February 27. In 1908 Converse's "The Pipe of Desire" had a hearing and in 1912 Prof. Parker's prize-winning "Mona" was produced. Of course, Victor Herbert's "Natoma," given by the Chicago-Philadelphia company, should be mentioned.

"Cyrano" is founded on the play that Richard Mansfield acted in this country some years ago, and which was from the pen of Edmond Rostand. The story concerns Cyrano de Bergerac, poet and gallant, who is adorned with an enormous nose. He fears that this disfigurement will impede the winning of his cousin Roxane, with whom he is in love. He fights De Guiche, an unwelcome admirer, and is about to tell her of his love, when she confides in him that it is Christian, one of his Gascony cadets, that she loves. Cyrano helps Christian win her. After they are married and Christian and Cyrano are off at the war, the latter writes the husband's love letters for him. Finally Christian discovers that Cyrano loved Roxane and he lets himself be killed in battle. But Cyrano is mortally wounded and dies a few hours after the battle.

The new Dutch tenor, Jacques Urlus, was heard in the rôle of Tannhäuser on March 8. It could not be taken as his best representation, for he sang to better advantage later in the rôles of Tristan and Siegmund. He fell short, however, of the standard set by the giant tenor, Leo Slezak, in the same parts last season.

A typically Russian work was revealed on March 19, when Moussorgsky's (1835-1881) "Boris Godunoff" was performed for the first time in America. It was the second Russian piece to be given at the Metropolitan, Tschaikowsky's "Pique Dame" being the first. "Boris" was first heard at the Marginsky Theatre, St. Petersburg, January 24, 1874; in Moscow in 1889, and in Paris in 1908. The libretto is taken from Pushkin's historical drama of the same name, and deals with one of the most sensational times in Russian history. The period is 1600 A. D. The scenes are laid in the Kremlin and the borders of Poland. Boris Godunoff, a Tartar prince, was Regent of Russia during the life of Ivan's heir, Feodor, a man of weak intellect, at whose death the crown passed to Dimitri, a younger brother. The Regent has Dimitri murdered and usurps the throne. Remorse finally drives him to a convent in Moscow, where the populace, headed by Prince Schouisky, gathered and begs him to assume the sceptre of Russia. A young monk, Gregory, learning that Boris murdered Dimitri and that the latter was about his own age, escapes from the convent and poses as Dimitri, who he claimed was rescued and brought up in the convent. Vengeance overtakes Boris when he is pursued by the spectre of the murdered boy, and declaring his son Theodoro to be his rightful successor, he dies.

The music of this work is original and expressive. There are no important soprano, tenor or contralto parts. Of the solo singing, the bass has the most music work to do; but it is really the chorus that is of prime importance. Adamo Didur gave a remarkably fine impersonation of Boris. Paul Althouse, a new American tenor, made his first appearance and disclosed a voice of excellent quality. Others in the cast were Andrea Segurola as the monk Varlaam; Louise Homer as Marina; Anna Case as the young Czarevitch, Theodoro; Leon Rothier as Pimenn and Albert Reiss as the simpleton. Mr. Toscanini conducted.

## METROPOLITAN OPERA HOUSE—SEASON 1912-13.

| Opera. | First Performance. | No. of Times. | Opera. | First Performance. | No. of Times. |
|---|---|---|---|---|---|
| "Manon Lescaut" | Nov. 11 | 5 | "Orfeo ed Euridice" | Dec. 19 | 2 |

| "Il Segreto di Susanna" | Dec. 13 | 4 | | | |
| "Die Walküre" | Dec. 14 | 6 | Total | | 161 |

## CENTURY OPERA HOUSE.

Through the aid of the City Club and several prominent New York men, the New Century Opera Company made its bow on September 15, at the Century Opera House. Milton and Sargent Aborn, who have been in the theatrical business for twenty-seven years, were chosen as the directors. In 1903 the brothers entered into partnership for the giving of opera. In late years they have had opera companies in Brooklyn, Boston, Providence, Philadelphia, Newark, Washington, Chicago,

Baltimore and Pittsburgh. Early in June Milton Aborn left for Europe to close singers' contracts. He secured Kathleen Howard, who sang for some time at the Grand Ducal Opera in Darmstadt, and during the past Summer at Covent Garden. Others signed were four American sopranos, Elizabeth Amsden, Lois Ewell, Florence Coughlan and Evelyn Scotney. Miss Amsden and Lois Ewell sang at the Boston Opera House. Ivy Scott, an Australian, has sung for the Aborns successfully in their other ventures. The tenors secured include John Bardsley, from Thomas Beecham's London company; Gustav Bergman, a Swede, who sang at the Royal Opera in Berlin; Morgan Kingston, discovered by Andreas Dippel in the mines of Wales, and Walter Wheatley, an American, who has won favor at Covent Garden. Besides Kathleen Howard, the contraltos are Jayne Herbert and Mary Jordan. The four baritones are Morton Adkins, another Aborn graduate; Thomas Chalmers, Louis Kreidler, who sang at the Metropolitan last year, and Hugh Schussler. The two bassos are Alfred Kaufman and George Shields. Three-quarters of the artists are natives of this country. Several were born right in the city of New York Among the latter are Katherine Jessup, who sang the part of the peasant woman in "The Jewels of the Madonna." She has a repertoire of forty operas, thirty-five of which will be sung at the Century during the season; Florence Lane; Othella Hoffman, who has a dramatic soprano voice; Lola Demorville, who acquired all her musical knowledge in her native city, and Miss Beck. Williamsport, Pa , furnished the operatic world with Amanda Brown, while Florence Hyman comes from the Lone Star State, and Helena Alberts from Delaware Water Gap, Pa Virginia Picard was born in Philadelphia, Pa., and Aurelia Hulsman in Cincinnati, Ohio. Rhea Correill, who sings in "The Jewels of the Madonna," is a New England girl, having been born in New Haven, Ct. Miss Phoebe Crosby came from Maine. Miss Nielsen first saw the light of day in Santa Barbara, Cal , just nineteen years ago, and started her musical education in Los Angeles. Two artists hail from cities on the outskirts of New York—Miss Snyder from Whitestone, L. I , and Adrienne Michel from Mount Vernon, N.Y. Lena Mason, the coloratura soprano, who made such a distinct impression at the Century Opera House as the doll in "The Tales of Hoffmann," was born in Keightly, Yorkshire, England, but was raised in America from infancy, and Cordelia Latham, the contralto, spent most of her life in Minneapolis, Minn.

The Aborns, right in the beginning, announced their intention of avoiding the "star" system and of securing "young and virile singers whose reputations lay ahead rather than behind them." The original plan was to give each opera in English for eight successive performances, beginning on Tuesday, while on the following Monday the opera would be given in the language in which it was written—French, German or Italian, as the case may be—but after several performances this policy was changed. The question was whether there were enough New Yorkers who desired popular priced opera and would support it, to warrant the undertaking. Therefore, aside from the artistic merit of the venture, interest was centred in the reception that would be given to the first performance. The management chose Verdi's "Aida" with which to launch the season. It proved to be an occasion of much congratulation and encouragement to the managers, for in numbers and in appreciation the audience surpassed all expectations. Succeeding performances were largely attended, and in addition to a large subscription list, the advance sale of tickets was large. The faults of the productions, however, are lack of good translations and an efficient orchestra.

In the cast of "Aida" was Elizabeth Amsden, as Aida. She disclosed a beautiful and expressive voice. Miss Kathleen Howard, who sang successfully in several German opera houses, was Amneris. Morgan Kingston was Rhadames. His voice was pure and flexible and his singing of "Celeste Aida" was especially well rendered He, however, was not familiar with the technique of acting; this caused him to be stiff and ungraceful in action. With hard training in this direction, coupled with his splendid voice, he doubtless will become one of the greatest tenors of his time. Louis Kreidler made an excellent Amonasro, while the King of George Shields and the Ramfis of Alfred Kaufman were entirely satisfactory. Alfred Szendrei conducted. At the second performance new singers appeared. Aida was sung by Lois Ewell, a soprano of excellent voice and diction; Mary Jordan made a handsome Amneris and displayed her rich contralto voice to advantage; Gustav Bergman was Rhadames. He sang less impressively than Kingston, but he acted with more finish.

The second of the season's thirty-five weeks began with Ponchielli's "La Gioconda," with Lois Ewell in the title part; Kathleen Howard as La Cieca, her blind mother; Alfred Kaufman as Alvise, the head of the Inquisition; Mary Jordan, as Laura, his wife; Gustav Bergman as Enzo and Louis Kreidler as Barnaba. On alternate nights Miss Amsden was La Gioconda, Mr. Wheatley Enzo. Artistically this production fell short of the previous week. However, Louis Kreidler deserved praise for his excellent singing of the part of Barnaba; Mary Jordan displayed an agreeable mezzo-soprano voice.

To follow up their success in "Aida" and "La Gioconda," the management chose Offenbach's charming opera, "The Tales of Hoffmann" (literary translation by Charles Henry Meltzer), for their third presentation, on September 30. It served to introduce the new singers, Ivy Scott, an Australian soprano, who sang Giulietta in the second act and Antonia in the last act with charm and effectiveness, Lena Mason, an American coloratura soprano, as Olympia, the doll; Jayne Herbert, a contralto, John Bardsley, who as Hoffmann displayed his sonorous voice, a fine enunciation and dramatic ability. Carlo Nicosia conducted.

On October 1, Walter Wheatley assumed the part of the poet-lover, Kathleen Howard was Nicklausse, his friend; Louis Kreidler took the triple rôle, Coppelius, Dappertutto and Dr. Miracle.

The first attempt at German opera was made when Wagner's "Lohengrin" made its appearance on October 7. Up to this time the work of the company was praiseworthy. But on this occasion the Century Company attempted too great a task for them. While it is true that some of the singing was creditable, yet there were unmistakably amateurish and unrehearsed signs about it. Most of the fault was with the chorus, in which many notes went flat. Mr. Kingston as Lohengrin and Lois Ewell as Elsa were the only redeeming features of the performance. The former sang the Narrative in the last act beautifully and his enunciation was pure, but his lack of ability to act showed more in the Wagner drama than in previous rôles. Lois Ewell used her clear voice to advantage, but did not seem to grasp the character's import. Jayne Herbert and Morton Adkins were Ortrud and Telramund respectively, while Alfred Kaufman was the King and William Schuster was the Herald. The cast was changed on October 8. Ivy Scott, Kathleen Howard and the Messrs. Wheatley and Kreidler took the leading parts.

The first week's receipts were over twenty thousand dollars and the third week's attendance twenty thousand one hundred and fifteen people.

Practically the first novelty of the season occurred on October 14, when the Messrs. Aborn gave Wolf-Ferrari's "Jewels of the Madonna," sung for the first time in English. It eclipsed anything they had before attempted. To begin with, it showed marked contrast, in its careful preparation, to the hastily rehearsed "Lohengrin." The several scenes were well mounted and the artists well chosen. Gustav Bergman made a fine looking Gennaro, the blacksmith, his singing and phrasing being exceptionally well done Elizabeth Amsden sang to advantage as Maliella; Louis Kreidler was an excellent Rafaele, the Camorrist; Kathleen Howard did her part well and Francesco Daddi was admirable as Biaso

On October 15 four principal parts were taken by new singers. Lois Ewell, in her singing of the "Canzone di Cannetella" as Maliella, exhibited the strength and brilliancy of voice needed to inter-

pret the character and she easily mastered the many difficulties of her music. John Bardsley as Gennaro, in the final appeal to the Madonna, was impassioned and convincing. Kathleen Howard was most satisfactory as Carmela, and Francesco Daddi made an admirable Biaso. Thus closed the fifth week with a record of over 100,000 tickets sold and the merit of the Aborn singers firmly established.

One of the most popular operas in America, "Madama Butterfly," by Puccini, ushered in the sixth week of popular opera. Based on John Luther Long's short story, it was heard at the Scala, in Milan, in 1904, but unappreciated. Again it was given at Brescia and won instant success. Later Covent Garden put it in its répertoire and Paris soon followed suit. Colonel Savage, in 1906, brought the work to New York, after it was sung in Washington, and it gained wide popularity. The Aborns' presentation, on October 21, was a creditable one. Thomas Chalmers, an American baritone, deserved much praise for his excellent portrayal, both vocally and dramatically, of Sharpless. A better Cio-Cio-San than that of Ivy Scott would be difficult to find. Her artistic acting, coupled with an effective soprano voice, made the performance a delight. Kathleen Howard, as Suzuke, sang and acted with discretion. Florence Coughlan was Kate Pinkerton and Gustav Bergman made a very capable Lieutenant Pinkerton.

Another Puccini week commenced October 28, when "Tosca" was mounted with Elizabeth Amsden in the title part, Morgan Kingston as Mario, Thomas Chalmers as Scarpia, Alfred Kaufman as Angelotti, Benedict Reuben as the Sacristan, Vernon Dalhart as Spoletta and Florence Coughlan as the shepherd boy. This performance was better than that of "Lohengrin," but still it did not come up to the standard set by "Aida" or "The Jewels of the Madonna."

"Lucia" was given on November 4, with Edith Helena as Lucia, Walter Wheatley as Edgardo, Louis Kreidler as Ashton. On November 11, Saint-Saens's Biblical opera, "Samson and Delilah," was presented with Kathleen Howard as Delilah, Morgan Kingston as Samson and Louis Kreidler as the High Priest, Alfred Szendrei conducted. On November 18, "Il Trovatore" was the attraction. "Thais" was selected for the eleventh week of opera. "Faust" was sung in English for the first time on December 2.

One of the youngest male ballet dancers in America is Edmund Makalif. Mr. Makalif made his premiere in "The Jewels of the Madonna," dancing with Albertina Rasch, in the wonderful third act, known as the Den of the Camorrists.

Mr. Makalif was born in New York sixteen years ago. He has received all his training under Luigi Albertieri, who is the stage director of the Century Opera Company.

The Messrs. Aborn engaged Herbert Waterous, of Michigan, the basso, to alternate with Mr. Kaufman as Mephistopheles in "Faust." Mr. Waterous sang the opening performance of the opera in English on December 2. The singers were all in good voice and the work well mounted. "Madama Butterfly" proved so popular that it was given for a second week on December 9.

The directors of the Century Opera Company are Otto H. Kahn, Edward Kellogg Baird, Edmund L. Baylies, William C. Cornwell, Andreas Dippel, Edward R. Finch, Alvin W. Krech, Thomas W. Lamont, Philip M. Lydig, Clarence H. Mackay, George McAneny, Frank A. Vanderlip, Paul M. Warburg, Harry Payne Whitney and Henry R. Winthrop. The general representatives are Rufus H. Dewey and Arthur Ryan.

**Chicago**—The Chicago season showed a substantial profit over the preceding year. During the ten weeks of opera eighty-two presentations were made.

Frederic d'Erlanger's "Noël" was produced for the first time in the United States on January 8. It is a lyric drama, the scenes of which are laid in a small French manufacturing town, Cholet. On Christmas Eve a despairing mother is about to throw herself into the river, when she remembers that her child is unprovided for. She changes her mind and makes her way into a church. Here she hides in the shadow of a pillar until the congregation gathers around the altar. Approaching a small chapel of the Virgin, she places her child in a cradle from which she takes the figure of the Christ child. The sacristan, finding the babe, thinks a miracle has been wrought. But the curé discovers the truth, and, learning that the woman was in poverty, he makes his way to the bedside of the dying mother. Here he assures her that the child shall be taken care of.

**Boston**—The fourth season at the Boston Opera House ended March 29. Twenty-eight works were heard 102 times. Among them were "Don Giovanni" (3), Bizet's "Djamileh" (1), Aubert's "La Forêt Bleue" (3), the last two being heard for the first time in America.

"Djamileh," after the poem "L'Esclave Amoureuse," by Alfred de Musset, was given on April 24. It concerned an Oriental youth, Haroun, who chooses a different slave girl each day for his amusement. Finally one really loves him and by clever means arouses in him a reciprocal affection. Lucille Weingartner was Djamileh, Ernesto Giaccone was Splendiano, and Edgar Bourquin was the Slave Merchant. "La Forêt Bleue," by Aubert (1877), is after the fairy tales of Perrault, by Jacques Chenevière. It was excellently rendered by Fernand de Potter as Prince Charming, Jean Riddez as the Ogre, Jeska Swartz as Hop o' My Thumb, Bernice Fisher as Little Red Riding Hood, Carmen Melis as the Princess, Elizabeth Amsden as the Fairy. Both new works were conducted by Mr. Caplet. "The Secret of Suzanne" was heard for the first time in Boston on March 17.

The fifth year of opera here opened on November 24, with "The Jewels of the Madonna." Ferrari Fontana was Gennaro, Louise Edvina was Maliella and Mario Ancona was Rafaele.

"Monna Vanna," a musical drama by Fevrier, from the play by Maeterlinck, was given for the first time in America at the Opera House on December 5. Mary Garden appeared as Monna Vanna, Vanni Marcoux was Guido, and Lucien Muratore was Prinzivalle.

**Philadelphia**—The Philadelphia-Chicago Opera Company appeared during 1913 at the Metropolitan in several favorite works as well as novelties. Among the latter were Goldmark's "The Cricket on the Hearth," d'Erlanger's "Noël," Kienzl's "Le Ranz des Vaches" and Zandonai's "Conchita." The last named work won approval from the audience and Kienzl's opera was equally well received.

The season of 1913-14 opened on November 3, with Puccini's "Tosca." Giovanni Martinelli made his bow for the first time in the Quaker City and his success as Cavaradossi was established. Mary Garden was Tosca and Vanni Marcoux was Scarpia.

Under the direction of Cleofonte Campanini, Massenet's "Don Quichotte" had its American premiere at the Metropolitan on the afternoon of November 15. The performance was artistically given and the singers all in good voice. Vanni Marcoux had the title rôle, Hector Dufranne was Sancho Panza and Mary Garden was Dulcinea. This same company gave the first American presentation of "Cristoforo Colombo," a lyric drama, by Franchetti. As Columbus, Titta Ruffo had an opportunity to display his grand voice and excellent acting. Rosa Raisa, a clear, sweet soprano, was Queen Isabella. The libretto, by Luigi Illica, was taken from the life of the discoverer Christopher Columbus. The first scene takes place in St. Stephen's Convent, Salamanca, where Columbus tells the Queen of his prospects of discovery. The second is on the ship Santa Maria, from which there is the first glimpse of America, and the third at the tomb of Isabella, where Columbus dies.

**New Orleans**—The season of opera commenced on November 11, with "Aida," M. Affre was Rhadames, Mme. Delcia was Amneris, Mlle. Brias was Aida. Two nights later "La Bohême" was the bill.

**Kansas City**—Carolina White of the Chicago Grand Opera Company was heard as Maliella in "The Jewels of the Madonna," Mary Garden in "Thais," and Tetrazzini in "Lucia."

**St. Louis**—"The Jewels of the Madonna" and "Le Jongleur de Notre Dame" were two novelties heard in this city. Other operas given were "Lucia" and "Die Walküre."

**Cincinnati**—Tetrazzini was Gilda in "Rigoletto," Carolina White was Mallella in "The Jewels of the Madonna" and Mary Garden was Jean in "Le Jongleur de Notre Dame."

**Montreal**—The National Opera Company of Canada, directed by Max Rabinoff, offered "La Gioconda," with Marie Rappold in the title rôle, on November 17. During the first week "Thais" and "Madama Butterfly" were rendered.

**Baltimore**—The Chicago Grand Opera Company began a series of performances at the Lyric on November 7, with Titta Ruffo in "Rigoletto." Rosa Raisa, the Polish soprano, made her first American appearance here, as Mimi in "La Bohême," and Giovanni Martinelli was heard for the first time in Baltimore on November 14.

**Milwaukee**—Mary Garden appeared in "Le Jongleur de Notre Dame" at the Alhambra Theatre. Sammarco had the rôle of Count Gil in "The Secret of Suzanne," and Tetrazzini appeared in "Lucia."

**Denver**—During three days of opera, there were heard "The Jewels of the Madonna," with Carolina White; "Thais," with Mary Garden; "Hänsel und Gretel" and "Lucia," with Tetrazzini, Giorgini and Polese.

**Dallas, Texas**—In this city in March performances were given of "Hänsel und Gretel," "Pagliacci," "Thais," with Mary Garden; "Die Walküre" and "Lucia," with Tetrazzini.

**Los Angeles**—The Chicago Opera Company gave a week of opera in March. During that time Mary Garden appeared at the Auditorium in "Thais." The other works heard were "Die Walküre" and "Tristan und Isolde."

**San Francisco**—On March 13 the Tivoli Opera House was dedicated with the Chicago Opera Company in "Rigoletto." The cast included Tetrazzini, Sammarco, Giorgini and Huberdeau. Other works given during the company's stay at the house were "Louise," with Mary Garden, Dalmores, Dufranne and Louise Berat; "Lucia," with Tetrazzini, Giorgini, Polese, Minnie Egener, Scotti and Venturini; "Carmen," with Mary Garden; "Noël," with Saltzman-Stevens as Madeline; "Pagliacci," with Helen Stanley and Polese; "Crispino e la Comare," "Le Jongleur de Notre Dame," "Tristan und Isolde," "Thais," "Natoma," "The Secret of Suzanne" and "La Traviata." The premiere American production of "Zingari," Leoncavallo's new work, took place on October 30, with the composer present. Carmen Melis was Feala, the faithless wife; Montesanto was Tamar, the gypsy minstrel, and Chiodo was Radu, the husband. On November 4, "Rigoletto" was the opera chosen, with Luca Botta, the much-talked-of tenor; Modesti, as Rigoletto and Suonis as Gilda.

**Paris**—The new Théâtre des Champs Elysées was dedicated on March 31 with Hector Berlioz's "Benvenuto Cellini," with Felix Weingartner conducting. "Boris Godunoff" was sung in May, and the entire cast was from the Imperial Opera House in Moscow. Chaliapine, a beautiful bass, was Boris; M. Damaew, was Gregory, the false Dimitri; Mlle. Nicolaewa was Marina; Paul Andrew was Pimenn; M. Dawidowa was the Czarevitch. This was followed later by the same author's "Khovanchina." In May, Gabriel Fauré's "Penelope" was another novelty chosen. Lucienne Breval was Penelope, M. Muratore was Ulysses, Cécile Thevenet was the Nurse and M. Blancard was the Shepherd. "Les Trois Masques," by Isidore de Lara, libretto by Charles Mere, was given a hearing on October 23. Rose Feart was Viola. The Théâtre des Champs Elysées was artistically but not financially a success. Owing to the l tter, the house decided to discontinue opera with a final performance on November 6 of "Boris Godunoff."

At the Opéra Comique two new works were given in April—a lyric tale, "There Was a Shepherdess," and "The Old Home," the former by Marcel Lattes and the latter by Guy Rapartz. This house closed its season on June 30 with Charpentier's "Julien," which caused much comment at its initial production.

May Peterson, a young American, won success on October 22 in "Lakmé," at the Théâtre de la Gaité Lyrique, and Mignon Nevada, another American, made her bow as a prima donna in "The Barber of Seville."

**London**—The Royal Opera season commenced on April 21 at Covent Garden with "Tannhäuser." The first novelty was given in the same month, and brought out a young composer, Hermann Wolfgang von Waltershausen (1882), whose "Oberst Chabert" was well received. It was based on Balzac's "La Comtesse a deux Maris." There was also a revival of "Der Fliegende Holländer." Other works presented were "Tosca," "La Bohême," "Aida," "Madama Butterfly," "The Jewels of the Madonna," "Samson et Dalila," "Louise," "I Pagliacci," "Il Trovatore," "Rigoletto," "Faust," "Romeo et Juliette," and the novelty "Du Barry," by Camussi, which was first heard on July 2, with Louise Edvina, Frances Roeder, Ruby Heyl, Martinelli, Sammarco and Crabbe. Panizza conducted. John McCormack assumed the title rôle in "Faust" for the first time in London on July 2.

Frances B. Roeder, of New York, and a great-niece of Robert Schumann, made her début on the operatic stage at Covent Garden, on May 23, as Conchita in "The Jewels of the Madonna." Besides possessing a remarkably sweet and flexible voice of wide register, she is an able actress.

On October 31 Covent Garden gave opera in English. Raymond Roze's "Joan of Arc" was the attraction. It received a cordial reception.

The first presentation in England of Wolf-Ferrari's "La Vita Nuova" was given at Queen's Hall on April 10, by the London Choral Society.

Richard Strauss's latest work, "Ariadne auf Naxos," was given at His Majesty's Theatre on May 27, but was not a success.

At the Drury Lane Theatre "Boris Godunoff" was introduced by the Russian Company under the management of Joseph Beecham. Feodor Chaliapine made his London début and was warmly received. Another work by Moussorgsky, "La Khovantchina," was also given.

**Vienna**—At the Hofoper there was a revival of Mozart's "Elopement from the Seraglio" in April. On October 31, "The Girl of the Golden West" was heard.

**Milan**—There were several works heard for the first time in this city. Among them were Wolf-Ferrari's "Le Donne Curiose" at La Scala; Weber's "Oberon;" Italo Montemezzi's "The Love of Three Kings;" Puccini's "Girl of the Golden West." Verdi's "Falstaff" was brilliantly given in October, with Arturo Toscanini conducting. Scotti was Falstaff, and Lucrezia Bori was Nanetta. In the first week of November "Otello" was the attraction, with Calleja and Sammarco. "Sonnambula" was given at the Dal Verme in October, also "Isabeau," with Solari and Crimi, and "Aida" with Mazzoleni.

**Berlin**—"The Girl of the Golden West" had its German premiere in April, but was not favorably commented on by the critics. Two American singers, Putnam Griswold, basso, and Rudolf Berger, carried off the honors in the performance of the first act of "Lohengrin" which was given in honor of the King and Queen of England, the Czar of Russia, and other royalties on May 23.

A Wagner centenary was the chief musical event in May. In June, Strauss's "Rosenkavalier," with the composer directing; "Ariadne auf Naxos," "Orfeo ed Euridice" and "Fidelio" were given. Boieldieu's "Les Voitures Versées," on November 3, at the Royal Opera, was a distinct novelty.

**Rouen**—Jules Mazeiller's "Graziella," libretto by Henri Cain and Raoul Gastambide, was given at the Théâtre de Rouen.

The Théâtre des Arts was the scene of the premiere of "La Terre qui Meurt" ("The Soil that Dies"), by Marcel Bertrand, libretto by Rene Bazin.

MUSIC—*Continued.*

**Rome**—Laya Machat, a Brooklyn, N. Y., girl, made her bow as a prima donna, as Norina, in "Don Pasquale," in May, and received high praise.

The season was opened at the Nationale Theatre with "La Rigiletta della Rosa," by Leoncavallo.

At the Adriano "Aida" was heard, with Mercedes Riccardi in the title part, Marie Marek as Amneris, Antonio Saludas as Rhadames. "Norma" was another work which was given. Esmeralda Pucci took the part of Norma.

The works heard at the Costanzi in March were "Melinis" by Zandonai; "Arabesca," "Isabeau," "Alda," "La Gioconda" and "The Girl of the Golden West."

**Dresden**—A performance of "Oberst Chabert" was given at the Court Opera in April. In September "The Jewels of the Madonna" had a hearing.

**Monte Carlo**—"Yato," by Marguerite Labori was given at the Monte Carlo Opera House.

**Venice**—A young Boston, Mass., composer, Paul Allen, scored a musical success abroad when his latest opera, "Milda," was staged at the Rossini Theatre. The plot deals with the triumph of love and virtue over the arts of the magician Rospus. Signora Lydia d'Orsago had the principal part and Signor Eugenio Giraldoni was Rospus.

**Nice**—"Icare," by M. Henry Deutsch, and "La Vie Breve," by Manuel de Falla, were heard at the Casino. Miss Frances Roeder appeared at the Grand Opera House as the Doll in "The Tales of Hoffmann," the Page in "Les Huguenots," Filina in "Mignon," the Queen of the Night in "The Magic Flute," Stephano in "Romeo et Juliette," Musetta in "La Bohème," and as the Page in "Du Barry."

---

Mr John C. Freund stated at the Saratoga convention of Music Teachers, held in June, 1913, that, exclusive of musical comedies, the amount spent annually in the United States for music in all its forms was as follows: Opera—Italian, French, English, $8,000,000; concerts, $25,000,000; church music—organists, choirs and music, $20,000,000; orchestras, $25,000,000; bands—military and brass, $30,000,000; teachers, $220,000,000; students abroad, $7,500,000; conventions, including festivals, $2,500,000; music trades, pianos, $135,000,000; music rolls, $5,000,000; organs (church and reed), $10,000,000; musical merchandise of all kinds, $9,500,000; music (sheet and books), $10,500,000; talking machines and records, $60,000,000; artists for records, etc., $2,000,000; papers, musical magazines, trade papers, musical writers, etc., $3,500,000. Total, $593,000,000.

---

# The Drama.

THE theatrical season of 1913 was not remarkable for its long runs. The genuine successes were few. Quantity and not quality was supplied. This was due, doubtless, to the result of a demand for a large supply of plays to meet the requirements of an overcrowded list of theatres.

The fact that playhouses are continuing to be erected, in the face of previous experience, does not augur good for the fate of the present season.

Among the foreign visitors to this country were Mme. Sarah Bernhardt, who began a vaudeville engagement at the Palace on the afternoon of May 6. Her first appearance was in a one-act play, written by her son, Maurice Bernhardt, in conjunction with Henri Cain. It was entitled "A Christmas Night Under the Terror." Mme. Bernhardt took the part of a former circus girl, who, becoming a vivandiere in the revolutionary army, saves the lives of Comte and Comtesse de Kersant and their child. She was also seen in the fourth act of "Lucrezia Borgia," the fifth act of "Camille," the third act of "Theodore," and in the second act of Racine's "Phedre." While in America she gave 359 performances.

Another distinguished visitor to our shores was the English actor Forbes-Robertson and his wife, Gertrude Elliott. They opened the new Shubert Theatre—erected as a memorial to Sam Shubert by his brothers—on October 2. It is the farewell American tour of these two artists, and they began it with a performance of "Hamlet." Mr. Robertson's Hamlet has been accepted as his greatest achievement During their stay they also appeared in a revival of "Mice and Men," on October 3, and in "The Light That Failed," a play in a monologue and three acts, by George Fleming from Rudyard Kipling's novel. Mr. Robertson's Dick Heldar was a rich and appealing characterization. They chose George Bernard Shaw's "Cæsar and Cleopatra" for the attraction on October 20, and a revival of "The Passing of the Third Floor Back," on November 3. In the latter production, Miss Elliott appeared for the first time in America as the Slavey. On the same evening the first performance of "The Sacrament of Judas" was given. Mr. Robertson played the rôle of the monk On November 21 "The Merchant of Venice" was the bill, with Forbes-Robertson interpreting the rôle of Shylock for the first time here.

Cyril Maude came to New York and received a warm welcome on November 3, when he appeared in Capt. Marshall's drama of British army life, "The Second in Command," at Wallacks. His portrayal of the blundering, good-hearted duffer, "Kit" Bingham, was rather a fine bit of acting. His daughter, Margery Maude, was in the cast. On November 10 he and his company acted "Beauty and the Barge," a farce by W. W. Jacobs and Louis N. Parker, preceded by "The Ghost of Jerry Bundler," by W. W. Jacobs and Charles Rock. He chose for his third play on November 24, "Grumpy," by Horace Hodges and T. W. Percyval.

Olga Nethersole, supported by an English company, made her appearance in vaudeville at the Palace.

The first two weeks in January ushered in several new plays, including Eugene Walter's "Fine Feathers," on January 7, at the Astor. It had a successful run. (H. H. Frazer, 79 times)

A play which was distinctly different from the usual brand was Eleanor Gates's play of fact and fancy, "The Poor Little Rich Girl," seen at the Hudson on January 21. Just at this time there were several children's plays, but none more appealing (Klaw & Erlanger, 159 times).

Shuberts had a success in "The Five Frankforters," which had a hearing at the Thirty-ninth Street on March 3. It was by Basil Hood from the original of Carl Rossler and had a notable success in Germany and in London. This delightful little comedy, dealing with the rise in power of the Rothschild family, was in the hands of a well selected cast. Too much praise cannot be given Mme. Mathilde Cottrelly, whose portrayal of the mother of the Frankfort bankers was excellent (88 times).

The Palace Theatre opened its doors on the afternoon of March 24, and was devoted to the domain of variety.

Short plays, on the order of those produced at the Grand Guignol and Theatre Antoine in Paris, opened the new Princess Theatre on March 14, under the direction of Holbrook Blinn, leading member of the company. The first of these works included "Fancy Free," a comedy by Stanley Houghton; "Fear," from the Grand Guignol; "The Switchboard," a comedy by Edgar Wallace and "Any Night," a melodrama by Edward Ellis.

Charles Frohman presented at the Empire on January 13 the three-act drama from Henry Kistemaecker's "La Flambee," under the title of "The Spy" It proved a sensation in Paris and had a successful run in London the previous year, yet it made no very marked impression in this country, owing mostly to the ineffectual cast. While Mr. Cyril Keightley played effectively at times, the rôle of the Lieutenant-Colonel husband, still the part did not seem to suit him. The same can be said

of Miss Edith Wynne Matthison, whose acting lacked the sympathy and emotion that the character of the wife called for (72 times).

William A. Brady furnished a failure when he brought out "The Painted Woman," a romantic drama by Arnold Kummer, at the Playhouse, on March 5. He likewise supplied a commendable work, "Believe Me, Xantippe," at the Thirty-ninth Street, on August 19. It was by Frederick Ballard, a new author, who besides being a Westerner himself, laid the scenes of his comedy in the West. John Barrymore was admirably suited to the part of the reckless young man, while George MacFarland, Mary Young and Theodore Roberts capitally played their rôles (54 times).

Edward Sheldon, whose "High Road" gained popularity, wrote another interesting play, "Romance," which began a prosperous run at Maxine Elliott's on February 10. William Courtenay was the clergyman and Doris Keane the opera singer (160 times).

"The Daughter of Heaven" and "The Garden of Allah" were totally eclipsed when their sponsors brought out the splendid Scriptural play, by Louis N. Parker, "Joseph and His Brethren," at the Century The author went to the Book of Genesis for his story and the result was a picturesque and highly praiseworthy work. Brandon Tynan portrayed the rôle of Joseph with pathos and dramatic fervor, while Pauline Fredericks, as Potiphar's wife, who tempted Joseph, handled her part with distinction (120 times).

Still another theatre was added to the already overcrowded list on May 1, when H. H. Frazee opened the Longacre. The initial attraction was "Are You a Crook," a farce in three acts, by William J. Hurlbut and Frances Whitehouse, with Marguerite Clark. It did not gain favor and after one week was withdrawn.

Fannie Ward came to the Garrick Theatre on September 15, in "Madam President," a French farce by Maurice Hennequin and Pierre Veber, adapted by Jose G. Levy. It concerns the adventure of Gobette, who is the leading woman in a musical comedy company in a village. She encounters the disapproval of the President of the village by giving a late supper in the hotel, and he orders the players out of the hostelry. Without a place to sleep, she goes to the house of the President. Finding that he has gone to the station to see his wife off on a trip to Paris, she makes herself at home. The President, on his return, is surprised and horrified to find her installed in his home, and the unexpected arrival of his superior, the Minister of Justice, causes complications which he finds it difficult to explain (Chas. Dillingham*).

As the author of "The Climax" and "The Case of Becky," Mr. Locke took a slip backward when he wrote "The Silver Wedding," seen at the Longacre on August 11. Even Tom Wise's capable acting could not save it (H. H. Frazee).

Mr. Owen Davis, whose name has been associated with thrilling melodramas, showed his capabilities in handling more serious subjects when he wrote "The Family Cupboard," which W. A. Brady put on at the Playhouse on August 21. It was an interesting play that had for its theme a modern New York household with the phases of city life and the domestic complexities they often bring about. The author was particularly fortunate in having the advantage of an excellent cast, consisting of Franklyn Ardell, who did justice to the rôle of the humorous Dick Le Roy; William Morris as the father, and Olive Harper Thorne as the mother, both played with rare discretion; Irene Fenwick gave a fine characterization of the adventuress and Alice Brady made a delightful and appealing daughter.*

On August 14 "The Lure," one of the first White Slave plays to reach the footlights, introduced a new playwright, George Scarborough, whose work while engaged as a federal investigator made him familiar with the various phases of the traffic in human souls. His play caused some discussion along the line of the suitability of such a subject for the stage. Police attention was called to its performance, and after several changes were made it continued its run at Maxine Elliott's. The good acting of the several parts brought out the best points in the work. George Probert gave a fine characterization of the cadet; Mary Nash played the shop girl with sufficient emotion. Others who were in the cast and performed creditably were Dorothy Dorr, Vincent Serrano, Edwin Holt and Lola May (Shubert, 136 times).

Another "uplift" melodrama along sensational lines that caused interference from official source was Bayard Veiller's "The Fight," at the Hudson, on September 2. Like "The Lure," it portrayed the seamy side of life and created curious and morbid interest. Margaret Wycherly's impersonation of Jane Thomas was forceful and effective, especially in the climaxes. Edward McVey made Jimmy Callahan, the boss, a human and wholesome character, and a word of praise is due Edward R. Mawson for his handling of the unpleasant rôle of the Senator (95 times).

George Scarborough revealed his ability as a dramatist when another of his plays "At Bay," was staged at the Thirty-ninth Street Theatre on October 7. It is a strong, gripping melodrama in four acts, dealing with secret service life and blackmail. The scenes are laid in Washington. Larry Holbrook, an Irish adventurer, tries to outwit the Secret Service men, who are trying to prove that Aline Graham, Holbrook's sweetheart, murdered the blackmailing lawyer. Just as it looks very bad for the young girl a doctor appears and tells that the lawyer died of heart disease. "At Bay" is interesting all the way through its four acts. Guy Standing as Capt. Holbrook shared the stellar honors with Chrystal Herne. The former's impersonation displayed his ability and charm, and he certainly scored a success. Chrystal Herne, as Aline Graham, did some good acting but marred her work by useless affectation. George Howell, Edwin Mordaunt and Charles Mason filled their parts admirably (Shuberts*).

Two clever and amusing farces were brought out in September. Among them were "Nearly Married" and "Seven Keys to Baldpate." The former, by Edgar Selwyn, at the Gaiety, on September 5, was about a wife who is suing her husband for divorce, although they are really still in love with each other. They meet and patch things up, when an interfering brother-in-law comes along and tells them that the divorce has been granted and that the husband is forbidden to marry again. This causes humorous situations, rapidly succeeding one another, only to end in the young couple being at last able to remarry. Bruce McRae, as the young husband, and Miss Jane Grey, as his wife, carried interest throughout by their buoyant and spontaneous humor, while John Westley, as the interfering brother of the wife, was capital (Cohan & Harris, 114 times).

George Cohan provided on September 22, at the Astor, "Seven Keys to Baldpate," dramatized from the book by Earl Derr Bigger. The scene is in the office of Baldpate Inn, a Summer hotel on the top of a mountain, in Winter. William Magee, a novelist, makes a wager that he can write a story in the vacant house in twenty-four hours. The caretaker gives him "the only key to Baldpate." The series of events that take place reveals that there are seven keys possessed by different individuals, who come to the inn and unlock the door. These include grafters, the president of a railroad, a ghost in the shape of a neighborhood hermit, a woman reporter, an adventuress, and a mayor. It all revolves about the sum of $200,000 graft money. The adventuress is shot, the reporter gets the money and starts off to expose the plot, but she loses the money and it gets into the hands of the Chief of Police, who plans to skip to Canada. At this juncture, the owner of the inn, with whom Magee wagered, comes in and declares the whole proceedings his joke on the writer. The surprise is that the events that take place are really those that the young novelist is embodying in his story, and when the curtain ascends for the epilogue he is heard writing on his typewriter, where the audience left him at the end of the prologue (Cohan & Harris*).

Interest was centred in the appearance of John Drew in a Shakespearian rôle on September 1, which was the first time since 1892. He choose "Much Ado About Nothing"

for his re-entry into the domain of classic comedy. While Charles Frohman provided a beautiful stage setting for the play, Mr. Drew's acting was disappointing. Laura Hope Crews was Beatrice.

The Princess reopened with a revised bill on October 9, consisting of "Felice," a drama by M. Hernalz Becerra; "The Bride," a comedy by William Hurlbut; "A Pair of White Gloves," a drama by Andre de Lorde and Pierre Chaine; "En Deshabille," a comedy by Edward Goodman, and "The Black Mask," a tragedy of Northern England, by F. Tennyson, Jesse and H. M. Harwood. Holbrook Blinn and Miss Polini displayed their best acting in "The Black Mask." In "The Bride" Mr. Ellis gives a good characterization of the husband. Later "A Pair of Gloves" was withdrawn and two new works, "Harl Karl," by Julian Johnson and "Russia," by Gaston Charles Richard, substituted

"The Marriage Game," by Anna Crawford Flexner, at the Comedy, on October 29, was a most enjoyable little play. Alexandra Carlisle, an English actress, showed in the rôle of Mrs. Oliver a thorough knowledge of her art, while William Sampson was an amusing henpecked husband Orrin Johnson was the good-natured bachelor; Josephine Lovett was the too solicitous wife and Vivian Martino was the bride (John Cort *).

A new Barrie play was seen on September 25 at the Lyceum, entitled "Half an Hour." It was a domestic tragedy that was rather interesting but it did not create any special enthusiasm. Preceding this short play was "The Younger Generation," an amusing little comedy by the author of "Hindle Wakes," Stanley Houghton. Grace George was an admirable Lillian Garsen, in the Barrie piece, although she has been seen before to better advantage (Chas. Frohman, 64 times).

Again Mr. Barrie showed his ability to write short plays when, on September 29, "The Will" was staged, with Mr John Drew. It was an appealing and charming piece and Mr. Drew's acting was a delight. He also appeared in the "Tyranny of Tears," a comedy by C. Haddon Chambers, which preceded "The Will" (33 times).

Another skit of Barrie's was "The Censor and the Dramatist," used as a curtain raiser to "The Doll Girl," at the Globe

On November 10, at the Hudson, a delightful and refreshing Irish comedy, "Gen. John Regan," by Canon James Owen Hannay, was seen for the first time. It created quite a stir in London last season and made no less an impression on the lovers of Irish humor in this country. Written by an Irish clergyman attached to St. Patrick's Cathedral, Dublin, under the nom de plume George H. Birmingham, it provided rich humor. The episodes of the play are connected with a practical joke. A rich American tourist, Horace P. Billing, rides into a small town called Ballymoy and finds the place so neglected that he has to personally remove obstructions from the road in order to proceed in his car. He decides to play a hoax on the simple folk by telling them he came to see the statue of Gen John Regan, the hero of Bolivia, which he heard the citizens had erected. There was no John Regan, therefore no statue. But the joker offers $500 toward a fund to build one A young, quick-witted, resourceful village doctor, O'Grady by name, scents a profit for the town, so he declares that he remembers the general, names his birthplace, and even brings forth one of his surviving relatives. He further explains that a subscription list was under way, and with the American's $500, the statue would soon be in evidence. The American, meantime, leaves the town. On his return he found the statue of Gen. John Regan, purchased from a dealer in mortuary statuary, in the square and the aide de camp to the Lord Lieutenant at the unveiling. He then told that it was a joke. But O'Grady, ready with his answer, declared that it could not be proved that Gen John Regan was born anywhere else, so it might as well be Ballymoy. The American was so pleased at finding so clever a man in the town that he donated $25,000 for improvements. W. G. Fay's characterization of the Irish editor was exceptionally good; Arnold Daly played the clever schemer, Dr. O'Grady, to advantage; Harry Harwood was the innkeeper; Miss Marie O'Neill was Mary Ellen, the little Irish girl; Frederick Burton was the practical joker, and Oliver Doud Byron was Father McCormack.*

"Potash and Perlmutter," one of the best laugh producers, was an instant hit when it appeared at the Cohan Theatre on August 17. It was by Montague Glass and Hugh Ford, after the stories of the same name by Montague Glass, and designated by them as "an up-to-date garment in three pieces." Abe Potash is a difficult part, but it was portrayed by Mr. Barney Bernard with distinction. Alexander Carr played Perlmutter, and did it excellently, too; Marguerite Anderson was Potash's daughter; Louise Dresser was a charming heroine; Joseph Kilgour and Elita Proctor Otis were admirable in their rôles; and Albert Parker ably handled the character of the Russian lover (A. H. Woods*).

Mr. Winthop Ames, on the evening of October 16, opened his new theatre, The Booth, to the public. He choose Arnold Bennet's London success, "The Great Adventure," as the attraction and gave Lyn Harding a very responsible rôle, Illam Carve, which he portrayed excellently. "The Great Adventure" was a dramatization of "Buried Alive," and was highly satirical and entertaining. It concerned a celebrated but shy painter, who permitted his valet to be buried in place of himself, took the employé's name, married the girl with whom the valet had been in correspondence through a matrimonial agency and settled down to live in a quiet suburb. Janet Beecher ably portrayed the wife, Janet Cannot (51 times). Mr. Ames commenced his third year at his Little Theatre on October 27, with a fantasy with music entitled "Prunella; or Love in a Dutch Garden," by Laurence Housman and Granville Barker, music by Joseph Moorat. Miss Clark was a dainty and alluring Prunella and Ernest Glendinning won new laurels in the rôle of Pierrat*.

Ethel Barrymore returned to the Empire after an absence of two years, in a new play, "Tante," a dramatization by Haddon Chambers of Anne Douglas Sedgwick's novel. It was an unusual play and concerned the selfishness of a well known pianist, who is possessed of the moods, affectations and hysteria commonly classified as artistic temperament. Miss Barrymore portrayed the difficult rôle of Mme. Opraska with adroitness; Charles Cherry was capital as Gregory Jardine, and William Ingersoll ably impersonated Franz Lippheim, the German violinist. Miss Van Biene as Karen hardly met the demands of the part (Chas. Frohman*).

David Belasco, who can be generally looked to for novel and artistic productions, presented the charming and beautiful fairy play for grown-ups, "A Good Little Devil," in three acts, by Rosemonde Girard (Mme. Rostand) and Maurice Rostand, adapted by Austin Strong, at the Republic on January 8 (152 times). Another of his successes was "The Temperamental Journey," at the Belasco, on September 4. It was an adaptation by Leo Ditrichstein of a French comedy produced in Paris last year under the title of "Pour Vivre Heureaux." The principal character, that of a painter whose temperamental nature leads him into several strange and amusing adventures, was played by Mr. Ditrichstein. Supporting him were Isabel Irving, Josephine Victor, Cora Witherspoon, Henry Bergman, Richie Ling, Frank Connor and Edouard Durand *. Mr. Belasco departed from his usual stripe of plays when he produced "The Man Inside," a drama of crime, by Roland Molineux, on November 11. It had for its theme a study of criminal traits, prison reform and the theory that crime is a disease and should be treated as such, the efforts of an Assistant District-Attorney to find out the cause of crime, his visit to an opium den and finally his interest in a forger's daughter. The scenes were laid in an opium joint in Chinatown, in the District-Attorney's office and in a downtown tenement house in New York. There were twenty-one rôles, only two of whom were women, Annie and Maggie, played by Helen Freeman and Clare Weldon. Mr. Cope was the derelict, "Pop" Olds; A. E. Anson was Red Mike, and Charles Dalton was an admirable Assistant District-Attorney*.

Klaw and Erlanger presented Elsie Ferguson in a comedy by William Hurlbut, at the Lyceum on November 17, entitled "A Strange Woman." It was a long time since there has been seen such humorous rural American types characterized on our stage, and the innovation was a pleasant one. The scenes of the play are laid in a small provincial town, Delphi, in Iowa The house of Hemingway has a son. While he has been abroad studying architecture he meets and becomes engaged to Inez de Pierrefond, an American, who spent most of her life in Europe. Inez is an up-to-date woman with all the modern views concerning life and particularly marriage. To the town of Delphi the young man brings Inez and introduces her. The difference between her ideas and the ideas of the townspeople provides situations the outcome of which are unexpected. Miss Ferguson had in Inez a better opportunity to display her talent than ever before, and she fully took advantage of the occasion. Her characterization displayed finesse, humor and pathos*.

The Royal Theatre was dedicated on September 8 with a performance of "The Firefly." The policy of the house is to give standard Broadway productions, each play running for one week.

At the Adolf Philipp's was given "The Midnight Girl," by Paul Herve, Jean Briquet and Adolf Philipp (100 times). On November 27 the bill was changed to the musical comedy drama "Two Lots in the Bronx," by Adolf Philipp, who also appeared as Jimmy Wilson.

George Broadhurst and Abraham Schomer wrote "To-day," a play dealing with problems of married life, which was mounted at the Forty-Eighth Street Theatre on October 6, while another "Uplift" drama, "Ourselves," was seen at the Lyric on November 10. In the former there was some fine acting by Emily Stevens as the wife and Edwin Arnold as the husband. "Ourselves," a play by Rachel Crothers, was a plea for the single standard of morality. The play was not very successful. Miss Grace Elliston was seen as Molly.

Two new plays ushered in the first week of December. Bertha Kalich gave a distinctive performance of Rachel in the play of the same name, by Carina Jordan, at the Knickerbocker on December 1. It was a romantic comedy drama dealing with the life of the famous French tragic actress, Rachel, and characterizes a number of historical persons, including Chopin, George Sand, Alfred de Musset and the Duchess d'Orleans. Louis Mann was seen in "Children of To-Day," by Clara Lipman and Samuel Shipman. The action revolves around a widow and her spoiled children, who run a household, in New York, to please themselves. A former sweetheart of the mother's arrives at the house just in time to mend matters.

Frances Starr was seen in "The Secret," at the Belasco, on December 23. It was a drama in three acts, by Henri Bernstein, the author of "The Thief," "Samson" and "The Attack." The character of Gabrielle Jannelot is one that is particularly suited to the able talents of Miss Starr. In her support are Basil Gill, Robert Warwick, Cecil Yapp, Marguerite Leslie and Beatrice Reinhardt.*

Following "Within the Law" at the Eltinge will be "The Yellow Ticket," Michael Morton's play of modern Russian life. Billie Burke will be seen in a new play called "The Land of Promise," a comedy by W. Somerset Maugham, author of "Lady Frederick" and "Mrs. Dot" Maude Adams expects to appear in the middle of January at the Empire in "The Adored One", a new play from the pen of J. M. Barrie, and another forthcoming Frohman production will be a musical comedy entitled "The Girl on the Film."

## MUSICAL PIECES.

There were numerous failures in the domain of musical comedy. Those that met with any favor were of a higher standard than those of the past few years. The revival of old favorites proved profitable and made up for the losses sustained in the disastrous productions

Noteworthy was the revival of "The Beggar Student" at the Casino, on March 22. It was first heard in America, at the same house, in 1885 (35 times). Then there were "The Geisha," by Owen Hall and Percy Greenback, with music by Sidney Jones and Lionel Moncton, which first came to light at Daly's in 1896 (61 times); "The Mikado" (16 times), "Pinafore" (8 times); "Iolanthe," by Gilbert and Sullivan (40 times); "Lieber Augustine" and De Koven's Rob Roy," In the Lyric Theatre on August 18 Philip Bartholomae brought out "When Dreams Come True," which ran for some time at Chicago, "A Musical Comedy of Youth," by Philip Bartholomae, with music by Silvio Hein.

Julia Sanderson came out as a successful star on February 3 in "The Sunshine Girl," from the London Gaiety Theatre. The book was by Paul Rubens, who also wrote the music, and Cecil Raleigh (Chas. Frohman, 184 times). "The American Maid, by John Philip Sousa, book by Leonard Liebling, was the feature, at the Broadway, on March 3, but it proved a failure (16 times). There was lovely music in "The Purple Road," by Heinrich Reinhardt, book by William Cary Duncan and extra music by Heff Peters, which had its initial production at the Liberty on April 7. It concerned the love of Napoleon for an Austrian peasant maid.

The New Era Producing Company brought out, at the Longacre, on August 28, "Adele," a farce adapted from the French of Paul Herve, by Adolf Philipp and Edward A. Paulton, with music by Jean Briquet. It was one of the most melodious and charming pieces seen in a long time. Edward Paulton and Adolf Philipp in their admirable translation, preserved all the humor and wit of the comedy. Miss Natalie Alt was a delightful singer in the principal role.* Another popular piece was "The Doll Girl," at thr Globe, on August 25. It was by Stein and Willner: music by Leo Fall (158 times). "Sweethearts" by Victor Herbert, book by Harry B. Smith and Fred De Gresac and lyrics by Robert B. Smith, had its initial performance on September 8 at the New Amersdam, with Christie McDonald (Werba & Luescher, 136 times).

At the Knickerbocker on September 22, "The Marriage Market," by Donald Brian, gained popularity because of its melody and humor (Chas. Frohman, 83 times). "The Little Café," by C. M. S. McLellan and Ivan Caryll, came to town on November 10, at the New Amsterdam. It was by no means as bright a piece as either "The Pink Lady" or "Oh! Oh! Delphine," although it contained several tuneful numbers and Hazel Dawn was delightful (Klaw & Erlanger*). H. H. Frazee produced Victor Herbert's new comic opera, "The Madcap Duchess," with Ann Swinburne in the title role. Justin H. McCarthy and David Stevens wrote the book. Mr. Herbert's score contains several charming numbers.*

Otto Hauerbach wrote the libretto and Rudolph Friml the music of the lively and entertaining comedy, "High Jinks," which Arthur Hammerstein brought out at the Lyric on December 10. Elizabeth Murray scored in the singing of several numbers, especially the one entitled "I'm Through with Roaming Romeos."

## A RECORD OF DRAMATIC EVENTS NOT INCLUDED IN ABOVE REVIEW:

Dec. 21, 1912—The Cort Theatre was opened with the first performance of "Peg o' My Heart," by J. Hartley Manners, with Laurette Taylor as a star (John Cort)*.

Dec. 21, 1912—The Children's Theatre opened with "Racketty-Packetty House," a children's play in three acts, by Mrs. Frances Hodgson Burnett, 70 times.

Jan. 4, 1913—Maxine Elliott: "Turandot," a poetic drama by Karl Volmoeller, in the English version of Jethor Bethell (Shubert).

Jan. 6—Lyceum: "Blackbirds," a comedy in three acts, by Harry James Smith, with Laura Hope Crews and H. B. Warner (Henry Miller), 16 times.

## AMERICAN SCENIC AND HISTORIC PRESERVATION SOCIETY.

The society was founded by Andrew H. Green, incorporated in 1895, and is a national society for the protection of natural scenery, the preservation of historic landmarks and the improvement of cities. *President*—George F. Kunz, Ph. D. *Secretary*—Edward Hagaman Hall, L. H. D., Tribune Building. *Treasurer*—N. Taylor Phillips.

## THE NATIONAL ASSOCIATION OF AUDUBON SOCIETIES.

The National Association of Audubon Societies for the protection of wild birds and animals is an endowed institution, incorporated under the laws of New York.

The objects of the association are to arouse to a greater degree the public conscience on the important subject of preserving the wild birds and game animals of the country and to secure protection at all times for the valuable non-game bird life.

*President*—William Dutcher. *Secretary*—T. Gilbert Pearson. *Treasurer*—Jonathan Dwight, Jr.

## AMERICAN SCHOOL PEACE LEAGUE.

Organized in 1908 to promote through the schools and the educational public of America the interests of international justice and fraternity. Membership: All teachers in the schools of the country; students in secondary schools; normal schools, and colleges; persons otherwise enlisted in the general work of education may become members, without the payment of dues, by signifying their devotion to the purpose of the league.

*President*—Randall J. Condon, Cincinnati, Ohio. *Secretary*—Mrs. Fannie Fern Andrews, 405 Marlborough Street, Boston, Mass. *Treasurer*—F. E. Spaulding, Newton, Mass.

## THE AMERICAN FEDERATION FOR SEX HYGIENE.

*President*—Dr. Chas. W. Eliot, Cambridge, Mass. *Secretary*—Donald R. Hooker, M. D., Baltimore, Md. *Treasurer*—Henry L. Higginson, Boston, Mass.

Incorporated in New York, June, 1912. The objects of the federation are to educate in the physiology and hygiene of sex and to study and apply every means, educational, sanitary, moral and legislative, for the prevention of vice and its diseases.

To bring into closer relations the societies throughout the country for sex education and like purposes and to secure co-operation among them.

Individual membership dues $2 per year. Application may be made to the Executive Committee at 105 West Fortieth Street, New York City.

## THE EUGENICS RECORD OFFICE.

The purposes of this office are to serve eugenical interests in the capacity of repository and clearing house; to build up an analytical index of the traits of American families; to study the forces controlling and the hereditary consequences of marriage matings, differential fecundity, survival and migration; to investigate the manner of inheritance of specific human traits; to advice concerning the eugenical fitness of proposed marriages; to train field workers to gather data of eugenical import; to maintain a limited field force actually engaged in gathering data for eugenics studies; to co-operate with other institutions and with persons concerned with eugenical study; to encourage new centres of eugenics research and education; to publish the results of researches and to aid in the dissemination of eugenical truths.

The Eugenics Record Office was established in October, 1910, by Mrs. E. H. Harriman, who has remained the principle patron of the work. It has also received generous support from John D. Rockefeller.

*Chairman*—Alexander Graham Bell. *Superintendent*—H. H. Laughlin. *Secretary*—Chas. B. Davenport, address, Cold Spring Harbor, Long Island, N. Y.

## ACTORS' EQUITY ASSOCIATION.

The Actors' Equity Association has for its object equitable arrangement of all business matters pertaining to those who follow the art of acting, and especially pertaining to those who are members of the association. It is a voluntary association, formed to advance, promote and foster the profession of acting and those engaged therein. To protect and secure the rights of actors. To inform them as to their legal rights and remedies. To procure appropriate legislation in matters affecting their profession. To do such things as shall appear advantageous, or refrain from doing such things as shall appear disadvantageous to the profession of acting, or to the members of this association.

*President*—Francis Wilson. *Vice-President*—Henry Miller. *Corresponding Secretary*—Bruce McRae. *Treasurer*—Richard A. Purdy; *Recording Secretary*—Howard Kyle. Headquarters, 605 Long Acre Building, New York City.

60. John Drew, actor; James Whitcomb Riley, poet; August Belmont, financier; Senator Crane, of Massachusetts; Sir Beerbohm Tree, actor; Sir J. Forbes-Robertson, actor.

---

At what age does one become "old"? Five centuries ago a man was old at fifty. But the hale and hearty gentleman of to-day who has just turned sixty would probably protest against being classed among old people, even if famous. That his susceptibilities may not be wounded, therefore, a separating dash has been discreetly introduced after age sixty-five.

# Record of Events in 1913.

**Jan. 17. The National Assembly of France chose Raymond Poincare President of the French Republic on the second ballot, he receiving 483 votes to 296 for Jules Pams, recent Minister of Agriculture, his nearest opponent. He was inaugurated Feb. 18.**

Shea, Sir Edward Dalton (93), oldest active Legislator in the British Empire, St. John's, N. F., January 10.
Sorg, Paul Arthur (34), paper manufacturer, international horseman, heart disease, New York City, May 4.
Smith, Reuben E. (83), railroad President, heart disease, Cleveland, Ohio, March 12.
Snyder, Simon (75), Brigadier-General, U. S. A. (retired), Indian fighter, pneumonia, Reading, Pa., April 14.
Sophia, Princess of Saxe-Weimar (25), suicide, Berlin, Germany, September 18.
Sprigg, Right Hon. Sir John Gordon (83), four times Premier of Cape Colony, Cape Town, South Africa, February 4.
Stauffer, David McNeely (68), civil engineer, collector of historical manuscripts, Yonkers, N. Y., February 5.
Stokes, Anson Phelps (76), banker, merchant, apoplexy, New York City, June 29.
Sullivan, Timothy D. (Big Tim), politician, Congressman from New York, killed by train, August 31.
Sutherland, Duke of, C. S. Leveson-Gower (62), Dunrobin Castle, Sutherlandshire, Eng., June 26.
Swift, Dr. Lewis (93), astronomer, paralysis, Marathon, N. Y., January 3.
Sykes, Sir Tatton (88), English landowner, London, Eng., May 4.

Takehito, Prince, of Arisugawa-no-Miya (51), Admiral, Japanese Navy, Tokio, tuberculosis, July 6.
Taylor, P. Emerson (42), American Consul at Port-of-Spain, Port-of-Spain, Trinidad, April 8.
Tellier, Charles (85), inventor of cold storage system, Paris, France, October 20.
Thompson, John Q. (52), Assistant United States Attorney-General, acute uraemia, Chicago, Ill., February 26.
Tinker, Jackson (46), journalist, appendicitis, Washington, D. C., July 16.
Tinworth, George (80), artist in terra cotta, London, Eng., September 11.
Tokugawa, Prince Keiki (76), last of the Shoguns, Tokio, Japan, November 22.
Touff, G. (74), Jewish educator, hemorrhage of the brain, Cincinnati, Ohio, October 7.

DEATH ROLL OF 1913—*Continued.*

Tuto, Cardinal Joseph Calasanctius Vives y (60), Prefect of the Congregation for Religious Affairs, appendicitis, Rome, Italy, September 7.

Uhler, Dr. Philip (78), scientist, Baltimore, Md., October 21.

Vambery, Prof. Amminius (82), traveller, Orientalist, Budapest, September 15.
Von Holleben, Theodore (75), German diplomatist, Berlin, Prussia, February 1.
White, Stephen Van Culen, "Deacon" (82), Wall Street habitue, complication of diseases, New York City, January 18.
**Wallace, Alfred Russell** (91), scientist, co-discoverer of laws of natural selection, London, Eng., November 7.
Ward, Lester F. (81), geologist, author and social philosopher, Washington, D. C., April 18.
Wedemeyer, William W. (40), of Ann Arbor, Mich., Representative in Congress, suicide from steamer, off Panama, January 2.
Westlake, John (85), international lawyer, London, Eng., April 14.
White, William Hale (84), English author, London, Eng., March 15.
Wilder, William Henry (58), Representative in Congress from Third Massachusetts district, Washington, D. C., September 11.
Wilson, Charles I. (76), Brigadier-General, U. S. A. (retired), New York City, September 22.
Windmuller, Louis (78), financier and philanthropist, debility, Woodside Heights, N. Y., October 1.
Winslow, L. Forbes (69), alienist, London, Eng., June 9.
Wise, John S. (67), former Congressman from Virginia, pneumonia, Princess Anne, Md., June 22.
**Wolseley, Sir Garnet Joseph** (80), British soldier, Mentone, France, March 25.
Wombwell, Sir George Orby (81), last surviving officer of famous Light Brigade, debility, London, Eng., October 17.
Woodford, Stewart Lyndon (78), lawyer, diplomat, New York City, February 14.
Woodrow, Mrs. John (81), aunt of President Woodrow Wilson, bronchitis, Denver, Col., May 19.
Woodruff, Carle A. (72), Brigadier-General, U. S. A. (retired), rheumatism, Raleigh, N. C., June 20.
Woodruff, Timothy L. (55), former Lieutenant-Governor of New York State, paralysis, New York City, October 12.
Wyndham, George (50), Chief Secretary for Ireland in Balfour Cabinet, London, Eng., June 9.
Ye-Ho Na-La, (48), Empress Dowager of China, Peking, China, February 22.

# The Commonest Names.

THE following table shows the fifty commonest names in England and Wales, Scotland and Ireland, arranged in the order of their frequency, according to a compilation made by the London *Pall Mall Gazette:* also the fifty commonest names in the cities of New York, Chicago, Philadelphia and Boston, specially compiled for THE WORLD ALMANAC from the City Directories of the respective cities.

| | England and Wales. | Scotland. | Ireland. | New York City. | Chicago. | Philadelphia | Boston. |

# Expositions.

## PANAMA-PACIFIC INTERNATIONAL EXPOSITION IN 1915.

THIS Universal Exposition at San Francisco in 1915 is a distinctly national undertaking, determined upon by the Congress of the United States, and designated by the President of the United States, for the purpose of celebrating the opening of the Panama Canal, a national accomplishment that importantly affects the entire world. The exposition will open February 20 and close December 4, 1915—a period of nine months and thirteen days, extending from Winter to Winter. In assuming the burden and expense of this mammoth celebration in response to the call of the President and Congress, the people of California are discharging an important public duty and executing a national trust, the accruing benefits of which will be shared by every State in the Union and by the entire citizenship of the nation.

While this great inter-hemisphere waterway is a national project, it is nevertheless a world's asset, and the celebration of its opening will be participated in by all countries and all peoples. The exposition will constitute an international concourse of tremendous significance in its effect upon the national productivity and commercial activity of all countries, and of the United States in particular.

In February, 1912, President Taft issued a proclamation announcing the holding of this great exposition and inviting the nations of the world to take part. He has also invited the representatives of foreign nations with their fleets to assemble in the harbor of Hampton Roads, Virginia, the representatives to proceed thence to Washington for a formal welcome by the President of the United States, who will accompany them back to Hampton Roads for a review of the assembled fleets as they start on their voyage via the Panama Canal to San Francisco. At this date, November, 1913, twenty-eight foreign nations and thirty-five States and Territories have accepted the invitation of the United States and declared their intention to participate. Many of these nations and States have dedicated their sites and are making active preparation for the erection of their respective buildings.

On October 14, 1911, in the presence of a great multitude, President Taft turned the first spadeful of earth at San Francisco for the exposition. The President, the Governor of California and the Mayor of San Francisco delivered addresses. The vessels of the Pacific fleet in the harbor joined in the celebration, and there was an extended military parade in the streets.

The exposition grounds contain 625 acres in the "Harbor View" section, forming a natural amphitheatre overlooking San Francisco Bay and its "Golden Gate" entrance from the Pacific. These grounds include part of the United States military reservations—the Presidio on one end and Fort Mason on the other. The grounds extend over two miles on the water front and are one-half mile wide. In their centre eight of the great exhibit palaces have been grouped together in a parallelogram, separated by spacious courts and avenues, adorned with towers, colonnades and statuary, the façades of the buildings forming the walls of the courts, the whole presenting the appearance of a walled city. To the east stands Machinery Hall, to the west the Palace of Fine Arts, to the south Festival Hall and the Palace of Horticulture, surrounded by the great South Gardens. To the east of this central group are placed the amusement concessions covering forty-five acres, some of them costing $300,000; to the west, spreading fan-shaped along the bay, are the pavilions of the States and foreign nations.

With the exception of the Palace of Horticulture, all the exhibit palaces are in process of construction under time limit contracts, requiring completion in July, 1914, Machinery Hall being ready for the interior finishing and the Palaces of Varied Industries, Education and Social Economy, Foodstuffs and Mines and Metallurgy well under way. The grounds are being prepared for the transplanting of trees, shrubs and flowers with which they will be adorned. In every department of the Division of Works, of Exhibits and of Exploitation, work is far advanced, and in the building of the exposition greater progress is made, fourteen months before the opening, than was the good fortune of any other American exposition. In the new civic centre of San Francisco the exposition will erect an auditorium costing a million dollars, in which will be held the more than one hundred and fifty conventions and congresses that have been secured for the exposition period. This is a permanent structure and will become the property of San Francisco. It will have a seating capacity of twelve thousand persons.

The citizens of San Francisco subscribed $7,000,000, and additional sums have been pledged. The State of California appropriated $5,000,000, and the Municipal Government of San Francisco $5,000,000, to the general fund of the exposition management. The fifty-eight counties of California are raising several million dollars for their individual representation on an elaborate scale. Large sums will likewise be expended by foreign countries and States of the Union for their official participation, and vast sums will also be spent by industrial and other concerns for private exhibits. The grand total will constitute an expenditure approximating $50,000,000 for the Universal Exposition of 1915.

A harmonious color scheme for this exposition has been wrought out by a celebrated painter. The façades of the buildings will have the color and appearance of Travertine marble, there will be golden domes and copper green towers, and the columns and colonnades will be relieved by slashes of bright reds and blues. Another unique feature will be the night illumination. What is known as flood lighting will prevail. Masked batteries of electric projectors will play upon countless "jewels" gleaming and tremulous, outlining the buildings and filling the open courts with the soft glow of day. This will be one of the highest triumphs of electrical engineering and will afford a scene of indescribable beauty and magnificence.

A complete Exploitation Division is maintained by the exposition management at San Francisco. Railroad and steamship offices throughout the world are amply supplied with literature for distribution. Foreign commissioners, appointed by their respective Governments, transact all business connected with foreign participation.

There are no branch offices in the United States. All communications should be addressed to the President of the Panama-Pacific International Exposition, San Francisco, U. S. A.

## LYONS INTERNATIONAL MODERN CITY EXHIBITION.

An exhibition will be held in Lyons, France, under the auspices of the French Government, from May 1 to November 1, 1914, and the cities of this country are invited to take part in it.

The exposition will be held in buildings erected for the purpose, and these will cover twenty-five acres of a tract of sixty-five acres, which faces the junction of the Rhone and the Saône Rivers. An impressive hall will be built and a covered avenue will be constructed, around which sixty smaller buildings for exhibition purposes will be grouped. An exhibition of products from the French colonies will be included in the exposition.

The exposition will deal with problems affecting the industrial, social and political progress of cities. Among the subjects to be considered are: The causes of changes in population—births, deaths, causes of mortality, and emigration from the country to cities; prenatal care for mothers and children, school hygiene and educational problems; labor; clothing; disease; old age and incapacity for work; municipal administration; industry—transportation, habitation, heating and lighting, furniture, food, drinking water, sewage disposal, chemical products, hospitals, physical culture, and

the beautifying of cities. The city of Lyons has invited scholars, economists, philanthropists, administrators and manufacturers of all countries of the civilized world to be exhibitors.

Mr. William Morton Fullerton is special commissioner in behalf of the exhibition.

The American Chamber of Commerce in Paris is taking an active interest in the plans of the exhibition. The Franco-American Committee has tendered Mr. Fullerton its support. This committee, which contains some of the leading men of this country, includes: J. J. Jusserand, Honorary President; Robert Bacon, President; Dr. Nicholas Murray Butler, Joseph H. Choate, John Claflin, W. A. Clark, Frederic R. Coudert, Robert W. de Forest, Dr. John H. Finley, Warren L. Green, William D. Guthrie, McDougall Hawkes, Dr. John Grier Hibben, George Foster Peabody, Horace Porter, Edward Robinson, Elihu Root, James Brown Scott, W. K. Vanderbilt, Dr. Henry van Dyke and Whitney Warren.

## NEW YORK COMMERCIAL TERCENTENARY CELEBRATION.

The committee appointed by Mayor Gaynor in December, 1912, upon request of various commercial bodies of New York City, was incorporated by Chapter 313, of the laws of 1913, of the State of New York, as the New York Commercial Tercentenary Commission, for the "public celebration of the three hundredth anniversary of the regularly chartered commerce of what is now the State of New York, under the auspices of the States General of the United Netherlands in 1614." Members are appointed by either the Governor or the Mayor of New York.

The celebration will begin on March 27, 1914, the anniversary of the granting of the first general charter by the States General for trading to New Netherland, and will conclude on October 11, the anniversary of the first special charter for the same purpose. Between these dates there will be historical and religious meetings, observances in the public schools, educational congresses by colleges and universities; exhibitions by the leading museums, historical societies and technical societies; a series of exhibitions of the material resources of the States of the Union, athletic events, music festivals, illuminations, street parades, naval and marine pageants, observance of the opening of the Panama Canal, commemoration of the centenary of peace between the United States and Great Britain, and many other features. It is planned to have all the cities of the State share actively in the celebration. The principal officers are:

*President*—Cornelius Vanderbilt. *Vice-Presidents*—Herman Ridder, Vincent Astor, August Belmont, Andrew Carnegie, Howard Carroll, George B. Cortelyou, George J. Gould, George F. Kunz, Clarence H. Mackay, Morgan J. O'Brien, Alton B. Parker, John D. Rockefeller, Jr., Henry W. Sackett, Jacob H. Schiff, Isaac N. Seligman, Theodore P. Shonts, R. A. C. Smith, James Speyer, Henry R. Towne, Theodore N. Vail, William Ziegler, Jr. *Treasurer*—J. P. Morgan & Co. *Secretary*—Edward H. Hall, 154 Nassau Street, New York.

## CUBAN COMMERCIAL EXPOSITION.

The Chamber of Commerce at Santiago de Cuba held a meeting recently to discuss the preliminary steps for the holding of a National Exposition, which is intended to be opened at the beginning of the year 1915, to celebrate the official opening of the Panama Canal.

## EXPOSITION AT JAPANESE CAPITAL.

While the Tokyo (Taisho) Exposition, to be held March 20 to July 31, 1914, is primarily for the Empire of Japan and its colonies, exhibits from foreign countries will be accepted as specimens. While the space set aside for foreign exhibitors is not large, it is believed by the exposition managers that they will be able to accommodate all those who wish to participate.

A booklet containing the exposition rules and regulations, classification of exhibits, etc., will be loaned on application to the Bureau of Foreign and Domestic Commerce, Washington, D. C.

## LEIPSIC EXPOSITION.

The International Exhibition for the Book Industries and Graphic Arts will be held in Leipsic, Germany, from May 15 to October 15, 1914. Devoted to the industries of printing, bookbinding and papermaking.

## NATIONAL CORN EXPOSITION.

Organized and held annually under the direction of the National Corn Association. Association officers are: E. D. Funk, Shirley, Ill., President; E. G. Montgomery, Ithaca, N. Y., First Vice-President; C. P. Bull, Dallas, Texas, Secretary and Treasurer and General Manager of the exposition. About thirty States are represented by Vice-Presidents.

The National Corn Exposition has been held five times. The first was in Chicago, 1907; the second and third in Omaha, Neb., in 1908 and 1909; the fourth in Columbus, Ohio, 1911, and the fifth at Columbia, S. C., 1913; the Sixth National Corn Exposition will be held at Dallas, Texas, February 10 to 24, 1914. The headquarters of the exposition is this year at Dallas, Texas.

The slogan of the National Corn Exposition is the "Betterment of Agriculture." The exposition is composed of three prominent factors, (1) Educational exhibits from twenty-five to thirty State agricultural colleges and experiment stations, demonstrating experimental work and principles and facts in agriculture. (2) Competitive exhibits from thirty or more States, selected from State contests. (3) Comprehensive and complete educational exhibits from the Federal Department of Agriculture, devoted to many phases of agricultural endeavor.

Three trophies are awarded, (1) Indiana Ten Ear Trophy, for best ten ears of corn, value $1,000. (2) Colorado Oat Trophy, for best peck of oats, value $1,500. (3) Kellog Single Ear Trophy, for best single ear, value $1,000. $48,000 in cash premiums will be offered.

## SAN DIEGO PANAMA-CALIFORNIA EXPOSITION IN 1915.

San Diego, California, has raised $3,500,000 for a Panama-California Exposition to be held throughout the entire year of 1915. It is an exposition intended to especially exploit the resources, opportunities for development and possibilities for immigration, colonization and commerce of the Western States of the United States. It will be international in scope, and will have exhibits from all of the countries of the two Americas and from some of the European and Oriental countries. U. S. Grant, Jr., John D. Spreckels, Lyman D. Gage, A. G. Spalding, D. C. Collier, and other men of prominence are behind the enterprise. The President is Colonel D. C. Collier, of San Diego, and Winfield Hogaboom, of San Diego, is Director of Exploitation and Publicity.

One of the spectacular features will be an elaborate exhibit showing the progress of man from primitive times down to 1915. Another great feature will be a floral and horticultural display with immense botanical gardens and groups of citrus and deciduous fruit trees in bearing, and an immense lath house—the largest ever built in the world—covered with flowering vines and surrounded by all

of the tropical trees, plants and shrubs that are known to the botanical experts. There will be a special exhibit of such things as irrigation, reforestation, reclamation and all of the things that enter into the development of the West.

A number of States have already furnished appropriations for participation, and nearly one million dollars has been spent upon the grounds, which are embraced within an immense fourteen hundred-acre park, known as "Balboa Park," and lying in the very heart of the city of San Diego.

San Diego offers as a reason for holding this exposition in 1915 the fact that it is the first port of entry on United States soil north of the Pacific opening of the Panama Canal, and she desires to demonstrate to the world what possibilities lie in the vast region tributary to her as a commercial seaport, as well as what avenues of commerce may be developed with the countries North and South on the Pacific Coast, and with the Orient.

The exposition in its entirety will cost $10,000,000, or more.

## BERNE EXHIBITION.

From May 15 to October 15, 1914, a national exhibition will be held in Berne. It is the third exhibition of a national character held in Switzerland, the first one having been held in Zurich in 1883, and the second one in Geneva in 1896. Whereas the many smaller exhibitions arranged in recent years have been confined to special industries, or to some canton or district only, the purpose of the 1914 exhibition is to show in a comprehensive way the present achievements of the Swiss people in their manifold activities.

Fifty-eight groups of exhibits, many of which in special buildings or halls, will occupy a space of 500,000 square metres. The most important groups will be on agriculture; cattle raising; dairying; forestry; cotton, wool and silk industries; laces and embroideries; straw goods; leather and rubber goods; dress goods; building trade; wood carving; pottery; chemical products; graphic arts; musical instruments; watch industry; jewelry; scientific instruments; metals; machines and steam engines; electricity; water power; transportation; organization of commerce; hotel industry; popular games and sports; aviation (international); education; public administration; social welfare; international language bureau, etc.; sanitation; protection of workmen and accident insurance; protection of nature; peace movement; ancient and modern art and literature.

The sum of about 12,000,000 francs has been appropriated for the exhibition. No amusement park will be established. One of the most interesting features of the exhibition will be represented by the Swiss village, situated between refreshing pine woods and pasturages. A model country road leads up to the familiar farms, to the old church, to the picturesque inn. In the various shops and stores the visitor may watch at their work the famous potters of Heimberg, the knitting girls of Greyerz and the wood carvers of Brienz.

On account of the exhibition over forty congresses and conferences will be held in Berne during the Summer of 1914.

## ANGLO-AMERICAN EXPOSITION.

In London in 1914, May to October, the people of the United States and Great Britain will get together in an exposition that promises to go far beyond anything of the kind in which they have been interested heretofore.

The year will bring the centenary anniversary of the signing of the Treaty of Ghent, which has resulted in one hundred years of peaceful and friendly relation between the two countries, and it is proposed to recognize this anniversary in a way that shall fittingly commemorate its importance as well as illustrate in a definite way just how influential the two countries have been in the material progress of the world.

The idea of a practical demonstration to commemorate as well as to celebrate this one hundred years of peace has taken root in a way to insure unusually interesting results, and the Anglo-American Exposition, as it will be called, has assumed an aspect that promises to unite the two nations more closely than ever.

It will be an occasion of joining hands across the sea after a fashion never before attempted, and the scope of the undertaking provides for exhibits that will illustrate what the United States and the United Kingdom have done for the world in the century just closing, in every branch of industry, art, science and education, and will include a historical summary of the progress of the two countries for a century.

The plan of a dual exposition of American and British products was first definitely suggested at a meeting of the American Society in London in 1908, at which the late Ambassador Reid presided. In his remarks he said: "It has been borne in upon a good many of the American residents in London engaged in business here that they see under their eyes the first opportunity in the history of the world, as far as international exhibits are concerned, of having one ready on time, with the buildings already constructed and with nothing to be done but to get manufacturers ready to exhibit to come in and take possession."

From time to time since these remarks were made, the project has been discussed by members of the American Society in London, and culminated in a decision that the centenary of 1914 would be the proper occasion.

Definite plans were adopted and an inaugural meeting was held at the Mansion House, London, on March 26, 1913, at which the Right Hon. Lord Mayor of London, Sir David Burnett, presided. It was then decided to conduct this dual exposition of the British and American products; also to serve as an exhibition of progress achieved in education, science, literature, inventions and improvements in social life as well as betterment of the conditions of working men and women, thus placing before the world the fruits of the intellect and genius of the people of both nations.

The Lord Mayor, in closing his address at this meeting, said:

"No exposition has ever been afforded such unique and interesting opportunities, and certainly there never was an occasion more fitting for a great exposition of the work and achievements of two nations of the same blood, celebrating their hundreth anniversary of peace and concord, where people of the same family, although separated by a great ocean, will be able to join hand in hand, to unite in shaping their mutual destinies, and as kinsmen advancing the welfare of humanity and of the whole civilized world."

The disinterested motives of those who are more prominently identified with the execution of this plan is indicated by the following resolution proposed by Mr. Ginnell, M. P., seconded by the Lord Mayor of Cardiff, and adopted by an unanimous vote:

"Resolved, that all profits derived from the Anglo-American Exposition, 1914, by the committee shall be devoted to some public object of national utility to the Kingdom and to the United States."

The site of the exposition, which will be open from May to October, 1914, is the Shepherds' Bush section of London, where have been constructed an imposing group of exhibition buildings. These buildings occupy a tract of more than 150 acres readily accessible from the centre of London's main thoroughfare. The main entrance is connected directly with the terminus of, or in close

EXPOSITIONS—*Continued.*

proximity to, the leading railways, tramways and subway tubes, in the centre of a network of transportation lines, affording easy means of communication with all parts of London and all England.

Elaborate plans are well under way to make the various exhibits as comprehensive as possible, and a great advantage is the fact that the buildings, all of fireproof construction throughout, are complete and actually ready for occupancy. This makes impossible the delay and inconvenience sometimes caused by the inability to finish construction work on time.

The undertaking is popular in origin and the promotion of the project has enlisted the co-operation of hundreds of men foremost in the affairs of England and this country. Organized under the auspices of H. R. H. the Duke of Connaught as patron, and H. R. H. the Duke of Teck as Honorary President, the list of Vice-Presidents includes some of the most prominent members of the American Society in London and influential Americans in Great Britain.

Included in the American Executive Committee are J. J. Arnold, Vice-President for Foreign Trade Division, Chicago Association of Commerce, Chicago, Ill.; James A. Chadwick, Fall River, Mass.; Hon. J. B. Dimmick, ex-Mayor of Scranton, Pa.; Walter A. Draper, President of Chamber of Commerce, Cincinnati, Ohio; H. A. Fitch, Chairman Kansas City Local Committee, Kansas City, Mo.; W. O. Hart, New Orleans, La.; George H. Kelly, President Commercial Club, Omaha, Neb.; Clarence R. Mengel, Louisville, Ky.; Frank L. Mulholland, President Commerce Club, Toledo, Ohio; Erskine Ramsay, Birmingham, Ala.; W. Champlin Robinson, Baltimore, Md.; Ashton Starke, Richmond, Va.; Wm. H. Stevenson, President Chamber of Commerce, Pittsburgh, Pa.; G. F. Watt, Harrisburg, Pa., and Harry Welch, Secretary Phoenix Board of Trade, Phoenix, Ariz.

Each member of the American Executive Committee is the Chairman of a local executive committee in his city, composed of prominent merchants and manufacturers. The American Committee as a whole consists of United States Senators, Congressmen, Governors, Mayors of the principal cities and many leading citizens from all sections of the country—more than four hundred in all.

American executive offices of the exposition are in the Woolworth Building, New York City.

## CELEBRATION OF ONE HUNDRED YEARS OF PEACE.

It is proposed to begin a celebration about Christmas, 1914, and extending into 1915, the centennial of the Treaty of Ghent, marking one hundred years of peace between the United States and Great Britain. The matter was first discussed at the Harvard University Commencement of 1909, when the Hon. W. L. King, Minister of Labor of Canada, urged that a memorial be erected on the frontier at Niagara. Subsequently it was discussed at the Mohonk Peace Conference in May, 1910, and at a meeting on June 10 a temporary committee on organization was formed, and later was made permanent. Honorary Chairman, Theodore Roosevelt; Honorary Vice-Chairmen, William Jennings Bryan, Joseph H. Choate, Alton B. Parker, Elihu Root, Adlai E. Stevenson, Levi P. Morton; Chairman, Andrew Carnegie; Vice-Chairmen, Edwin Ginn, William Church Osborn, Thomas Nelson Page, Daniel Smiley, Oscar S. Straus; Secretary, Andrew B. Humphrey, 31 Nassau Street, New York City. Executive Committee: Honorary Chairman, Charles W. Fairbanks; Honorary Vice-Chairman, Theodore E. Burton; Honorary Secretary, J. Horace McFarland; Chairman, John A. Stewart; Vice-Chairman, Theodore Marburg; Secretary, William H. Short. Headquarters—50 Church Street, New York City. The late Mayor Gaynor, of New York, in November, 1911, at the request of the Executive Committee, appointed a Committee of Arrangements composed of 136 prominent citizens to prepare for a celebration in the city of New York. Among the members of this committee are J. Pierpont Morgan, Honorary Chairman; Vincent Astor, Honorary Vice-Chairman; John D. Crimmins, Chairman; August Belmont, John Claflin, George B. Cortelyou, William Curtis Demorest, John Drew, Cardinal Farley, Asa Bird Gardiner, George W. Perkins, William Rockefeller, Thomas F. Ryan, Nathan Straus, Henry W. Taft, Cornelius Vanderbilt, W. K. Vanderbilt and Harry Payne Whitney.

The National Committee, of which Andrew Carnegie is Chairman, will act in conjunction with similar organizations in Great Britain, Canada and other parts of the English-speaking world. A number of suggestions have been made regarding the nature of permanent memorials. One proposes a monument in the form of a watergate to be erected at Detroit, Mich., and Windsor, Ont., on the American and Canadian sides of the Detroit River; another that an arch be placed on the Canadian frontier over the New York to Montreal Highway, now being constructed. It has also been advocated that a building be erected in the city of New York to be dedicated to the cause of peaceful progress in which international congresses and public meetings can be held.

A suggestion is made by Senator and ex-Secretary of State Elihu Root that for a given five minutes on February 15, 1915, the anniversary of the ratification by the British and American Governments of the treaty signed at Ghent, all human activities, so far as possible, shall absolutely cease, and that the 150,000,000 English-speaking people throughout the world "shall engage in silent prayer and contemplation."

## UNITED STATES BUREAU OF PLANT INDUSTRY.

The Bureau of Plant Industry studies plant life in all its relations to agriculture. It investigates the diseases of fruit and forest trees, truck crops and other plants, and carries on field tests and demonstrations of their control and prevention. It studies the bacteriological problems connected with plant production and also the factors of plant nutrition. It is engaged in the improvement of crops by breeding and selection and the acclimatization and adaptation of new crops and varieties. It is encouraging the production of drug-producing crops, tea, and other special crops, and is studying the general physiological problems influencing the growth of plants. It is conducting a campaign for the eradication of poisonous plants, especially in the vast stock-grazing areas of the West. It is investigating various technological problems in connection with crop production, particularly with reference to fibre and paper-producing plants and to the standardization and handling of cotton and grain. It is engaged in the study of various phases of economic botany and in the devising of methods for the improvement of forest-grazing areas. It is carrying on a propaganda in the interest of good seeds for the farmer and the improvement in the quality of farm seeds. It is conducting extensive work in the breeding and testing of the principal field crops, such as the small grains, corn, cotton, tobacco, forage crops, and sugar-producing plants, with special reference to the improvement of these crops. It is engaged in the operation of testing stations in the semi-arid regions for the co-operative investigation of the problems encountered in crop production under the conditions existing in those areas. The adaptation and breeding of crops is a special feature of this work, which also includes physical determinations of the factors influencing plant growth in those regions.

In the South it is carrying on farmers' co-operative demonstration work, with special reference to the boll-weevil situation and its amelioration. It is conducting horticultural studies of garden crops and maintains an experimental farm for this and other lines of the work of the bureau. It is engaged in investigations of the marketing, transportation, and storage of fruits and in the general upbuilding of the fruit industry. It maintains greenhouses and trial grounds for the work of plant propagation and improvement. It is engaged in the introduction of seeds and plants from foreign countries and in the operation of plant introduction and testing gardens to aid in the development of new plant industries. It is also engaged in the Congressional distribution of seeds and plants.

* Population of Registration London in 1911, was: 4,522,964, and with metropolitan and city police districts, 7,252,963. Population of Greater New York and its Westchester and New Jersey suburbs in 1910 was: 6,501,178. Greater New York on January 1, 1914, 5,583,871; including Westchester and New Jersey suburbs, 7,382,871. † Estimated population with suburbs by provisional count 1910 was 3,400,000. ‡ With suburbs. § American Consul Report.

NOTE.—The population of Chinese cities other than those mentioned in this list is omitted, because reports respecting it are utterly untrustworthy. There are forty or more Chinese cities whose inhabitants are numbered by rumor at from 200,000 to 1,000,000 each, but no official censuses have ever been taken, and setting aside consideration of the Oriental tendency to exaggeration, there is reason to believe that the estimates of population in many instances covered districts of country bearing the same names as the cities, instead of definite municipalities.

61—Nevada.
52—Alaska.

## Sex Distribution of the Population of the United States.

THE population of the United States (exclusive of Alaska, Hawaii, Porto Rico and other noncontiguous possessions) comprised in 1910, according to the last Federal Census, 47,332,277 males and 44,639,989 females, or 106 males to every 100 females; in 1900 there were 104.4 males to every 100 females.

In the negro population males are outnumbered by females in a ratio of 98.9 to 100. Among the Chinese in this country males outnumber females by more than 14 to 1, and among the Japanese by about 7 to 1. The Indians show a small excess of males, 103.5 to 100 females.

In most European countries females outnumber males; the number of males to 100 females according to recent censuses being 93.6 in England, 96.7 in France, 96.9 in the German Empire, 96.4 in Switzerland, 99 in Italy, 96.7 in Austria, 99.1 in Hungary, and 98.9 in Russia.

Males increased more rapidly than females in the United States from 1900 to 1910. The former increased 21.9 per cent.; females 20.1 per cent. Little change occurred in the sex ratio for the native population, but among the foreign-born white the number of males per 100 females increased from 117.4 in 1900 to 129.2 in 1910.

Tabular summaries follow showing sexes by divisions and States for the total population (Table 1); by divisions and by States of the Southern divisions for whites and negroes separately (Table 2), and by principal cities for the total population (Table 3):

# Foreign-Born White Males of Voting Age

## IN CONTINENTAL UNITED STATES, AND THE NUMBER WHO ARE NATURALIZED.

ACCORDING to the last census, taken as of April 15, 1910, the number of foreign-born white males of voting age, that is, 21 and over, in the United States (not including Alaska, Hawaii, Porto Rico, or other outlying territory) was 6,646,817. Of this number, 3,034,117, or 45.6 per cent., were naturalized.

The following summary table shows the distribution of these foreign-born white males by divisions, with the number and percentage naturalized for each division:

| DIVISION. | FOREIGN-BORN WHITE MALES, 21 YEARS OF AGE AND OVER. | | | |
|---|---|---|---|---|
| | Total. | Per Cent. in each Division. | Naturalized. | Per Cent. Naturalized. |
| United States*. | 6,646,817 | 100.0 | 3,034,117 | 45.6 |
| The North | 5,511,869 | 82.9 | 2,526,749 | 45.8 |
| New England | 796,847 | 12.0 | 323,994 | 40.7 |
| Middle Atlantic | 2,272,271 | 34.2 | 879,348 | 38.7 |
| East North Central | 1,573,343 | 23.7 | 812,489 | 51.6 |
| West North Central | 869,408 | 13.1 | 510,918 | 58.8 |
| The South | 368,913 | 5.6 | 157,854 | 42.8 |
| South Atlantic | 150,665 | 2.3 | 61,134 | 40.6 |
| East South Central | 46,308 | 0.7 | 25,955 | 56.0 |
| West South Central | 171,940 | 2.6 | 70,765 | 41.2 |
| The West | 766,035 | 11.5 | 349,514 | 45.6 |
| Mountain | 257,537 | 3.9 | 113,670 | 44.1 |
| Pacific | 508,498 | 7.7 | 235,844 | 46.4 |

* Exclusive of Alaska, Hawaii, Porto Rico and all other outlying territory.

Approximately nine-tenths (89.4 per cent.) of the foreign-born white males of voting age were of European origin, 9.8 per cent. were natives of American countries other than the United States, and 0.8 per cent. were natives of other countries. Very nearly one-half (3,310,930) were natives of the countries grouped in the accompanying table under the heading "Northwest Europe," and of these approximately two-thirds (2,151,421, or 65 per cent.) were naturalized. Of the 2,631,458 natives of the countries comprising the southern and eastern divisions of Europe, taken together, 581,306, or 22.1 per cent., were naturalized. The countries of low percentages in the table are generally countries from which recent immigration has largely come, the lowness of the percentages being partially due to the fact that naturalization implies a minimum residence within the country of five years.

| PLACE OF BIRTH. | FOREIGN-BORN WHITE MALES, 21 YEARS OF AGE AND OVER. | | |

# Commission Government of Cities in United States.

THE government of a city by a commission, instead of by a Mayor and other city officials, was first instituted in Galveston, Tex., in 1901. Its usual form provides for the election of a certain number of commissioners from the city at large, who, in turn, elect one of their number to act as Mayor and divide with each other the administration of the city departments. One commissioner may take charge of the police department, a second of the fire department, a third of the health department, and so on. A limited number of members of the commission, usually only five, has been the customary practice, in order to concentrate responsibility of government. Another object in limiting the number of commissioners is to secure a "short ballot." The commission movement has had added to it, in the case of some cities, the Initiative, the Referendum and the Recall. In some cases, no recognition is given to political primaries or political parties; candidates for the office of commissioner being nominated by certificate.

The cities which have adopted the commission form of government are as follows:

ALABAMA.
Birmingham.
Cordova.
Hartselle.
Huntsville.
Mobile.
Montgomery.
Sheffield.
Talladega.
Tuscaloosa.

SUMMARY OF TOTAL APPROPRIATIONS FOR CITY AND COUNTIES.

| | Appropriations 1912. | Appropriations 1913. |
|---|---|---|
| The City of New York | $170,873,102.43 | $178,529,747.34 |
| The County of New York | 6,888,611.29 | 9,619,276.77 |
| The County of Kings | 2,612,195.68 | 3,474,378.50 |
| The County of Queens | 553,815.34 | 878,585.58 |
| The County of Richmond | 162,531.77 | 209,452.97 |
| Grand Totals | $181,090,256.51 | $192,711,441.16 |

N. B.—The total appropriations in 1912 for State Tax; for Interest on and Redemption of the City Debt; for Education; Health and Sanitation; Protection of Life and Property, and Charitable purposes, were $141,083,485.38, or 79.35 per cent. of the total budget appropriations for said year. For 1913 the appropriations for these purposes aggregate $151,730,536.76, or 79.69 per cent. of the total budget. In other words, of every $1,000 provided in the budget for 1913, $796.90 is for these six functions or purposes.

The most notable increases in the budget of 1913 over those of 1912 are—for State Tax, $3,645,686.31; for Interest on the City Debt, $2,980,190.74; Educational, $1,579,796.48; Health and Sanitation, $902,129.86; Protection of Life and Property, $986,368.15, and for Charitable purposes, $526,968. The 1913 State Tax is the second direct State tax which has been levied against the City since 1907, for which year it was only $75,704.13.

The Health Department estimate of 1912 gave the City's population as 5,173,064, and its estimate of the population at the mid-period of 1913 is 5,372,983.

| District of Columbia | July 16, 1790—Mar. 3, '91 | Hawaii | April 30, 1900. |
| Alaska | July 27, 1868. | | |

* Date when admission took effect is given from U. S. Census reports. In many instances the act of admission by Congress was passed on a previous date.

NEW POSSESSIONS.—A government for Porto Rico was established by the Fifty-sixth Congress. The Philippines are under a provisional civil government, Guam and Tutuila under Governors, and the Isthmian Canal zone under a Commission, all appointed by the President. Porto Rico is represented in the Congress of the United States by a Commissioner, and the Philippines by two Commissioners elected respectively by the people thereof.

* Impeached and removed from office. † Became Governor by virtue of his office as Lieutenant-Governor, on removal of Governor Sulzer.

# Mayors of the City of New York.

Before the Revolution the Mayor was appointed by the Governor of the Province; and from 1784 to 1820 by the Appointing Board of the State of New York, of which the Governor was the chief member. From 1820 to the amendment of the Charter, in 1830, the Mayor was appointed by the Common Council. In 1898 the term of the first Mayor of Greater New York (Van Wyck) began.

# Impeachment of Governor Sulzer.

WILLIAM SULZER, Governor of the State of New York, was impeached by the Assembly of the Legislature of that State on August 13, 1913. The votes in favor of his impeachment were given by 72 Democrats and 7 Republicans, a total of 79 votes; while 26 Democrats, 16 Republicans and 3 Progressives voted against impeachment. Under the Constitution, 77 votes were required for the adoption of the impeachment articles.

The impeachment articles were presented to the Assembly by Aaron J. Levy, who, with some other Assemblymen and Senators, as members of a Joint Committee of the Senate and Assembly, had been investigating the Governor's acts. The Chairman of this committee was Senator Frawley, and hence its report is usually referred to as that of the "Frawley Committee."

There were eight articles of impeachment, headed by this statement: "Articles Exhibited by the Assembly of the State of New York, in the Name of Themselves and of All the People of the State of New York, Against William Sulzer, Governor of Said State, in Maintenance of Their Impeachment Against Him for Wilful and Corrupt Misconduct in His Said Office and for High Crimes and Misdemeanors."

The "high crimes and misdemeanors" embraced in the impeachment articles were as follows:

1. That he violated the penal statutes by the filing of a false statement of campaign expenses and receipts, notably in not mentioning the following contributions:

Jacob H. Schiff, $2,500; Abram I. Elkus, $500; William F. McCombs, $500; Henry Morgenthau, $1,000; Theodore W. Myers, $1,000; John Lynn, $500; Lyman A. Spaulding, $100; Edward F. O'Dwyer, $100; John W. Cox, $300; the Frank V. Strauss Company, $1,000; John T. Dooling, $1,000.

2. That in swearing to this alleged false statement of campaign expenses and receipts he committed perjury, a specific violation of the penal statutes.

3. That he was guilty of mal and corrupt conduct and "was guilty of bribing witnesses," in that he induced witnesses to refrain from testifying before the Frawley Committee.

4. That he was guilty of suppressing evidence by deceit and fraud—a charge growing out of the last allegation.

5. That he persuaded Frederick L. Colwell to disobey a subpœna of the Frawley Committee.

6. That he was guilty of grand larceny in converting to his own use, "or a large part thereof," of money derived from cashing the checks of aforesaid contributors, and cash aggregating $32,850; "and used the same, or a large part thereof, in speculating in stocks, through brokers operating on the New York Stock Exchange, and thereby stole such money and checks and was guilty of larceny."

7. That he was guilty of the corrupt use of his position as Governor in that he promised or threatened to use his authority and influence as Governor for the purpose of affecting the votes of Assemblymen Prime and Sweet on certain legislation (the Direct Primaries bill) in which he was interested.

8. That he was guilty of the corrupt use of his position as Governor in that "he corruptly used his authority or influence, as such Governor, to affect the current prices of securities listed and selling on the New York Stock Exchange, in some of which securities he was at the time interested and in which he was speculating, carrying, buying or selling, upon a margin or otherwise, by first urging, recommending and pressing for passage legislation affecting the business of the New York Stock Exchange and the prices of securities dealt in on said exchange, which legislation he caused to be introduced in the Legislature, and then by withdrawing or attempting to withdraw from the consideration of the Legislature such legislation which was then pending therein—all the time concealing his identity in said transactions by subterfuge."

After the articles of impeachment had been read in the Senate on August 13, Robert F. Wagner, as President pro tem. of the Senate, announced that the Court of Appeals and the Senate would meet in the Senate Chamber for a trial of the charges on September 18 following.

The Court of Impeachment duly met on September 18, 1913, and organized with Edgar M. Cullen, Chief Judge of the Court of Appeals, acting as Presiding Judge. All the Judges of the Court of Appeals, designated as well as elected, it was decided, according to precedent, should take part in the trial. There were present 48 Senators—31 Democrats and 17 Republicans—and nine Judges of the Court of Appeals. The counsel who appeared to defend Governor Sulzer were ex-Judge D-Cady Herrick, ex-Judge Irving G. Vann, ex-Senator Harvey D. Hinman, Austen G. Fox, Louis Marshall, Roger P. Clark, Elihu Root, Jr., and James Gay Gordon. The counsel for the prosecution of the Governor were ex-Judge Alton B. Parker, John B. Stanchfield, ex-Senator Edgar T. Brackett, Eugene Lamb Richards, Isidor J. Kresel, Hiram C. Todd and Henderson Peck.

Ex-Judge Herrick, at the opening of the trial, objected on behalf of Governor Sulzer to Senators Frawley, Sanner and Ramsperger acting as Judges because of their participation in the proceedings of the Frawley Committee, and to Senator Wagner acting as a judge because he would become acting Lieutenant-Governor if the Governor were removed. Chief Judge Cullen, upon the conclusion of argument by ex-Judge Herrick supporting his contention, and by ex-Judge Parker opposing it, expressed the opinion that he had been unable to find anything in the law or precedents that would disqualify the Senators in question from acting as judges. Nevertheless, if any member of the Court felt that such action as he had previously taken in regard to the matters which were to be tried, or his personal feelings toward the respondent were such as to disqualify him or to impair his ability to render a just and fair verdict, might appeal to the Court to be excused from sitting, but that appeal must be made by himself and must not be considered as a challenge. The Judges and the Senators thereupon accepted Judge Cullen's view and voted unanimously not to entertain the challenge.

The articles of impeachment were then read. Chief Judge Cullen thereupon asked: "What answer does the respondent interpose to the articles presented by the Assembly?"

Ex-Judge Herrick in reply said that Mr. Marshall would present various objections. Mr. Marshall thereupon began an address, which lasted for two days, in support of a motion to dismiss the proceedings instituted by the Assembly against Governor Sulzer on the ground that the proceedings were without jurisdiction. "It is our contention," said Mr. Marshall, "that the Assembly has no power of impeachment except when duly convened at a regular session of the Legislature, or if when convened at an extraordinary session of the Legislature, the Governor shall have recommended for consideration the impeachment of the person sought to be proceeded against. * * * The Assembly had no power to impeach at the extraordinary session in the absence of action by the Governor enabling it to deal with that subject."

Judge Parker, in reply, argued that the Assembly had the right to impeach, since it was a judicial and not a legislative act. "It is the precise nature," he said, "of a proceeding by a Grand Jury in the finding of an indictment."

The Court of Impeachment on September 22, 1913, by a vote of 50 to 1 (cast by Senator Wende, of Buffalo), decided that the Assembly at its extraordinary session, had the power to impeach the Governor. In an executive session of the Court Chief Judge Cullen expressed this opinion: "The Constitution gives the Assembly the right to impeach. It was in regular session. I use 'regular session'; I mean it was regularly convened in response to a call by the Governor. Now, having the power of impeachment, it could exercise that at any time unless we find another provision in the Constitution which restricts it or forbids it." It had been claimed, Judge Cullen declared, that the

Assembly was limited at extraordinary sessions to the transaction of legislation recommended by the Governor, but in his judgment the power to bring impeachment articles did not come within the limitation of the Constitution at all.

The following day, September 24, ex-Judge Herrick asked that three articles of impeachment relating to events before January 1, 1913 (before Mr. Sulzer became Governor), should be dismissed, and made argument at length in support of his motion; being followed on the same line by Elihu Root, Jr., with a memorandum, and Austen G. Fox with an oral argument. Ex-Senator Edgar T. Brackett, in reply, said: "He who deliberately fills out a false statement in November is not fit for public office in January." The counsel for the Governor based their attack upon the three articles on the proposition that Section 12 of the penal law limits impeachment power to wilful and corrupt misconduct in office. Speeches in reply were made by ex-Judge Parker, Edgar T. Brackett and Isidor Kresel.

On September 24, at the conclusion of the arguments, Chief Judge Cullen expressed the opinion that the Court of Impeachment should reserve the determination of the motion to dismiss three of the articles of impeachment until the final decision of the case. Senator Wagner moved that this course be followed and the motion was adopted by a vote of 49 to 7, the votes in the affirmative being given by all the members of the Court of Appeals and Senators, and the votes in the negative being cast solely by Senators. A formal denial of the truth of the charges was then submitted by the counsel of Mr. Sulzer.

Eugene Lamb Richards, of counsel for the prosecution, summarized the charges. Mr. Richards, in the course of his address, said concerning Governor Sulzer:

"He was nominated on October 2, 1912, and we propose to show that almost immediately thereafter he began to solicit and obtain large sums of money for campaign purposes. * * * He did more than collect and reap these funds. He intended to keep them. He had no thought of returning them to the contributors, for it will clearly appear that he used and intended to use these contributions in the purchase of stocks and for margins on stock transactions. * * * He had first the account of Louis A. Sarecky in the Mutual Alliance Trust Company, Sarecky his private secretary. There was a personal account of the respondent in the Farmers' Loan & Trust Company. There was a speculative account on margins in the brokerage house of Harris & Fuller. There was also a stock account or a transaction account in the office of Boyer, Griswold & Company, brokers, and of another in the office of another brokerage firm, Fuller & Gray, also brokers. During the period of October and November, 1912, we shall show that into and out of the Sarecky account went practically $12,000, $7,000 more than the respondent reported. We shall show that into the Farmers' Loan and Trust Company account went over $15,000 more. We shall show that into the account of Harris & Fuller went $10,000. To Boyer & Griswold went $12,025, and to Fuller & Gray went $17,337.50. The documentary evidence in this case will show that of these amounts $40,000 was in cash. * * *

"On October 16, when the respondent was still in New York City, came the first transaction in Big Four stock during the campaign, when $12,025 was paid for 200 shares, $7,125 in cash and the following checks:

"Theodore W. Myers, $1,000; John Lynn, $500; L. A. Spaulding, $100; E. F. O'Dwyer, $100; John W. Cox, $300; Frank V. Strauss Co., $1,000; John T. Dooling, $1,000; aggregating $4,000. And a check of William Sulzer for $900, to make the exact amount, were used by his friend, Frederick L. Colwell, to buy these 200 shares, a stock in which Sulzer had long been interested."

The taking of testimony then began, evidence being given on this first day by Jacob H. Schiff and Henry Morgenthau that they gave money to Mr. Sulzer. Mr. Schiff said he gave Mr. Sulzer $2,500. Upon being asked "Was anything said in that conversation as to the use which was to be made of that check, or the proceeds of that check, by Mr. Sulzer?" Mr. Schiff answered: "There was nothing said." This query and answer followed:

"Q. Did you intend that that should be used for any specific purpose?"

"The Witness: When I used the expression campaign funds it was a very general expression. I certainly had no objection whatsoever and I think it was the general intent and purpose of the conversation that Governor Sulzer could use this $2,500 for whatever he would please."

Mr. Morgenthau said he would not have given $1,000 to Mr. Sulzer as "spontaneously" as he did unless the latter had been a candidate for Governor.

Evidence followed on September 25 from Abram I. Elkus, Morris Tekulsky, Charles A. Stadler, Charles Dorsch, Simon M. Uhlman and Lewis J. Conlon as to their gift of money to Mr. Sulzer.

On October 26 Daniel M. Brady, John T. Dooling, James T. Gwathmey, George W. Neville, Duncan W. Peck, Dr. John W. Cox and Richard Croker, Jr., all testified they gave Mr. Sulzer money. Mr. Croker said he gave $2,000 to Mr. Sulzer for his "personal expenses."

On September 29 evidence was given that Governor Sulzer received additional subscriptions. John S. Sorenson, of the firm of Crossman and Sielken, told of being ordered by Mr. Crossman to hand $2,500 to Mr. Sulzer, which he did. Edward F. O'Dwyer, Presiding Judge of the City Court, New York, told of leaving a check for $100 for Governor Sulzer in an envelope at the Manhattan Club. Assemblyman T. C. Sweet, of Oswego County, said that he saw the Governor about the Minetto Bridge bill and was asked this question by the Governor: "How did you vote on my Primary bill?" And upon being told by Mr. Sweet that he voted against it, was asked how he was going to vote at the extraordinary session. Mr. Sweet replied: "According to the sentiment and in the interest of my district." He was then told by the Governor to see the latter's counsel, the Governor saying: "See Taylor, smooth him the right way, Assemblyman, and bring your bill to me, but remember, Assemblyman, I take good care of my friends." Mr. Taylor said he had nothing to do with the Minetto Bridge bill and referred him to Mr. Delaney, Chairman of the Bureau of Efficiency.

Assemblyman Prime, of Essex County, stated that he visited the Governor in company with Senator Emerson, both being interested in a bill appropriating $733,000 for a State highway in Essex and Warren Counties, and heard the Governor say: "Senator, you voted against my direct Primary bill," and requested him to read the bill. Later, Mr Prime said: "As we turned to come out of the Executive Chamber he made a statement, a remark to the effect that 'You for me, I for you,' and we went out."

Melville B. Fuller said that William Sulzer paid him $10,000 on account on November 18, 1912, and $6,000 more on December 16, 1912.

Arthur L. Fuller, of New York, a member of the stock brokerage firm of Fuller & Gray, gave testimony regarding account No. 500. A witness, Effingham E. Stuart, said it was that of William Sulzer, but the answer was stricken out until the lawyers for the defence could find out what his knowledge was on the subject.

On September 30 Melville B. Fuller gave his account of Governor Sulzer's Wall Street transactions, and Cornelius Pinckney, Harvey Garber and Frank I. Patterson testified to giving money to Mr. Sulzer.

On October 1 John Boyd Gray, of the stock brokerage firm of Fuller & Gray, testified that Frederick C. Colwell, whose transactions were carried on his books as "Account 500," once told him one of the transactions was for the Governor.

Ignatius V. McGlone, secretary to Thomas F. Ryan, on October 6 testified he gave Mr. Sulzer

$10,000 in $1,000 bills. Allan A. Ryan, son of Thomas F. Ryan, testified that a week before the impeachment trial Governor Sulzer asked him to go to Washington and see Senator Root for him and request him to see William Barnes, and "get him to endeavor to have the Republican members of this body to vote that this Court had no right to try him and impeach him." Upon motion of ex-Judge Herrick, however, this testimony was stricken out.

Mr. Hinman, of counsel for Governor Sulzer, followed with the opening speech of the defence, defending in general Governor Sulzer's acts and arguing his innocence. "The respondent," he said, "is a plain, affable man, easy to approach and a man who until 1913 never made enemies. He has never had any business education or experience. * * * While a lawyer by profession, about the only evidence of that fact, as one witness stated it, is that he had a law office. He never kept books of account or records of his transactions. He is exceedingly careless and unmethodical. Details are something to which he is almost a stranger."

Herbert H. Lehman testified to making contributions to circulate "Sulzer's Short Speeches." Louis H. Josephthal testified in regard to Mr. Sulzer's stock transactions.

Evidence at great length was given by Louis A. Sarecky, former private secretary of Mr. Sulzer, in regard to his campaign receipts and expenditures. Most of the replies to letters written to Mr. Sulzer during his political campaign, he said, were written by him. Some of the letters that came to him contained checks and cash.

Allan A. Ryan, upon being recalled as a witness on October 7, testified that Governor Sulzer had asked him to see De Lancey Nicoll; that Mr. Nicoll could see certain parties, "and possibly persuade them to do what he wished to accomplish by having me see Mr. Root and Mr. Barnes." Mr. Sulzer had wished Mr. Nicoll to see Charles F. Murphy and have the impeachment procedure stopped.

Samuel A. Beardsley was called by the defendant's counsel to show that he had offered a contribution of $25,000 to Governor Sulzer but that Mr. Sulzer had refused to take it. This testimony was ruled out. Louis A. Sarecky testified he had prepared the statement regarding Mr. Sulzer's campaign account. Mr. Sulzer asked him: "Is this all right?" And he replied: "This is as accurate as I could get it." Mr. Sarecky was asked this question regarding Mr. Sulzer's signing the statement: "Did he read any part of this statement or examine it?" And to this question Mr. Sarecky replied: "He could not have read it very carefully, because he did not hold it over a minute or two at the most; just long enough for him to sign his name." He did not have any talk with Mr. Sulzer about the inclusion or omission of mention of Mr. Schiff's contribution from the campaign statement. He had never told Mr. Sulzer how much money he received. When the campaign was over of about $12,500 only $60 was left.

Hugh J. Reilly testified that he had loaned Mr. Sulzer $26,500 and none of it had been repaid.

The defence here rested and the following day arguments were made by the prosecution and the defence upon the hearing of the evidence. Mr. Marshall, for the defence, argued that in every single instance of impeachment the impeachment was for misconduct in office. It was not charged that Mr. Sulzer had not accounted for all his expenditures, but simply that he had not accounted for all his contributions. If anything was clear, it appeared distinctly from the testimony of Sarecky, "who testified like an honest man," without reservations of any kind, that the making of the expense account affidavit, in the manner in which it was made, was due entirely to inadvertency and mistake and not with corrupt and wilful intent.

Ex-Judge Alton B. Parker, in reply, said: "Well, Your Honors, when William Sulzer glanced over these figures and these contributions, he must have been very proud indeed of the talent of his pupil, for he took Sarecky from the high school and all the education that he had in practical affairs he had acquired in William Sulzer's office and necessarily under his direction, and we can well understand that he must indeed have chuckled at the wisdom of Sarecky when he glanced over this list, for he did not find in that list the checks of bankers like Jacob H. Schiff; there were not to be found in that list the checks of his brewery friends; not a single check could he discover there of a politician, whether leader of the organization, district leader or otherwise. Even Morgenthau, with his $1,000, did not appear. Not a single dollar was there representing any of the great interests in New York. * * * The man who read that list and examined it knew that it was not true. It does not help him for the boy to say he did the best he could. His master, William Sulzer, knew it was a lie. * * * You are all men of experience and men of affairs, and you realize that it is demonstrated now by the evidence that we have presented here * * * that he violated the statutes of this State when under that article he made a statement suppressing $27,400.

"Regardless of the origin of these charges, regardless of who may be the friends of this man, or who his enemies, regardless of any personal infliction of discomfort, this Court must, we feel certain, find on the evidence that this defendant has been guilty of misconduct so gross as to necessitate his removal for the honor, peace, prosperity and good government of this community."

Ex-Judge Herrick, in reply, said: "Article 6 charges stealing; that he stole this money. Now, you heard the argument of Judge Parker in that respect. If it were not for my great respect for him and for the fact that he has been the Presiding Judge of our great Court of Appeals, I would characterize the whole argument on the subject of stealing these moneys ridiculous. * * * Which did he appropriate, the contributions or the loans? What evidence have you that it was not this money he received in loans instead of the other that was paid to him for campaign purposes?"

Upon October 13 the Court held an executive session and approved of a request by Judge Miller, of the Court of Appeals, that arguments be given before the Court on the question whether acts and conversations of Governor Sulzer as testified to by Duncan W. Peck, Henry Morgenthau and Allan A. Ryan, could be construed as acts of misconduct for which the Governor could be removed under Impeachment Article Four. The testimony of Mr. Peck was that the Governor had asked him not to tell of his alleged gift of $500 to the Governor's campaign fund, and that of Mr. Morgenthau was that the Governor had asked him to "be easy" with him in his testimony before the Court. Arguments were made on the matter by Mr. Stanchfield, who argued that the testimony of Mr. Peck and Mr. Morgenthau and Mr. Ryan was pertinent, and by Mr. Herrick and Mr. Marshall that it was not.

The Court held secret sessions on October 15 and October 16. At one of these sessions it was ruled that Mr. Sulzer should not be ineligible for election to office. The Court came to a vote on October 16, each member of the Court as he voted explaining his vote. Chief Judge Cullen, in explaining his vote, said:

"First, as to the facts, I regret to say that I am constrained to find the facts as follows:

"I find that the respondent did take advantage of his nomination and candidacy for office to seek to personally enrich himself by diverting the contributions which he might receive for campaign purposes. I find that he did verify that by his oath, knowing it to be false. At the same time I shall vote not guilty of these articles for reasons which seem to me to dictate such a course, whatever may be my personal opinion of the acts done and committed by this respondent. First, a moment as to the character of the acts. The use of this money for his own purposes other than political work was not an offence. On the contrary, it is very doubtful whether it was not within his legal right to use it for any purpose for which he saw fit. I have pleaded that at length in my opinion. I have given the authorities which assert the proposition. As to his filing a false certificate, in my opinion, it is a

IMPEACHMENT OF GOVERNOR SULZER—*Continued.*

matter of law that the Corrupt Practices act, now a part of the Election law, did require him to state the amounts and sources of all election contributions, and in my judgment nearly all, possibly with two or three exceptions, of the moneys paid to him were such contributions. I find, however, this: That his oath to the truth of this statement was extra-judicial so far as it related to his receipts. The Election law does not require a verified statement, while the penal law, which does require a verified statement, does not require that that statement should contain the receipts of the party making the statement. It therefore is plainly extra-judicial to the oath and it is elementary law. However, he was not guilty of legal. So much for that. But I am frank to say that if those acts had been committed during his incumbency in office, I should have regarded his moral offense great enough to require his removal. But I am of the opinion that it cannot be considered as ground for impeachment and that it would be an eminently dangerous doctrine to treat them as such.

"The question, however, whether these acts of the respondent constituted crimes is not decisive of the issue before us. They displayed such turpitude and delinquency that if they had been committed during the respondent's incumbency of office I think they would require his removal."

The vote on Article 1 of the Articles of Impeachment, accusing Governor Sulzer of falsifying his election return, was as follows: Guilty, 39; not guilty, 18.

Article 2, charging him with perjury in swearing that the statement was true: Guilty, 39, not guilty, 18.

Article 3, charging him with bribing witnesses to withhold testimony from the Frawley Committee: Not guilty by a unanimous vote.

Article 4, charging him with practicing deceit and fraud and using threats and menaces to suppress testimony desired by the Frawley Committee: Guilty, 43; not guilty, 14.

Mr. Sulzer was removed from office as Governor on the following day, October 18, by the following vote:

For Removal—Judges: Willard A. Bartlett, Dem.; Emery A. Chase, Rep.; Frederick Collin, Dem.; William H. Cuddeback, Dem.; Frank H. Hiscock, Rep.; John W. Hogan, Dem.; Nathan L. Miller, Rep.; William E. Werner, Rep. Senators: G. F. Argetsinger, Rep.; George A. Blanvelt, Dem.; John J. Boylan, Dem.; Elon R. Brown, Rep.; Thomas H. Bussey, Rep.; W. B. Carswell, Dem.; Daniel J. Carroll, Dem.; Herbert P. Coats, Rep.; Thomas H. Cullen, Dem.; James A. Foley, Dem.; James J. Frawley, Dem.; Frank N. Godfrey, Rep.; Anthony J. Griffin, Dem.; John F. Healy, Dem.; Wm. J. Heffernan, Dem.; Walter R. Herrick, Dem.; Charles J. Hewitt, Rep.; J. D. McClelland, Dem.; John F. Malone, Dem.; John F. Murtaugh, Dem.; William L. Ormrod, Rep.; Bernard M. Patten, Dem.; Henry W. Pollock, Dem.; S. J. Ramsperger, Dem.; Henry M. Sage, Rep.; Felix G. Sanner, Dem.; George W. Simpson, Dem.; C. D. Sullivan, Dem.; George F. Thompson, Rep.; Herman H. Torborg, Dem.; Henry P. Velte, Dem.; Robert F. Wagner, Dem.; J. Henry Walters, Rep.; Loren H. White, Dem.; Thomas B. Wilson, Rep.

Against Removal—Senators: James F. Duhamel, Ind. L. and Dem.; James A. Emerson, Rep.; Seth G. Heacock, Rep.; John W. McKnight, Dem.; Thomas H. O'Keefe, Dem.; Abraham J. Palmer, Rep. and Prog.; Wm. D. Peckham, Dem.; John Seeley, Dem.; John D. Stivers, Rep.; Ralph W. Thomas, Rep.; Clayton L. Wheeler, Dem.; George H. Whitney, Rep.

For Removal—Republican Senators, 11; Republican Judges, 4; Democratic Judges, 4; Democratic Senators, 24. Against Removal—Republican Senators, 6; Democratic Senators, 6. Excused from Voting—Chief Judge Edgar M. Cullen, Dem.; Senator Gottfried H. Wende, Dem. Absent—Judge John Clinton Gray, Dem.; Senator John C. Fitzgerald, Dem.

On the fifth and sixth articles the vote to acquit was unanimous. On the seventh article Senator James J. Frawley was excused, but all others voted to acquit.

The vote not to disqualify Mr. Sulzer from further preferment was unanimous, with the exception that Chief Judge Cullen was excused.

## GOVERNORS IMPEACHED.

Following are the Governors who have faced impeachment proceedings in the past, with the results that followed:

Seth Sothell, Colony of North Carolina, 1689, removed.
Charles Robinson, Kansas, 1862, acquitted.
Harrison Reed, Florida, 1868, charges dropped.
William W. Holden, North Carolina, 1870, removed.
Powell Clayton, Arkansas, 1871, charges dropped.
David Butler, Nebraska, 1871, removed.
Henry C. Warmoth, Louisiana, 1872, term expired and proceedings dropped.
Adelbert Ames, Mississippi, 1876, resigned.

| 1904 | Russell P. Goodwin. | 1909 | William R. Harr. | | |
| 1905 | Charles W. Russell. | 1909 | Winfred T. Denison. | | |

## TREASURERS OF THE UNITED STATES.

Continental Treasurer—The germ of the Treasury Department was planted when, on July 29, 1775, the Continental Congress appointed two Treasurers. The appointments were Michael Hillegas and George Clymer. The latter soon resigned to accept his seat as delegate to the Congress. Mr. Hillegas discharged the duties of Treasurer until September 11, 1789. The Treasury Department was organized under the act of September 2, 1789. Strictly speaking, it was reorganized, for the department, under various names, had been in existence since 1775. The Constitution went into effect March 4, 1789. Washington was inaugurated as the first President of the United States April 30, 1789. It will thus be seen that Mr. Hillegas was Treasurer for nearly five months after the inauguration of Washington, and for nine days after the Treasury Department was organized under the Constitution.

| Name. | Whence Appointed. | Date of Commission | Expiration of Service. | Name. | Whence Appointed. | Date of Commission. | Expiration of Service. |

## FEDERAL IMPEACHMENTS IN HISTORY.

The Constitution of the United States, Article II., Section IV., provides that civil officers of the United States may be removed from office on impeachment and conviction of treason, bribery or other high crimes and misdemeanors; that the House of Representatives has the sole power of impeachment, and the Senate the sole power to try impeachments; that the Vice-President shall preside at impeachments except when the President is tried, when the Chief Justice of the Supreme Court shall preside; and that two-thirds of the members present must vote for conviction before a person impeached shall be deemed guilty. Only nine persons have been impeached and tried before the Senate, and only three of them have been convicted. The record is as follows:

William Blount, Senator from Tennessee; impeached July 7, 1797, for conspiring to wage war with Spain in favor of Great Britain, to excite the Cherokee Indians against Spain, and to create disaffection among the Indians toward the United States; trial, December 17, 1798, to January 14, 1799; vote, 11 guilty, 14 not guilty; verdict, acquittal.

John Pickering, Judge of the District Court of the United States for the District of New Hampshire; impeached 1803 for drunkenness and disregard of the terms of the statutes; trial, March 3 to March 12, 1803; vote, 19 guilty, 7 not guilty; verdict, guilty; punishment, removal from office.

Samuel Chase, Associate-Justice of the Supreme Court of the United States; impeached 1804 for misconduct at trials of persons charged with breach of the Sedition Law; trial, November 30, 1804, to March 1, 1805; vote, 9 guilty, 30 not guilty, and 15 guilty, 19 not guilty, on different counts: verdict, acquittal.

James Peck, Judge of the District Court of the United States for the District of Missouri; impeached for tyrannous treatment of counsel, 1830; trial, May 11 to May 30, 1830, and from December 13, 1830, to January 31, 1831; vote, 21 guilty, 22 not guilty; verdict, acquittal.

West H. Humphreys, Judge of the District Court of the United States for the District of Tennessee; impeached 1862 for supporting the secession movement and unlawfully acting as Judge of the Confederate District Court; trial May 22 to June 26, 1862; vote, 32 guilty, 4 not guilty, and 38 guilty; verdict, guilty; punishment, removal from office.

Andrew Johnson, President of the United States; impeached for usurpation of the law, corrupt use of the veto power, interference at elections and high crimes and misdemeanors; trial, March 30 to May 26, 1868; vote, 35 guilty, 19 not guilty; verdict, acquittal.

William W. Belknap, Secretary of War of the United States; impeached for accepting bribes; trial, April 5 to August 1, 1876; vote, 5 guilty, 25 not guilty; verdict, acquittal.

Charles Swayne, Judge of the District Court of the United States for the District of Florida; impeached 1905 for misconduct in office; trial, February 6 to February 27, 1905; vote, 55 guilty, 37 not guilty; verdict, acquittal.

Robert W. Archbald, Associate Judge of United States Commerce Court, was impeached July 11, 1912, on thirteen articles charging him with corrupt collusion with coal mine owners and railroad officials while in office. The Senate began his trial December 3, 1912, and ended January 13, 1913. Verdict guilty; removed from office.

# Democratic National and State Committees.

## DEMOCRATIC NATIONAL COMMITTEE.

(Appointed by or subsequent to the Democratic National Convention at Baltimore, Md., July, 1912.)

William McKinley, President of the United States, September 6, 1901.
Alexander, King of Servia, June 11, 1903.
Draga, Queen of Servia, June 11, 1903.
Bobrikoff, Governor-General of Finland, June 16, 1904.
Von Plehve, Russian Minister of the Interior, July 28, 1904.
Sergius, Grand Duke of Russia, February 17, 1905.
Carlos, King of Portugal, February 1, 1908.
Louis Philippe, Crown Prince of Portugal, February 1, 1908.
Marquis Ito of Japan, October 26, 1909.
Peter Arcadowitch Stolypin, Premier of Russia, September 14, 1911.
José Canalejas, Prime Minister of Spain, November 12, 1912.
Nazim Pasha, Turkish Minister of War, January 23, 1913.
Manuel E. Araujo, Premier of Salvador, February 4, 1913.
Francisco I. Madero, President of Mexico, February 23, 1913.
José Pino Suarez, Vice-President of Mexico, February 23, 1913.
George, King of Greece, March 18, 1913.

# Qualifications for Voting in Each State of the Union.

(Communicated to THE WORLD ALMANAC and corrected to date by the Attorneys-General of the respective States.)

IN all the States except Arizona, California, Colorado, Idaho, Kansas, Utah, Washington and Wyoming the right to vote at general elections is restricted to males of 21 years of age and upward. Women are entitled to vote at school elections in several States. (See article entitled "Woman Suffrage.")

| STATES. | Requirements as to Citizenship. | PREVIOUS RESIDENCE REQUIRED. In State. | In County. | In Town. | In Precinct. | Persons Excluded from Suffrage. |
|---|---|---|---|---|---|---|
| Alabama*. | Citizen of United States or alien who has declared intention. | 2 yrs.. | 1 yr... | 3 mo.. | 3 mo... | Convicted of treason or other felonies, idiots, vagrants, insane. |

| Wyom. * | Citizen of the United States, male or female. | 1 yr. | 60 dys | 10 dys | 10 dys | Idiots, insane, felons, unable to read State Constitution in the English language. |

* Australian Ballot law or a modification of it in force. † Indian must have severed tribal relations. § One year's residence in the United States prior to election required. (a) Women can vote in school elections. (c) Ministers in charge of an organized church and teachers of public schools are entitled to vote after six months' residence in the State. (d) Actual residence in the precinct or district required. (e) Who has paid six months before election any poll-tax then due, and can read and write any section of the State Constitution, or can show that he owns and has paid all taxes due the previous year on property in the State assessed at $300 or more. (f) Or convicted of bribery, embezzlement of public funds, treason, forgery, perjury, felony, and petty larceny, duellists and abettors, unless pardoned by Legislature. (g) Or persons non compos mentis, sentenced to State Prison for one year or more takes away right to vote until restored by General Assembly, under guardianship. (h) And those unable to read and write English. (j) No soldier, seaman, or marine deemed a resident because stationed in the State. (l) Thirty days in election district. (m) In cities of 10,000 or more inhabitants all persons exempt from payment of poll tax must procure certificate of exemption from county tax collector and have their names placed on list of qualified voters in said city. (n) Must be resident of county to vote for county officers. (o) All persons unable to read and write, and whose ancestor was not entitled to vote prior to Jan. 1, 1867. (p) Unless restored to civil rights. (q) Except Federal and Confederate ex-soldiers. (r) Those unable to read and write State Constitution. (s) The general law does not apply always to villages organized under special charters.

In Virginia—Voting qualifications. All persons who six months before the election have paid their State poll-taxes for the three preceding years. Also any person who served in time of war in the army or navy of the United States, of the Confederate States, or of any State of the United States or of the Confederate States.

Residents of the District of Columbia never had the right to vote therein for national officers, or on other matters of national concern, after the Territory embraced in it was ceded to the United States and became the seat of the general government.

# Requirements Regarding Registration of Voters.

(Continuation of "Qualifications for Voting," on preceding pages.)

THE registration of voters is required in the States of Alabama, Arizona, California, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Iowa, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi (four months before election), Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Oklahoma, Oregon, Pennsylvania (in cities), South Carolina, South Dakota, Tennessee, Utah, Vermont, Virginia, West Virginia, Wisconsin and Wyoming.

In Ohio it is required in cities of 11,800 to 100,000 population in Presidential years; annually in cities of 100,000 or over.

In Illinois registration of voters is required by law. In all incorporated cities, villages and towns, which have adopted the Election Commissioner act of the State, persons not registered are not entitled to vote; but elsewhere generally they can vote if not registered by swearing in their votes, and producing one witness, a householder and registered voter of the voting district, as to their qualifications as electors severally.

In Iowa in cities having 3,500 inhabitants. In Nebraska in cities of over 7,000 inhabitants.

In Kentucky in all cities of the first, second, third and fourth classes, in Kansas in cities of the first and second classes, in North Dakota in cities and villages of 800 inhabitants and over, in Ohio in cities of the first and second classes.

In Missouri it is required in cities of 100,000 inhabitants and over. In Oklahoma it is required in all cities of the first class. In Rhode Island non-taxpayers are required to register yearly before June 30. The registration of voters is not required in Arkansas or Texas.

In Washington registration of voters is required annually in all cities and towns, and in all voting precincts having a voting population of two hundred and fifty or more.

In Indiana registration is required once every four years on 59th and 29th days preceding election in cities of population of more than 45,000.

# Woman Suffrage.

IN the United States women possess suffrage upon equal terms with men at all elections in Wyoming, established in 1869; in Colorado, in 1893; in Utah, in 1896; in Idaho, in 1896; in Washington, in 1910; in California, in 1912; in Arizona, in 1912; in Kansas, in 1912, and in Oregon, in 1912.

The Legislature of the Territory of Alaska adopted full woman suffrage in 1913 without opposition.

The Illinois Senate on May 7, by a vote of 29 to 15, and the House of Representatives on June 11, by a vote of 83 to 58, passed a bill giving women the right to vote for all statutory officials, which includes Presidential electors and city, town, village and county officials, except police magistrates. The Governor signed the bill July 26. It does not give them the vote for Governor and other State officers, Members of the Legislature, Members of Congress, United States Senators and County and District Judges. For full suffrage a Constitutional amendment is needed.

In Iowa, New Jersey and New York bills were passed, in 1913, to provide for a popular expression of opinion on woman suffrage in the State elections. These bills must be adopted also by the Legislatures at their next regular sessions to become effective. The Legislatures of North Dakota, Pennsylvania and Texas also passed referendum bills in 1913.

The Nevada Legislature in 1913 passed a bill referring woman suffrage to a popular vote at the next regular State election.

In Wisconsin a referendum bill which passed the Legislature was vetoed by the Governor.

Referendum bills failed in 1913 in the Legislatures of Arkansas, Connecticut, Delaware, Florida, Maine, Minnesota, Missouri and West Virginia.

In the Massachusetts Legislature in 1913, a bill, providing for an expression of popular opinion on woman suffrage at the next regular State election, was defeated.

In the Nebraska and New Hampshire Legislatures in 1913, woman suffrage amendments to the Constitution were defeated.

In Michigan in 1912, at the Fall State election, a woman suffrage amendment was defeated by a small majority. The Legislature of 1913 adopted a bill resubmitting the question to popular vote in the April election of 1913. The result was a popular majority of 96,144 against a woman suffrage amendment.

A woman suffrage amendment was voted on in Ohio in 1912 and was defeated.

School suffrage for women also prevails in some form in twenty-four States which do not grant full suffrage, as follows: Connecticut, Delaware, Florida, Iowa, Indiana, Kentucky, Michigan, Massachusetts, Minnesota, Mississippi, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, North Dakota, Oklahoma, Oregon, Ohio, South Dakota, Vermont, Wyoming and Wisconsin.

Women vote in a few States for library trustees and on questions of taxation.

In Great Britain women can vote for all officers except Members of Parliament. The extension of woman suffrage to Parliamentary elections was defeated in 1913 in the House of Commons by a vote of 266 to 219.

In Australia, Tasmania and New Zealand, women have full suffrage; also in the Isle of Man, Iceland, Norway and Finland.

Women have municipal suffrage in Ontario, Nova Scotia, Manitoba, Quebec, British Columbia and the Northwest Territory, in Denmark and Sweden. In France women engaged in commerce have the right to vote for Judges of the Tribunal of Commerce. The French Chamber rejected in 1913 woman suffrage by a vote of 311 to 133.

Women have some voting privileges in Cape Colony.

The International Woman Suffrage Alliance is composed of National Woman Suffrage Associations composed of twenty-six nations. Its officers are: President, Carrie Chapman Catt, 2 West Eighty-sixth Street, New York; Vice-President, Millicent Garrett Fawcett, London; Second Vice-President, Annie Furuhjelm, Finland; Treasurer, Mrs. Stanton Coit, London; Corresponding Secretaries—First, Mrs. Stanley McCormick, Boston, Mass.; second, Rosika Schwimmer, Hungary. Headquarters, 7 Adam Street, Adelphi, London.

The officers of the National American Woman Suffrage Association are: Rev. Anna Howard Shaw, Moylan, Pa., President; Jane Addams, Hull House, Chicago, Ill., First Vice-President; Anita Whitney, San Francisco, Second Vice-President; Mary W. Dennett, 505 Fifth Avenue, New York City, Corresponding Secretary; Mrs. Susan W. Fitzgerald, 7 Greenough Avenue, Jamaica Plain, Mass., Recording Secretary; Mrs. Stanley McCormick, 393 Commonwealth Avenue, Boston, Mass., Treasurer; Mrs. James Lees Laidlaw, 1 Madison Avenue, New York City, First Auditor; Mrs. Joseph Bowen, 1430 Astor Street, Chicago. National Headquarters, 505 Fifth Avenue, New York City.

The New York State Association Opposed to Woman Suffrage has its central office in New York City. Its officers are as follows: Miss Alice H. Chittenden, President; Mrs. Arthur M. Dodge,

WOMAN SUFFRAGE—*Continued.*

First Vice-President; Mrs. Elihu Root, Mrs. Richard Watson Gilder, Mrs. Francis M. Scott, Miss Eleanor G. Hewitt, Mrs. George D. Miller, and Mrs. William P. Northrup, Vice-Presidents; Mrs. John A. Church, Treasurer; Mrs. M. E. Loomis, Secretary, Engineering Societies Building, 37 West Thirty-ninth Street, New York City. There are also organizations in Massachusetts, Illinois, Oregon, Iowa, Washington, Pennsylvania, Maryland, Rhode Island, Connecticut, Ohio, Michigan, New Hampshire, New Jersey, Vermont, Virginia, Wisconsin and Nevada. These are founded with the object of testifying to legislative committees and through the medium of the public press that the opposition to woman suffrage is based upon what is claimed to be "the intelligent conviction of the majority of representative women in all lines of social, industrial and domestic progress." Pamphlets with information as to the objects of the association may be had from the Secretary.

New York State Woman Suffrage Association. President, Mrs. Raymond Brown, 294 West Ninety-second Street, New York City; Recording Secretary, Mrs. Nicolas Shaw Fraser, Geneseo, N. Y.; Corresponding Secretary, Mrs. H. W. Cannon, 288 Madison Avenue, New York City; Treasurer, Mrs. E. M. Childs, 362 Riverside Drive, New York City. The number of enrolled members of the association is 150,000, and the paid members 6,139. Headquarters, 180 Madison Avenue, New York City.

## National Democratic League of Clubs.

PRESIDENT, Frank S. Clark, Indianapolis, Ind.; Secretary, William C. Liller, Indianapolis, Ind.; Treasurer, C. Arthur Haulenbeck, Jr., Manhattan, Kan.

The National Democratic League of Clubs is engaging actively in the work of adding to the Democratic vote in the nation. Its labors are purely a party work, aiming simply at the increase of Democratic strength. The league exists as a vote-getting auxiliary of the regular Democratic organizations, and its success depends upon the hearty co-operation of Democrats throughout the country. It is the aim and endeavor of the National Democratic League of Clubs to aid in work of organization and to help the regular organizations to achieve greater success.

The league is a union or federation of Democratic clubs and associations, in all parts of the country. It is now in its sixth year. At the bi-annual meeting held in Washington, D. C., December 3-4, 1912, thirty-three States of the Union were represented. Its management is intrusted to a board of directors composed of some of the foremost men in the party, who take an active interest in its success.

The National Democratic League of Clubs is not organized for the purpose of either advocating or opposing any Democrat before he shall have been chosen by the constituted bodies or of furthering the interests of any man or set of men, before being indorsed by the party, but for the attainment and preservation of unity, the upbuilding of the party, and the promotion of its principles and welfare. Nor is it intended that any club or the League of Clubs shall usurp the functions of the several State, county or district committees, but rather work in harmony and in co-operation with them.

The National Democratic League of Clubs aims:

To make loyal Democrats of young men who are about to cast their first votes.

To explain clearly to the foreign-born voters the practical helpfulness and patriotic purposes of the Democratic party, and to enlist the new-made citizen in its ranks, thus making them good Democrats and therefore better Americans.

To confirm in the wavering an inclination toward Democracy and to make a habit of party fealty.

To preach early and late, day in and day out, the politics of Jefferson and Jackson.

To enlist voters, regardless of previous party affiliations, in the cause of Democracy, by every honorable means.

State Leagues or Federations of Democratic clubs, co-operating with the National League, have been organized in forty of the States and have a membership in excess of 875,000. Affiliated clubs have been organized in every State.

The league has headquarters in Indianapolis, Ind., and at Washington, D. C.

## Socialist Labor Party National Executive Committee.

PAUL AUGUSTINE, National Secretary, 28 City Hall Place, New York City. The National Executive Committee is composed of Sidney Armer, San Francisco, Cal.; Jacob Bobinsky, Chicago, Ill.; Ernst Viewegh, Indianapolis, Ind.; James H. Arnold, Louisville, Ky.; Arthur E. Reimer, South Boston, Mass.; E. Sherman, Rockville, Ct.; Thos. H. Grabouski, Lansing, Mich.; Andrew Ohman, Denver, Col.; Godfrey Kinder, Newport News, Va.; C. W. Brandborg, Henning, Minn.; John C. Butterworth, Paterson, N. J.; Henry J. Poelling, St. Louis, Mo.; John Kircher, Cleveland, Ohio; Boris Reinstein, Buffalo, N. Y.; K. E. Choate, Houston, Tex.; J. M. Carnahan, Bellingham, Wash.; Albert Schnabel, Milwaukee, Wis.; William H. Thomas, Buena Vista, Pa.

The party is organized in local organizations known as "sections," such sections existing in thirty States. Seven persons, five of whom must be actual wage-workers, may form a section, providing they acknowledge the platform, Constitution and resolutions of the Socialist Labor Party and do not belong to any other political party. But if more than seven propose to organize a section then at least three-fourths must be actual wage-workers. In places where no section exists, or where none can be formed, any person complying with the aforesaid provisions may become a member-at-large upon application to the National Executive Committee. Sections are not permitted to charge initiation fees. All questions of importance arising within the party are decided by general vote. At each meeting of the section a Chairman is elected, and the same rule holds good with all standing committees.

## National Association of Postmasters.

THE National Association of Postmasters of First-Class Offices was organized at Detroit, Mich., October 8, 1898.

The association consists of postmasters and assistant postmasters of the first and second class post-offices in the United States, and Presidents and first Vice-Presidents of State associations of postmasters. Heads of the Post-Office Department and Chiefs of Bureaus at Washington are honorary members.

Article 3 of the Constitution declares that: "The object of this association is to aid in the improvement of the Postal Service of the United States through the mutual interchange of ideas of members of the association and officials of the Post-Office Department."

The annual meetings are attended by the heads of Departments and Chiefs of Bureaus of the Post-Office Department who address the conventions and answer questions pertaining to the practical work of the post-office.

*President*—D. T. Gerow, Jacksonville, Fla. *First Vice-President*—H. G. Eastman, Oklahoma, Okla. *Second Vice-President*—J. N. Perrine, Oil City, Pa. *Third Vice-President*—F. R. Schaal, Hammond, Ind. *Fourth Vice-President*—J. H. Harrison, Denver, Col. *Fifth Vice-President*—Edward Yanish, St. Paul, Minn. *Honorary President*—Isador Sobel, Erie, Pa. *Treasurer*—F. C. Sites, Harrisburg, Pa. *Secretary*—W. C. Markham, Baldwin City, Kan. Convention for 1914 will be held at St. Paul, Minn.

## Help in Case of Accidents.

**Drowning. 1.** Loosen clothing, if any. **2.** Empty lungs of water by laying body on its stomach, and lifting it by the middle so that the head hangs down. Jerk the body a few times. **3.** Pull tongue forward, using handkerchief, or pin with string, if necessary. **4.** Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. **5.** Apply warmth and friction to extremities. **6.** By holding tongue forward, closing the nostrils, and pressing the "Adam's apple" back (so as to close entrance to stomach), direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. **7.** DON'T GIVE UP! People have been saved after HOURS of patient, vigorous effort. **8.** When breathing begins, get patient into a warm bed, give WARM drinks, or spirits in teaspoonfuls, fresh air, and quiet.

**Burns and Scalds.** Cover with cooking soda and lay wet cloths over it. Whites of eggs and olive oil. Olive oil or linseed oil, plain, or mixed with chalk or whiting. Sweet or olive oil and lime-water.

**Lightning.** Dash cold water over a person struck.

**Sunstroke.** Loosen clothing. Get patient into shade and apply ice-cold water to head. Keep head in elevated position.

**Mad Dog or Snake Bite.** Tie cord tight above wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife. Give stimulants, as whiskey, brandy, etc.

**Stings of Venomous Insects, etc.** Apply weak ammonia, oil, salt water, or iodine.

**Fainting.** Place flat on back; allow fresh air, and sprinkle with water. Place head lower than rest of body.

**Tests of Death.** Hold mirror to mouth. If living, moisture will gather. Push pin into flesh. If dead the hole will remain, if alive it will close up. Place fingers in front of a strong light. If alive, they will appear red; if dead, black or dark. If a person is dead decomposition is almost sure to set in after 72 hours have elapsed. If it does not, then there is room for investigation by the physician. Do not permit burial of dead until some certain indication of death is apparent.

**Cinders in the Eye.** Roll soft paper up like a lamplighter, and wet the tip to remove, or use a medicine dropper to draw it out. Rub the *other* eye.

**Fire in One's Clothing.** *Don't run*—especially not downstairs or out-of-doors. Roll on carpet, or wrap in woollen rug or blanket. Keep the head down, so as not to inhale flame.

**Fire from Kerosene.** *Don't use water*, it will spread the flames. Dirt, sand, or flour is the best extinguisher, or smother with woollen rug, table-cloth, or carpet.

**Suffocation from Inhaling Illuminating Gas.** Get into the fresh air as soon as possible and lie down. Keep warm. Take ammonia—twenty drops to a tumbler of water, at frequent intervals; also, two to four drops tincture of nux vomica every hour or two for five or six hours.

**Rules in Case of Fire** (consult Index).

## Antidotes for Poisons.

**First.** Send for a physician.

**Second.** INDUCE VOMITING, by tickling throat with feather or finger. Drink hot water or strong mustard and water. Swallow sweet oil or whites of eggs.

*Acids are antidotes for alkalies, and vice versa.*

**Arsenic.** All the compounds of this substance are extremely poisonous, operate in the same manner, and require the same treatment.

SYMPTOMS. Burning pain in stomach, with sickness and faintness, violent vomiting and retching, great thirst, hoarseness, difficulty of speech, cramps in legs, feeble, rapid, and small pulse; cold, clammy sweats; countenance expressive of great torture and anxiety; tongue and mouth parched; delirium, coma, and finally death.

ANTIDOTES. Evacuate the contents of the stomach by emetics (mustard is the best), give milk, farinaceous or slippery elm decoction both before and after vomiting has begun. The chemical antidote is the "hydrated sesquioxide of iron," readily prepared by adding ammonia water to the common tincture of iron—both of which are found in every drug store; of the precipitate thrown down on mixing these teaspoonful doses in water may be freely given. An insoluble and therefore inert substance is formed with the arsenical compound.

**Opium** and its active principles, Morphine, Codeine, Narcotine, etc.

SYMPTOMS. Giddiness, stupor, slow breathing, pupils contracted; the patient lies motionless and insensible. As the poisoning advances the features become ghastly, pulse feeble or imperceptible, and muscles relaxed.

ANTIDOTES. Emetics such as sulphate of zinc or mustard; stimulants such as ammonia, atropine hypodermically. The patient should be continually roused. Stomach pump should be used if solid opium has been taken, but it is of little use when morphine or laudanum has been taken.

## When the Boat Overturns.

DON'T go out in a pleasure boat without being assured that there are life-saving buoys or cushions aboard sufficient to float all on board in case of an upset or collision. All persons should be seated before leaving shore, and no one should attempt to exchange seats in midstream or to put a foot on the edge or gunwale of the boat to exchange seats. Where the waters become rough from a sudden squall or passing steamers, never rise in the boat, but settle down as close to the bottom as possible, and keep cool until the rocking danger is passed. If overturned, a woman's skirts, if held out by her extended arms, while she uses her feet as if climbing stairs, will often hold her up while a boat may pull out from the shore and save her. A non-swimmer, by drawing his arms up to his side and pushing down with widely extended hands, while stair-climbing or treading water with his feet, may hold himself several minutes, often when a single minute means a life; or throwing out the arms, dog fashion, forward, overhand and pulling in, as if reaching for something—that may bring him in reach of help.

# Political National Conventions.

(For Presidential Conventions prior to 1908, see 1912 ALMANAC.)

## 1908.

### DEMOCRATIC NATIONAL CONVENTION.

THE Democratic National Convention was held at Denver, Col., July 7-10. Nominations were made July 10. William J. Bryan, of Nebraska, was nominated on the first ballot, the vote being: Bryan, 892½; John A Johnson, of Minnesota, 46.

### REPUBLICAN NATIONAL CONVENTION.

The Republican National Convention met at Chicago, Ill., June 16. One ballot was cast, July 19, as follows:

| CANDIDATES. | First Ballot. | CANDIDATES. | First Ballot. |
|---|---|---|---|
| Total vote | 979 | Joseph G. Cannon, Ill | 58 |
| Necessary to a choice | 490 | Charles W. Fairbanks, Ind | 40 |
| | | Robert M. LaFollette, Wis | 25 |
| William H. Taft, Ohio | 702 | Joseph B. Foraker, Ohio | 16 |
| Philander C Knox, Pa | 68 | Theodore Roosevelt, N. Y | 3 |
| Charles E Hughes, N. Y | 67 | | |

### PROHIBITION PARTY NATIONAL CONVENTION.

The Prohibition Party National Convention was held at Columbus, Ohio, July 15, 16. Nominations were made July 16. Eugene W. Chafin, of Illinois, was nominated for President on the third ballot, receiving 636 votes, against 451 for William B. Palmore, of Missouri, and other candidates.

### OTHER NATIONAL CONVENTIONS.

The People's Party National Convention at St. Louis, April 2 and 3, unanimously nominated Thomas E. Watson of Georgia, for President.

The Socialist Party National Convention, held at Chicago, May 10-17, nominated Eugene V. Debs, of Indiana, for President on the first ballot, the vote being: Eugene V. Debs, 152; James F. Carey, of Massachusetts, 17; Carl D. Thompson, of Wisconsin, 16; A. M. Simons, of Illinois, 2.

The Socialist Labor Party National Convention was held in the city of New York, July 4. Martin R. Preston, of Nevada, was nominated for President unanimously.

The Independence Party National Convention was held at Chicago, July 29. Thomas L. Hisgen, of Massachusetts, was nominated for President on the third ballot, the vote being: Thomas L. Hisgen, 831; Milford W. Howard, of Alabama, 38; John Temple Graves, of Georgia, 7; William R. Hearst, of New York, 2.

## 1912.

### DEMOCRATIC NATIONAL CONVENTION.

The Democratic National Convention was held at Baltimore, Md., June 25-July 2. Balloting for a candidate for President began June 28 and a nomination was reached July 2. There were forty-six ballots taken. The first, tenth, twenty-fifth, forty-second and final ballots were as follows:

| CANDIDATES. | 1st Ballot. | 10th Ballot. | 25th Ballot. | 42d Ballot. | 46th Ballot. |
|---|---|---|---|---|---|
| Total vote | 1,086 | 1,088 | 1,088 | 1,087½ | 1,086 |
| Necessary to a choice | 724 | 725½ | 725½ | 725 | 724 |
| Champ Clark, Missouri | 440½ | 556 | 469 | 430 | 84 |
| Woodrow Wilson, New Jersey | 324 | 350½ | 405 | 494 | 990 |
| Judson Harmon, Ohio | 148 | 31 | 29 | 27 | 12 |
| Oscar W. Underwood, Alabama | 117½ | 117½ | 108 | 104 | .. |
| Thomas R. Marshall, Indiana | 31 | 31 | 30 | .. | .. |
| Simeon E. Baldwin, Connecticut | 22 | .. | .. | .. | .. |
| Eugene N. Foss, Massachusetts | .. | .. | 43 | 28 | .. |
| William J. Bryan, Nebraska | 1 | 1 | 1 | ½ | .. |
| William Sulzer, New York | 2 | .. | .. | .. | .. |
| John W. Kern, Indiana | .. | 1 | .. | 1 | .. |
| William J. Gaynor, New York | .. | .. | .. | 1 | .. |
| J. Hamilton Lewis, Illinois | .. | .. | .. | 1 | .. |
| Ollie M. James, Kentucky | .. | .. | 3 | 1 | .. |

### REPUBLICAN NATIONAL CONVENTION.

The Republican National Convention was held at Chicago, Ill., June 18-22. One ballot for the candidate for President was cast June 22, as follows:

| CANDIDATES. | First Ballot. | CANDIDATES. | First Ballot. |
|---|---|---|---|
| Total vote | 1,078 | Theodore Roosevelt, New York | 107 |
| Necessary to a choice | 540 | Robert M. La Follette, Wis | 41 |
| Actual vote | 728* | Albert B. Cummins, Iowa | 17 |
| | | Charles E. Hughes, New York | 2 |
| William H. Taft, Ohio | 561 | | |

* 344 delegates withheld their votes and 6 delegates were absent.

### PROGRESSIVE NATIONAL CONVENTION.

The National Convention of the Progressive party met at Chicago August 5 and on August 7 unanimously nominated Theodore Roosevelt for President on the first ballot.

### SOCIALIST NATIONAL CONVENTION.

The Socialist National Convention was held at Indianapolis May 17 and nominated Eugene V. Debs for President on the first ballot, the vote being: Eugene V. Debs, of Indiana, 165; Emil Seidel, of Wisconsin, 56; Charles Edward Russell, of New York, 54.

### PROHIBITION NATIONAL CONVENTION.

The Prohibition National Convention was held at Atlantic City, N. J., July 10-12, and nominated Eugene W. Chafin, of Arizona, for President without opposition.

### PEOPLE'S PARTY NATIONAL CONVENTION.

The National Convention of the People's Party was held at St. Louis, August 13; adopted a platform but made no nomination for President.

# The Presidential Election of 1916.

THE next Presidential election will take place on Tuesday, November 7, 1916.

The President and Vice-President of the United States are chosen by officials termed "Electors" in each State, who are, under existing State laws, chosen by the qualified voters thereof by ballot, on the first Tuesday after the first Monday of November in every fourth year preceding the year in which the Presidential term expires.

The Constitution of the United States prescribes that each State shall "appoint," in such manner as the Legislature thereof may direct, a number of electors equal to the whole number of Senators and Representatives to which the State may be entitled in Congress; but no Senator or Representative or person holding an office of trust or profit under the United States shall be an elector. The Constitution requires that the day when electors are chosen shall be the same throughout the United States. At the beginning of our Government most of the electors were chosen by the Legislatures of their respective States, the people having no direct participation in their choice; and one State, South Carolina, continued that practice down to the breaking out of the civil war. But in all the States now the electors are, under the direction of State laws, chosen by the people on a general State ticket.

The manner in which the chosen electors meet and ballot for a President and Vice-President of the United States is provided for in Article XII. of the Constitution, and is as follows:

The electors shall meet in their respective States, and vote by ballot for President and Vice-President, one of whom, at least, shall not be an inhabitant of the same State with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President; and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which lists they shall sign and certify, and transmit, sealed, to the seat of government of the United States, directed to the President of the Senate.

The same article then prescribes the mode in which the Congress shall count the ballots of the electors, and announce the result thereof, which is as follows:

The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted; the person having the greatest number of votes for President shall be President, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President the votes shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. And if the House of Representatives shall not choose a President, whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President. The person having the greatest number of votes as Vice-President shall be the Vice-President, if such number be a majority of the whole number of electors appointed; and if no person have a majority, then from the two highest numbers on the list the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice.

The procedure of the two houses, in case the returns of the election of electors from any State are disputed, is provided in the "Electoral Count" act, passed by the Forty-ninth Congress. The act directs that the Presidential electors shall meet and give their votes on the second Monday in January next following their election. It fixes the time when Congress shall be in session to count the ballots as the second Wednesday in February succeeding the meeting of the electors.

The Constitution also defines who is eligible for President of the United States, as follows:

No person except a natural-born citizen or a citizen of the United States at the time of the adoption of this Constitution shall be eligible to the office of President; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years.

The qualifications for Vice-President are the same.

## SALARY OF THE PRESIDENT.

The salary of the President of the United States was the cause of discussion in the First Congress, in view of the fact that the Constitution declared that the President should receive compensation for his services. Washington had notified his fellow citizens that he desired no salary. The limits suggested in Congress ranged from $15,000 to $70,000. The salary was finally placed at $25,000 and this remained the compensation until President Grant's second term (March 3, 1873), when it was increased to $50,000. Chapter 2918 of the Laws of the Second Session of the Fifty-ninth Congress, Approved March 4, 1907, appropriated "for travelling expenses of the President of the United States, to be expended at his discretion and accounted for by his certificate solely, $25,000." In the Second Session of the Sixtieth Congress the matter of increasing the President's salary was again considered, and it was decided that the President's salary be fixed at $75,000 a year.

## REFERENCE NOTES TO THE TWO FOLLOWING PAGES.

* The candidates starred were elected. (a) The first Republican Party is claimed by the present Democratic Party as its progenitor. (b) No candidate having a majority of the electoral vote, the House of Representatives elected Adams. (c) Candidate of the Anti-Masonic Party. (d) There being no choice, the Senate elected Johnson. (e) Eleven Southern States, being within the belligerent territory, did not vote. (f) Three Southern States disfranchised. (g) Horace Greeley died after election, and Democratic electors scattered their votes. (h) There being a dispute over the electoral vote of Florida, Louisiana, Oregon, and South Carolina, they were referred by Congress to an electoral commission composed of eight Republicans and seven Democrats, which, by a strict party vote, awarded 185 electoral votes to Hayes and 184 to Tilden. (i) Free Democrat. (j) Free Silver Prohibition Party. (k) In Massachusetts. There was also a Native American ticket in that State, which received 184 votes. (m) Middle of the Road or Anti-Fusion People's Party. (n) United Christian Party. (o) Union Reform Party.

# Presidential Elections.

NOTE.—There is, properly speaking, no popular vote for President and Vice-President; the people vote for electors, and those chosen in each State meet therein and vote for the candidates for President and Vice-President. The record of any popular vote for electors prior to 1828 is so meagre and imperfect that a compilation would be useless. In most of the States, for more than a quarter century following the establishment of the Government, the State Legislatures "appointed" the Presidential electors, and the people therefore voted only indirectly for them, their choice being expressed by their votes for members of the Legislature. In this tabulation only the aggregate electoral votes for candidates for President and Vice-President in the first ten quadrennial elections appear.

## ELECTORAL VOTES.

**1789.** Previous to 1804, each elector voted for two candidates for President. The one who received the largest number of votes was declared President, and the one who received the next largest number of votes was declared Vice-President. The electoral votes for the first President of the United States were: George Washington, 69; John Adams, of Massachusetts, 34; John Jay, of New York, 9; R. H. Harrison, of Maryland, 6; John Rutledge, of South Carolina, 6; John Hancock, of Massachusetts, 4; George Clinton, of New York, 3; Samuel Huntington, of Connecticut, 2; John Milton, of Georgia, 2; James Armstrong, of Georgia; Benjamin Lincoln, of Massachusetts, and Edward Telfair, of Georgia, 1 vote each. Vacancies (votes not cast), 4. George Washington was chosen President and John Adams Vice-President.

**1792.** George Washington, Federalist, received 132 votes; John Adams, Federalist, 77; George Clinton, of New York, Republican (a), 50; Thomas Jefferson, of Virginia, Republican, 4; Aaron Burr, of New York, Republican, 1 vote. Vacancies, 3. George Washington was chosen President and John Adams Vice-President.

**1796.** John Adams, Federalist, 71; Thomas Jefferson, Republican, 68; Thomas Pinckney, of South Carolina, Federalist, 59; Aaron Burr, of New York, Republican, 30; Samuel Adams, of Massachusetts, Republican, 16; Oliver Ellsworth, of Connecticut, Independent, 11; George Clinton, of New York, Republican, 7; John Jay, of New York, Federalist, 5; James Iredell, of North Carolina, Federalist, 3; George Washington, of Virginia; John Henry, of Maryland, and S. Johnson, of North Carolina, all Federalists, 2 votes each; Charles Cotesworth Pinckney, of South Carolina, Federalist, 1 vote. John Adams was chosen President and Thomas Jefferson Vice-President.

**1800.** Thomas Jefferson, Republican, 73; Aaron Burr, Republican, 73; John Adams, Federalist, 65; Charles C. Pinckney, Federalist, 64; John Jay, Federalist, 1 vote. There being a tie vote for Jefferson and Burr, the choice devolved upon the House of Representatives. Jefferson received the votes of ten States, which, being the largest vote cast for a candidate, elected him President. Burr received the votes of four States, which, being the next largest vote, elected him Vice-President. There were 2 blank votes.

**1804.** The Constitution of the United States having been amended, the electors at this election voted for a President and a Vice-President, instead of for two candidates for President. The result was as follows: For President, Thomas Jefferson, Republican, 162; Charles C. Pinckney, Federalist, 14. For Vice-President, George Clinton, Republican, 162; Rufus King, of New York, Federalist, 14. Jefferson was chosen President and Clinton Vice-President.

**1808.** For President, James Madison, of Virginia, Republican, 122; Charles C. Pinckney, of South Carolina, Federalist, 47; George Clinton, of New York, Republican, 6. For Vice-President, George Clinton, Republican, 113; Rufus King, of New York, Federalist, 47; John Langdon, of New Hampshire, 9; James Madison, 3; James Monroe, 3. Vacancy, 1. Madison was chosen President and Clinton Vice-President.

**1812.** For President, James Madison, Republican, 128; De Witt Clinton, of New York, Federalist, 89. For Vice-President, Elbridge Gerry, of Massachusetts, 131; Jared Ingersoll, of Pennsylvania, Federalist, 86. Vacancy, 1. Madison was chosen President and Gerry Vice-President.

**1816.** For President, James Monroe, of Virginia, Republican, 183; Rufus King, of New York, Federalist, 34. For Vice-President, Daniel D. Tompkins, of New York, Republican, 183; John Eager Howard, of Maryland, Federalist, 22; James Ross, of Pennsylvania, 5; John Marshall, of Virginia, 4; Robert G. Harper, of Maryland, 3. Vacancies, 4. Monroe was chosen President and Tompkins Vice-President.

**1820.** For President, James Monroe, of Virginia, Republican, 231; John Q. Adams, of Massachusetts, Republican, 1. For Vice-President, Daniel D. Tompkins, Republican, 218; Richard Stockton, of New Jersey, 8; Daniel Rodney, of Delaware, 4; Robert G. Harper, of Maryland, and Richard Rush, of Pennsylvania, 1 vote each. Vacancies, 3. James Monroe was chosen President and Daniel D. Tompkins Vice President.

**1824.** For President, Andrew Jackson, of Tennessee, Republican, 99, John Quincy Adams, of Massachusetts, Republican, 84; Henry Clay, of Kentucky, Republican, 37; William H. Crawford, of Georgia, Republican, 41. No candidate having a majority of the electoral vote, John Quincy Adams was elected by the House of Representatives. For Vice-President, John C. Calhoun, of South Carolina, Republican, 182; Nathan Sanford, of New York, Republican, 30; Nathaniel Macon, of North Carolina, Republican, 24; Andrew Jackson, of Tennessee, Republican, 13; Martin Van Buren, of New York, Republican, 9; Henry Clay, of Kentucky, Republican, 2; Calhoun was chosen Vice-President.

THE PRESIDENTS OF THE UNITED STATES—*Continued.*

NOTES TO THE TABLES OF THE PRESIDENTS, ON THE TWO PRECEDING PAGES.

* Monroe abandoned the profession of law when a young man, and was afterward, and until his election, always holding public office. † Jackson called himself a South Carolinian, and his biographer, Kendall, recorded his birthplace in Lancaster Co., S. C.; but Parton has published documentary evidence to show that Jackson was born in Union Co., N. C., less than a quarter mile from the South Carolina line. ‡ Or of departure from college.

§ Widows. Their maiden names are in parentheses. ‖ She was the divorced wife of Captain Robards. (*a*) The Democratic party of to-day claims lineal descent from the first Republican party, and President Jefferson as its founder. (*b*) Political parties were disorganized at the time of the election of John Quincy Adams. He claimed to be a Republican, but his doctrines were decidedly Federalistic. The opposition to his Administration took the name of Democrats, and elected Jackson President.

(*c*) Randall, the biographer of Jefferson, declares that he was a believer in Christianity, although not a sectarian. (*d*) While President Johnson was not a church-member, he was a Christian believer. His wife was a Methodist.

Washington's first inauguration was in New York, and his second in Philadelphia. Adams was inaugurated in Philadelphia, and Jefferson and the Presidents following elected by the people, in the city of Washington. Arthur took the Presidential oath of office first in New York City. John Adams and Jefferson died on the same day, the Fourth of July, 1826, and Monroe died on the Fourth of July five years later. John Quincy Adams was a Representative and Andrew Johnson a Senator in Congress after the expiration of their Presidential terms, and both died while holding those offices. Tyler was a Representative in the Confederate Congress from Virginia, and died in office.

Lincoln, Garfield and McKinley were assassinated while in office. Lincoln at Ford's Theatre, Washington, D. C., April 14, 1865, from a pistol shot fired by John Wilkes Booth, who was killed near Fredericksburg, Va., April 26, 1865, by Sergeant Boston Corbett. Garfield was shot in the Pennsylvania Railroad Depot, Washington, D. C., July 2, 1881, and died at Elberon, Long Branch, N. J., September 19, 1881. The assassin was Charles Jules Guiteau, who was hanged at Washington, D. C., June 30, 1882. McKinley was shot twice September 6, 1901, while in the Temple of Music of the Pan-American Exposition, Buffalo, N. Y., and died from his wounds at the home of John G. Milburn, Buffalo, September 14, 1901. The assassin was Louis Czolgosz, who was electrocuted at Auburn State Prison, New York, October 29, 1901.

Jackson was shot at in the Capitol at Washington, D. C., January 29, 1835, by a house painter named Richard Lawrence, escaping because the pistol of the assassin missed fire. Ex-President Roosevelt was shot and wounded by John Schrank, an insane man, at Milwaukee, Wis., October 14, 1912.

Cleveland after taking the oath as President, kissed the open bible, his lips touching Psalm CXII, verses 5-10, inclusive. Garfield's first act after taking the oath was to kiss his mother.

The sixth President was the son of the second President, and the twenty-third President was the grandson of the ninth President. William Henry Harrison was the eighth and Benjamin Harrison the tenth in descent from Pocahontas and John Rolfe. Lincoln was the first President wearing a full beard. Grant the first wearing a mustache. Buchanan and Cleveland were bachelors when they entered the White House as Presidents, but Cleveland surrendered during his first term. Washington, Monroe, Pierce and Hayes were born on Friday. J. Q. Adams, Pierce and Garfield were inaugurated on Friday. Tyler, Polk and Pierce died on Friday. Lincoln was assassinated on Friday.

There were remarkable coincidences in the lives of Abraham Lincoln and Jefferson Davis. Both were born in Kentucky; Lincoln in 1809, Davis in 1808. Both removed from their native State in childhood, Lincoln to the Northwest, Davis to the Southwest. Lincoln was a Captain of Volunteers and Davis a Second Lieutenant of Regulars in the Black Hawk War of 1832. They began their political careers the same year, 1844, Lincoln being a Presidential Elector for Clay, and Davis for Polk. They were elected to Congress about the same time, 1845 and 1846. They were called to preside over their respective governments the same year and within a few days; Davis, February 8, 1861, Lincoln, March 4, 1861.

Washington, Monroe, and Jackson were soldiers in the Revolutionary war; Jackson, W. H. Harrison, Tyler, Taylor, and Buchanan in the war of 1812-15; Lincoln in the Black Hawk war; Taylor, Pierce, and Grant in the Mexican war; Grant, Hayes, Garfield, Arthur, B. Harrison, and McKinley in the civil war, and Roosevelt was in the war with Spain. Adams and Jefferson were signers of the Declaration of Independence, and Washington and Madison of the Constitution

Grant was christened Hiram Ulysses and Cleveland, Stephen Grover. W. H. Harrison was the oldest man elected to the Presidency, and Roosevelt the youngest, Grant being the next youngest by six months. Cleveland was the only President married in the White House, and his second daughter the only President's child born therein. Monroe's daughter (Mrs. Gouverneur), Grant's daughter (Mrs. Sartoris), and Roosevelt's daughter (Mrs. Longworth), were the only children of Presidents married therein. Wives of Tyler and Benjamin Harrison died in the White House. W. H. Harrison was father of the largest family, six sons and four daughters. Eight Presidents: Washington, Jefferson, Madison, Monroe, W. H. Harrison, Tyler, Taylor and Wilson were Virginians by birth. Six Presidents: Grant, Hayes, Garfield, B. Harrison, McKinley and Taft were Ohioans by birth.

THE PRESIDENTIAL SUCCESSION.

The Presidential succession is fixed by chapter 4 of the acts of the Forty-ninth Congress, first session. In case of the removal, death, resignation, or inability of both the President and Vice-President, then the Secretary of State shall act as President until the disability of the President or Vice-President is removed or a President is elected. If there be no Secretary of State, then the Secretary of the Treasury will act; and the remainder of the order of succession is as follows: The Secretary of War, Attorney-General, Postmaster-General, Secretary of the Navy, Secretary of the Interior, Secretary of Agriculture, Secretary of Commerce and Secretary of Labor. The acting President must, upon taking office, convene Congress, if not at the time in session, in extraordinary session, giving twenty days' notice. This act applies only to such Cabinet officers as shall have been confirmed by the Senate and are eligible under the Constitution to the Presidency.

### TITLE AND TERM OF THE PRESIDENT.

The address of the President is simply "The President of the United States." In the First Congress, there was debate over a title and it was proposed by some members that he be addressed as "His Excellency" and by others as "His Highness," but a committee reported that "it is not proper to annex any style or title other than that expressed in the Constitution." In the Constitutional Convention the first report fixed the term of office at seven years without eligibility to re-election. In debate various periods from "during good behavior" to twenty years were favored. The limit to four years was finally adopted in grand committee and ratified by the convention.

### PROPOSED CHANGE IN THE BEGINNING OF THE PRESIDENTIAL TERM.

On November 26, 1913, a sub-committee of the Judiciary Committee of the Senate reported to the Committee the following joint resolution changing the time of the beginning of the terms of the President and Vice-President of the United States, from March 4 to the second Monday in January. Action has not yet been taken on the resolution:

"The terms of the President and Vice-President of the United States shall commence on the second Monday in January following the election of Presidential and Vice-Presidential electors, and such electors shall assemble at the Capitols of their respective States and cast their votes for President and Vice-President on the first Monday in December following their election.

"The terms of Senators and Representatives shall commence on the first Monday in January following their election.

"There shall be held two regular sessions of each Congress, convening on the first Monday of January each year."

| Kentucky | 13 | North Dakota | 5 | Total | 531 |
| Louisiana | 10 | Ohio | 24 | | |
| Maine | 6 | Oklahoma | 10 | | |

Electoral votes necessary to a choice..... 266

# Presidential Primaries, 1912.

**California**—*Democratic:* Clark, 43,163; Wilson, 17,214. *Republican*—Taft, 69,345; Roosevelt, 138,563; La Follette, 45,876.

**Georgia** — *Democratic:* Underwood, 71,410; Wilson, 57,267. No Presidential primary was held by the Republican party or by the National Progressive party in Georgia.

**Illinois**—*Democratic*: Clark, 218,483; Wilson, 75,527. *Republican*: Taft, 127,481; Roosevelt, 266,917; La Follette, 42,692.

**Maryland**—*Democratic*: Clark, 34,510; Wilson, 22,816; Harmon, 7,157. *Republican*: Taft, 26,618; Roosevelt, 29,674.

**Massachusetts**—*Democratic*: Clark, 34,575; Wilson, 15,002; all others, 627. *Republican*: Taft, 86,722; Roosevelt, 83,099; La Follette, 2,058; all others, 99.

**Missouri**—No Presidential primary was held in Missouri, but there was a "ballot primary" held by the Democratic party, by counties, for the election of delegates to their State convention, and at this primary Champ Clark had a majority over former Gov. Joseph W. Folk.

**Nebraska**—*Democratic*: Clark, 21,027; Wilson, 14,289; Harmon, 12,454. *Republican*: Taft, 13,341; Roosevelt, 46,795; La Follette, 16,785.

**New Jersey**—*Democratic*: Clark, 522; Wilson, 48,336; Harmon, 60; Bryan, 47. *Republican*: Taft, 44,034; Roosevelt, 61,297; La Follette, 3,464.

**New York**—No Presidential preference primaries. The Roosevelt people, in 1912, contested the Congressional Districts in Manhattan and in Kings County, but outside of this there were no contests of moment elsewhere in the State, and only an insignificant part of the New York delegation was for Roosevelt, the rest being for Mr. Taft.

**North Dakota**—*Democratic*: John Burke, 9'357. *Republican*: Taft, 1,876; Roosevelt, 23,669; La Follette, 34,123.

**Ohio**—*Democratic*: Harmon, 100,099; Wilson, 89,116; Clark, 2,489; Bryan, 2,490. The Republican party held no Presidential primary.

**Oregon**—*Democratic*: Clark, 7,857; Wilson, 9,588; Harmon, 606. *Republican*: Taft, 20,517; Roosevelt, 28,905; La Follette, 22,491.

**Pennsylvania**—*Democratic*: Clark, 710; Harmon, 394; Wilson, 97,585; Unpledged, 53,953. *Republican* (National Delegate) — Roosevelt, (highest candidate) 273,962; Taft, (highest candidate) 193,063; all other candidates, 37,327.

**South Dakota** — *Democratic*: Clark-Bryan, 4,275; Wilson-Bryan, 4,694; Champ Clark, 2,722. *Republican*: Taft, 10,944; Roosevelt, 38,106; La Follette, 19,060.

The vote on the Presidential primary held in South Dakota was taken in June, 1912, upon the candidates for election as delegates to the national conventions of the Republican party and of the Democratic party and the result was secured by votes under different mottoes, which were more or less conflicting, especially in the Democratic list, and the Republican party also was not free from such entanglements.

**Wisconsin**—*Democratic*: Clark, 36,464; Wilson, 45,945. *Republican*: Taft, 47,514; Roosevelt, 628; La Follette, 133,354. *Prohibition*: Eugene W. Chafin, 2,808; Oliver W. Stewart, 2,443.

---

## DIRECT PRIMARY VOTE FOR UNITED STATES SENATOR, GOVERNOR AND CONGRESSMAN IN SOME STATES, 1912.

**Georgia**—*Governor*: John M. Slaton, Dem., 104,857; Joe Hill Hall, Dem., 24,856; Hooper Alexander, Dem., 39,037.

**Illinois**—*United States Senator*: James H. Lewis, Dem., 228,872; Hugh S. Magill, Rep., 78,344; Shelby M. Cullom, Rep., 129,275; Lawrence Y. Sherman, Rep., 178,063; William G. Webster, Rep., 24,567; Alonzo E. Wilson, Proh., 3,786.

*Governor*: Ben F. Caldwell, Dem., 71,972; Samuel Aischuler, Dem., 87,127; Geo. E. Dickson, Dem., 9,034; Edward F. Dunne, Dem., 131,212; Chas. S. Deneen, Rep., 152,997; Len Small, Rep. 88,829; John E. W. Weyman, Rep., 61,178; Chas. F. Hurburgh, Rep., 29,992; John J. Brown, Rep., 31,995; Walter C. Jones, Rep., 22,491; J. McCan Davis, Rep., 6,855; Richard Yates, Rep., 45,325; John C. Kennedy, Soc., 8,333; Edwin R. Worrell, Proh., 3,568.

**Kansas**—*United States Senator*: Stephen N. Allen, Dem., 10,315; Thos. L. Bond, Dem., 7,358; Hugh P. Farrelly, Dem., 19,342; Wm. H. Thompson, Dem., 17,652; Chas. Curtis, Rep., 58,669; W. R. Stubbs, Rep., 57,353; Allen W. Ricker, Soc., 4,611.

**Kentucky**—*Representatives in Congress*: First District—Smith, Dem., 5,768; Hendricks, Dem., 3,452; Barkley, Dem., 9,261; Corbett, Dem., 895. Second District—A. O. Stanley, Dem., 2,925. Third District—R. Y. Thomas, Dem., 7,187; John S. Rhea, Dem., 6,939; Geo. Baker, Rep., 1,023; Thomas B. Dixon, Rep., 1,657. Fourth District—Ben. Johnson, Dem., 3,741; J. P. Whittingill, Rep., 774; John C. Thompson, Rep., 1,028. No returns received from the Fifth, Sixth and Seventh Districts. Eighth District—Harvey Helm, Dem., 8,946; Jerry Sullivan, Dem., 2,296; J. W. Densmere, Rep., 979.

**Louisiana**—*United States Senator*: 1913 Term —Murphy J. Foster, Dem., 52,565; Joseph E. Ransdell, Dem., 57,935. 1915 Term—Robert F. Broussard, Dem., 50,263; A. P. Pujo, Dem., 26,-621; J. Y. Sanders, Dem., 40,209.

*Governor*: J. B. Aswell, Dem., 23,800; L. E. Hall, Dem., 53,407; John T. Michel, Dem., 46,201.

**Michigan**—*United States Senator*: Alfred Lucking, Dem., 22,866; Geo. P. Hummer, Dem., 15,424; Wm. Alden-Smith, Rep., 149,922; Theodore M. Joslin, Prog., 9,283; H. S. McMaster, Soc., 3,378; Wm. A. Taylor, Proh., 2,237.

*Governor*: Woodbridge N. Ferris, Dem., 39,457; Amos S. Musselman, Rep., 86,191; Frederick C. Martindale, Rep., 82,714; Lucius W. Watkins, Prog., 9,770; James Hoogerhyde, Soc., 3,471; J. D. Leland, Proh., 2,115.

*Congressman-at-Large*: Edward Frensdorf, Dem., 34,655; Patrick H. Kelley, Rep., 131,066; Wm. H. Hill, Prog., 4,744; Julius B. Kirby, Prog., 3,696; Milan F. Martin, Soc., 29; Fred W. Corbett, Proh., 1,975; Harry M. McNeal, 21.

**Missouri**—*Governor*: Ball, Dem., 13,074; Bolte, Dem., 10,220; Cowherd, Dem., 89,491; Houchin, Dem., 20,369; Major, Dem., 92,233; Brewster, Rep., 583; McKinley, Rep., 95,220; Murphy, Rep., 11,209; Quick, Rep., 38,078; Swanger, Rep., 144; Ward, Soc., 6,543; Rogers, Soc. Labor, 187; Stokes, Proh., 614.

**New Hampshire**—*Governor*: Samuel D. Felker, Dem., 7,984; Franklin Worcester, Rep., 18,609.

*Representatives in Congress*: First District—Eugene E. Reed, Dem., 4,497; Cyrus A. Sulloway, Rep., 10,098. Second District—Raymond B. Stevens, Dem., 3,334; Frank D. Currier, Rep., 8,673.

**New York**—The primaries in the city of New York were held on September 18, 1912, but proved to be of little interest, since in every case the "organization" candidates were selected. In the Borough of Manhattan there was only one contest of note, namely that of former Assemblyman Franklin Brooks, Rep., whose name had been put on the primary ballot by petition, against John W. Yawger, Rep., for the nomination for Senator. Mr. Yawger won the nomination. In the Borough of Brooklyn there were eleven contests, but in every instance the "regulars" won. In the Third Congress District, Kings County, Frank D. Wilson, Dem., with 2,943 votes, defeated Alderman Francis P. Bent, who received

DIRECT PRIMARY VOTE—*Continued.*

1,526 votes. In the Eighth Senate District James F. Duhamel, Ind. League, defeated his opponent, Robert B. Ward.

**Washington**—*Representative in Congress (at Large)*: Robert McMurcline, Dem., 5,510; Geo. F. Clinstensen, Dem., 5,866; E. O. Connor, Dem., 9,933; Harry D. Merritt, Dem., 8,048; Henry M. White, Dem., 9,655; Edwin F. Masterson, Dem., 4,849; M. E. Gile, Dem., 9,106; Frank Hammond, Rep., 20,357; Henry B. Dewey, Rep., 28,449; Harry Rosenhauft, Rep., 17,700; John P. Fay, Rep., 18,680; A. C. Shaw, Rep., 18,231; J. E. Frost, Rep., 33,178; Arthur Simmons, Rep., 11,722; Alfred Wagenknecht, 8,757.

First District—Charles Heifner, Dem., 4,076; Thos. R. Horner, Dem., 2,081; Wm. E. Humphrey, Rep., 23,833; David Perry Rice, Rep., 6,560; Joseph Gilbert, Soc., 4,578. Second District—Chas. Drury, Dem., 1,646; James. A. Munday, Dem., 1,723; Geo. Hazzard, Dem., 788; Leslie E. Aller, Dem., 2,727; Stanton Warbarton, Rep., 3,196; Thos. C. Van Eaton, Rep., 7,303; Albert Johnson, Rep., 13,732; Norman S. Richards, Rep., 5,500. Third District—Roscoe M. Drumbelles, Dem., 5,379; V. T. Tustin, Dem., 3,400; Martin J. Maloney, Dem., 4,054; Wm. L. La Follette, Rep., 19,017; Geo. W. Shaefer, Rep., 3,513; W. M. Ridpath, Rep., 4,918; Robert B. Martin, Soc., 2,060.

*Governor*: Hugh C. Todd, Dem., 7,322; L. F. Chester, Dem., 3,980; Ernest Lister, Dem., 7,629; Wm. Henry Dunphy, Dem., 5,357; M. M. Godman, Dem., 5,517; E. C. Million, Dem., 5,739; *W. W. Black, Dem., 8,166; M. E. Hay, Rep., 69,005; Orville Billings, Rep., 20,689; Anna A. Maley, Soc., 9,783. *Supreme Court Decison No. 10,755, October 10, 1912, granted application for permanent writ prohibiting State Canvassing Board from certifying to Secretary of State the nomination of W. W. Black as Governor and prohibited Secretary of State from certifying his nomination.

**Wisconsin**—*Governor*: John C. Karel, Dem., 48,238; Adolph J. Schmitz, Dem., 36,975; Francis E. McGovern, Rep., 81,399; Carl D. Thompson, Soc. Dem., 12,726; Chas. L. Hill, Proh., 2,385.

**Wyoming**—*United States Senator*: J. B. Kendrick, Dem., 7,216; F. E. Warren, Rep., 12,092.

*Representative in Congress (at Large)*: T. P. Fahey, Dem., 4,869; J. J. Spriggs, Dem., 1,794; T. W. Mondell, Rep., 12,772.

## 1913.

The vote at the primaries for Governor in the State of New Jersey in 1913 was as follows:

Dem.—Fielder, 80,414; Katzenbach, 35,115. Rep.—Stokes, 60,644; Fowler, 10,571; Carey, 10,336; Pierce, 5,022. Prog.—Colby, 6,458; Osborne, 3,647.

## DIRECT ELECTION OF UNITED STATES SENATORS.

Upon April 8, 1913, the Legislature of Connecticut passed a bill notifying the proposed amendment to the Constitution of the United States providing for the election of United States Senators by direct vote of the people. The vote of Connecticut was the final one required of three-fourths of the States, to secure the adoption of the amendment. Thirty-six States, with Connecticut's action included, had up to April 9, adopted the amendment, they were: Arizona, Arkansas, California, Colorado, Connecticut, Indiana, Illinois, Idaho, Iowa, Kansas, Maine, Massachusetts, Michigan, Missouri, Minnesota, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota, Tennessee, Texas, Vermont, Washington, West Virginia, Wisconsin, and Wyoming.

Illinois—Chapter 25 of the laws of 1913, provides that a United States Senator shall be elected on the Tuesday next after the first Monday in November preceding the expiration of the term of office of each Senator in Congress from the State.

# The New York Democratic League.

At a conference of Democrats of the State of New York, held at Saratoga, September 10, 1909, the New York Democratic League was organized and the following platform of principles was enunciated:

Equal and uniform taxation, taking no more money from the people than the just needs of government economically administered requires.

The abandonment at the earliest moment practicable of our imperialistic venture in the Philippine Islands, first safeguarding their independence by sufficient guarantees.

Steady adherence to the principle of home rule and local self-government by the State and each of its political subdivisions.

Rigid economy in Government expenditures.

Enforcement of Federal and State laws against criminal trusts and combinations in restraint of trade.

Election of United States Senators by the direct vote of the people.

Reform in our registration and in enrolment laws, so that personal registration and enrolment shall be required in every political subdivision of the State. Reform in our methods of election, so that each elective officer shall be the separate, deliberate and intelligent selection of the voters of the State.

Reform in our methods of nominating candidates for public office, so that nominating conventions shall be composed of representatives directly chosen by the members of the party.

Reform in our primary laws, so as to give to every citizen greater direct influence in naming candidates for office and surrounding the primaries with such safeguards as will insure their honesty and providing the necessary time and legal machinery to insure the choice of a majority of the voters being respected and enforced in convention and committee.

No interference with the personal liberty of any citizen except such as is essential to secure the equal rights of all the citizens.

Taxation of corporations by the States alone.

A Constitutional amendment authorizing the levy of a Federal income tax.

At a conference held in Rochester, September 28, 1910, the league reaffirmed above declaration of principles, and in addition declared itself in favor of direct nominations. The following were officially declared to be the purposes of the organization: 1. To spread the knowledge of fundamental Democratic or liberal principles. 2. To stimulate interest in the Democratic party organization as the best and most natural means of carrying those principles into effect. 3. To bring back into the party in this State, Democrats who for any cause have in recent years been dissatisfied or discouraged and have therefore ceased to take an active part in the party organization. 4. To aid in the nomination and election of such Democrats as worthily represent the liberal principles of Democracy. 5. To aid in the selection of such men to direct the party organization as represent the character and intelligence of the party.

Chairman, Thomas M. Osborne, of Auburn; Vice-Chairman, John K. Sague, Poughkeepsie, N.Y.; Secretary, Francis A. Willard, of Albany; Treasurer, William Gorham Rice, of Albany. There is an executive committee of fifteen members, with the four general officers as members *ex-officio*.

# Election Returns.

BY STATES, COUNTIES, AND CONGRESSIONAL DISTRICTS.

## PORTO RICO.

Governor, Arthur Yager; Secretary, M. Drew Carrel; Treasurer, Allan H. Richardson; Auditor, J. W. Bonner; Attorney-General, Wolcott H. Pitkin, Jr.; Commissioner of Education, Edward M. Bainter; Commissioner of the Interior, John A. Wilson; Resident Commissioner of Territory at Washington, Louis Munoz Rivera.

Judiciary—Chief Justice, José C. Hernandez; Justices, Emilio del Toro, James H. McLeary, Adolph G. Wolf and Pedro de Aldrey; U. S. District Judge, Peter J. Hamilton; U. S. District-Attorney, W. N. Landers.

The Insular Legislature consists of an upper and lower house. The lower house is the elective branch and has 35 members, five from each of seven districts. Twenty-eight belong to the Unionist party and 7 to the Republican party. The Legislature sits for sixty days each year, the sessions beginning on the second Monday in January.

Total vote for Governor in 1912, 64,812, of which Allan M. Fletcher, Rep., had a plurality of 6,236 over Harland B. Howe, Dem, but Fletcher lacked the majority required for election by the Vermont Constitution. The election went to the joint session of the Legislature, which elected Fletcher and the full State ticket, none of which was elected by popular vote.

For President in 1912, Chafin, Proh., received 1,154 votes; Debs, Soc, 928.

For Governor in 1912, C F. Smith, Proh., received 1,735 votes; F. W. Suitor, Soc., 1,210.

For Governor in 1908, Backus, Ind., received 1,351 votes.

VOTE FOR REPRESENTATIVES IN CONGRESS, 1912.

*Districts.*

I. Counties of Addison, Bennington, Chittenden, Franklin, Grand Isle, Lamoille, and Rutland. Meldon, Dem., 9,154; Greene, Rep., 15,469; Story, Proh, 797; Spargo, Soc., 454.

II. Counties of Caledonia, Essex, Orange, Orleans, Washington, Windham, and Windsor. Cochran, Dem., 6,226; Plumley, Rep., 13,396; Sawyer, Dem. 8,269; Phillips, Proh., 532; Ordway, Soc, 766.

PRESENT STATE GOVERNMENT.

Governor, Allan M. Fletcher; Lieutenant-Governor, F. E. Howe; Secretary of State, Guy W. Bailey; Treasurer, Edward H. Deavitt; Auditor, Horace F. Graham; Attorney-General, R. E Brown; Adjutant-Gen'l, Lee S. Tillotson; Superintendent of Education, Mason S. Stone; Commissioner of Insurance, E. H. Deavitt, and Guy W. Bailey; Commissioner of Agriculture, E. S. Brigham—all Republicans.

*Commissioners*—John A. Shields, Samuel R. Betts, Samuel M. Hitchcock, Ed. L. Owen, Henry W. Goodrich, Herbert Green, Daniel B. Deyo, Edward J. Collins, Edward T. McEnany, Mortimer B. Patterson.

* Seating capacity is given from information furnished by the owners or managers of the theatres, but as some houses are able to add extra seats during important engagements the figures, in a few cases, are likely to vary slightly. On Dec. 12, 1911, the Board of Aldermen adopted a charter amendment permitting standees in theatres. The amendment provides that "any number of persons or rows of persons" may stand in the aisles back of the seats on the orchestra floor provided that a space six feet wide be kept clear when the aisles are sixteen feet wide or under, and that ten feet shall be kept clear when the aisles are more than sixteen feet in width. Only one row of standees is permitted in the galleries.

THEATRES IN COURSE OF CONSTRUCTION ON JANUARY 1, 1914,

221-39 W. 47th St., 586 Seventh Ave., 207th St. near Sherman Ave., 212 W. 81st St., 250 W. 90th St., 550 W. 181st St., 201 W. 123d St., 648 Third Ave., 250 W. 95th St., 607 W. 147th St., 52 W. 109th St., 153 W. 49th St., 223 W. 41st St.

The hour for beginning theatrical performances in New York varies, being dictated by the length of the plays. Curtains rise between 8 and 8.30 P. M.; doors at all theatres open at 7.30 P. M. Saturday matinees are given at all theatres; mid-week matinees are given on Tuesdays, Wednesdays or Thursdays, the days varying at different theatres and attractions. A few popular-price theatres and all-vaudeville houses give daily matinees. Such afternoon performances begin about 2 P. M.

The standard price for the best seats in New York theatres of the first class is $2, and in some houses $2.50, the scale grading down to fifty cents, according to location. In cases of the appearance of great celebrities an additional charge is sometimes, but not often, made.

The standard price for the best seats at the so-called popular-price theatres is $1, the scale grading down to twenty-five cents, according to location. At these theatres matinee seats are usually sold at reduced rates. A number of theatres of both the first and second classes in New York are being temporarily used as mixed moving-picture and vaudeville houses. Among such theatres are the Savoy, Lincoln Square, Third Avenue, New Star, Grand Street Theatre, Proctor's 23d and 58th Street Theatres, Circle, Herald Square, American Roof, Bijou, Broadway, Madison Square Roof, Miner's Eighth Ave., The Nemo, the Greeley Square at 6th Ave. and 30th St., and Hammerstein's Roof Garden. The prices of admission vary at these houses when used for moving-picture entertainments, some as low as ten cents.

The standard price for the best seats at the Metropolitan Opera House is $6, the scale grading down to $1, according to location. At this house seats and boxes are sold by annual subscription also. Some of the boxes are leased or owned outright; such boxes are valued as high as $100,000.

In the number, beauty and convenience of its theatres New York now leads all other cities of the world. Architecturally and in art treasures, however, some of the municipal and State endowed theatres of Continental Europe still excel. The New York Hippodrome, seating 5,200 people, is the largest and finest place of amusement of its kind in the world. The depth of the stage from the footlights to the back wall is 110 feet, while there is a width of 200 feet.

The Court of Appeals of the State of New York has decided that a theatre ticket is a personal contract which may be cancelled at the will of the management of the theatre. But the holder of a ticket which entitles him to a seat at a given time and place of amusement, upon being refused admission, must be refunded the full price of such ticket at the box office.

# Museums and Art Galleries

IN MANHATTAN AND BROOKLYN.

THE Metropolitan Museum of Art (Robert W. de Forest, President; Edward Robinson, Director) in Central Park, main entrance on Fifth Ave. at 82d St. Open daily, including Sundays. Paintings (including the Hearn, Marquand, Vanderbilt and Wolfe collections) and sculpture of ancient and modern schools, American and foreign; casts, antiquities, arms and armor, porcelains, musical instruments, tapestries, laces, metal work, furniture, and decorative arts.

Museum of the Brooklyn Institute of Arts and Sciences (A. Augustus Healy, President; William H. Goodyear, Curator of Art Department), Eastern Parkway and Washington Ave., Brooklyn. Open daily, including Sundays. Free, except on Mondays and Tuesdays, when an admission fee of 25 cents is charged. Paintings by American and foreign artists, Sargent's water colors, Tissot's New Testament series, casts and sculptures, Lawrence collection of Barye bronzes, Avery collection of Chinese cloisonnés, Professor Goodyear's architectural photographs.

New York Historical Society, 76th St. and Central Park West. Paintings by old and modern masters (including 200 American portraits), Audubon's original water colors for natural history plates, Peter Marié collection of miniatures.

New York Public Library, Fifth Ave., 40th–42d Street.

Fine Arts Building, 215 West 57th St., headquarters of Architectural League and Art Students' League. The semi-annual exhibitions of the National Academy of Design and the Water Color Society are held here.

National Arts Club and Galleries, 14 Gramercy Park.

The American Museum of Natural History (incorporated 1869), Central Park West, 77th St. and Columbus Ave. A museum and library of natural history to provide for the public a means of popular instruction on natural history and kindred subjects. Supported by subscriptions, city and endowment funds. Henry Fairfield Osborn, President; Cleveland H. Dodge, 1st Vice-President; J. Pierpont Morgan, Jr., 2d Vice-President; Charles Lanier, Treasurer; Archer M. Huntington, Secretary; Dr. Frederic A. Lucas, Director. The exhibition halls are open free to the public every day in the year. Hours: Week-days and legal holidays, from 9 A. M. to 5 P. M.; Sundays, from 1 to 5 P. M. Collections of animals, woods, minerals, gems and material illustrating the customs of various races. Courses of lectures are delivered to the pupils of the public schools. Free lectures to the public are also given on Tuesday and Saturday evenings under the auspices of the Board of Education. Public lectures are delivered on holidays, and several courses of lectures are given to members of the museum during the year. The library contains over 60,000 volumes.

Zoological Gardens, Central Park, entrance Fifth Ave. and 64th St., and at Bronx Park, 182d St. and Southern Boulevard. Admission free, except on Mondays and Thursdays, when 25 cents is charged.

Botanical Gardens (Bronx Park). Open daily from 10 A. M. to 4.30 P. M. Free.

Aquarium, Castle Garden, Battery Park. Admission free.

# Banks in Manhattan and Bronx.

THE Clearing-House is at 77 Cedar Street, Manhattan Borough. Wm. Sherer is Manager, Wm. J. Gilpin, Assistant Manager. Forty-eight banks and fifteen trust companies are associated for the purpose of exchanging the checks and bills they hold against each other. Other banks, not members of the association, clear through members. The representatives of the members appear at the Clearing-House at 10 o'clock A. M. every business day, with the checks and bills to be exchanged. The resulting balances are ascertained in about an hour, and before 1.30 o'clock those indebted pay their balances, and after that hour the other banks receive the amounts due them. The Clearing-House has been in operation since 1853.

Following are extracts from the Manager's annual report for year ending September 30, 1913: The Clearing-House transactions for the year have been as follows: Exchanges, $98,121,520,-97; balances, $5,144,130,384; total transactions, $103,265,650,681. The average daily transactions: Exchanges, $323,833,400; balances, $16,977,328; total, $340,810,728. Total transactions since organization of Clearing-House (60 years): Exchanges, $2,419,273,696,081; balances, $112,668,492,-955; total, $2,531,942,189,037.

Banks are open from 10 A. M. to 3 P. M., and on Saturdays from 10 A. M. to 12 noon. Commercial paper, except sight or demand bills, falling due on Saturday is payable on the following business day.

# Constancy of Employment of Wage-Earners.

THE Census Bureau on November 24, 1911, issued a statement showing greatest variation in the number employed by the leading industries in the United States. The average number of wage-earners employed in all these industries during 1909 was 6,615,046; the largest number, 7,006,853, was employed in November, and the smallest number, 6,210,063, in January, equal to 88.6 per cent. of the maximum. The statistics are embraced in the following tables:

INDUSTRIES IN WHICH LARGEST NUMBER OF WAGE-EARNERS ARE EMPLOYED.

| INDUSTRIES. | Average Number of Wage-Earners. | MAXIMUM MONTH. | | MINIMUM MONTH. | | |
|---|---|---|---|---|---|---|
| | | Month. | Number of Wage-Earners. | Month. | Number of Wage-Earners. | Per Cent. of Maximum. |
| Boots and shoes, including cut stock and findings | 198,297 | Dec. | 207,452 | May. | 190,382 | 91.8 |
| Bread and other bakery products | 100,216 | Oct. | 102,770 | Jan. | 96,639 | 94.0 |
| Cars and general shop construction and repairs by steam railroad companies | 282,174 | Dec. | 301,538 | May. | 268,700 | 89.1 |
| Clothing, men's, including shirts | 239,696 | Dec. | 251,349 | Jan. | 230,650 | 91.8 |
| Clothing, women's | 153,743 | Oct. | 167,525 | July | 135,034 | 80.6 |
| Cotton goods, including cotton small wares. | 378,880 | Dec. | 383,529 | Jan. | 374,433 | 97.6 |
| Foundry and machine shop products | 531,011 | Dec. | 597,234 | Jan. | 482,080 | 80.7 |
| Furniture, including refrigerators | 128,452 | Nov. | 136,615 | Jan. | 120,524 | 88 2 |
| Hosiery and knit goods | 129,275 | Nov. | 134,546 | Jan. | 123,308 | 91.7 |
| Iron and steel, steel works and rolling mills. | 240,076 | Dec. | 283,629 | Mar. | 215,076 | 75.8 |
| Lumber and timber products | 695,019 | Nov | 739,160 | Jan. | 649,239 | 87 8 |
| Printing and publishing | 258,434 | Dec. | 269,884 | July | 251,757 | 93 3 |
| Tobacco manufactures | 166,810 | Dec. | 176,369 | Jan. | 161,563 | 91.6 |
| Woollen, worsted, felt goods, and wool hats. | 168,722 | Nov. | 173,943 | Jan. | 158,318 | 91.0 |

IMPORTANT INDUSTRIES SHOWING LARGE VARIATIONS IN NUMBER OF WAGE-EARNERS.

| | | | | | | |
|---|---|---|---|---|---|---|
| Brick and tile | 76,528 | July | 104,930 | Jan. | 38,312 | 36.5 |
| Canning and preserving | 59,968 | Sept | 154,800 | Jan. | 19,998 | 12.9 |
| Ice, manufactured | 16,114 | July | 22,872 | Jan. | 9,847 | 43.1 |
| Oil, cottonseed and cake | 17,071 | Nov | 29,334 | July | 5,174 | 17.6 |

## SOUTHERN ASSOCIATION OF COLLEGE WOMEN.

*President*—Miss May L. Keller, Baltimore, Md. *Secretary*—Miss Elizabeth A. Colton, Meredith College, Raleigh, N. C. *Treasurer*—Mrs. Prentiss B. Reed, Birmingham, Ala.

The Southern Association of College Women was organized at the University of Tennessee, July, 1903. Its objects as stated in its Constitution are: "First to unite college women in the South for the higher education of women; second, to raise the standard of education for women; third, to develop preparatory schools, and to define the line of demarcation between preparatory schools and colleges."

## Hack and Cab Fares in Manhattan Borough.

THE legal rate of fare, of which an official copy shall be furnished by the Bureau of Licenses, and carried by every licensed hackman, shall be as follows:

Mileage rates charged for general driving.

Maximum rates of fare shall be as follows:

Motor Vehicles (Except Sight-Seeing Cars)—For not more than two passengers: For the first half-mile, or any fraction thereof, 30 cents; for each succeeding one-quarter mile, or any fraction thereof, 10 cents. For three or more passengers: For the first half-mile, or any fraction thereof, 40 cents; for each succeeding one-sixth mile, or any fraction thereof, 10 cents.

Sight-Seeing Cars—No rates are hereby established for sight-seeing cars, but a schedule of the rates charged for each trip shall before the trip be prominently displayed upon the car, and a charge greater, or attempt to charge any passenger a sum greater than that set forth in said schedule shall be deemed a violation of this ordinance.

Horse-Drawn Vehicles—For cabs: For the first mile, or any fraction thereof, 50 cents; for each succeeding one-half mile, or any fraction thereof, 20 cents. For coaches: For the first mile, or any fraction thereof, 70 cents; for each succeeding one-half mile, or any fraction thereof, 30 cents. Hourly rates (applying only to horse-drawn vehicles when shopping or calling, and not including park or road driving, nor driving more than five miles from starting point): For the first hour, or any part thereof, $1 50; for each additional one-half hour, 50 cents. In case of public hacks on which taximeters are not affixed, when driving on the numbered streets or numbered and lettered avenues in the Borough of Manhattan, twenty blocks north and south, and seven blocks between the numbered and lettered avenues constitute a mile for the purpose of this ordinance. The rate card, as provided for hereafter, shall state the number of blocks constituting a mile in the Borough of Manhattan.

Applying Both to Motor-Driven and Horse-Drawn Vehicles: For waiting time at the rate of $1.50 per hour. For each piece of luggage carried outside, 20 cents. No charge shall, however, be made for hand bags and suit cases. Ferriage and tolls in all cases to be paid by the party using the vehicle.

Any violation of the provisions of this article, or any charge or any attempt to charge any passenger a greater rate of fare than that to which the public hack is entitled under the provisions of this article, shall render the offender liable, upon conviction thereof before any City Magistrate, to a fine of not exceeding $10, or in default of payment thereof to imprisonment in the City Prison for a period not exceeding ten days.

Every driver of a public hack, immediately after the termination of any hiring or employment, must carefully search such hack for any property lost or left therein, and any such property, unless sooner claimed or delivered to the owner, must be taken to the nearest police station and deposited with the officer in charge within twenty-four hours after the finding thereof, and the captain of the precinct to which such report shall be made shall forward a written notice to the Bureau of Licenses with brief particulars and description of the property.

Every driver of a public hack shall have the right to demand payment of the legal fare in advance, and may refuse employment unless so prepaid, but no driver of a public hack shall otherwise refuse or neglect to convey any orderly person or persons upon request anywhere in the city, unless previously engaged or unable to do so. No driver of a licensed hack shall carry any other person than the passenger first employing a hack without the consent of said passenger.

All disputes as to the lawful rate of fare shall be determined by the police officer in charge of the police station nearest to the place where such dispute is had; failure to comply with such determination shall subject the offending party to a charge of disorderly conduct, punishable by a fine of not exceeding $10, or in default thereof, imprisonment for not more than ten days.

## Government of the District of Columbia.

THE municipal government of the District of Columbia is vested by act of Congress approved June 11, 1878, in three Commissioners, two of whom are appointed by the President from citizens of the District having had three years' residence therein immediately preceding that appointment, and confirmed by the Senate. The other Commissioner is detailed by the President of the United States from the Corps of Engineers of the United States Army, and must have lineal rank senior to Captain, or be a Captain who has served at least fifteen years in the Corps of Engineers of the Army. The Commissioners appoint nearly all the subordinate official service of said government, except the Board of Education, which is appointed by the Supreme Court of the District of Columbia. Commissioners Oliver P. Newman and Frederick L. Siddons (Democrats), whose terms expire July 19, 1916, and Lieut.-Col. Chester Harding (non-partisan), Corps of Engineers, United States Army, detailed during the pleasure of the President of the United States; Secretary, William Tindall. Offices of Commissioners, District Building, Washington, D. C.

The Judiciary—Court of Appeals: Chief Justice, Seth Shepard; Associate Justices, Charles H. Robb, J. A. van Orsdel. Supreme Court: Chief Justice, Harry M. Clabaugh; Associate Justices, Job Barnard, Thomas H. Anderson, Ashley M. Gould, Daniel T. Wright, Wendell P. Stafford.

# Jury Duty in Manhattan and Bronx.

To be qualified to serve a person must be not less than 21 nor more than 70 years of age, and he must be a male citizen of the United States, and a resident of the county of New York; and he is a resident within the meaning of the jury law if he dwells or lodges here the greater part of the time between the first day of October and the last day of June He must be the owner, in his own right, of real or personal property of the value of $250; or the husband of a woman who is the owner, in her own right, of real or personal property of that value. He must also be in the possession of his natural faculties, and not be infirm or decrepit; intelligent, of good character, and able to read and write the English language understandingly.

THE FOLLOWING PERSONS ARE ENTITLED TO EXEMPTION.

A Clergyman, Minister of any religion officiating as such, and not following any other calling. A practicing Physician, Surgeon, Surgeon-Dentist, or Veterinary Surgeon not following any other calling, and a licensed Pharmaceutist or Pharmacist, or a duly licensed Embalmer, while actually engaged in his profession as a means of livelihood. An Attorney or Counsellor-at-Law regularly engaged in the practice of law as a means of livelihood. A Professor or Teacher in a college, academy, or public school, not following any other calling. Editor, Editorial Writer, or Reporter of a daily newspaper or press association regularly employed as such, and not following any other vocation. The holder of an office under the United States, or the State, or city or county of New York, whose official duties, at the time, prevent his attendance as a juror. A Consul of a foreign nation. A Captain, Engineer, or other officer actually employed upon a vessel making regular trips; a licensed Pilot, actually following that calling. A Superintendent, Conductor, or Engineer employed by a Railroad Company other than a street railroad company, or a Telegraph Operator employed by a Press Association or Telegraph Company who is actually doing duty in an office, or along the railroad or telegraph line of the company or association by which he is employed. Honorably discharged Firemen. Active and honorably discharged Militiamen and active members of the Old Guard. A duly licensed Engineer of steam boilers actually employed as such. Inspectors, Poll Clerks, and Ballot Clerks, or a person who is physically incapable. Grand, Sheriff's, Special, and Municipal Court Jurors.

# Commerce of the Port of New York.

## IMPORTS AND EXPORTS OF MERCHANDISE AND BULLION.

THE following compilation gives the foreign trade movement of the port for twenty-one calendar years ending with 1912. It shows the foreign imports, domestic exports and foreign exports of the Port of New York, as well as the special movement in the form reported from year to year by the Secretary of the Chamber of Commerce:

VALUE OF FOREIGN IMPORTS INTO THE PORT OF NEW YORK FOR THE LAST TWENTY-ONE YEARS, ENDED DEC. 31.

| YEARS | Dutiable. | Free Goods. | Specie and Bullion. | Total Foreign Imports |
|---|---|---|---|---|
| 1892 .. | $254,360,354 | $317,939,925 | $11,407,559 | $583,707,838 |
| 1893 .. | 236,490,931 | 291,999,022 | 65,827,758 | 594,317,711 |
| 1894 .. | 198,646,169 | 239,767,676 | 20,671,236 | 459,085,081 |
| 1895 . | 284,036,654 | 232,250,120 | 32,856,122 | 549,142,896 |

# Bridges In and About the City of New York.

## BROOKLYN BRIDGE.

THE bridge connecting Manhattan and Brooklyn over the East River from Park Row, Manhattan, to Sands and Washington Streets, Brooklyn, was begun January 3, 1870, and opened to traffic May 24, 1883. Total cost of the bridge to date about $22,400,000.

The tolls are: For foot passengers, free; railway fare, 3 cents, or 2 tickets for 5 cents. Roadway tolls for vehicles abolished July 18, 1911. On August 23, 1897, the bridge railway was leased to the elevated railroad companies (now operated by the Brooklyn Rapid Transit), paying therefor 10 cents per car; trolley cars, 5 cents per round trip. About 125,000 surface cars cross the bridge each month.

The following are the statistics of the structure: Width of bridge, 86 feet. Length of river span, 1,595 feet 6 inches. Length of each land span, 930 feet. Length of Brooklyn approach, 998 feet. Length of New York approach, 1,562 feet 6 inches. Total length of carriageway, 6,016 feet. Total length of the bridge, with extensions, 7,580 feet.

Size of Manhattan caisson, 172 x 102 feet. Size of Brooklyn caisson, 168 x 102 feet. Timber and iron in caisson, 5,253 cubic yards. Concrete in well holes, chambers, etc., 5,669 cubic feet. Weight of Manhattan caisson, about 7,000 tons. Weight of concrete filling, about 8,000 tons.

Manhattan tower contains 46,945 cubic yards masonry. Brooklyn tower contains 38,214 cubic yards masonry. Depth of tower foundation below high water, Brooklyn, 45 feet. Depth of tower foundation below high water, Manhattan, 78 feet. Size of towers at high water line, 140 x 59 feet. Size of towers at roof course, 136 x 53 feet. Total height of towers above high water, 272 feet.

Clear height of bridge in centre of river span above high water at 90° F., 135 feet. Height of floor at towers above high water, 119 feet 3 inches.

Grade of roadway, 3¼ feet in 100 feet. Height of towers above roadway, 153 feet. Size of anchorage at base, 129 x 119 feet. Size of anchorage at top, 117 x 104 feet. Height of anchorages, 89 feet front, 85 feet rear. Weight of each anchor plate, 23 tons.

Number of cables, 4. Diameter of each cable, 15¾ inches. Length of each single wire in cables, 3,578 feet 6 inches. Ultimate strength of each cable, 12,000 tons. Weight of wire, 11 feet per pound. Each cable contains 5,296 parallel (not twisted) galvanized steel, oil-coated wires, closely wrapped to a solid cylinder, 15¾ inches in diameter. Permanent weight suspended from cables, 14,680 tons.

## MANHATTAN BRIDGE.

Manhattan terminal, Bowery and Canal St.; Brooklyn terminal, Nassau, near Bridge St. Estimated cost, $26,000,000; of which $14,000,000 is for structure, $8,000,000 for land in Manhattan, and $4,000,000 for land in Brooklyn.

Width of bridge, 122 ft. 6 in. Length of river span, 1,470 ft. Length of each land span, 725 ft. Length of Manhattan approach 2,067 ft. Length of Brooklyn approach, 1,868 ft. Total length of roadway, 6,855 ft. Bridge is of double-deck design, first deck to have one 35-foot roadway in centre and two subway tracks on each side and one 11-foot footwalk on each side, top deck to have four trolley tracks. Approximately 40,000 cubic yards excavation for each anchor pier; approximately 115,000 cubic yards masonry and concrete in each anchor pier.

Height of cables at top of tower above mean high water mark, 322 ft. 6 in. Height of roadway at centre of bridge above mean high water mark, 149 ft. Grade of roadway 3⅛ ft. in 100 ft. Number of cables four, 37 strands in each cable; 256 wires in each strand; 9,472 wires in each cable; 37,888 wires in four cables. Size of wire 0.192 inches in diameter. Size of cable completed 21¼ inches in diameter. Length of each wire 3,223 ft. 6 in. (anchor to anchor). Ultimate strength of each cable, 30,000 tons.

Weight of steel cables and suspenders, 8,000 tons. Weight of each tower, 6,300 tons. Weight of main span, 9,000 tons. Weight of each side span, 5,000 tons. Weight of steel in each anchorage, 1,300 tons. Weight of Manhattan approach, 8,500 tons. Weight of Brooklyn approach, 8,000 tons.

Work of construction of tower foundation in Brooklyn commenced October 1, 1901. Roadway opened for traffic December 31, 1909. East footwalk opened to pedestrians July 18, 1910. West footwalk opened May 11, 1911.

## WILLIAMSBURG BRIDGE.

The tower foundations for the bridge in Manhattan are at the foot of Delancey Street, and in Brooklyn at a point between South Fifth and South Sixth Streets. The bridge ends at Clinton Street in Manhattan, and at Havemeyer Street in Brooklyn. Construction commenced November 7, 1896. Size of Manhattan caissons (2), 76 x 60 feet; Brooklyn caissons (2), 79 x 63 feet. Depth of tower foundations in Manhattan, north cassion 55 feet, south caisson 66 feet below mean high water; in Brooklyn, north caisson 107 feet 5 inches, south caisson 91 feet 9 inches below mean high water. Height of masonry in Manhattan and Brooklyn towers, 23 feet above mean high water. Total height of towers above mean high water, 332 feet 9 inches. Size of both anchorages at top, 149 feet x 127 feet 5 inches. Length of main span, 1,600 feet; each side span, 596 feet 6 inches; Manhattan approach, 2,650 feet; Brooklyn approach, 1,865 feet. Total length from Clinton Street, Manhattan, to New Street, Brooklyn, 7,308 feet. Width over all, 118 feet. Two roadways, each 20 feet wide, two footwalks, each 17 feet 8 inches wide. Height of roadways at towers, 125 feet 8 inches above mean high water. Height of roadways at centre of bridge, 145 feet 6 inches above mean high water. Clear height of bridge for channel width of 400 feet, 135 feet above mean high water. Number of supporting cables, 4. Diameter of each cable, 18⅝ inches. Length of each single wire in cables, 2,985 feet. Total length of wire in four cables, 17,404 miles. Weight of four cables, including suspenders, 4,900 tons. Weight of structural steel and iron in main bridge, 23,800 tons; in approaches, 16,600 tons; total, 45,300 tons. Bridge opened for pedestrians and vehicles December 19, 1903. Surface railway for Brooklyn lines began operation November 3, 1904. Surface railway for Manhattan lines began operation February 9, 1905. Elevated railway began operation September 16, 1908. Cost of construction, including station in Manhattan, $14,000,000. Cost of land, $9,100,000.

## QUEENSBORO BRIDGE.

Plans approved by the War Department, February 23, 1901. Main bridge is a continuous cantilever. Bridge, with approaches, extends from Second Avenue, between Fifty-ninth and Sixtieth Streets, Manhattan, to Crescent Street, Queens. Construction commenced

BRIDGES IN AND ABOUT THE CITY OF NEW YORK—*Continued.*

June, 1901. Height of highest masonry piers, 124 feet above mean high water. Length of Manhattan approach, 1,052 feet; west channel span, 1,182 feet; island span, 630 feet; east channel span, 984 feet; length of Queens approach, 2,672 feet 6 inches. Total length from Second Avenue to Crescent Street, 7,449 feet. In addition, the Queens plaza has a length of 1,152 feet, extending from Crescent Street to Jackson Avenue. Width over all, 89 feet 6 inches. Width of roadway, 53 feet. Two sidewalks, each 16 feet wide. Height of roadway in central portion of bridge, 143 feet above mean high water. Height of footwalks in central portion of bridge, 165 feet above mean high water. Height of lower balconies on towers on Blackwell's Island, 202 feet, 6 inches above mean high water. Height of upper balconies on towers on Blackwell's Island, 333 feet above mean high water. Clear height of bridge for channel width of 400 feet for both east and west channels, 135 feet above mean high water. Weight of steel and iron in main bridge, 54,200 tons; in approaches, 20,300 tons. Total, 74,500 tons. Bridge opened for pedestrians and vehicles March 30, 1909. Surface railway began operation, September 19, 1909. Cost of bridge construction, $13,500,000; cost of land, $4,400,000; total, $17,900,000.

# Parks in Brooklyn and Queens.

## SHOWING SIZE, BOUNDARIES, AND VALUE.

Prospect, 526 acres, Prospect Park, West, 15th St., Coney Island, Parkside, Ocean and Flatbush Aves., value $27,735,000

Fort Greene, 29 acres, De Kalb Ave., Washington Park, Willoughby St., St. Edward's St. and Myrtle Ave., value $1,890,000.

Bedford, 4 acres, Brooklyn and Kingston Aves., Park Pl. and Prospect Pl., value $175,000.

Brooklyn Heights, 5 parks, comprising one acre, Columbia Heights, fronting on Furman St., value $200,000.

Tompkins, 8 acres, Tompkins, Greene, Marcy and Lafayette Aves., value $400,000.

City, 7½ acres, St. Edward's and Navy Sts., Park and Flushing Aves., value $325,000.

Borough Hall, 1¾ acre, junction of Court and Fulton Sts., value $100,000.

Carroll, 2 acres, President, Court, Carroll and Smith Sts., value $390,000.

Dreamland, Coney Island, 14¾ acres.

Winthrop, 9 acres, Nassau and Driggs Aves., Monitor and Russell Sts., value $325,000.

Highland, terminus of Eastern Parkway Extension and Jamaica Ave., 42½ acres, value $1,000,000.

Sunset, 24½ acres, 41st to 45th Sts., 5th to 7th Ave., value $200,000.

Red Hook, 5¼ acres, Richards, Dwight, Verona and Pioneer Sts., value $150,000.

Bushwick, 7 acres, Knickerbocker and Irving Aves., Starr and Suydam Sts., value $150,000.

Brooklyn Botanic Garden, 69 acres, Washington Ave., Eastern Parkway and Flatbush Ave., value $3,000,000.

Parade Ground, 40 acres, Coney Island Ave., Caton Ave., value $1,290,000.

Dyker Beach, 140 acres, 7th Ave., New York Bay, Bay 8th St., Cropsey and 14th Aves., value $300,000.

Kings, 11½ acres, Fulton, Alsop and Ray Sts. and Sheldon Ave., Jamaica.

McKinley, 8½ acres, Fort Hamilton and 7th Aves. and 73d St., value $124,000.

Rainey, 4 acres, Vernon Ave., at Graham.

Bensonhurst Beach, 13 acres, Bay Parkway, Gravesend Bay, 21st and Cropsey Aves., value $88,000.

Lincoln Terrace, 7½ acres, Eastern Parkway, Buffalo Ave., President St. and Rochester Ave., value $120,000.

Canarsie, 30½ acres, Skidmore, Seaview and Denton Aves., and Jamaica Bay, value $105,000.

New Lots Playground, 2¼ acres, Sackman St., Newport, Christopher and Riverdale Aves., value $108,000.

Cooper, 6 acres, Maspeth and Morgan Aves., Sharon and Olive Sts., value $100,000.

Irving Sq., 3 acres, Hamburg and Knickerbocker Aves., Halsey and Weirfield Sts., value $70,000.

Saratoga Sq., 3¼ acres, Saratoga and Howard Aves., Halsey and Macon Sts., value $121,000.

Linton, 2¼ acres, Bradford St., Blake, Dumont and Miller Aves., value $75,000.

Forest, 536 acres, between Jamaica Ave. and Union Turnpike, Flushing and Myrtle Aves., Richmond Hill, value $1,250,000.

Fort Hamilton, 4½ acres, 4th Ave., Fort Hamilton Ave. and Shore Road, value $150,000.

### PARKWAYS.

Ocean Parkway, 5½ miles, Prospect Park to Coney Island, value $4,000,000.

CENTRAL PARK.

The great park of New York extends from 59th St. to 110th St., being over 2½ miles long, and from 5th Ave. to 8th Ave., being over half a mile wide. It covers 843 acres, of which 185 are in lakes and reservoirs and 400 in forest, wherein over half a million trees and shrubs have been planted. There are 9 miles of roads, 5¼ of bridle paths, and 31 of walks. The landscape architects of the Park were Frederick Law Olmsted and Calvert Vaux. Work was begun on the Park in 1857. The following fanciful names have been officially applied to the several entrances to the Park: 5th Ave. and 59th St., Scholar's Gate; 6th Ave. and 59th St., Artist's Gate; 7th Ave. and 59th St., Artisan's Gate; 8th Ave. and 59th St., Merchant's Gate; 8th Ave. and 72d St., Woman's Gate; 8th Ave. and 81st St., Hunter's Gate; 8th Ave. and 85th St., Mariner's Gate; 8th Ave. and 96th St., Gate of All Saints; 8th Ave. and 100th St., Boy's Gate; 8th Ave. and 110th St., Stranger's Gate; 5th Ave. and 67th St., Student's Gate; 5th Ave. and 72d St., Children's Gate; 5th Ave. and 79th St., Miner's Gate; 5th Ave. and 90th St., Engineer's Gate; 5th Ave. and 96th St., Woodman's Gate; 5th Ave. and 102d St., Girl's Gate; 5th Ave. and 110th St., Pioneer's Gate; 6th Ave. and 110th St., Farmer's Gate; 7th Ave. and 110th St., Warrior's Gate.

FACTS ABOUT PUBLIC PARKS.

Union Square was purchased by the city in 1833 for $116,051; Madison Square, in 1847, for $65,952; Tompkins Square, in 1834, for $93,358; Washington Square, in 1827, for $77,970, and Manhattan Square, in 1839, for $54,657. The latter is assessed as a part of Central Park. The other four are assessed at over $16,000,000, and are easily worth $20,000,000, while their original cost to the city was only $353,331. Prospect Park, Brooklyn, contains 526 1-6 acres. In woodland, 110 acres; in lakes and watercourses, 77 acres; in meadows, 70 acres; in plantations, 259 1-6 acres; in drives, 9 miles; in bridle roads, 3 1-10 miles; in walks, 12 miles. Ocean Parkway is 5 1-2 miles long and 210 feet wide. Eastern Parkway is 2 1-2 miles long and 210 feet wide. London has 271 public parks, containing 17,876 acres of ground. The largest European city park is in Denmark; it contains 4,200 acres. The great forest of Northern New York covers an area of 3,588,803 acres.

# New York Catholic School Board.

HEADQUARTERS, 23 East 51st Street, New York. *President*, Rt. Rev. Mgr. Joseph F. Mooney, V. G. *Secretary*—Rev. Michael J. Considine. *Superintendents*—Revs. Joseph F. Smith and Michael J. Larkin. This board gives the following report of Catholic Schools: In 1910 there were in the Archdiocese of New York 156 Catholic Elementary Schools with a registration of 77,363 scholars. The valuation of land and buildings for school purposes in Manhattan was $9,769,500; Bronx, $1,362,000; Richmond, $216,000 and the city of Yonkers, $345,000. In 1912 there were 173 Catholic Elementary Schools in Greater New York, at which the enrolled attendance of pupils was 135,000.

## HIGH SCHOOL.

Curtis — Hamilton av. and St. Mark's pl., New Brighton.

# The Public Schools of New York City.

(By A. Emerson Palmer, Secretary, Board of Education, New York City.)

PUBLIC education in New York City began with the founding of the Free School Society (after 1826 the Public School Society) in 1805. The society started in a small way, depending upon private subscriptions, but soon received aid from the city. It gradually expanded, and until 1842 had control of the moneys supplied for educational purposes by the city and the common school fund of the State. This condition of affairs was unique. The society, being under the direction of high-minded citizens, enjoyed a large degree of public confidence. So anomalous a system could not last, however, and by an act of the Legislature, passed in 1842, the Board of Education was established. The Public School Society continued to conduct its schools until 1853, when, by mutual consent, they were all taken over by the Board. The society at that time had more than a hundred schools; the value of the property it transferred to the city was estimated at $450,000, and during its existence it educated some 600,000 children. The Board of Education was an elective body from 1842 to 1871, the members being chosen first by wards, and from 1863 by school districts; since 1871, they have been appointed by the Mayor. In Brooklyn a Board of Education was created in 1843; the members were chosen by the Common Council until 1862, in which year the appointing power was vested in the Mayor. When consolidation took effect, in 1898, separate school boards were provided for the several boroughs (Manhattan and the Bronx being united), with a central Board of Education (a delegated body) having charge of the finances, the erection and repair of buildings, the acquiring of sites, the purchase and distribution of supplies, etc. This system was dropped on the revision of the Charter in 1901, and since 1902 there has been one Board of Education for the city. It consists of forty-six members—twenty-two for Manhattan, fourteen for Brooklyn, four each for the Bronx and Queens, and two for Richmond. Their term of office is five years.

The Board of Superintendents, consisting of the city superintendent of schools and eight associate superintendents, has large powers in the nomination, promotion, and transfer of teachers, the recommendation of text-books and scholastic supplies, the determination of courses of study, the fixing of qualifications for teachers' licenses, etc. Its important acts require the approval of the Board of Education. There are twenty-six district superintendents, whose duties are to visit schools and observe the work of teachers. The Board of Examiners (consisting of the city superintendent and four examiners) conducts all examinations for would-be teachers, and prepares eligible lists. The school superintendents and examiners, as well as the supervisor of free lectures, the superintendent of school buildings, and the superintendent of school supplies (whose duties are indicated by their titles), have terms of six years each. The Board of Education appoints all these officials and also a secretary and auditor, having no fixed term. Principals and teachers are appointed by the Board of Education on the nomination of the Board of Superintendents. The merit system is in full operation, and teachers are appointed in order of standing. Beginners are on probation for three years, their licenses being renewable from year to year; when permanently licensed, their tenure is assured, and they cannot be removed except on charges. New teachers are appointed only after pursuing a training school course.

The budget appropriation of the Department of Education for 1913 was $35,206,846.90, of which $29,195,810.70 constituted the general school fund (for teachers' salaries). For 1914 the appropriation is $38,203,406.92, the general school fund being $31,485,975.17. Under the so-called Equal Pay law (Chapter 902, laws of 1911) teachers (men and women) in elementary schools serve three years at $720; they then advance, with yearly increments of $60, to $1,500. This applies to the great majority. In the upper grades the maximum salaries are $1,820 and $2,260. Assistants to principals (heads of departments) receive $2,400, and principals $3,500. In high schools salaries range from $900 to $3,150; in training schools, from $1,000 to $3,250. Principals of high schools and training schools are paid $5,000, and $5,000 is the salary of district superintendents. Examiners receive $6,000. Associate superintendents receive $6,500. The salary of the city superintendent is $10,000. The number of elementary schools is 503—160 in Manhattan, 173 in Brooklyn, 50 in the Bronx, 86 in Queens and 34 in Richmond. The number of high schools is 23. There are also three training schools for teachers, two vocational schools, and three truant schools. In the elementary schools there are 1,349 men and 15,980 women teachers; in the high schools 926 men and 947 women. In the evening schools (high and elementary) there are 2,425 teachers. Ninety-six attendance officers enforce the Compulsory Education law. The latest available figures show the attendance as follows:

| | Elementary Schools. (Kindergarten, Primary, Grammar). | High Schools. | | Elementary Schools. (Kindergarten, Primary, Grammar). | High Schools. |
|---|---|---|---|---|---|
| Manhattan ..... | 245,182 | 16,062 | Richmond..... | 13,334 | 1,098 |
| Brooklyn ..... | 239,756 | 18,727 | | | |
| The Bronx..... | 80,535 | 3,801 | Totals..... | 630,658 | 44,278 |
| Queens ..... | 51,851 | 4,590 | | | |

Number on part time (three and three-fourths hours per day), elementary schools:

| | | | |
|---|---|---|---|
| Manhattan..... | 2,785 | Richmond..... | 00 |
| Brooklyn ..... | 16,174 | | |
| The Bronx..... | 18,395 | Total..... | 40,667 |
| Queens ..... | 3,313 | | |

Capacity, as per rule adopted by the Board of Education, May 24, 1911, pursuant to Section 451 of the State Education Law:

| | Elementary Schools. | High Schools. | | Elementary Schools. | High Schools. |
|---|---|---|---|---|---|
| Manhattan. . | 218,360 | 19,344 | Richmond... | 17,471 | 1,464 |
| Brooklyn.... | 215,495 | 24,978 | | | |
| The Bronx... | 64,121 | 4,526 | Totals..... | 574,208 | 56,984 |
| Queens..... | 58,761 | 6,672 | | | |

The increase in capacity since September, 1912, has been 18,677, and the decrease in the number of part-time pupils has been 49,605.

Teachers incapacitated after thirty years' service are retired on pensions (half pay); the number of retired teachers is 1,517.

School buildings and sites are paid for with the proceeds of city bonds (corporate stock); the amount issued since consolidation has been $107,794,950.

# Fire Department in New York City.

TABLE showing number of firemen in active service in New York, and salaries they receive:

| MANHATTAN, BRONX AND RICHMOND. | Salary. | BROOKLYN AND QUEENS. | Salary. |
|---|---|---|---|
| 1 Chief of Department | $10,000 | 1 Deputy Chief in Charge | $7,500 |
| 9 Deputy Chiefs of Department | 4,200 | 5 Deputy Chiefs | 4,200 |
| 1 Chief of Construction and Repairs to Apparatus | 3,300 | 23 Chiefs of Battalion | 3,300 |
| 24 Chiefs of Battalion | 3,300 | 127 Captains | 2,500 |
| 153 Captains | 2,500 | 168 Lieutenants | 2,100 |
| 241 Lieutenants | 2,100 | 212 Engineers of Steamers | 1,600 |
| 270 Engineers of Steamers | 1,600 | 1,116 Firemen 1st Grade | 1,400 |
| 1,584 Firemen 1st Grade | 1,400 | 59 " 2d " | 1,200 |
| 106 " 2d " | 1,200 | 34 " 3d " | 1,000 |
| 83 " 3d " | 1,000 | 236 " 4th " | 1,000 |
| 338 " 4th " | 1,000 | 5 Medical Officers | 3,300 |
| 1 Chief Medical Officer | 4,200 | 5 Pilots | 1,500 |
| 5 Medical Officers | 3,300 | 1 Marine Engineer | 1,600 |
| 15 Pilots | 1,500 | Making a total of uniformed force, 4,828. | |
| 5 Marine Engineers | 1,600 | | |

Pursuant to the provisions of Section 790, Greater New York Charter, all uniformed members of the Fire Department are entitled to retire at the expiration of twenty years' continuous service on a pension equal to not less than one-half of the salary they may be receiving at the time of their application. The Fire Commissioner also has the power to retire members of the department who, from any cause, are found to be unable to perform active duty in the department. If the disability occurs from injuries while in the discharge of duty, the pension must equal one-half of the salary; if from natural causes, the Fire Commissioner can decide upon the amount of the pension.

## Postal Letter Carriers in New York City.

TABLE showing number of letter carriers employed in the different boroughs, and the salaries they receive.

| BOROUGH. | Number of Carriers. | BOROUGH. | Number of Carriers. |
|---|---|---|---|
| Manhattan and Bronx | 2,759 | Richmond: | |
| Brooklyn | 1,040 | Port Richmond | 8 |
| Queens: | | West New Brighton | 10 |
| Flushing | 59 | New Brighton | 9 |
| Jamaica | 55 | Rosebank | 7 |
| Long Island City | 38 | Stapleton | 10 |
| | | Tompkinsville | 6 |

Total number in New York City 3,951 (December, 1913).

The salaries of letter carriers are graded by law as follows: In Manhattan and Bronx, carriers are originally appointed as substitutes and receive pay at rate of 30 cents per hour and 8 cents for each special delivery letter they deliver; when appointed as regular carriers they receive, the first year, $800; second year, $900; third year, $1,000; fourth year, $1,100; fifth year, $1,200; 2,114 receive $1,200 each; 108, $1,100 each; 16, $1,000 each; 79, $900 each; 342, $800 each.

In Brooklyn carriers receive from $800 to $1,200 per annum each. In Long Island City carriers receive $1,200 each. In Flushing carriers receive from $800 to $1,200 per year, and eight substitutes 30 cents per hour. In Jamaica carriers receive from $800 to $1,200 per year. In Rosebank carriers receive $1,100, one $900. In Tompkinsville six carriers receive $1,100 each. In West New Brighton nine carriers receive $1,100, one receives $800. In New Brighton eight carriers receive $1,100, one $600. In Stapleton eight receive $1,200 each, two $1,100. In Port Richmond carriers receive $1,100 each.

There is no retirement pay for any of the civil service employés of the United States Government.

No registry business is transacted on Sundays, but on holidays letters and parcels may be registered from 8 to 10 A. M.]

## PAWNBROKERS' REGULATIONS IN THE CITY OF NEW YORK.

PAWNBROKERS in New York City are regulated by statute. The rate of interest fixed by law is 3 per cent. a month or any fraction of a month for the first six months, and 2 per cent. per month for each succeeding month upon any loan not exceeding $100, and 2 per cent. a month for the first six months and 1 per cent. a month for each succeeding month on any loan exceeding $100. Pledges cannot be sold until after they have been kept one year, and then at public auction by a licensed auctioneer, after publication of at least six days in two daily newspapers designated by the Mayor. Pawnbrokers pay a yearly license fee of $500 to the city and are under the control of the Mayor. The license is issued through the Bureau of Licenses, and their books must be kept open to the Mayor, Criminal Courts, Magistrates, Police and Bureau of Licenses.

## PROVIDENT LOAN SOCIETY.

(Executive office, 346 Fourth Ave., cor. 25th St.) Loaning offices: 346 Fourth Ave., 186 Eldridge St., 180 E. 72d St., cor. E. Houston and Essex Sts., 736 Seventh Ave., 124th St. and Lexington Ave., 409 Grand St.; Bronx, Courtlandt Ave. at 148th St.; Brooklyn, 24 Graham Ave., Pitkin and Rockaway Aves.

Office hours: 9 A. M. to 5 P. M.; Saturday to 6 P. M. Ticket good for one year only. Loans may be paid by instalments, in sums not less than $1. Rates of interest: One per cent. per month, or any fraction thereof. Only one-half month interest charged on all loans redeemed within two weeks after date of pledge. Condition of loan agreed to by the holder of the ticket in consideration of interest being charged at less than the rate allowed by law. The Provident Loan Society of New York shall not be liable for loss or damage by fire, breakage, dampness, theft, or moths; nor shall it be liable in any event for more than 25 per cent. in addition to the amount loaned. Robert W. DeForrest, President; Frank Tucker, Vice-President; James Speyer, Treasurer; Mortimer L. Schiff, Secretary.

When making payment by instalment, the full amount of interest due on the sum loaned must be included, and the ticket must be returned. The interest due on the loan cannot be paid by instalment. The Society has thus far limited the classes of personal property on which it has made loans to clothing and so-called "jewelry," including under that designation all articles of gold or silver, precious stones, opera-glasses, eye-glasses, also men's clothing in good condition, and ladies' and men's furs.

## THE MERCHANTS' ASSOCIATION OF NEW YORK.

THE Merchants' Association of New York is a commercial organization whose object it is "to foster the trade and welfare of New York," to develop its industries, and to protect its interests. The association was founded in 1898. Headquarters, Woolworth Building, 233 Broadway. It has about 3,400 members, doing business in all the five boroughs of the city. *President*—William A. Marble. *Secretary*—S. C. Mead.

The organization includes a Research Bureau, a Traffic Bureau, an Industrial Bureau, a Convention Bureau, a Publicity Bureau, and a Membership Bureau. It is a membership corporation, governed by a Board of Directors elected by the membership and has twenty-seven standing committees, who make recommendations to the directors. Among the subjects to which it is giving attention are the proposal to establish a "Free Port" in New York, and the improvement of the postal service. It initiated the proceedings which led to the reform of the methods of the express companies and the reduction of rates. The annual dues are $50.

# New York Chamber of Commerce.

ORGANIZED April 5, 1768. Incorporated by George III. March 13, 1770. Reincorporated by the State of New York April 13, 1784. Its object is indicated in the following words of the original charter: "Sensible that numberless inestimable benefits have accrued to mankind from commerce; that they are, in proportion to their greater or lesser application to it, more or less opulent and potent in all countries; and that the enlargement of trade will vastly increase the value of real estates as well as the general opulence of our said colony," and "to carry into execution, encourage, and promote, by just and lawful ways and means, such measures as will tend to promote and extend just and lawful commerce."

During the decade 1760-1770, according to Lord Sheffield's *Observations*, the average yearly value of American Colonial imports from Great Britain was £1,763,409, and of exports to the same country £1,044,591. Up to the evacuation of the city by the British and its occupation by the Americans, on the 25th of November, 1783, the New York Chamber of Commerce had had seven Presidents, thirteen Vice-Presidents, eight Treasurers, one Secretary, and 135 members. In May, 1763, the Sandy Hook Lighthouse was lighted up for the first time. In 1786 the Chamber of Commerce first suggested the construction of the Erie Canal, and in 1784 petitioned the New York Legislature (which so ordered) that duties should be levied under a specific instead of an *ad valorem* tariff.

As a society the Chamber of Commerce is limited to fifteen hundred resident and two hundred and fifty non-resident members. Initiation fee, $50. Annual dues, $50 per annum. Non-resident members, $25 per annum.

The building of the Chamber is at 65 Liberty Street, New York. Officers: *President*—John Claflin; *Secretary*—Sereno S. Pratt; *Assistant Secretary*—Chas. T. Gwynne; *Treasurer*—William H. Porter.

# Subway Systems in New York City.

For Tunnels in and about New York City, see Index.

## EXISTING SUBWAYS.

THE subway operated by the Interborough Rapid Transit Company comprises:

A four-track trunk line from City Hall Park through Lafayette Street, Fourth Avenue, Forty-second Street and Broadway to Ninety-sixth Street.

A two-track southern extension from City Hall, down Broadway to the Battery, there connected by the Rapid Transit Tunnel under the East River to the Brooklyn subway, which extends along Joralemon and Fulton Streets to Atlantic Avenue.

Two northern branches from Ninety-sixth Street, viz. (*a*) the Broadway and (*b*) the Lenox Avenue.

(*a*) The Broadway or West Side branch extends along Broadway, St. Nicholas and Amsterdam Avenues, and Broadway to 242d Street (Van Cortlandt Park). It has three tracks from Ninety-sixth Street to 137th Street and two beyond. Part of it is an elevated structure.

(*b*) The Lenox Avenue branch has two tracks (portions of which are carried on an elevated structure) with a terminal at Bronx Park.

Total length of all the above routes, 26 3 miles, having 85 2 miles of track. Standard four-track cross section (two for express trains and two for local) 54 feet 8½ inches wide over all and 16 feet 7 inches high, with roof supported by steel columns. 97,500 tons of structural steel and 725,000 cubic yards of concrete used The contract for the subway in New York north of City Hall was awarded January 15, 1900, to John B. McDonald and completed by him October 27, 1904. The contract for subways south of City Hall and in Brooklyn were awarded after the one in New York to the Rapid Transit Subway Construction Co, and were completed in 1908. Total cost about $75,000,000, of which $50,000,000 was expended on the construction of the subway, and $25,000,000 on the equipment, viz., power house, rolling stock signals, etc

The Hudson and Manhattan Railroad operates a system of subways popularly known as the McAdoo Tunnels. These tunnels connect the business section of New York with the Pennsylvania Railroad the Lehigh Valley Railroad, the New York, Susquehanna and Western Railroad, the Erie Railroad and the Delaware, Lackawanna and Western Railroad terminals on the New Jersey side. There are two sets of tunnels under the Hudson River. On the New York side the downtown tunnel terminates in the Hudson Terminal Building at Church and Fulton Streets. The uptown tunnel terminates at Sixth Avenue and Thirty-third Street. It is planned to extend this line to the Grand Central Station at Forty-second Street. The total length of the system is 7.40 miles, of which 3.64 miles are in New York and 3.76 miles in New Jersey.

## SUBWAYS UNDER CONSTRUCTION.

The Public Service Commission for the First District, the Board of Estimate and Apportionment of the city of New York, the Interborough Rapid Transit Co. and the New York Municipal Railway Corporation (Brooklyn Rapid Transit Co.) concluded their negotiations for the construction and operation of new rapid transit lines in New York City. These lines comprise what is known as the Dual System so called because two companies already engaged in city transportation—viz., the Interborough Rapid Transit Co. and the Brooklyn Rapid Transit Co.—obtained leases for the operation of the new system. The contracts were signed March 19, 1913.

The new contracts call for the construction of 44.55 miles of new subway, 53.19 miles of new elevated road, and 19.8 miles of third track and other additional tracks on the existing elevated railroads. A portion of the work is under contract, and some of it is already completed. The completed portions embrace the Fourth Avenue Subway in Brooklyn, comprising four miles of four-track road running from the Manhattan Bridge to Fourth Avenue and Forty-third Street, Brooklyn; the Centre Street Loop, a four-track subway a mile and a half long, running from Park Row and Chambers Street to Manhattan and Williamsburg Bridges; and the Belmont Tunnel (Steinway Tunnel) under the East River from Forty-second Street, Manhattan, to Long Island City.

Other work under contract consists principally of the construction of the Lexington Avenue Subway, contracts having been let from Fifty-third Street and Lexington Avenue northward to and under the Harlem River and as far as 157th Street and River Avenue in the Bronx. Work is also in progress on the first section of the Southern Boulevard extension of the Lexington Avenue Subway in 138th Street and Southern Boulevard between Alexander Avenue and 147th Street. These two subways are a part of the lines to be operated by the Interborough Rapid Transit Co.

On the lines to be operated by the New York Municipal Railway Corporation (Brooklyn Rapid Transit), work was started in the lower part of Manhattan on that portion of the Broadway Subway between Morris Street and Trinity Place on the south and Bleecker Street and Broadway on the north. Contracts have been let for 10 miles of elevated railroads in the Borough of Queens These lines will be operated jointly by the Interborough and Brooklyn companies. All extensions of the subway system, whether underground or elevated, will be owned by the city of New York, although both companies contribute toward the cost of their construction.

The Dual System plans call for the extension of the existing subway from Forty-second Street up Lexington Avenue, with branches in the Bronx, and an extension down Seventh Avenue to the lower part of Manhattan with a tunnel to Brooklyn and an extension out Eastern Parkway, Brooklyn, for operation by the Interborough Company; and the tying in of existing elevated railroads in Brooklyn, owned by the Brooklyn Rapid Transit Co. with the Fourth Avenue Subway in Brooklyn and the Centre Street Loop in Manhattan, both owned by the city, the extension of the Fourth Avenue Subway down Fourth Avenue from Forty-third Street to Eighty-ninth Street, and the third tracking and extension of the principal Brooklyn elevated railroads.

Contracts will be awarded at the earliest possible time for the construction of the East River tunnels and other parts of the Dual System. The proposed tunnel from Brooklyn to Staten Island, while provided for in the Dual System, is left for future construction. Probably the first part of the new system to be placed in operation will be the Fourth Avenue Subway and the Centre Street Loop.

The Dual System will be completed, it is expected by January 1, 1917 When in full operation, the Brooklyn Rapid Transit trains will be able to enter Manhattan by means of four bridges across and two tunnels under the East River and can be operated northward through Broadway and Seventh Avenue to Fifty-ninth Street, and eastward through Fifty-ninth Street and over the Queensboro Bridge to Astoria and Corona in Queens. On the Brooklyn side the system will include the lines to Coney Island and other remote parts of the borough. Over the whole Brooklyn part of the system the fare will be five cents and transfers will be freely given so that it will be possible for a passenger to take a train at Corona near Flushing, ride through to Manhattan at Fifty-ninth Street, south to Canal Street, and then across the Manhattan Bridge and through the Fourth Avenue Subway and its connections to Coney Island for a single fare. As soon as the South Brooklyn elevated rail-

SUBWAY SYSTEMS IN NEW YORK CITY—*Continued.*

roads are rebuilt and it is possible for the Brooklyn company to operate continuous trains from Manhattan to Coney Island, the five cent fare to Coney Island will be an assured fact.

On that part of the system to be operated by the Interborough Company, the length of the five cent ride will be greatly extended. A passenger will be able to ride from Pelham Bay Park, through the Bronx into Manhattan, down the whole length of Manhattan, under the East River to Brooklyn and out Eastern Parkway and Livonia Avenue to New Lots Road for a single five cent fare. Transfers will be given upon all parts of the Interborough system, except that there will be no further transfers than are at present allowed between the elevated railroads and the subway.

In the Dual System the rapid transit lines now operated by both the Interborough and Brooklyn companies will be linked with the new lines built and to be built by the city and by the companies, so that old and new in each company's territory may be operated as one system. Toward the new system allotted to the Interborough Company, the city contributes the existing subway, and the company the existing elevated lines in Manhattan and the Bronx. Toward the new system for the Brooklyn lines the city contributes the Broadway, the Fourth Avenue, Fourteenth Street and Centre Street Loop subways, with 110 miles of track, and the company contributes the existing elevated railroads in Brooklyn, with 105 miles of single track. The elevated railroads in each case are owned by private companies, but the existing subway is owned by the city of New York, although under lease to the Interborough Rapid Transit Co.

The city is to furnish most of the money for the building of the new lines under the operating contracts, but each company is to contribute toward the cost of construction and is to bear the entire cost of the equipment. The equipment is to become the property of the city of New York when placed in operation and the cost of it is to be amortized out of earnings.

# Subway Stations in New York City.

FARE, five cents. Children under 5 years of age, free.

Trains will run daily between City Hall, Atlantic Ave. (B'klyn), South Ferry, Brooklyn Bridge, 137th St., Dyckman and 242d Sts. and Broadway, and 145th St. and Lenox Ave., and 180th St. and Boston Rd. Trains from the East and West Branches meet at 96th St. junction, making the interval between that point and Brooklyn Bridge as follows: Local trains, 12 midnight to 8.30 A. M., 7½ to 1½ minutes, and from 8.30 A. M. to 12 midnight, 1½ to 4 minutes. Express trains from 6.25 A. M. to 9 24 A. M., 3 to 1 40 minutes, and from 9.24 A. M. to 12.24 A. M., 1.40 to 4 minutes. Running time, Local trains: 137th St. and Broadway to City Hall, 34 minutes; 145th St. and Lenox Ave. to City Hall, 38 minutes. Running time, express trains: 242d St. to South Ferry, 47 minutes; Dyckman St. to South Ferry, 38½ minutes; 180th St. to South Ferry, 44 minutes; 180th St to Atlantic Ave., 50 minutes. Brooklyn Bridge to 242d St. and Broadway, 14.19 miles; Brooklyn Bridge to 145th St. and Lenox Ave., 9.48 miles; Brooklyn Bridge to 180th St and Boston Rd., 13 60 miles.

# The Socialist Vote.

A SOCIALIST authority, W. J. Ghent, has compiled the following table of the latest returns of the Socialist vote in various countries, and the number of Socialist members of the popular branches of the national parliaments. The countries are ranked according to the proportion of Socialist deputies to the total deputies.

| COUNTRIES. | Deputies. | | Per Cent. | Vote. | COUNTRIES. | Deputies. | | Per Cent. | Vote. |
|---|---|---|---|---|---|---|---|---|---|
| Finland, 1911 | 87 | (200) | 43 50 | 321,000 | Great Britain, Dec. '10. | 42 | (670) | 6.27 | 370,802 |
| Sweden, 1908 | 36 | (165) | 21.81 | 75,000 | Switzerland, 1908 | 7 | (170) | 4.11 | 100,000 |
| Belgium, 1910 | 35 | (166) | 21 08 | 483,241 | Russia. | 17 | (442) | 3.82 | ..... |
| Denmark, 1910 | 24 | (114) | 21 06 | 98,721 | Turkey, 1908 | 6 | (196) | 3.06 | ..... |
| Luxemburg, 1909 | 10 | (43) | 20 83 | ..... | Greece, 1910 | 4 | (207) | 1.93 | ..... |
| Austria, 1907 | 88 | (516) | 17.06 | 1,041,948 | Servia, 1908 | 1 | (160) | .62 | 3,055 |
| Germany, 1907-10 | 52 | (397) | 13.10 | 3,258,968 | United States, 1912 | .. | (435) | ..... | †920,465 |
| France, 1910 | 76 | (584) | 13.01 | 1,108,047 | Spain, 1910 | 1 | (404) | .25 | 40,000 |
| Norway, 1907 | 11 | (123) | 8 94 | 90,000 | Bulgaria, 1908 | .. | (189) | ..... | 13,360 |
| Italy, 1909 | 42 | (508) | 8 26 | 338,885 | Argentina, 1908 | .. | (120) | ..... | 5,000 |
| Holland, 1909 | 7 | (100) | 7.00 | 82,194 | | | | | |

†The Socialist vote (including Socialist and Socialist Labor parties) in the United States is an estimate. The actual combined vote for the two Socialist candidates for President in 1908 w 434,018.

## Express Offices in the City of New York.

Adams.—Principal office, 53 Broadway. Other offices, 154 W. 26th St., 1789 Lexington Ave., 8 W. 45th St., 227 W. 106th St., 308 W. 124th St., 151 Bowery, 259 Greene St., 137 W. Broadway, 305 Canal St., 324 Lafayette St., 29 Seventh Ave., 519 Courtlandt Ave., 19 W. 23d St., 127 Prince St., 13 E. 14th St., 91 Maiden Lane, 1257 3d Ave., 11 Wooster St., 355 Amsterdam Ave., 2 Reade St., 35 W. 33d St., 613 6th Ave., 1047 6th Ave., 132d St. and Willis Ave., 180th St. and Morris Park Ave., Williamsburg Rd. and Poplar St., City Island, 200 Chambers St., 242 W. 47th St.; in Brooklyn, 325 Fulton St., 38 Hanson Pl., 793 Flatbush Ave., Flatbush Ave. Depot, Bush Terminal, Atlantic and Vesta Aves., Ormond Pl., 501 Broadway; in Long Island City, 71 Jackson Ave.; in Jersey City, 2 Exchange Pl. and Pier D., Weehawken, N. J.

American.—Principal office, 65 Broadway. Other offices, 142 W. Broadway, 302 Canal St., 18 Astor Pl. 18 Chatham Sq., 922, 1434 and 2293 Broadway, 33d St. and 10th Ave., 73 5th Ave., 1251 3d Ave., 139 Spring St., 1 W. 125th St., 138th St. and Park Ave., 375 Madison Ave., Lexington Ave. and 44th St., 93 Bowery; in Brooklyn, 339, 1392 Fulton St., 823 Flatbush Ave., Lee Ave. and Gwinnett St., 954 Broadway, 2566 Atlantic Ave., Dock and Water Sts., 33 Bond St., Third Ave. and 41st St.

Borough.—Principal office, 67 W. 125th St. Other offices, 296 Canal, foot of Christopher, foot of Liberty, 79 Park Pl., 2 Rector St., 127 Franklin St., Morris and Greenwich Sts., 128 Division St., 7 E. 14th St., 35 West 3d St., 555 W. 23d St., 26 E. 21st St., 7 E. 39th St., 211 E. 128th St., West 83d St. near Broadway, 1243 Third Ave., 696 Columbus Ave., 31 W. 30th St., 313 W. 43d St., 51 Fulton St., 1775 Broadway.

Cuban & Pan-American (Foreign), 42 Broadway, 136 Franklin St.

Davies, Turner & Co. (Foreign).—39 Pearl St. and 28 Bridge St.

Dodd.—Principal office, 1354 Broadway. Other offices, 7 Cortlandt St., 170, 379, 461, 958 Broadway, Liberty, Cortlandt, Desbrosses St. Ferries, Citizens' Line and Catskill Evening Line, foot of Barrow St., foot of W. 22d St.; People's Line, foot of Canal St.; Providence Line; Fall River Line, foot of Warren St.; 263, 501 5th Ave., 245 Columbus Ave.; Norwich Line, New Bedford Line, foot of Clarkson St.; Pennsylvania Station, 4 W. 125th St., 60 W. 133d St.; in Brooklyn, 52 Nassau St., 336 Fulton St., Flatbush Ave. Station, 4 Court St., 479 Nostrand Ave.; in Jersey City, 2 Exchange Pl.

Downing's (Foreign).—45 Pearl St.

Long Island.—Principal office, Long Island City. Other offices, foot of E. 34th St., 19 E. 17th St., 300 Canal St., 613 6th Ave., 257 Mercer St., 574 Columbus Ave., 1047 6th Ave., 406 W. 126th St.; in Brooklyn, 38 Hanson Pl. Depots, 501 Broadway, 4113 3d Ave., Bushwick Ave., Atlantic and Vesta Aves., Vanderveer Park, Bath Beach.

Morris's European Ex.—53 Broadway.

National.—Principal office, 141 Broadway. Other offices, 4 Temple St., 88 Liberty St., 158 Duane St., 114 W. Broadway, 22 Hudson St., 188 Greene St., 134 W. 25th St., 9 W. 31st St., 1 W. 125th St., 2293 Broadway, 138th St. and Park Ave., 105 Bleecker St., 1251 3d Ave., Riverdale, N. Y.; in Brooklyn, same offices American Express; in Jersey City, 109 Hudson St.; in Hoboken, foot of 1st St.; in Weehawken, West Shore R.R. Depot; 433 Bergenline Ave., Union Hill.

New York and Boston Despatch.—Main office, Pier 40, N. R., 100 Maiden Lane, 63 Gold St., 121 Prince St., 613 6th Ave., 97 Charles St., 46 Dey St., 246 Lafayette St., 21 W. 19th St., 53 E. 11th St., 34 E. 21st St., 257 Mercer St.

New York Transfer Company.—See Dodd.

Pitt & Scott, Ltd. (Foreign).—60 Pearl St.

United States.—Principal office, 2 Rector St. Other offices, 1775 Broadway, 313 W. 43d St., 31 W. 30th St., 296 Canal St., foot of Christopher St., foot of Liberty St., 51 Fulton St., 79 Park Pl., 22 W. 15th St., 129 Franklin St., 128 Division St., 24 E. 21st St., 555 W. 23d St., 7 E. 39th St., 67 W. 125th St., 1243 3d Ave., 696 Columbus Ave., 7 E. 14th St., 35 W. 3d St., foot of W. 23d St. (C.R. R. Terminal); in Brooklyn, 339, 1392 Fulton St., Dock, Water and Front Sts., 255 Lee Ave., 33 Bond St., 2566 Atlantic Ave., 823 Flatbush Ave., 41st St. and 3d Ave., 954 Broadway; in Long Island City, 327 Jackson Ave.; in Jersey City, 83 Railroad Ave., Depot of Central R. R. of New Jersey at ferry; in Hoboken, on Ferry St., two blocks from ferry.

Wells Fargo & Co. (Foreign).—51 Broadway.

Wells Fargo & Co.—Principal office, 51 Broadway. Other offices, 1781 Broadway, 613 6th Ave., 310 Canal St., 17 W. 23d St., 376 Columbus Ave., 60 E. 8th St., 100 Warren St., 18 Chatham Sq., 173 Mercer St., 107 John St., 128th St. and 3d Ave., foot of W. 23d St., 35 Greenwich St., 250 W. 26th St., 501 Fifth Ave., 29 E. 14th St., 45 W. 125th St.; in Brooklyn, 312 Livingston St., 22 Rockwell Pl.; in Jersey City, 299 Pavonia Ave., and at ferry foot of Pavonia Ave.

Westcott.—Principal office, 219 E. 42d St. Other offices, 84, 149, 350, 399, 425, 429, 922, 1183, 1216, 1278, 1434, 1465, 2293 Broadway, foot of Barclay St., foot of Chambers St., foot of Cortlandt St., 18 Astor Pl., foot of W. 23d St., foot of Christopher St., foot of W. 42d St., Grand Central Station, 1251 3d Ave., 121 W. 125th St., 125th Street and Park Ave., 1869 Park Ave.; in Brooklyn, 338, 505, 726, Fulton St., 22 Court St., 15 Bergen St., 954 Broadway.

## Population of New York City by Boroughs.

| Year. | Manhattan. | Bronx. | Brooklyn. | Richmond. | Queens. | Totals. |
|---|---|---|---|---|---|---|
| 1914 | 2,538,606 | 641,980 | 1,916,655 | 99,186 | 387,444 | 5,583,871 |
| 1910 | 2,331,542 | 430,980 | 1,634,351 | 85,969 | 284,041 | 4,766,883 |
| 1900 | 1,850,093 | 200,507 | 1,166,582 | 67,021 | 152,999 | 3,437,202 |
| 1890 | 1,441,216 | 88,908 | 838,547 | 51,693 | 87,050 | 2,507,414 |
| 1880 | 1,164,673 | 51,980 | 599,495 | 38,991 | 56,559 | 1,911,698 |
| 1870 | 942,292 | 37,393 | 419,921 | 33,029 | 45,468 | 1,478,103 |
| 1860 | 813,669 | 23,593 | 279,122 | 25,492 | 32,903 | 1,174,779 |
| 1850 | 515,547 | 8,032 | 138,882 | 15,061 | 18,593 | 696,115 |
| 1840 | 312,710 | 5,346 | 47,613 | 10,965 | 14,480 | 391,114 |
| 1830 | 202,589 | 3,023 | 20,535 | 7,082 | 9,049 | 242,278 |
| 1820 | 123,706 | 2,782 | 11,187 | 6,135 | 8,246 | 152,056 |
| 1810 | 96,373 | 2,267 | 8,303 | 5,347 | 7,444 | 119,734 |
| 1800 | 60,515 | 1,755 | 5,740 | 4,564 | 6,642 | 79,216 |

The population of the city of New York (all boroughs), by sex, for the year 1913, was as follows: males, 2,666,269; females, 2,706,714. Total, 5,372,983.

# New York Water Supply.

New York City has grown so rapidly in the past ten years that the water system, which when first planned was considered ample for many years, has been taxed to its limit, and there is at present an urgent need for the new system, which is being built, for bringing the water from the Catskill Mountains. The city consumes every day 500,000,000 gallons of water, and, assuming a population of 5,000,000, then every man, woman and child uses 100 gallons a day. The new Catskill Aqueduct will have a capacity of 500,000,000 gallons a day, and the largest reservoir in the system (the Ashokan) once filled, could supply the city for 335 days at the present rate of consumption, without any water flowing into it.

## THE PRESENT SYSTEM.

The present system has two pressures, namely, "low" and "high." The former delivers the water under a hydraulic head, but in the latter the pressure is obtained by pumps. The high pressure service (used for fire purposes only), draws its supply from the low pressure mains (or in case of emergency uses salt water) and distributes the water through its own system, which is independent of the low pressure. At present the high pressure service is only in parts of the Boroughs of Manhattan and Brooklyn.

### LOW PRESSURE SYSTEM.

The Boroughs of Manhattan and the Bronx are supplied from both the Croton, and the Bronx and Byram watersheds. The Croton covers an area of 360 square miles, and from various reservoirs water is brought through more than 30 miles of masonry conduit to distributing reservoirs in the boroughs. The Bronx and Byram watershed covers about 22 square miles.

In Manhattan, Croton water is used entirely, but in the Bronx one-half the population is supplied with Croton water, the other half being supplied from the Bronx and Byram Rivers. Approximately 310,000,000 gallons are used every day in Manhattan and the Bronx.

In Brooklyn about 80 per cent. of the water comes from wells, and the remainder from small streams, the watersheds having an area of nearly 170 square miles. All the water is pumped and 140,000,000 gallons are consumed daily. Flatbush and Borough Park are supplied by private companies from wells.

The city supplies only the first and third wards in the Borough of Queens, while the other wards are supplied by private companies. The water is taken from wells and the consumption averages 30,000,000 gallons daily.

In Richmond, the city owns the wells which furnish about 15,000,000 gallons daily.

### HIGH PRESSURE FIRE SERVICE SYSTEM.

The high pressure fire service system in Manhattan is bounded by Twenty-third Street, Irving Place, Fourteenth Street, Third Avenue, Bowery, Houston Street, East River, Battery and North River, and covers an area of 3,100 acres.

There are two pumping stations, one located at Gansevoort and West Streets, and the other at Oliver and South Streets. Each station has six electrically driven centrifugal pumps that are connected to the Croton Supply (see above), the Gansevoort and West Street station being also connected to the North River, and the Oliver and South Street station to the East River. Thus, either fresh or salt water may be used, the latter, however, only being used in emergencies. Each pump can deliver 3,000 gallons a minute against a head of 300 pounds at the station. The combined capacity of the two stations is equal to about 50 fire engines delivering two good sized streams. The pumping stations respond to every alarm with a pressure of 125 pounds per square inch.

The distributing system consists of 108 miles of mains, 8 to 24 inches in diameter, and about 2,372 four-nozzle hydrants and the necessary valves.

The pressure at any point can be increased or decreased by telephoning to the pumping stations. For this purpose there are approximately 315 telephone boxes, besides telephones communicating with the Fire Headquarters and with the main and subsidiary stations of the New York Edison Company.

The present system cost about $6,100,000 for stations, land, mains and appurtenances. The system has been extended to the Battery, and contracts for future extensions are in force.

In Brooklyn there are two high pressure fire service systems, one protecting the business and manufacturing districts, and the other the amusement section of Coney Island.

The one for the business and manufacturing districts is bounded by the upper bay, Hudson Avenue, Tillary Street, St. Edward's Street, St Felix Street, Fort Greene Place, Fifth Avenue, Twenty-fourth Street, Thirty-ninth Street to the water front, and covers an area of 3,100 acres.

The supply is furnished by two stations, the main one being located at the foot of Joralemon Street, and the reserve one at Willoughby and St. Edward's Streets. Both draw their supply from the Ridgewood mains, the main station being also connected to the East River.

The pumps are electrically operated in both stations, and have a combined rated capacity of 24,000 gallons per minute against a pressure of 300 pounds per square inch.

The distributing system consists of about 34 miles of mains, 8 to 20 inches in diameter, with the usual hydrants.

The Coney Island high pressure system protects an area of 470 acres. The pumping station is located at West Twelfth Street and Coney Island Creek. Gas engines driving pumps are installed, the total capacity being 4,500 gallons per minute pumping against a pressure of 150 pounds per square inch. The water is distributed through 6 miles of mains, 8 to 16 inches in diameter, having hydrants where necessary.

## THE CATSKILL MOUNTAIN SYSTEM.

The new water supply system for New York, which is now under construction, consists of the building of the following reservoirs, viz.: the Ashokan for impounding the water, Kensico for storage, Hill View for equalizing and distributing, and the Silver Lake for distributing and serving as a terminal reservoir, and besides these reservoirs the Catskill Aqueduct for conveying the water. In New York City the system will be inter-connected with existing works, and no changes need be made in the present pipe lines. However, the city pumping plants in Manhattan, having a capacity of 75,000,000 gallons daily, in Brooklyn 25,000,000, and the various private plants of 30,000,000, may at any time be dispensed with as the water brought by the new system will have sufficient pressure to reach the twentieth floor of a building.

### ASHOKAN RESERVOIR.

The main supply will be impounded or collected in the Ashokan Reservoir, which is 13 miles west of Kingston, N. Y., from its tributary watersheds, the Esopus, now being developed 255 square miles in extent, with the Schoharie, 228 square miles, and the Catskill Creek, 163 square miles available for development in the future. The reservoir, formed by the building of the Olive Bridge Dam and a number of dikes, is approximately 12 miles long by one mile wide, with a maximum depth of 190 feet. When full, the surface of the water is 590 feet above sea level. The construction work on the reservoir is so far advanced that the impounding of water was begun on September 9, 1913.

### CATSKILL AQUEDUCT.

Leaving from the Ashokan Reservoir is the Catskill Aqueduct, into which, through future development, may also empty the Lackawack Reservoir (supplied by the Rondout watershed, having an area of 176 square miles), the aqueduct bringing the water to Storm King, four miles above West Point, then under the Hudson River in a tunnel to Breakneck Mountain, from Breakneck Mountain to Kensico Reservoir, and from the latter to Hill View Reservoir in Yonkers, just north of the city line.

The type of construction depends entirely on the nature of the country the aqueduct crosses. Wherever possible it is built in the open, that is in cut and cover, but in many cases tunnels and siphons are required. The cut and cover portion is of concrete, having a horseshoe cross section, 17 feet high and 17 feet 6 inches wide, with the flat part resting on the ground. The dimensions of the tunnels range from approximately those just given to a circular section 14 feet 6 inches in diameter. The entire waterway is concrete lined.

The most difficult tunnel to bore was the one under the Hudson River between Storm King and Breakneck Mountains. Here it was necessary to cut through solid rock at a distance 1,100 feet below the surface of the river. From Breakneck Mountain to Kensico Reservoir (east of Tarrytown, N. Y.) cut and cover construction, with an occasional tunnel or siphon, is followed; similarly the Kensico Reservoir is connected to the Hill View Reservoir, and from the latter is the tunnel for supplying New York. The Catskill Aqueduct from the Ashokan reservoir to the city line at Yonkers is about 92 miles long, 55 miles being cut and cover, 31 miles tunnels and 6 miles of steel pipes.

### CITY TUNNEL OF CATSKILL AQUEDUCT.

The tunnel from Hill View Reservoir will pass under the Borough of Bronx, the Harlem River, the Borough of Manhattan, the East River and terminate in Brooklyn, a distance of 17½ miles. At the Brooklyn terminal pipes will extend to Queens and to Richmond, the pipes to the latter being of east iron, crossing the Narrows and discharging into an equalizing reservoir at Silver Lake, 225 feet above sea level.

The tunnel will be circular in section, reducing from 15 feet to 11 feet in diameter, lined with concrete, and varying from 200 to 750 feet deep in solid rock. It will thus pass far below all subways and building foundations. About every 4,000 feet connections will be made to the present distributing system, through controlling valves set to furnish the water at any lower pressure than that in the tunnel, which existing conditions may require.

The tunnel will deliver 500,000,000 gallons daily, the water rising at the Brooklyn end to nearly 240 feet above tide water, a height sufficient to supply without pumping the highest sections of the borough. The estimated cost of the tunnel and pipes within the city and the reservoir on Staten Island is $25,000,000.

The total cost of the entire system as projected, including the development of four large Catskill Mountain watersheds, as needed by the growth of the city of New York, the necessary reservoirs, Catskill Aqueduct and all appurtenances will be about $176,000,000. It is expected the work now under contract will be completed in 1915. During the working season at least 15,000 men are employed by the contractors.

Monthly estimates during certain months of both 1911 and 1912 have exceeded $2,200,000; and on October 1st, 1913, with about $96,000,000 of contracts awarded, the waterway was about 96 per cent. completed to the city line and about 89 per cent. completed to Staten Island.

## District Leaders in New York City.

### DEMOCRATIC LEADERS AND EXECUTIVE MEMBERS IN NEW YORK COUNTY.

The Property Clerk of the Coroner's Office received during the course of a year thousands of dollars' worth of jewelry and money found upon and belonging to the dead, which is promptly delivered to the relatives of the dead or to the Public Administrator, as required by law.

The Coroners' Physicians, owing to the large number of autopsies which they perform in the course of a year, obtain knowledge and information which are of great value to medical science.

As a result of investigations made by the Coroners' Office into deaths by casualties, laws have been enacted aiming at the prevention of unnecessary and reckless loss of life, by compelling employers to furnish proper and safe scaffolding, stricter care in employment of men working in caissons, fire prevention law, and forbidding the transferring of dying patients from one hospital to another.

* Includes Eleventh Avenue.

# Guaranteed Low Cost Life Insurance
# Every Benefit Guaranteed

In these policies a guaranteed lower cost, or from 15% to 25% more insurance takes the place of the indefinite dividends of participating companies, and eliminate every speculative feature.

In connection with these policies we offer a Disability Clause of exceptional value.

The Travelers has been the leading exponent of this form of insurance for forty-six years, and has $280,000,000 life insurance in force.

---

## Accident Insurance

Our accident policies are famous the world over as the standard of what such contracts should be.

The Travelers has paid over 606,000 accident claims for benefits, amounting to over $39,000,000.

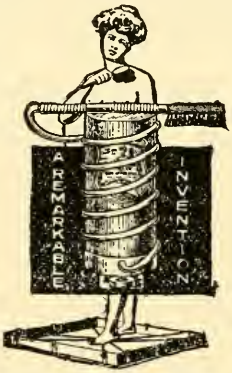
# $1200 IN COLD CASH

## Made, Paid, Banked in 30 Days, by Stoneman —$15,000 to Date

Reader, this offer is open to **you**—this money—the cold cash—can be **yours. You** and you alone, by waiting too long, can lose it. Investigate to-day—**get the proof.** Send your name and address—but **NO MONEY**—this very minute.

## $1000.00 Per Man Per County



Don't worry—don't find excuses—no experience is necessary—business supplies the capital. You don't have to wait a month—not even a week—**payments can start the first day—and** continue daily up to $1000.00 per month per county. For years we have been **quietly picking men** from all walks of life, **ministers, clerks, farmers, preachers,** doctors, lawyers, teachers and so on—enabling them with our co-operation and **$50,000.00 appropriation** to get what we here offer and can do for you—$1000.00 per man per county. Some of these men you may know—possibly have envied without understanding the reason of their prosperity

## Investigate and Be Amazed

Demand absolute proof—accept no other kind. **Either we have the best thing that ever happened or we're colossal liars.** Ask Schleicher, **minister,** whether it's true that he received

## $195 Twelve Hours After Appointment

Langley, **liveryman, $115** first day; Rasp. **agent,** $16.85 in 73 days; Beem, **solicitor,** $164.25 weekly for 12 weeks; Korstad, **farmer,** $2212 in a few weeks; Zimmerman, **farmer,** $3856 in 30 days; Juell, **clerk,** $6800; Hart, **farmer,** $5000; Wilson, **cashier,** $3000 in 30 days. **Let us refer you** to these men, to the **U. S. Government,** to banks, business houses, noted people at home and abroad. Heed this caution from Chas. Starr, of Mich., who writes: "Sorry this field is closed. **Should have acted sooner** but was skeptical. Your local man's **great success** has set everybody talking and proves **I was a chump. Wonderful what a man can do with a real opportunity."** Then read this from Lodewick who acted quickly: **"Lucky I answered ad.** It's great. **Money coming fast."** Which will you be, Starr, a victim of **"neglected opportunities,"** or Lodewick, the "early bird?" To escape Starr's fate, send your postal this very minute—

## SEND ONE CENT TO MAKE THOUSANDS

Strange invention startles world. Gives every home that long desired blessing, a modern bathroom with hot and cold running water facilities for only $6.50. No plumbing—no water works—self-heating. Only ten minutes to install. Gives cleansing plus friction, massage and shower baths in any room. Equivalent to any $200 bathroom. Over 200,000 delighted users. Used by U. S. Government.

**More remarkable than this invention is our startling plan of universal distribution** through special representatives who become virtually **profit sharing partners** in a business that's immense—exciting—fascinating—dignified—and above all, has enabled them, will enable you, to get $1,000.00 per month, per county. **Asking to be shown doesn't obligate you one bit. Investigate to-day** by all means.

# Lincoln Freie Presse.

**Erscheint jeden Mittwoch — Lincoln, Nebraska — Abonnementspreis 85 Cents.**

## Unsere Schriftleitung.

Von den vielen deutsch-amerikanischen Zeitungen ist die „Lincoln Freie Presse" die verbreitetste. Sie wird allwöchentlich von Hunderttausenden aufmerksam gelesen, die darin Neuigkeiten aus aller Welt, Belehrung und Unterhaltung suchen und finden.

Die „Lincoln Freie Presse" wird sorgsam redigirt. Vom Besten das Beste, — so lautet das Motto der Schriftleitung. In übersichtlicher Bearbeitung finden die Leser im Depeschentheile Berichte über die Vorgänge und Ereignisse des In- und Auslandes; in den Leitartikeln werden brennende Tagesfragen von einem unparteiischen Standpunkte aus beleuchtet.

Der Unterhaltungsstoff ist reich und gediegen: die Erzählungen sind ausschließlich bemerkenswerthe Schöpfungen bekannter Autoren; unsere Novellen, Novelletten, Humoresken, Skizzen usw. sind immer interessant und unterhaltend.

## Unsere Aufgabe.

Die deutsche Presse hat in diesem Lande eine schwere, aber segensreiche Pflicht zu erfüllen. Sie soll die Liebe zur alten Heimath, zu deutscher Sprache, Art und Sitte zu erhalten streben und zugleich die Leser mit den Verhältnissen und Einrichtungen der neuen Heimath bekannt und vertraut machen, so daß sie gute Bürger dieses Landes werden. Daß die „Freie Presse" dieser Aufgabe gewissenhaft nachzukommen strebt, wird allseitig anerkannt; sie trägt zur Erhaltung der deutschen Sprache in hohem Maße bei und ist stets darauf bedacht, daß dem Deutschthum im Völkergemenge Amerikas die Stellung eingeräumt wird, die ihm auf Grund seiner Bedeutung, seiner Geschichte und seiner Verdienste zukommt.

Deshalb ist es, daß so viele Deutsche in Amerika die „Freie Presse" unterstützen, lesen und darin liegt

# Das Geheimniß unseres riesigen Erfolges!

# Lincoln Freie Presse, Lincoln, Neb.

**THE GREAT NATIONAL GERMAN WEEKLY.**

Everywhere there are Germans, and everywhere you will find the Lincoln Freie Presse. Our biggest circulation is in the prosperous agricultural States of the Middle West—Iowa, Wisconsin, Minnesota, Nebraska, Texas, Illinois, Kansas, etc., ranking in the order named. In these States we go to nearly every post-office and cover the rural settlements thoroughly. Our circulation during the last twelve months has averaged over

# THE McWADE SYSTEM OF SELLING GOODS BY MAIL

is a result of years' experience and research. It has been **tried out** in developing the Mail Order business in some of the largest department stores and factories in America, in various other enterprises and in marketing new inventions. **It is the only complete exposition of the science of Selling By Mail ever devised.** Indorsed by the largest makers of Office, Filing and Record Systems in the world.

## I CLAIM

**that the MAIL ORDER METHOD OF SELLING** is a result of Commercial Evolution—I term it **MODERN MERCHANDISING.** It is coming as surely as the sun rises and sets—**we can't get away from it. To shut our eyes or to fight it is not only to stand in the way of progress but to defy the inevitable,** a fact recognized by the greatest thinkers of this country.

I am not an alarmist, but I have analyzed the conditions and made deductions from actual experience and am prepared to show every man who will be shown that the **Mail Order is the most remarkable method of selling the world has ever known and presents possibilities almost beyond comprehension.**

After you read this I want you to send for my **Free Literature on the Mail Order Method of Selling.** I will show you how to sell anything from a needle to a threshing machine, **and sell it wherever the mails reach, and never step out of your office to do it.** I will show **you how you can do this** without interfering with your present methods of doing business. I want you to send for this NOW—not next week nor tomorrow, but NOW. I have a proposition that will interest every man who buys, sells or manufactures merchandise of any description. If you wish to better yourself or increase your business, or open a Mail Order department, or start a Mail Order business, I CAN HELP YOU. Send for this literature and my proposition NOW, before you forget it. **SEND FOR IT BEFORE YOU DO ANOTHER THING.**

**FRANK L. McWADE, Pres., 94 Copeland Bldg., Rochester, N. Y., U.S.A.**

# *A Specialist is Always Well Paid*

especially if there is a good demand for his services. We turn out specialists for a new, unlimited field. We prepare men to handle collections and credits—we practically set you up in business for yourself. Our methods are exclusive, our systems peculiar to our work and results are certain.

**CAN YOU DO WHAT 3500 OTHERS HAVE DONE?** Over 3500 men in every walk of life have completed our instructions at home, many of them in spare time. These have established themselves in a permanent, growing and highly profitable business—and there are more following in their footsteps. Can YOU do what the 3500 have done?

*W. A. SHAYER*
*President*

**CAN YOU SUCCEED WITH OVER 3500 HELPERS?**

Not only are WE back of you but you will have also the co-operation of the entire system—over 3500 trained and practical assistants to cover the entire country—over 3500 sources from which to draw new business in your territory. # SHORTHAND IN 30 DAYS

You can learn in spare time in your own home, no matter where you live. No need to spend months in study, as was formerly necessary. The Boyd Syllabic System is easy to learn—easy to write—easy to read. Simple, Practical, Speedy, Sure. No ruled lines—no positions—no shading, as in other systems. No long list of word signs to confuse. Only nine characters to learn and you have the entire English language at your absolute command. This system is now widely used by stenographers, private secretaries, newspaper reporters, Lawyers, ministers, teachers, physicians, literary folk and business men and women may now learn shorthand for their own use through home study. A perfect shorthand system for any purpose—and does not require continual daily practice. Our graduates hold high-grade positions in all sections of the country. Send to-day for free booklet, testimonials, offer, etc.

## POTATO GROWING COSTS CUT IN TWO

Double your potato profits. Minimize labor. Use a **Eureka Potato Planter.** Opens the furrow, drops seed accurately any distance or depth desired; puts on fertilizer if wanted, covers perfectly and marks for next row. Always plants uniform depth. Requires only one man. Driver sees seed drop. Made in three sizes, for one or two rows.

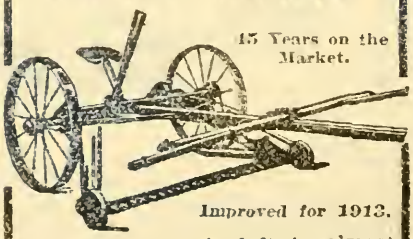
## The Eureka Mulcher and Seeder

Is a mulcher, smoothing harrow, cultivator, weeder and seeder. Forms dust mulch and conserves moisture. Three sizes, 8, 10 and 12 ft. Lever with pressure spring regulates depth of cut. Pulverizes the soil. Levels the ground. Teeth are flat and can be removed to cultivate between rows. The driver rides.

Seeding boxes quickly attached to sow grass seed, alfalfa, oats, etc. Adjusts for seeding various quantities. Teeth cover seed thoroughly either shallow or deep. Economical in price—serviceable, strong. Prompt shipments from branch near you. Send for free catalog to-day.

## EUREKA CENTRE DRAFT MOWER

15 Years on the Market.



*Improved for 1913.*

The cut crop is left in almost standing position, and cures rapidly, retaining natural color. No Hay Tedder required. No trampling of cut crop. One-third saving in time and labor.

**NO SIDE DRAFT.** Mows back and forth on one side of field any direction desired, and avoids pulling up hill. **FASTEST CUTTING, GREATEST STRENGTH, LONGEST LIVED.** Cuts heavy growths of timothy and alfalfa that side draft mowers cannot.

Works in orchards and between rows. Cuts weeds and brush in pastures. Made in 5 sizes for one or two horses.

Ours is the only store in America exclusively devoted to the retail sale of

# MAPS

and our stock is so large that practically any geographical or astronomical publication extant can here be obtained. When YOU need maps, communicate with us; we have earned the right to the title "Map Specialists," and all your inquiries will receive the most careful attention.

Here are some of

## HAMMOND'S NEW MAPS

STATE MAPS, printed in eight colors and showing all interurban electric and steam railroads, steamboat lines, &c., DOWN-TO-DATE. They give the postal and shipping facilities of all cities, villages and hamlets, with hotel guide. Any State, in pocket form, postpaid, 15 cents.

POCKET ATLAS, 256 pages of colored maps and population statistics. The maximum of information and the minimum in size and price. Size, closed, 4x6 inches. *A RARE BARGAIN*—bound in flexible *CLOTH*, 30 cents; leather binding, $1.00.

MODERN ATLAS OF THE WORLD, acknowledged leader of low-priced reference books. New maps of every State and country, occupying 128 pages, with 48-page index of cities and towns, and 16 pages of maps and description of Panama Canal. Size, closed, 10¼x13 inches; cloth bound; by express, prepaid, $3.00.

In our retail store we have the largest assortment of ROAD MAPS to be found in the United States. Prices from 25 cents to $5.00. Write for our Road Map Catalogue. It contains descriptions of practically every map of this character published, both American and European.

We carry at all times the UNITED STATES GOVERNMENT MAPS, for which we are the authorized selling agents. The charts of the United States Coast and Geodetic Survey and the Hydrographic Office may always be had at the regular Government rates. We also carry all of the topographic sheets of the United States Geological Survey.

In addition to the above publications we carry a large stock of the following:

| | |
|---|---|
| Wall Maps | Globes |
| Maps of Cities | Travel and Guide Books |
| Maps of Counties | Books on Astronomy |

Maps of Foreign Countries, etc.

General Catalogue free for the asking.

## SENT TO YOU FOR A YEAR'S FREE TRIAL

**WHY SHOULDN'T YOU BUY AS LOW AS ANY DEALER?** More than 250,000 people have saved from $100 to $150 on a high grade piano and from $25 to $50 on a first-class organ in purchasing by the Cornish plan—**and so can you.** We offer to send you an instrument, freight paid, if you wish, with the understanding that if it is not sweeter and richer in tone and better made than any you can find at one-third more than we ask you may at any time within a year send it back at our expense, and we will return any sum that you may have paid on it, so that the trial will cost you absolutely nothing—you and your friends to be the judge and we to find no fault with your decision.

## You Choose Your Own Terms

**Take Three Years to Pay, if Needed.** The Cornish Plan, in brief, makes the maker prove his instrument and save you one-third what other manufacturers of high grade instruments must charge you to protect their dealers and agents.

## Let Us Send to You Free the New Cornish Book

It is the most beautiful piano or organ catalog ever published. It shows our latest styles and explains everything you should know before buying any instrument. It shows why you cannot buy any other high grade organ or piano anywhere on earth as low as the Cornish. You should have this important information before making your selection. Write for it to-day and please mention this paper.

# *This Man*

## *Has the Most Wonderful Memory Ever Known*

HE can give the population of any place in the world over 5,000—

HE can give you every important date in the world's history—

HE has 300,000 Facts and Figures stored away in his brain.

Felix Berol is this man's name, and a few years ago his memory was distressingly poor. His present amazing efficiency has been developed through his own simple, practical method.

He is now teaching his system with great success to large classes at many leading educational institutions in New York City. He desires to impart his method to YOU.

## He Can Build YOUR Memory So That It Will Never Fail

You will be able to recall Names, Faces, Dates, Telephone Numbers; his simple system will cure mind-wandering and teach concentration; you can remember the facts in a book after one reading; you can recall any episode that you wish; you can become a clear thinker, and in public speaking never be at a loss for a word. Give him a few spare minutes daily, at home, and you will be astonished. He makes no promise to you that he cannot substantiate in his own person.

Write to-day for full, free particulars of this man's wonderful memory and his offer to YOU.

# DUCK'S Big 300 Page CATALOG Electrical and Wireless

## Supplies and Instruments for Home Entertainment

mailed for 10c. stamps or coin, which you may deduct from first order of $1.00. Great cost of catalog and low prices prohibit distribution except to those interested.

**Most Elaborate Catalog in Its Line** This is what 400 persons voluntarily wrote us in a period of only two weeks. There is something in this Catalog for everybody, and there is nothing but will be found to bear the stamp of highest quality. Just one example: Our toy and commercial motors embrace practically the complete output of five leading motor manufacturers. But the great impelling value of this complete catalog is the attractive prices at which these high grade goods are sold.

**20% to 33% is Saved in Purchasing from Us**

On the single item of flashlights we sell them to you at most dealers' cost price, and this is true of many other articles.

### What Our Catalog Contains:

100 pages wireless insts. for commercial and amateur use, with over 30 diagrams; 10 pp. raw material for wireless insts.; 15 pp. telegraph insts.; 35 pp. toy and commercial motors; 15 pp. flashlights and miniature lamps and 125 pages ammeters, transformers, lighting plants, miniature railways, Xmas novelties, mechanical books and general electrical supplies.

**BARKER POWER GRIPS**

Great strength in the hands and arms is necessary to everybody, be it man, woman or child. By using Barker Power Grips a few minutes a day every one is sure to have immense strength in forearms and hands, and there is nothing that is more desired than a strong hand. The Barker Power Grips are of special value to and are highly recommended by Doctors of Dental Surgery, Pianists and Telegraph Operators. Those who suffer from cold hands will be surprised how quickly the hands will warm up and will feel like the hands of a young child, warm and pleasant. A strong grip is admired more than any other feat of strength. In fact a strong grip has saved many a person's life in cases of emergency. The power grips are made in two grades—medium strength $1.00 postpaid, and extra strong $1.50 postpaid.

# STRONGFORT COURSE

## LIONEL STRONGFORT

**The world's strongest and most perfect athlete, whose unaccepted challenge of competition to the greatest living "strong men" still stands.**

MISGUIDED people, who have in the past been inclined to the convenient but illogical theory that it is possible to attain Health and Strength through freak dietetic methods, will be interested in a report issued by the UNITED STATES DEPARTMENT OF AGRICULTURE, at Washington, D. C., warning against "many systems of diet being recommended for commercial purposes." The official bulletin says in part:

**"It seems desirable to warn people against adopting the dietary suggestions of those without scientific standing in the community. Some of the advocates of freak diets are sincere, but are themselves deluded; while others ARE FAKERS, WHO SEEK TO MAKE MONETARY GAIN BY ADVISING PECULIAR SYSTEMS OF DIET. NEITHER CLASS CAN OFFER TRUSTWORTHY ADVICE."**

It is hardly credible that otherwise intelligent men have so long allowed themselves to be convinced that there are **pills or tablets** that have hidden in them the matchless qualities of Health and Strength—that it is only necessary to swallow one—or a box—of them and realize the full vigor of manly power and contentment of body. These otherwise intelligent folks don't need to be argued with. **All they need is to have the theory set down in cold type to see how ridiculous it is.**

Health is too priceless to have its home in a little, insignificant tablet. Health has its home in **Nature** and can be traced and won only through natural methods. Such a method is the **Strongfort Course of Physical Culture,** which has been built on lines of sane reasoning, backed by the eighteen years of **Lionel Strongfort's** hard-won experience in the world of athletics and physical activities generally.

The **Strongfort** pupil doesn't get **his Health** and **Strength** and **Vitality** in tabloid form. **He** gets it through a system of body building originated by the **Strongest Physical Culture Instructor Alive.**

**Aside from his strikingly successful career as a director of Physical Instruction, LIONEL STRONGFORT has himself achieved veritable marvels in the "professional" world.** His feat of sustaining on his chest an automobile containing six men—the aggregate weight of bridge, automobile and passengers being more than 7,000 pounds—was one of the most fascinating and stupendous acts ever performed at the New York Hippodrome or in any other playhouse. So it may be assumed with safety that pupils in the **Strongfort Course** are in the hands of a man who knows the human body in all its phases, both practically and as a keen student of anatomy, physiology and hygiene.

**VITALITY—ENERGY—HEALTH—these are two precious things to be entrusted to one whose credentials are lacking or doubtful. And when a man has presented satisfactory credentials—found to be in a position to point the way to the surpassing gifts, without which life is stale and flat and futile—wouldn't YOU like to have dealings with him? Your invitation is right here.**

Dear Strongfort:—Please send me without obligation to me, your book, INTELLIGENCE IN PHYSICAL CULTURE, for the postage of which I enclose 4c.

I have marked (x) before the subjects in which I am interested and should like you to send me a little personal talk on these subjects, with no charge whatever to me.

# Crooked Spines Made Straight

## Use the Sheldon Method 30 Days at Our Risk

YOU need not venture the loss of a penny. No matter how serious your case, no matter what else you have tried, the Sheldon Method will help you and probably cure your affliction. We are so sure of this that we will make a Sheldon Appliance to suit your special condition and let you decide, after 30 days, whether you are satisfied. We make this unusual offer simply because the 18,000 cases we have treated absolutely prove the wonderful benefit the Sheldon Method brings to spinal sufferers, young and old.

There is no need to suffer longer or bear the torture of old-fashioned plaster, leather or steel jackets. The Sheldon Appliance gives an even, perfect and adjustable support to the weakened or deformed spine and brings almost immediate relief even in the most serious cases. It is as easy to put on or take off as a coat, does not chafe or irritate, is light and cool.

The price is within reach of all who suffer. You owe it to yourself, or the afflicted one in your family, to find out more about it. Send for our free book. In writing us describe your case as fully as possible, so we can give you intelligent information. **Philo Burt Mfg. Co., 227 14th Street, Jamestown, N. Y.**

## Eczema Cured in 10 to 30 Days

The Paris Medicine Co., 2624 Pine Street, St. Louis, Mo., manufacturers of Laxative Bromo Quinine, have a new and wonderful discovery, GROVE'S SA-NARE CUTIS, which they guarantee to cure any case of ECZEMA, no matter of how long standing, in 10 to 30 days, and will refund money if it fails. GROVE'S SA-NARE CUTIS is perfectly clean and does not stain. If your druggist hasn't it, send us 50c. in stamps and it will be sent by mail.

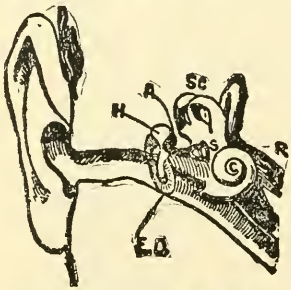
# DEAFNESS AND CATARRH



**WONDERS OF THE EAR**

**A Department of Human Anatomy That Defies Surgery**

E. D. The Drum; H. Hammer; A. Anvil; S. Stirrup; S. C. Semi-circular Canals; C. Cochlea.

## Successfully Treated by "ACTINA"

The human ear is an organ the interior of which specialists have never been able to get at, hence their inability to always remove the cause of deafness.

## CAUSE OF DEAFNESS

Ninety-five per cent. of the cases of deafness brought to our attention is the result of chronic catarrh of the throat and middle ear. The air passages become clogged by catarrhal deposits stopping the action of the vibratory bones. Until these deposits are removed relief is impossible. The inner ear cannot be reached by probing or spraying, hence the inability of specialists to always give relief. That there is a successful treatment for most forms of deafness and catarrh is demonstrated by the "Actina" treatment. The vapor generated in the "Actina" passes through the Eustachian tubes into the middle ear, removing the catarrhal obstructions and loosens up the bones (hammer, anvil and stirrup) in the inner ear, making them respond to the vibration of sound.

## RINGING NOISES IN THE HEAD

ACTINA is very successful in relieving this distressing symptom. The vapor currents pass quickly and freely through the Eustachian tube, removing the catarrhal substances that obstruct the easy exit of the wave sounds. We have known people troubled with this symptom for years to be relieved in a few weeks by the use of ACTINA.

ACTINA also relieves La Grippe, Asthma, Hay Fever, Bronchitis, Sore Throat, Weak Lungs, Colds, Headache, and all other troubles that are directly or indirectly due to Catarrh.

"Actina" can be used with perfect safety by every member of the family for any affliction of the ear, throat or head. A FREE TRIAL of the "Actina" is given in every case.

Send for our FREE TRIAL offer and valuable FREE BOOK. Address

# "Those Terrible Ear Noises Have Stopped"

"Those terrible Ear Noises have stopped" is what hundreds of letters are telling me. You remember that in 1913 I offered 300 Treatments for Head Noises, Free, to World Almanac readers, and this is the happy result.

Head Noises! What a picture of intolerable suffering these words bring to mind. Reader, if you have Head Noises, I know well that no words of mine can describe the weary misery. But you are the one to appreciate the blessed relief in the words, "My Head Noises have stopped," and these are the words which every day's mail brings me.

The joy and gratitude of the people who received the 300 free treatments offered in this publication last year has been so great and their appeals for friends so urgent that I am going to offer again

## 200 Treatments Free

Think what it would mean to no longer suffer with these intolerable, roaring noises —the whistling, the escaping steam—the hum of insects—the buzzing—all the weary catalogue of sounds, which at times make you feel that they must stop, or you will go insane. Perhaps, too, your hearing is beginning to fail, but whether it has or not, you know in your heart of hearts that it will go and the voice of science warns you in unmistakable terms, *If you have Head Noises, sooner or later, you will be deaf.*

Here is your opportunity. Send for one of my Free Treatments and see my method which has cured hundreds in just your condition. Just drop me a note or a post card asking for a Treatment for Head Noises Free. You will never regret it.

This offer and talk is for YOU. Perhaps you have tried other things and become discouraged. Perhaps you have been told there is no help. Perhaps you are carelessly neglecting your case from day to day thinking it will get well of itself.

Make just this small effort. Send for one of my Free treatments. It won't cost you a penny. See this successful new treatment and the method which has cured many, many people with Head Noises just like yours.

Write to-day for Free Head Noises Treatment

# THIN FOR YEARS

## "Gains 22 Pounds in 23 Days"

"I was all run down to the very bottom," writes F. Gagnon. "I had to quit work I was so weak. Now, thanks to Sargol, I look like a new man. I gained 22 pounds in 23 days."

"Sargol has put just 10 pounds on me in 14 days," states W. D. Roberts. "It has made me sleep well, enjoy what I ate and enabled me to work with interest and pleasure."

"I weighed 132 pounds when I commenced taking Sargol. After taking 20 days I weighed 144 pounds. Sargol is the most wonderful preparation for flesh building I have ever seen," declares D. Martin, and J. Meier adds: "For the past twenty years I have taken medicine every day for indigestion and got thinner every year. I took Sargol for forty days and feel better than I have felt in twenty years. My weight has increased from 150 to 170 pounds."

Hadn't you better look into this new method of gaining flesh and weight, just as thousands of others have done? Many thin folks say: "I'd give most anything to put on a little extra weight," but when someone suggests a way they exclaim, "Not a chance. Nothing will make me plump. I'm built to stay thin." Until you have tried Sargol, you do not and cannot know that this is true.

Sargol has put pounds of healthy "stay there" flesh on hundreds who doubted, and in spite of their doubts. You don't have to believe in Sargol to grow plump from its use. You just take it and watch weight pile on, hollows vanish and your figure round out to pleasing and normal proportions. You weigh yourself when you begin and again when you finish and you let the scales tell the story.

It is a tiny concentrated tablet. You take one with every meal. It mixes with the food you eat for the purpose of separating all of its flesh producing ingredients. It prepares these fat making elements in an easily assimilated form, which the blood can readily absorb and carry all over your body. Plump, well-developed persons don't need Sargol to produce this result. Their assimilative machinery performs its functions without aid. But thin folks' assimilative organs do not. This fatty portion of their food now goes to waste through their bodies like unburned coal through an open grate. A few days' test of Sargol in your case will surely prove whether or not this is true of you. Isn't it worth trying?

# 50c BOX FREE

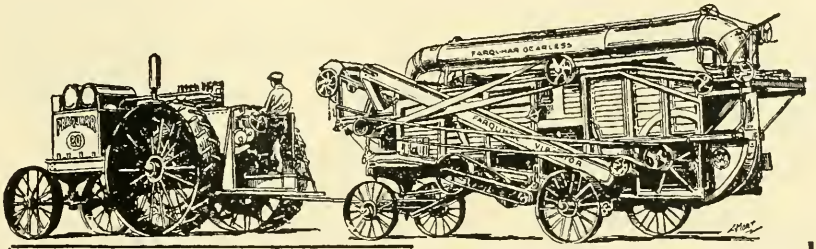
To enable any thin reader, 10 pounds or more under weight, to easily make this test, we will give a 50c box of Sargol absolutely free. Either Sargol will increase your weight or it won't and the only way to know is to try it. Send for this Free Test Package to-day, enclosing 10c in silver or stamps to help pay postage, packing, etc. and a full size 50c package will be sent by return mail, free of charge. Mail this coupon with your letter to the SARGOL CO., 200-N HERALD BLDG., BINGHAMTON, N. Y.

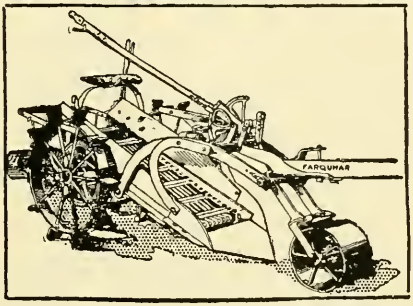
### COME, EAT WITH US AT OUR EXPENSE.

This coupon entitles any person to one 50c package of Sargol, the concentrated Flesh Builder (provided you have never tried it), and that 10c is enclosed to cover postage, packing, etc. Read our advertisement printed above, and then put 10c in silver in letter to-day, with coupon and the full 50c package will be sent you by return post. Address:

**The Sargol Company, 200-N Herald Bldg., Binghamton, N. Y.**

Write your name and address plainly and PIN THIS COUPON TO YOUR LETTER.





## INVESTIGATE THESE FARM LABOR SAVERS

For fifty-eight years Farquhar Farm Machinery has represented the last word in dependable up-to-date labor saving tools. Our goods are divided into two classes—heavy Machinery and Implements. The former consists of Engines, Boilers, Saw Mills, Threshers, Steam and Gas Tractors. In the Implement line we have Potato Diggers, Grain Drills, Corn Planters and Shellers, Harrows, Cultivators, Feed Grinders, etc.

Big new 70-page Catalog illustrates and describes the Machinery line. Handsome 48-page Implement Catalog gives full details of the smaller tools. Either or both the above catalogs free on request.

# BOOK OF 700 SECRETS

## How to Get Rich When Your Pockets Are Empty.

Thousands that should have been Millionaires have heard the Conductor call out "Eternity" the last Station on the Road to Life, with not enough money in their pockets to buy a 25-cent Burial Casket. Why? Because they never started right. You imagine that Fortune should come to you instead of your trying to get to it. You know people that were poor a short time ago, but now are wealthy. How did they get along so fast? It is easy to get Rich and this book proves it, and tells you the Secret. BOOK of 700 SECRETS, or How to Get Rich When Your Pockets are Empty, is the Book that points out 700 Easy Paths to take you; cannot go astray; take which one you will. They all converge in one condition—and that is "wealth." It is, indeed, a Beacon Light to Fortune. There are many roads to wealth but not every person knows which road to take to get there quickly. Well, the object of this book is to plainly point the way that none may have excuse for not bettering your financial condition, while those who have secured a fair share may be enabled to still further add to their store. Any person, young or old, male or female, married or single, with just a little pluck in them, will be enabled, with any one of the 700 Secrets in this book, to make a start on a sure road to wealth and luxury. If you desire to commence business, select one of these recipes—one you think would be most salable in your locality—and manufacture it in small quantities. As your sales increase, invest more capital. Sell to families and stores. As soon as your means will allow, advertise in every way possible. Whatever you choose to manufacture, give it a new name—one that will at once attract attention and that you think will help the sale. This book will put you on your feet, though you may have been penniless. Step on board. READER, DOES THIS APPLY TO YOU? Well, now, is it possible that at last I have found what I've so long sought? It is like drawing a prize in a lottery. Who knows but what this really is the true stepping stone to my future fortune! This is for you. It will lead you to something that is just as sure to pave your way to fortune as that you now exist. A bright future is yours if you only stretch out your hand and grasp the Golden Key that unlocks the Vault that opens to your astonished gaze the hidden treasure.

**We do not sell this book, we give it away with a year's subscription to Money Making Ideas for 50c.**

**106 West 42d Street, New York City.**

# Cancer Free Treatise

The Leach Sanatorium, Indianapolis, Indiana, has published a booklet which gives interesting facts about the cause of Cancer, also tells what to do for pain, bleeding, odor, etc. Write for a copy of it to-day, mentioning this publication.

# Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 851 Marcellus Avenue, Manasquan, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

## *FREE TO*

# Asthma Sufferers

**A New Home Cure That Anyone Can Use Without Discomfort or Loss of Time.**

We have a New Method that cures Asthma, and we want you to try it at our expense. No matter whether your case is of long standing or recent development, whether it is present as occasional or chronic Asthma, you should send for a free trial of our method. No matter in what climate you live, no matter what your age or occupation, if you are troubled with asthma, our method should relieve you promptly.

We especially want to send it to those apparently hopeless cases where all forms of inhalers, douches, opium preparations, fumes, "patent smokes," etc., have failed. We want to show everyone, at our own expense, that this new method is designed to end all difficult breathing, all wheezing, and all those terrible paroxysms at once and for all time.

This free offer is too important to neglect a single day. Write now and then begin the method at once. Send no money. Simply mail coupon below. Do It To-day.

Address **Dr. Van Vleck Co., WA14 Majestic Bldg., Jackson, Mich.** Send no money—only your address. Write to-day.

# I Will Stake This Medicine Against Your Time

## A Few Days Will Be Sufficient to Prove its Value in Your Disease

A few minutes of your time for a few days and I will demonstrate to you, without expense to yourself, that I have a medicine that drives uric acid poison from the system and by so doing conquers kidney trouble, bladder trouble and rheumatism. I don't ask you to take my word for it, but simply want you to let me send you some of this medicine so that you can use it personally.

I am trying to convince sufferers from these diseases that I have something far better than the usual run of remedies, treatments and such things, and the only way I can demonstrate that fact is to go to the expense of compounding the medicine and sending it out free of charge. This I am glad to do for any sufferer who will take the time to write me. Understand, I will not send you a valueless "sample, proof or test treatment," nor will I send you a package of medicine and say that you can use some of it and pay for the rest, but I will send you a supply free of charge and you will not be asked to pay for this gift nor will you be under any obligations.

All I want to know is that you have a disease for which my medicine is intended, as it is not a "cure-all," and I give herewith some of the leading symptoms of kidney, bladder and rheumatic troubles. If you notice one or more of these symptoms you need this medicine, and I will be glad to send you some of it if you will write me the numbers of the symptoms you have, give your age and your name and address. My address is Dr. T. Frank Lynott, 5152 Deagan Building, Chicago, Ill. You promise me nothing; you pay me nothing for it. All I ask, so there shall be no mistake, is that you send me the numbers of your symptoms or a description in your own words and that you take the medicine according to the directions I send you. It is my way of getting publicity for my medicine so that it will become widely known.

You will agree when you have used it that it dissolves and drives out uric acid poison. It tones the kidneys so that they work in harmony with the bladder. It strengthens the bladder so that frequent desire to urinate and other urinary disorders are banished. It stops rheumatic aches and pains immediately. It dissolves uric acid crystals so that back and muscles no longer ache and crooked joints quickly straighten out. It reconstructs the blood and nerves so that you soon feel healthier and stronger, sleep better and eat better and have energy throughout the day. It does all this and yet contains nothing injurious and is absolutely vouched for according to law.

Sufferers from these dreadful and dangerous diseases can surely afford to spend a few minutes each day for a few days to demonstrate to their own satisfaction if they are curable, especially when you consider no expense is involved, and I willingly give you my time and my medicine. All any fair-minded afflicted person wants to know is if a certain thing will relieve HIM or HER, and here is an opportunity to find out without cost, obligation or important loss of time. THESE FEW DAYS may be the turning point in your life.

**DR. T. FRANK LYNOTT**
**Who will send medicine free of charge to those who need it**

All who are interested enough to write me for the free medicine will also receive a copy of my large illustrated medical book, which describes these diseases thoroughly. It is the largest book of the kind ever written for free distribution, and a new edition is just being printed. I will also write you a letter of instructions and medical advice that should be of great help to you; but in order to do this I must know that you need my medicine. Write me the numbers of the symptoms that trouble you, and your age, and I will promptly carry out my promises. Show an inclination to get well and write me, and I will gladly send you a supply free.

## These are the Symptoms:

1—Pain in the back.
2—Too frequent desire to urinate.
3—Nervousness, loss of flesh.
4—Pain or soreness in the bladder.
5—Weak, watery blood.
6—Gas or pain in the stomach.
7—General debility, weakness, dizziness.
8—Pain or soreness under right rib.
9—Sciatic rheumatism.
10—Constipation or liver trouble.
11—Palpitation or pain under the heart.
12—Pain in the hip joint.
13—Pain in the neck or head
14—Pain or soreness in the kidneys.
15—Pain or swelling of the joints.
16—Pain or swelling of the muscles.
17—Pain and soreness in nerves.
18—Acute rheumatism.

# $3.50 RECIPE FREE

## Send Name and Address To-Day You Can Have It Free and Be Strong and Vigorous

We have in our possession a prescription for nervous debility, lack of vigor, failing memory and lame back, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that we think every man should have a copy. So we have determined to send a copy of the prescription free of charge, in a plain, ordinary sealed envelope to any man who will write us for it.

This prescription comes from a physician who has made a special study of men and we are convinced it is the surest-acting combination ever put together.

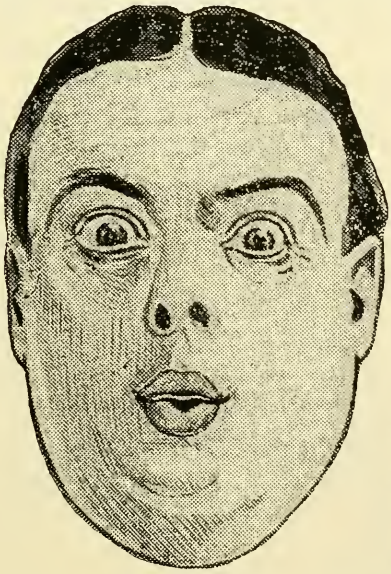
We think we owe it to our fellow men to send them a copy in confidence so that any man anywhere who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what we believe is the quickest-acting restorative, upbuilding, SPOT-TOUCHING remedy ever devised, and so cure himself at home quietly and quickly. Just drop us a line like this: Interstate Remedy Co., 4943 Luck Building, Detroit, Mich., and we will send you a copy of this splendid recipe in a plain ordinary envelope free of charge. A great many doctors would charge $3.00 to $5.00 for merely writing out a prescription like this—but we send it entirely free.

# Get New Vim in Your Nerves

## Kellogg's Sanitone Wafers Drive Gloom from Your Brain and Vitalize Every Nerve in Your Body

## 50-CENT BOX FREE TO MEN AND WOMEN

Here, at last, is a real nerve vitalizer—greatest joy-bringer of the age. It thrills brain and body with real strength and vitality, making old folks feel young again. It renews ambition and courage when life just drags along, and clears



up dull, muddled brains. When your thoughts come hard, your muscles go weak and you feel like "losing your grip," Kellogg's Sanitone Wafers renew your nerve-force and bring back your vigor and vim.

**MEN:** Men need Kellogg's Sanitone Wafers when they're run down and don't know why. Get your nerves revitalized with Kellogg's Sanitone Wafers and constipation will vanish soon—likewise headaches, neuralgia and many other troubles. Don't waste money on body-medicines or doctors when your nerves are all that's wrong; don't travel, take electric treatment or massage. If your nerves are in bad shape, Kellogg's Wafers are your safe, sure remedy. Get a 50-cent box free; know the real joys of living at your age.

**WOMEN:** Women need Kellogg's Sanitone Wafers when they break down from nervous worry—"get the blues" over nothing and grow weaker and thinner every day. No woman is wholly womanly when her health and nerves go wrong. If you would be at your best—banish backaches, headaches and sleeplessness—get your nerves "right" with Kellogg's Sanitone Wafers and your life will be all sunshine.

All first-class druggists have Kellogg's Sanitone Wafers in stock, at $1.00 a box, or they will be mailed direct upon receipt of price by F. J. Kellogg, 1850 Hoffmaster Block, Battle Creek, Mich. No free trial boxes from druggists.

A 50-cent trial box of this great discovery will prove that they do the work. They are guaranteed—every wafer. Send coupon below to-day for free 50c trial box of Kellogg's Sanitone Wafers.

# HYPNOTISM

Would you like to exert a strange and powerful influence over others? Do you desire to possess an accomplishment by which you can make both fun and money? One that would virtually open to you the gate to health, prosperity and happiness? If so, you should learn Hypnotism. You may now master this wonderful, mysterious and fascinating science at your own home. By a few hours' study you may learn all about the secrets, methods, uses and wonders of the hypnotic trance. You can surprise and mystify your friends by placing others under this weird and magic spell, and compel them to see, think, feel and act precisely as you wish. You may sway the minds of others, perform wonderful and astounding feats, and create fun and amusement for hours at a time. You may do a hundred amazing things that other people cannot do, and make yourself the most popular person in your community. If you want to **make money** you may do so by giving entertainments, treating diseases or teaching the art to others. These are three practical and easy ways to make money. In spite of these noble uses and in spite of its mysterious powers, Hypnotism is an easy and most simple art to learn. It calls for no special training or education. It imposes no long or perplexing study. Whoever knows enough to read may learn it. You may master all these powers yourself and wield the subtle forces of mind as well as any operator in the land. You may treat the sick, relieve pain, overcome bad habits, give sleep to the restless and comfort to the sorrowing. And for yourself, you may win promotion, social and business standing, and the influence or friendship you most desire. Investigate **now**! It costs nothing to find out about it. Simply write for my Free Descriptive Literature, Genuine Testimonials and full particulars. Don't send any money, not even a stamp, but send your name and address **To-Day** and learn how you may gain health, prosperity and happiness. Address:

**M. D. BETTS, Sta. 220 - Jackson, Michigan**

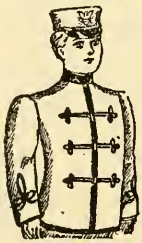
## All of Lockhart's Baits Float, Dive and Swim, but—

The Water Wasp

**This Water Wasp is 5 baits in one. It floats, it swims, it dives, you have either an open water bait or a weedless. Of course it has Lockhart's Patented Hook Fasteners, which permits of removing or renewing the hook by the aid of your jack-knife. We also make the famous Wagtail Witch, Water Wizard, Pollywog and the Jersey Skeeter (our new bait a five in one). Five baits for the price of one—One Dollar. Post Paid; Patents Nov. 21, 1909; June 2, 1911; other patents pending. Infringers of Our Claims Vigorously Prosecuted. Ask for Book of Cuts No. 21.**

**E. J. LOCKHART - Railroad and Pearl Streets - GALESBURG MICHIGAN**

# MAN'S HEALTH FORTIFIED



By living a healthful active life and assisting nature in obviating the strains due to severe physical exercises and with the assistance of a celebrated "SCHNOTER'S" Army and Navy Suspensory, which will give and keep you in better bodily vigor than all the patent medicines that were ever introduced to the public. Ask your physician about this.

Remember these words:

"A walk of a mile in the open air
Will save you more than your nickel fare.
For in God's out-doors the air is good,
It will clear your brain and redden your blood.
And bring you more vigor and health by far
Than you can possibly get in any old car."

The Genuine Schnoter's Suspensories are retailed at all druggists. Send for descriptive booklet. By the Pioneers in Suspensory making.

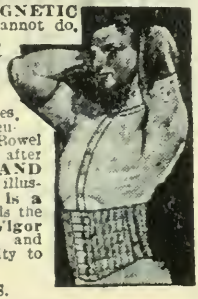
# More Vital Energy for You

**MAGNETIC SHIELDS** fill the system with **MAGNETIC FORCE**, which does what all the medicine on earth cannot do. It gives life, energy and tone to the blood and nerves, **MAKING THE BLOOD CIRCULATE VIGOROUSLY**, overcoming congestion, soreness and pain.



**We Prove It to You Positively**

Not in one case, or a dozen cases, but in multitudes of cases, where people say they have been cured of Paralysis, Rheumatism, Lung Trouble, Kidney, Liver, Stomach and Bowel Trouble, Nervousness and most every other form of disease after medicine failed. Our **MAGNETIC ABDOMINAL AND KIDNEY VITALIZER** for ladies and gentlemen, here illustrated, is only one of the many shields we make. **It is a wonderful invention**, scientifically constructed and floods the system with magnetism, supplying **Life, Strength and Vigor** to the **Back, Kidneys, Stomach, Liver, Bowels** and **Bladder**, giving that buoyancy, tone and renewed vitality to the system that Magnetic force alone can supply.

JUST WHAT YOUR WEAK SYSTEM NEEDS.

## READ THE FOLLOWING INDISPUTABLE EVIDENCE

from those who have worn Magnetic Shields and been cured. Send for more evidence, as we have hundreds of grateful letters showing the wonderful power of magnetism over disease.

"I put the belt on and in one night the pain had left my back."—C. E. Murden, Wilmington Del. "My once more being able to walk is an astonishment to my friends and neighbors."—C. D Smith, Rome, N. Y. "I cannot describe the sensation I felt in less than three hours. From tha time I began to improve. I have never had any trouble with a cough since."—Mrs. A. R. Kinne, Johnstown, N. Y. "I had catarrh of stomach fifteen years; to-day I am as well and sound as ever."—J. Y. Keck, Pottstown, Pa. "Two eminent physicians from Chicago in consultation with my home doctor all agreed it was a hopeless case of Bright's disease. Dr. Thacher, after an examination, fitted me with their Shields, and told me to go home to my work, which I did. I haven't lost a day since or been troubled with my kidneys."—J. G. Black, Thornton, Ill.

Write to-day for full information and free book, **"PLAIN ROAD TO HEALTH,"** by C. I Thacher, M.D. Describe your case fully, we advise you free how to apply **MAGNETISM** for treating any form of weakness or disease.

**THACHER MAGNETIC SHIELD CO., Inc.,**

# Eyeglasses Not Necessary

## Eyesight Can Be Strengthened, and Most Forms of Diseased Eyes Successfully Treated Without Cutting or Drugging.

That the eyes can be strengthened so that eyeglasses can be dispensed with in many cases has been proven beyond a doubt by the testimony of hundreds of people who publicly claim that their eyesight has been restored by that wonderful little instrument called "Actina." "Actina" also relieves Sore and Granulated Lids, Iritis, Cataracts, etc., without cutting or drugging. Over 100,000 "Actinas" have been sold; therefore the "Actina" treatment is not an experiment, but is reliable. The following letters are but samples of hundreds we receive.

Mr. David Suttle, 1002 W. 51st Street, Chicago, Ill., writes: "I sent for your 'Actina,' and when it came I told my wife I would throw my glasses away and give the 'Actina' a fair show. I did so, following directions, and soon felt my eyes were getting in normal condition again, and now I can say my eyesight is as good as ever and my headaches practically vanished."

Mr. Emery E. Deitrick, 7124 Idlewild Street, E. E., Pittsburgh, Pa., writes: "My eyes were very weak, and my vision was so bad that I could recognize people only at short distances. Since using 'Actina' I have discarded my glasses, my headaches are gone and my vision, I believe, is as good as ever it was."

Mr. J. H. Frankenfield, 522 E. 20th Street, Cheyenne, Wyo., writes: "Regarding what the 'Actina' has done for me, I am proud to say that I am not wearing my glasses at all. As for my catarrh, it is almost gone, and I have been troubled with it for more than sixteen years.

"A great number of my railroad friends are buying 'Actinas,' as you know by the orders you have received."

"Actina" can be used with perfect safety by ever member of the family for any affliction of the eye, ear, throat or head. A free trial of the 'Actina' is given in every case.

Send for our FREE TRIAL offer and valuable FREE BOOK. Address Actina Appliance Co., Dept. 31N, 811 Walnut St., Kansas City, Mo.

# Be a Real Beauty

## By Clearing Your Complexion and Restoring Youthful Color with Stuart's Calcium Wafers, the New Skin Eruption Remedy.

You can use all the lotions and creams in the world, but you won't have a good complexion unless your blood is free from the impurities which cause pimples, blotches, liver spots, blackheads and boils.

**"I Am Free from All Ugly Face Color and Skin Eruptions—I Used Stuart's Calcium Wafers."**

No matter how splotchy or pimply your face is now, you can clear it quickly by taking Stuart's Calcium Wafers. This isn't guess-work; it is a fact. These little wonder-workers clear the blood almost like magic. Calcium sulphide, their principal ingredient, is the greatest blood purifier known to science. Stuart's Calcium Wafers have not a particle of poison, harmful drugs or opiates in them. They may be taken with perfect freedom by any one.

They contain as their main ingredient the most thorough, quick and effective blood cleanser known, calcium sulphide.

Stuart's Calcium Wafers will make you happy because your face will be a welcome sight not only to yourself when you look into the glass, but to everybody else who knows you and talks with you.

Prove to yourself that Stuart's Calcium Wafers are beyond doubt the best and quickest blood and skin purifier in the world, and don't rest contented until you have bought a 50c box at your druggist's. Do this at once and in a few days the transformation will be a delightful surprise to you.

# The Worst of Colds Relieved In 5 Minutes

## Just Eat a Lump of Sugar on Which You Have Put a Few Drops of Leach's Virgin Oil of Pine.

**Relief Is Waiting for You at the Nearest Drug Store. Don't Wait—Go Now.**

Most people who have never used this simple remedy for the cure of colds and coughs, think you are stretching the truth when you tell them that Leach's Virgin Oil of Pine will relieve the worst of colds in five minutes. Mind you, not **cure** your cold that quickly, but relieve the sniffling, the breathing, the headache and the other immediate suffering.

**Foolish-Foolish Man—When He Could So Easily Rid Himself of Such Misery.**

If you have a cold, be sure to get this splendid remedy. Don't "monkey" with substitutes or cheap imitations. The genuine costs but 50 cents and is sold at all drug stores. Money back if it doesn't cure your cold.

If your druggist won't supply you, then order direct from the

**LEACH CHEMICAL CO.**
**CINCINNATI OHIO**

# LET ME REMOVE YOUR GOITRE

## $2.50 TEST TREATMENT FREE

If I could meet you face to face in my office and tell you the many cures my Goitre Treatment has made, you wouldn't continue to suffer and be disfigured with "Big Neck." You wouldn't give up hope because of past failures. No, you would get my treatment immediately. I can't meet every goitre sufferer personally, but I will gladly send you $2.50 worth of my wonderful treatment free for a test. It's the same treatment that is curing hundreds of cases every month, and I believe it will cure you. At any rate, is it not worth trying? I take all the risk. Besides, I stand all expense of the trial.

For 10 years I have specialized on goitre. In that time I have probably treated more goitre patients than anyone in the world would treat in a lifetime. And I have made many wonderful cures. I wish I could tell you personally about some of them. But I want to relieve you at once of your suffering and do away with that "big swelling" on your neck.

Don't give up hope because of past failures. Most of my patients have tried everything, but found no permanent relief until I treated them. Just see what Miss H. Rebecca Thomas of Linville Depot, Va., writes me: "There is no sign of goitre on my neck now and I only took one treatment. My general health, too, is fine. No choking or disagreeable feeling in my throat. I cannot thank you enough for what your treatment did for me."

Remember, please. My $2.50 test treatment is free. Don't send any money. Tell me about your goitre and receive *free* treatment in plain package.

**$2.50 FREE Treatment Coupon**

# A Good Appetite Is a Glorious Thing

And Any Person Can Have a Rip Roaring One If Stuart's Dyspepsia Tablets Are Used After Meals.

The secret of appetite lies in a healthy and normal desire for food on the part of the stomach and other digestive organs.

Your digestive apparatus always wants more food when it is normal and it wants all kinds of food, too, heavy and light, sweet and sour. These qualities are needed by man's blood, and so the system craves them. This craving is appetite.

**"Ever Since I Used Stuart's Dyspepsia Tablets I Simply Delight in Food."**

The real value in Stuart's Dyspepsia Tablets consists of their instant acting digestive abilities. They digest the food in the stomach very quickly, stop irritation, rest the stomach and when the nourishment of the food is taken into the system they go with it into the blood and thus replenish the digestive fluids.

Thousands of men and women in this country have proved, to their complete satisfaction, the great digestive and curative values of Stuart's Dyspepsia Tablets.

One ingredient of Stuart's Dyspepsia Tablets is so powerful that one grain of it will digest 3,000 grains of food and it will even do this in a glass tube without the aid of man's stomach. Just think what this means, when your stomach is raw and filled with hurtful acids and alkalies. The rest it will receive will be priceless.

Stuart's Dyspepsia Tablets are sold by all druggists everywhere. Obtain a box, 50 cents, to day and take a tablet after your next meal just to prove how easily you can digest that meal.

# Want Luxuriant Hair?

**We would lose thousands of dollars annually in this form of advertisement if Koskott were not as represented—the real thing. Prove it in your own case.**

# DOLLAR BOX FREE TO YOU

LET us prove to you that Koskott Method for the Hair is genuine and scientific. We will send you a **DOLLAR BOX** out of the Koskott Triplex Treatment **FREE.** Our method is directed at removing the cause, and opening the closed follicles so that the hair roots which are not dead, but dormant (like a tulip bulb or grass seed in a bottle), are given fertility and a chance to grow. **Our Method is purposed to MAKE GOOD. Read our TEN DOLLAR GUARANTEE.** Koskott is for men's, women's and children's heads, to clear scalp of **dandruff, stop falling hair** and to promote **growth of new hair.** We especially want you to answer this adv. if you have wasted time and money in liquids, washes, soaps, etc., which accomplished nothing. We want to **surprise and delight you.** Send only **10 cents** (silver or stamps) to help cover actual advertising cost, and we will mail the **$1.00 Box absolutely free,** with book and proofs, postpaid in plain wrapper.

# Marmola Prescription Tablets

## Take Off the Fat Where It Shows

**Harmless, Pleasant Little Tablets, Made After the Famous Marmola Prescription, Quickly Reduce Fat Without Exercise or Dieting.**

The Marmola Method of reducing fat is not new. It is the safe, successful treatment for overfatness originated many years ago by a well-known Detroit physician, and recommended by many of the most ethical doctors in this country and abroad. The original Marmola Prescription is hailed by many thousands of men and women all over the land as a savior of health, figure, complexion, and, in many instances, life. Marmola Prescription Tablets are the logical outgrowth of this same harmless prescription, only they are more pleasant, easy and convenient to take. These little tablets (taken after meals and at bedtime) contain every effective ingredient of the original formula, each in proper proportion. They change into energy, strength and solid tissue the fat-producing foods as well as the fat already formed, without any call for violent exercise or unwelcome dieting. The stomach and other digestive organs receive them gratefully, their work of assistance is done thoroughly and quietly. The fat disappears evenly and smoothly, leaving no wrinkles or flabby skin. A reduction of thirty pounds in as many days is not too much to expect from Marmola Prescription Tablets; and, best of all, when the fat has once been removed, the body reduced to desired weight and the system regulated so that it takes care of the fatty foods, a return to bigness and clumsiness need not be feared. A large case of Marmola Prescription Tablets from any druggist or from the Marmola Co., 1354 Monroe Avenue, Detroit, Mich., costs 75c.

# Catarrh Relief Now FREE

## You Can Now Treat This Trouble in Your Own Home and Get Relief At Once.

*By the new method the nose and throat are treated by an effective local remedy applied directly to the afflicted membranes.*

*The Elixir, taken into the stomach, has a direct influence upon the mucous membranes of the body and conquers the disease by removing the cause.*

### *How the Remedy for CATARRH Was Discovered.*

THIS terrible disease has raged unchecked for years simply because symptoms have been treated while the vicious germs that cause the trouble have been left to circulate in the blood, and bring the disease back as fast as local treatments could relieve it.

C. E. Gauss, who experimented for years on a treatment for Catarrh, found that after perfecting a balm that relieved the nose and throat troubles quickly, he could not prevent the trouble beginning all over again.

On test cases, he could completely remove all signs of Catarrh from nose and throat, but in a few weeks they were back.

Careful experiments and investigations have shown that as the troubles were expelled from the nose and throat, the real cause of the disease was overlooked and in a short time the Catarrh would return stronger than ever. Mr. Gauss has gone way ahead of the ordinary methods of treatment and has provided a remedy that

## Kills the Germs in the Blood

**and Immediately Gives Relief to the Nose and Throat.**

He perfected the New Combined Treatment, since admitted to be the logical, sure, scientific method.

Reese Jones, of Scranton, Penn., says that after trying many other treatments, he used this new method and—"My nose is entirely clear and free and I am not bothered by the disease any more. The New Combined Treatment is worth its weight in gold."

Temporary relief from catarrh may be obtained in other ways, but the New Combined Treatment must inevitably be accepted for permanent results.

Sarah J. Cape, Mount Pella, Tenn., says: "I suffered the pains and distress of catarrh for thirteen years, and needless to state, tried nearly every method. But by your new method I was completely cured and you cannot imagine the joy that has come over me."

### *Goes to the Root of—*

**Stopped-up noses**
**Constant "frog - in - the - throat"**
**Nasal discharges**
**Hawking and spitting**
**Snoring at night**

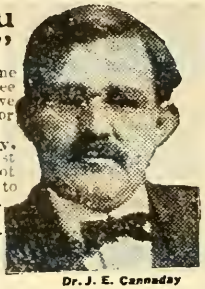
## "Let Me Tell You This Life Story?"



Dr. J. E. Cannaday

I am spending my life on just one work—curing Eczema. My free book tells you how and what I have done for thousands as I can do for you.

**Eczema can be cured to stay,** and when I say cure I mean just what I say, C-U-R-E-D, and not merely patched for a while, to return worse than before. Remember I make this broad statement after putting 12 years of my life on this one disease, and handling in the meantime nearly a half million cases of this dreadful disease. Now I do not care what all you have used, nor how many doctors have told you that you could not be cured—all I ask is just a chance to show you that I know what I am talking about. Let me take your case as a regular physician specialist in just one disease—ECZEMA—at my risk. I offer you ECZEMA SALVATION—Instant relief—All you need to do is to write me about your case so that I'll **know** you have **Eczema. I refuse** all other diseases. I am no "cure-all" and don't pretend to be. If you will but send for a **Free Trial** of my mild, soothing treatment you will be more convinced in a day than I or anyone else could in a month's time tell you what my treatment will do for you. If you are disgusted and discouraged I dare you to GIVE ME A CHANCE TO PROVE MY CLAIMS.

## Get My FREE TRIAL Treatment

Send at Once at My Risk

**Answer this offer and you have a lifetime of future happiness to gain—at no risk. I want to hear from only real ECZEMA sufferers or their friends and I promise you all the best there is in me and my treatment to CURE YOU or you will not have to pay me a penny of my small fee. I charge only one small fee if you say yourself I deserve it after 30 days. WRITE ME NOW.**

**DR. J. E. CANNADAY, Eczema Specialist, 307 Ohio Street, SEDALIA, MO.**

**References**—Third National Bank, Sedalia, Mo. Could you do a better act than to send this notice to some poor sufferer of Eczema, even a stranger to you or a friend?

## A PHYSICIAN CURES HIS WIFE OF CONSUMPTION

**With A Simple Home Treatment. Book Fully Describing The Treatment Sent Absolutely Free To Any Lung Sufferer.**

DR. W. H. KNIGHT of East Saugus, Mass., writes: "My wife was down with Consumption when I ordered the Lloyd treatment. She was very weak from night sweats, cough, and in a feverish condition. I noticed a change for the better after ten days' treatment, and from that time on up to three months, when the cure was completed. The Lloyd Treatment kills the Tubercle Bacillus in the blood and tissue, and it is the only remedy so far discovered that will do this. It is a preventive as well as a cure. It should be used by those who are run down, or those who fear the approach of Consumption. It can be truthfully said that for the cure and prevention of Consumption it is the most wonderful treatment of the present age."

This is only one of hundreds of letters received from physicians and others reporting cases of consumption and lung trouble restored to health in all sections of the United States. We want to send *every lung sufferer* absolutely free the startling statements of Dr. W. H. Kiester of Dayton, Ohio, Dr. C. G. Pinckard of Kansas City, Mo., Dr. J. H. Ward of Troy, Mo., and many others who report results almost beyond belief, together with a valuable booklet on the cause, prevention and treatment of consumption and lung trouble.

If you are suffering from weakness, blood-spitting, pus-filled sputum, night sweats, chills, fever, loss of flesh, painful lungs, distressing cough, wasted body, loss of strength—write me today and I'll send you ABSOLUTELY FREE the sworn testimony of many who, after suffering with just such distressing symptoms, now state that they ARE CURED, strong, able to work, without ache or pain, happy, full of praise, after a few months' use of this simple home treatment. Send your name and address TODAY. JUDD Q. LLOYD, 7261 Lloyd Building, St. Louis, Mo.

# DRINK HABIT

For the good of those who are victims, directly or indirectly, of the drink habit, I have written and published a very interesting illustrated book which describes how I was **freed completely** from the craving and for several years I have not had any desire to touch a drop of anything alcoholic. My book contains information, by following which thousands of drinkers have **admittedly been saved.**

Many men who do not want to be freed of drink curse have been **secretly saved** by **wives, mothers or sisters.** They did not realize what was happening until they found **all desire had left** them—they couldn't drink any more whiskey or beer—then they rejoiced at having been saved. My book has been proven many times worth its weight in gold to a multitude of families. **Praised** by physicians, judges, editors, clergymen and legions of others. Don't lose this notice; it may not appear again. Simply write to **EDWARD J. WOODS, 534 Sixth Ave., 657 G, New York, N. Y.,** and you will soon receive the FREE book of valuable information in plain wrapper, and **happiness** may soon be yours.

Correspondence strictly confidential.

# Real Hair Grower Found at Last!

## The Great English Discovery "Crystolis" Grows Hair in 30 Days

**$1,000.00 Reward if We Cannot Prove Our Claims**
**Try It at Our Risk. Mail Coupon To-Day**

**Beautiful Hair and lots of it—if you use Crystolis**

Some of the most eminent Scientists in Europe consider "Crystolis," the New English Hair Grower, the most wonderful discovery of the century.

The judges of the Brussels and Paris Expositions enthusiastically awarded Gold Medals to this marvellous hair grower.

Since we secured the American rights thousands of men and women from all parts of the world write telling of the phenomenal results obtained by its use. People who have been bald for 30 years now glory in beautiful hair. Others who have had dandruff all their lives have got a clean, healthy scalp after a few applications of this wonderful drug.

We don't care whether you are bothered with falling hair, prematurely gray hair, matted hair, brittle hair or stringy hair, dandruff, itching scalp, or any or all forms of hair trouble—we want you to try "CRYSTOLIS" at our risk.

We give you a binding guarantee without any "strings" or red tape that it won't cost you a cent if we do not prove to you that "Crystolis" will do all we claim for it, and, what's important, we have plenty of money to back our guarantee. Cut out the coupon below and mail it to-day to Creslo Laboratories, 200 A St., Binghamton, N. Y.

**FREE COUPON**

The Creslo Laboratories, 200 A Street, Binghamton, N. Y.

I am a reader of The World Almanac. Prove to me without cost how Crystolis stops falling hair, grows new hair, banishes dandruff and itching scalps and restores gray and faded hair to natural color. Write your name and address plainly and

American Steel Fence Post. Cheaper than wood and more durable.

# The Greatest Galvanizing Discovery of the Age

A heavier coat of more lasting zinc that stays on. Either Bessemer or Open Hearth Steel. Big wires—more steel per rod—mean longer life and greater strength. Elastic hinged joints—*mechanically* joined, the only true and enduring way to unite a fabric *without injuring the metal.*

**American Fence**
**Ellwood Fence**
**Royal Fence**
**Anthony Fence**
**National Fence**
**U. S. Fence**

These fences with the new galvanizing are adapted for all field, farm and poultry uses and all places where safe enclosure is desired. *Dealers everywhere* display different heights and weights and quote lowest prices.

HOG CHOLERA PREVENTIVE

by Sulphate of Iron (Copperas). In combination with soft coal and common salt, protects against hog cholera; is a worm expeller and general tonic. Send for our free publications "Hog Diseases" and "Farm Weeds and Farm Sanitation."

The American Steel Fence Post is thoroughly established as a money-saving and satisfactory farm fixture.

It is satisfactory to the user and furnishes much better service than ever has been secured or can be secured by the use of wood or other material. The American Post is much cheaper than wood or other material when service and durability are considered.

Send for catalogue.

*REINFORCEMENTS FOR CONCRETE ROADWAYS—Triangle Mesh. Booklet on "Pavements and Roadways" furnished free.*

# THE WARNER-SCHWARZLOSE

# AUTOMATIC PISTOL

EIGHT SHOTS AND EIGHT REASONS

why you should buy a

## WARNER-SCHWARZLOSE AUTOMATIC PISTOL

*1st.* **A solid breech block,** because of which it is safer, shoots harder and farther.

*2d.* **It functions from the shooter,** therefore safer again.

*3d.* **The pistol can be carried or put away at full cock** and left an indefinite time and the mainspring will not set, because it is not at full tension until the pistol is gripped for firing. This is not true of any other Automatic Pistol; **because of this** THE WARNER-SCHWARZLOSE **is more dependable** in time of home.

*4th.* **The Grip Safety Device is automatic.** You can never forget to release safety for firing nor forget to put it on when it should be made safe. **It takes care of itself.**

*5th.* THE WARNER-SCHWARZLOSE is so constructed that a cartridge cannot be prematurely fired before the cartridge enters the chamber and is closed up tight.

*6th.* THE WARNER-SCHWARZLOSE **has a 4-in. barrel,** while the entire length of Pistol is only 5½ ins. over all. No other Automatic Pistol can claim this.

*7th.* **The outline, poise and balance of the** WARNER-SCHWARZLOSE is such that even the novice will shoot straight with it, **like pointing the finger,** ☞ with either right or left hand. **It don't fly up at the muzzle** as common Pistols and Revolvers do.

*8th.* **In Construction it is Simplicity Itself. Less parts** than any other automatic. **Men experienced in firearms** recognize its superiority over other pocket firearms, and frankly admit it has others beat, and the price, $12.00, is lower than any other American made 32 calibre Automatic Pistol.

YOUR DEALER SHOULD KEEP IT; if not write to the manufacturers and get posted on the latest and best pocket arm made.

NEW PRINCIPLES AND NOVEL FEATURES are employed, namely, all action being enclosed tight to exclude dirt, etc.

Send for our new book, "The Guardian of the Home," a story of home and personal defense, which gives full details of this wonderful Pistol.

DEPARTMENT W. L.

33 PROSPECT STREET, BROOKLYN, N. Y.

# What You Drink in a Glass of Wine

# The Juice of the Grape in Pure Wine

More people in this country are drinking our good, pure American wines than ever before. More people are learning how to use wines as they should be used, and that is—daily at table with our meals. This is the way wines are used all over Europe, where practically everyone—men, women and children—drink wine as freely as we do tea or coffee, and there you find the most temperate people in the world.

**GOOD WINES FOR GOOD HEALTH** Wine, the fermented juice of the grape, is one of the best natural aids known for good health. And why? Because, for one thing, you get in wine food elements which you do not get in any other beverage. For another thing, you get in wine mineral substances and fruit acids, all of which have medicinal properties of great and recognized value. Thus, the mineral elements of wines—the compounds of potassium, sodium, calcium, magnesium, iron and manganese—are combined in such a manner as to be absorbed by the blood, which in turn goes to nourish the various parts of the body. Then there are the fruit acids, such as tartaric, malic, citric and succinic acids. These acids have a stimulating effect upon the digestive organs, starting an increased flow of the digestive juices; they cause the decomposition of uric acid compounds, and by stimulating the liver, kidneys and other secretory organs, the fruit acids act the same as the best medicinal remedy. As an eminent authority has well said, all these facts combine to make wine one of the best—if not the best—diatetic beverages which, when properly used, will not only tend to conserve health, but even perform the functions of medicine.

**DIFFERENT KINDS OF WINE** The three kinds are: Dry or sour wines; Sweet wines; Champagne or sparkling wines. A wine is called "dry" when the sugar in the grape juice has been fermented out, and then the fruit acids make it taste sour. At first some people find such wines a little too tart. A good way is to put a little water in the wine until you get accustomed to the dry taste. A wine is called "sweet" when more or less sugar remains in it. The sugar disguises, of course, the taste of the fruit acids. Sweet wines are often called after dinner or dessert wines, that is, they are generally used at the end of the dinner with the dessert and cake. Champagne is made by being bottled before the natural fermentation is finished and then, during a subsequent fermentation, the gas is absorbed by the wine in the bottle, so that when the bottle is opened the gas is set free and it produces that sparkling effect which is so pleasing to the eye and palate. American champagnes are now made by exactly the same process and with the same care and skill as the French champagnes. They are equal in every way to the latter and can be bought at half the price.

---

Those who would like to know more about our good American Wines should send for the following valuable booklets: **"The Food Value of Wines,"** by Prof. E. H. Twight; **"The One Best Drink—Wine,"** by Louis James; **"Temperance with Drinking Wine,"** by Rev. R. D. Sawyer; **"How to Use Wines,"** by L. J. Vance. Sent free by writing to the

# YOU Also Can Be A Leader!

IN business, in politics—before the Court and in private life—legal training gives POWER, PRESTIGE, WEALTH. Every move in business—every phase of politics and government—and thousands of transactions of our every day life—demand a knowledge of law. Naturally, the legally trained man leads—for his expert knowledge puts him in a position to advise, to guide, to *direct*. The law tells you what to do and how to do it—how to keep out of trouble and avoid expensive lawsuits.

We NOW offer you a tremendous opportunity, an opportunity to secure a Scholarship in our big Law School — to become a leader of men — to learn law at home during your spare moments.

## The Greatest Law School for Home Study in the World

Offers you this remarkable opportunity! Write at once! There is no better, no more thorough way to learn law than to study right at home. Abraham Lincoln, Thomas F. Ryan, John Wanamaker, Elbert H. Gary, and hundreds of our greatest men studied law—many of them AT HOME. President Woodrow Wilson and every member of his Cabinet, with but one exception, practiced at the bar.

YOU can become a leader of men—YOU can improve your position in the political and social world—YOU can increase your earning power—if you become legally trained.

Statistics show that students studying law by correspondence are the most successful in passing Bar examinations. More than forty thousand students have enrolled in our big Law School. Our graduates are to be found in every State of the Union, succeeding either as practicing attorneys or in business pursuits.

## A Startling Scholarship Offer!

This startling offer is being made for a limited time to readers of this magazine. An offer so liberal, so unusual, that we can only give you the facts in direct letters! On this offer the world's most brilliant array of legal talent is at your command. We furnish you a Magnificent Law Library, masterful lessons and lectures. Our Consulting Service is at your disposal. We offer you a FREE SCHOLARSHIP entitling you to our Complete Three-Year Course and Service at a tremendously low cost.

## This Offer Is Limited—Act Quickly!

We cannot afford to hold this offer open indefinitely. Clip the coupon—right now—before you turn the page. Mail it—get the facts at once. This puts you under no obligation—it costs you nothing—it simply gives you the opportunity to go over the facts and decide.

Tear off the coupon and mail it right now.

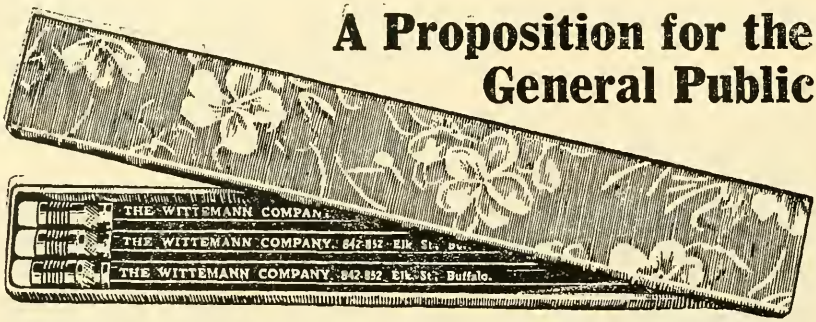
# A Proposition for the General Public



Our pencils, stamped in gold with the name of any person or firm, are interesting to advertisers, individuals and agents. Pencils are always useful, and make very attractive souvenirs, which are always appreciated and remembered by the receiver.

**FOR INDIVIDUALS:** A set of our pencils in a pretty case, each containing the name of your friend in gold, will make a handsome friendly gift. Your friend will want nothing better for his birthday or any other occasion. The cost is very slight and the gift is extremely useful.

And we also have pencils for your own office use, with your own name and address stamped on each one.

**FOR ADVERTISERS:** Our Pencils will make new customers and hold your old ones. The case has your advertisement on it, and the three pencils in the case contain the name of your customer, stamped in gold. Every time your customer sees the case or uses the pencils, your name will be foremost in his mind. Here is great advertising value at a very small cost.

**FOR AGENTS:** We have a very good proposition appealing to wide-awake agents. Big profits. If interested, write us.

Our pencils come in assorted colors, rubber-tipped, full size, medium writing grade, superior quality.

Our prices are very low. We quote them on request. Write for them.

Appendicitis—Inflammation of Bowels, Chronic Dysentery, Acidity of Stomach, which causes the worst kind of constipation—the other is caused by liver disease. Cancer—carcinoma, Cancerous Tumors, Congestion of Kidneys, Stone in Bladder, Prostatitis, Gravel, Gall-Stone, Calculi, Deposit on Teeth, White Spots on Nails, Psoriasis, Salt-rheum, Varicose Veins and Ulcers. Varicocele — varicose veins in scrotum. Varicose Veins and Ulcers in Rectum — often mistaken for piles and fissure. The after effects of Diphtheria, Scarlet, Typhoid and Malarial Fevers.

This ring is not a cure-all. The ring will not cure liver disease and none of the liver diseases.

The ring will not work—deposit on ring and finger—unless it is necessary, but when it is necessary, it will work every second day and night, if it is a good fit and is used and cleaned as directed.

Price $2.00; Gold-covered $4.00. By Mail or will send by Express. Collect on Delivery, if you wish to pay charges. Send paper size of finger. Agents wanted at places not taken. Send for additional information. The $2.00 ring is sold on a three-weeks' guarantee; ring can be returned and money will be refunded if not satisfactory. Not for sale by jewelers or druggists. Any person who uses our name or copies from our advertising is fraudulently trying to do business on the reputation of this ring and will be prosecuted.

This ring is not for sale by wholesale houses or any person advertising cheap rings and can only be obtained from us and our authorized agents.

PEOPLE WHO ARE SUBJECT TO RHEUMATIC, KIDNEY AND ALL ACID DISEASES HAVE EXPERIMENTED FOR HUNDREDS OF YEARS AND SPENT MILLIONS OF DOLLARS, TAKING AND APPLYING REMEDIES. The time will certainly come when intelligent people will not submit to be experimented with, to see if a medicine can be made to cure acid diseases.

Any reputable physician will advise you that a permanent cure in that manner is impossible, as the acid is liable to accumulate again at any time, after you quit using the best remedies or any other treatment. That acid in the blood caused a limited number of diseases has always been admitted, but the knowledge of the fact that an excess of acid is the cause of so many diseases of hitherto unknown pathology has been a revelation to the medical profession.

By the use of the Electro-Chemical Ring the best results are obtained by an electro-chemical action, as it acts directly on the acid; reducing the intensity and quantity, until there is no surplus, when the ring will quit working, and will work only when it is necessary to keep the acid reduced.

# Beats a Tub Bath "40 Ways"

## The Sanitary Way to Bathe

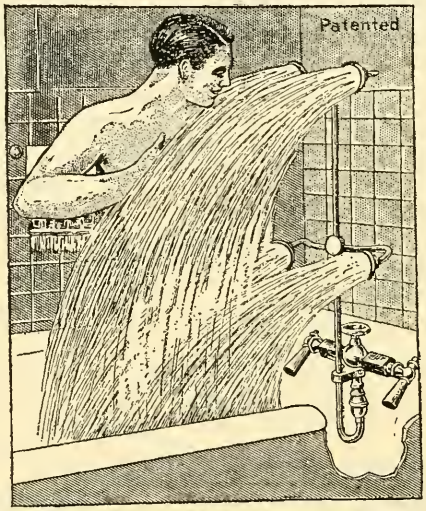
BATHING under the needle-like streams of a KENNEY Four-Stream Needle Shower is the most luxurious way to take a bath. And the most sanitary. Beats a tub bath 40 ways. Makes either hot or cold water twice as refreshing.

You always bathe in fresh, clean, running water instead of still, contaminated water. And the fine needle spray streams tapping against your skin act as a sort of massage and invigorate your body.

A cold shower at any time is always a helpful stimulation for the whole system. And a warm or hot shower with plenty of good soap is the most enjoyable way to get clean. It is the quickest way to bathe. Saves you time. There is no waiting for a tub to fill.

You will never be willing to go back to an ordinary tub bath after enjoying the luxury of a daily washdown under this stimulating FOUR-STREAM NEEDLE SHOWER. Just to prove it

**We Will Send You on Ten Days' Free Trial a**



# Kenney 4-Stream Needle Shower

We want you to attach the KENNEY SHOWER to your bath tub—that will take only a minute—and enjoy it ten days free. You don't have to send us a single cent in advance. And you don't have to pay us a penny if you are willing to return the Shower after a trial.

And it will cost you only $6.00 if you keep it—half as much as the cheapest old-style shower you can get.

### No Curtain Needed

The KENNEY SHOWER works on a brand new principle; yet a surprisingly simple one. It throws four converging needle-spray streams.

Each of these streams strike the body at an angle which makes all the water glance or "break" downward and inward—toward the centre of the body and the centre of tub—instead of splashing off to the side.

Not a drop splashes out of the tub. Doesn't muss up either the walls or the floor. It's all in that converging angle—a patented feature. That is what keeps the water from scattering and splashing. That is what eliminates all need for a curtain or hood.

### No Shock to the Head

When you stand erect in using a KENNEY SHOWER, not a drop of water touches your head. All shoots direct against the body, from the shoulders down. Don't have to drench your hair. But if you want to douse your head, simply bend over a trifle.

### Easy to Put Up

A very handsome fixture. Heavy nickel finish over brass. Easily put up. No plumber needed. Never interferes with regular use of tub.

### Don't Send Any Money

Just order on your letterhead or enclose business card or reference and you'll get the shower complete and prepaid for ten days' free enjoyment.

If you want to keep it, simply send $6.00 in full payment; if not, return it.

**Make the trial now. Don't put it off. Enjoy the luxury of a daily wash-down under this stimulating Four-Stream Needle Shower.**

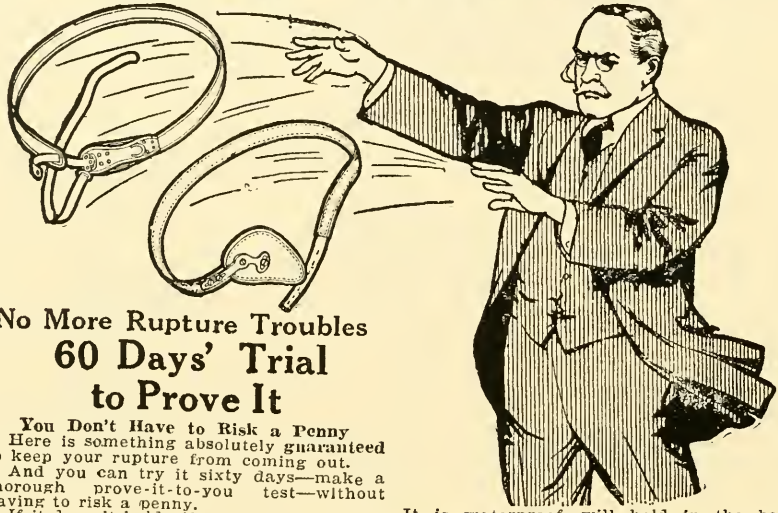
# An End to the Curse of Wearing Worthless Trusses



## No More Rupture Troubles

## 60 Days' Trial to Prove It

**You Don't Have to Risk a Penny**

Here is something absolutely **guaranteed** to keep your rupture from coming out.

And you can try it sixty days—make a thorough prove-it-to-you test—without having to risk a penny.

If it doesn't hold—if it doesn't keep your rupture from bothering you in any way—then it won't cost you a single cent.

**The Only Thing Good Enough to Stand Such a Test**

You know as well as we that you can't tell anything about a truss or anything else for rupture merely by trying it on. That's the worst of going to a drug store or local truss fitter's.

A truss or so-called "appliance" may seem all right when you first put it on and afterwards prove utterly worthless.

The only way in the world you can make sure of exactly what you're getting is by **a day-after-day test.**

And our guaranteed rupture holder—the famous Cluthe Automatic Massaging Truss—is the only thing of any kind whatever for rupture that you can get on 60 days' trial—the only thing **good** enough to **stand** such a long and thorough test.

**Something Nothing Else Does**

The Cluthe Automatic Massaging Truss is so utterly different from anything else for rupture that it has received **eighteen separate patents.**

It provides the **only way ever discovered** for overcoming the **weakness** which is the real **cause** of rupture.

Just how it does that—entirely automatically—is all explained in the free book.

**Will Save You from Operation**

The Cluthe Truss has so thoroughly proved its merits that physicians in all parts of the world and surgeons in the U. S. Army and Navy now recommend it instead of advising operation. It has brought complete recovery in hundreds of cases after operation has proved a failure.

**No Belt or Leg Straps to Annoy You**

That's why people who try this truss say it is as comfortable as their clothing. It is waterproof—will hold in the bath. Easily kept clean.

**Get World's Greatest Rupture Book**

Don't send any money—just write for our free book and find out everything you want to know.

Full of facts never before put in print. Cloth-bound—96 pages—20 separate articles and 23 photographic illustrations. Will save you from being fooled and save you from wasting money.

Explains why elastic and spring trusses are a wicked crime—why they are the ruptured man's worst enemy—why the law should stop their sale.

Exposes the humbug "appliances," "methods," "plasters," etc.

Shows why operation is often a needless gamble with death, and why, if a man manages to get well from the operation, he often has to keep on wearing a truss.

And it tells all about the Cluthe Automatic Massaging Truss and how you can try it sixty days and how little it costs if you keep it.

Gives indorsement of over 5,000 people.

Better write for the book to-day—it tells things you could never find out by going to doctors or drug stores. Simply use the coupon or say in a letter or postal "Send me the book."

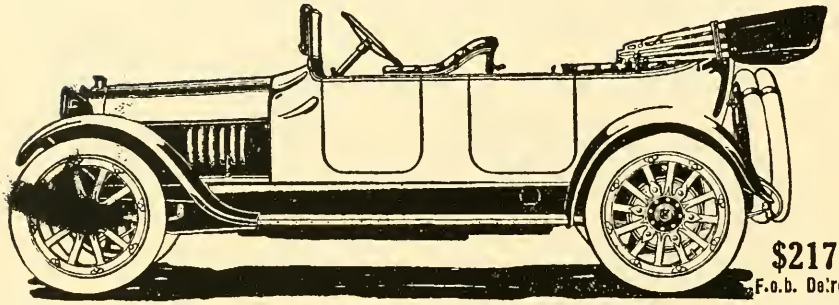
# Chalmers Motor



$2175
F.o.b. Detroit

# The Master "Six" of Them All

**What other makers are still striving for we give you in the New Chalmers "Six."**

**To the best features of the costliest cars we have added these crowning triumphs:**

**Silence at all speeds; silence that lasts.**
Many cars that are quiet at ten miles an hour kick up a lot of noise at thirty. Watch the speedometer of the new Chalmers "Six"; —30—40—50 miles an hour without a murmur from our big oval cams or enclosed valves.

**Sustained power: even after years of use.**
This motor, like the trained athlete, grows better by action. With its Tungsten steel valves there's no warping—no leaking—no power wasted. Think of the years of extra service this motor will give.

**No vibration; comfort and long life.**
The smoothness of the "Six" saves wear on car and passengers. The explosions in the six cylinders give an unbroken stream of power. This smoothness and economy adds years to the car's life.

**Extreme flexibility; without intricate gearing.**
You'll find you can do nearly everything on "high." This does away with gear shifting almost entirely. With this "Six" any supplementary gear mechanism would be useless.

**A Non-Stallable Motor.**
This motor will never go dead in the crowded city traffic. Even if the driver should cut off the gas accidentally, the electric starter, always on duty, keeps the motor running—won't let it stop. This is the greatest feature of safety and convenience put on a car in the last five years.

**These features mean far more than the luxury they bring. They mean no wear—no waste of power—no depreciation. A car that lacks them may cost you less to buy—but will cost you more to keep.**

**Salient Features of the New Chalmers "Six"**

**Six-cylinder motor.** T-head type 4 in.x5½ in.—40-65 h.p. All moving parts enclosed.
**Bosch Magneto.**
**Electric Starter**—Entz System, built in Chalmers shops.
**Non-stallable motor.**
**Full electric lights.**
**132-inch wheel base.**
**Molded oval fenders.**
**Gasoline tank and tire carrier on rear**—clean running boards.
**Left drive and center control**—enter from either side.
**36x4½-inch tires and Continental demountable rims.**
**Four forward speed transmission.**
**Underslung rear springs;** main leaf of Vanadium steel.
**Tapered bonnet and stream line body.**
**Chalmers patented doors.**
**Full equipment** — including Chalmers silk mohair top, quick acting storm curtains, Warner speedometer, one extra demountable rim, electric horn, pump, tools, etc.

**Models and Prices**

| | |
|---|---|
| Roadster | $2175 |

| Five Passenger | $2175 |
| Six Passenger | $2275 |
| Coupe | $2850 |
| Limousine | $3600 |

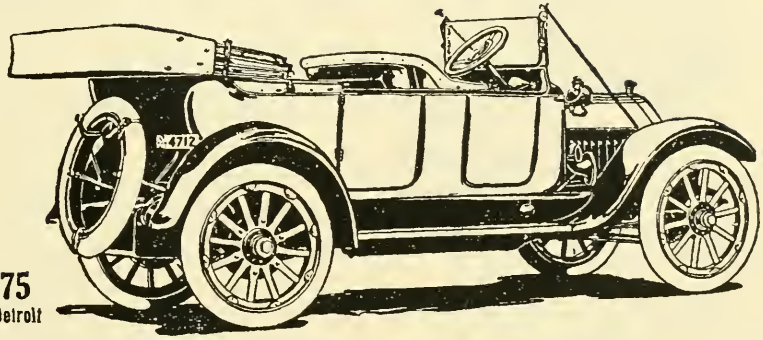
*Fully equipped f. o. b. Detroit.*

When once you know the years of extra service these features add, you'll wonder how we give them at the price, $2,175.
Go ride in this car—at our dealers.

Let it tell its own story in deeds.
Let us send you literature showing why the New Chalmers "Six" is the master motor of them all. Write to-day.

## Chalmers Motor Company, Detroit

# Cars for 1914



**$1775**
F. o. b. Detroit

# The Greatest 4-Cylinder of Them All

**These Features Not Found in Any Other Car at This Price**

- Long-Stroke Motor (4¼ in. x 5¼ in.).
- 25-gal. Gasoline Tank in rear.
- Chalmers Self-Starter.
- Gray & Davis Electric Lights.
- Adjustable Electric Dash Light.
- Power Tire Inflater.
- Clean Running Boards.
- Warner Speedometer.
- Rain Vision Windshield.
- Dash Adjustment for Carburetor.
- New Design Molded Oval Fenders.
- Four - forward Speed Transmission.
- Non-rattling Tire Carrier in rear.
- Gasoline Gauge.
- 11-inch Upholstery.
- Continental Demountable Rims.
- Genuine Turkish Cushions
- Chalmers Silk Mohair Top.
- 36-in. x 4-in. Tires.
- Gasoline Pressure System.

For the past two seasons the "Thirty-Six" has been acknowledged the best four-cylinder value on the market. Ten thousand cars of this model in daily service have built up its reputation for endurance, easy riding, mechanical smoothness, convenience, luxury and economy.

The 1914 "Thirty-Six" is more than ever before a wonderful value. Fine new features have been added; there have been material improvements in design, yet the price is only $1775.

### Molded Full Oval Fenders.

Fenders of an entirely new molded oval design—very popular abroad—are a feature of the "Thirty-six." They not only add to the graceful appearance of the car, but afford greater protection from dust and mud. These beautiful fenders are a distinctive 1914 improvement which you will be unable to get on any other car at the price.

### Gas Tank and Tires in Rear.

The entire car has been made more clean-cut and snappy in appearance. The gasoline tank and spare tires are now carried at the rear, giving that much-desired appearance of length, clean running boards and better riding qualities.

The new car is designed for utmost strength and safety. Axles are of nickel-steel; the double drop frame is unusually heavy. Steering connections are all drop forgings. Brakes are of maximum strength and power, 25 times as strong in proportion as the brakes of a locomotive.

See this new "Thirty-Six" at our dealers and you will be convinced that it is a most unusual value at the price.

# H U Pmobile

We believe the Hupmobile to be the *best* car of its class in the world.

By *best*, we mean best in internal essentials, especially. We mean best in those things which make for long life and continuous service at lowest cost.

But we believe you will also pronounce it the *most beautiful* car of its class in the world.

We believe we have put *more money into the chassis* than any car of its class in the world.

We base these beliefs on our conviction—

That the production of this new Hupmobile incorporates a greater tonnage of *high-grade steel* than any car of its class in the world;

That this new Hupmobile is the *largest user of aluminum*—without regard to class or price—in the world;

That the frame used in the new Hupmobile is the *costliest piece of pressed steel construction* used by any car of its class in the world;

That the Hupmobile long-stroke motor will *outpull any engine* of its class in the world;

That the Hupmobile *pressed steel body*—designed by us and built by the builders of Pullman cars—is the costliest body used by any car of its class in the world;

That Hupmobile *springs* utilize a greater tonnage of *costly* steel—more than 2,000 tons—than any other car of its class in the world;

That Hupmobile bearings—Timken and Hyatt—are the best in the world; one whole Hyatt building being devoted to Hupmobile bearings.

We repeat—for readiness; for ruggedness; for smartness of style; for fineness of finish; for daily work on the road; for extremest economy—we believe this new Hupmobile to be the best car of its class in the world.

**The car of The American Family**

# A GREAT CAR

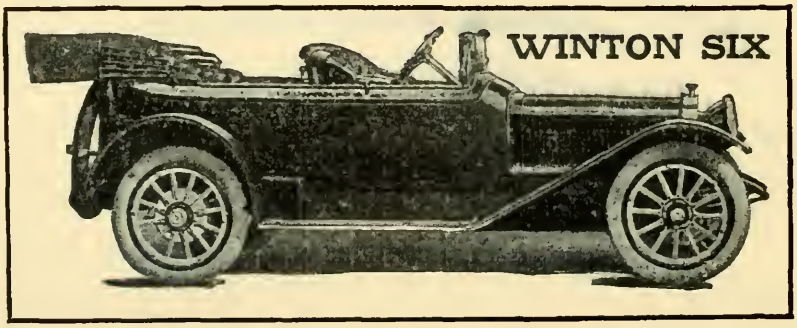
A GREAT CAR—greater in many respects than any other, and naturally so: it is the product of Alexander Winton, founder of the industry in America and the maker who sets the standards.

One and two cylinder cars followed his designs. Self-starters are here because he made them successful. He foretold that the four would disappear from the high-grade market, and he forced that result by making the Winton Six so superior to other cars that the best known makers have abandoned fours, and followed his lead in making Sixes, thereby acknowledging the Winton Six as the highest standard of the finest type of car.

## *SEVEN YEARS OF DEVELOPMENT*

No wonder the Winton Six is great. For seven years Mr. Winton has concentrated upon its development all the power and ability of his keen and experienced mind. From year to year he has given it a new perfection.

THE wonderful beauty of the Winton Six is not a veneer of surface merit—it is the outward proof of inner goodness. Never before did we produce its equal in beauty or mechanical excellence.



# Safe to Buy

## AND

# Good to Own

This splendid Winton Six, charming in its appeal alike to lovers of beauty and to mechanical experts, is the natural result of seven years of concentration upon the perfection of this particular model. No other single model among high-grade cars the world over has ever undergone so exhaustive a development. By doing just one thing and doing it right, by adhering to quality and refusing to rush into mad quantity, and by Alexander Winton's devotion to the work of producing an ideal car, the Winton Six is to-day, inside and out, in beauty, style, comfort, mechanical excellence, and value, the automobile fashion plate of America.

## SAFETY FOR BUYERS

Behind the Winton Six is a substantial company. Free from watered stock, from bonds, notes, and mortgages, from the burden of past extravagances; owning its plant scot free, taking cash discounts on all purchases, specializing on high-class work, employing expert and contented workmen, and pursuing policies that make for efficiency and permanence, the Winton Company stands behind the Winton Six with a guarantee that makes your purchase enduringly safe.

## SUPERB IN EQUIPMENT

It holds the world's lowest repair expense record, and is ideal in everything that makes a high-grade car worth having—gracefully low body with yacht-like lines, long stroke motor, left drive, center control, electric lights, self-starter, finest mohair top, easily handled curtains, rain-vision glass front, best Warner speedometer, Waltham eight-day clock. Klaxon electric horn, tire carriers, demountable rims, full set of tools, four-cylinder tire pump, German silver radiator, metal parts nickel finished. Price $3250, full equipped.

## FIND OUT ABOUT THIS

Swift changes are happening right now in the automobile industry—the safety of your purchase depends upon your knowing what they are and what they mean. Insure yourself by getting the information. Our catalog tells; sent only to car owners and those intending to purchase. It contains a full description of the finest car on the American market.

# Burpee's Annual for 1914

## *"The Leading American Seed Catalog"*

Is now ready for mailing. The first edition of more than four hundred thousand copies will soon be distributed. As usual, it is sent unsolicited ONLY to "Customers of Record." We shall be pleased, however, to mail a copy immediately upon application (a postal-card will do) to every one who appreciates QUALITY IN SEEDS.

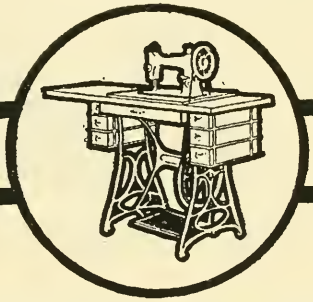
This SILENT SALESMAN (and we employ no "talking" salesmen to solicit orders) tells the plain truth about *The Best Seeds that Can Be Grown.* It is a bright book of 182 pages and shows, besides colored plates of Burpee Specialties, hundreds of the choicest vegetables and most beautiful flowers, illustrated from photographs. It is almost indispensable to all who garden either for pleasure or profit.

The "HOUSE OF BURPEE" is known the world over not only as EXPERTS IN SWEET PEAS, but also as SEED SPECIALISTS. No other American firm has ever introduced so many novelties of sterling value—and no other growers supply seeds annually direct to so many planters. It would be to your interest to read THE BURPEE ANNUAL. It will cost you only one cent for a post-card to send us your address, and you are under no obligation to buy. We never annoy applicants with "follow-up" letters!

Shall we mail you a copy?
If so, kindly WRITE TO-DAY.

## W. Atlee Burpee & Co.

**Burpee Buildings - - - - Philadelphia**
**The World's Largest Mail-Order Seed House**



**FOR GUNS**—3 in One gun oil lubricates perfectly lock, trigger, ejector and break joints. It cleans and polishes like new the barrels, inside and out—also the wooden stock. Absolutely prevents rust. All leading gun manufacturers use and recommend 3 in One.

**FOR SEWING MACHINES**—3 in One lubricates exactly right every action part, making the machine run 100 times easier. Saves the user's strength—saves wear on the bearings and prevents repair bills. Never collects any dirt, never gums or clogs. It cleans and polishes the wooden case, and prevents rust on all metal surfaces.

**FOR RAZORS**—3 in One means **shaving luxury.** Do this: Draw "safety" or "ordinary" blade between thumb and first finger moistened with a little 3 in One Strop, and secure keenest edge ever. After shaving, oil blade again—**no rust can form.** Your request on a postal brings our "scientific razor saver" circular, **free.**

**FOR FURNITURE**—3 in One has simply revolutionized polishing furniture. This is the way: Wring out a soft cloth in cold water moistened with a little 3 in One. Go over your piano or other fine furniture. All the marks of time and soil will vanish. Then dry and polish with a piece of cheesecloth, rubbing **with** the grain of the wood. The beautiful lustre and high polish will come back right before your very eyes

**FOR TALKING MACHINES**—3 in One makes every kind of a talking machine work beautifully—prevents irritating **squeaks** and "whir" of the motor and records. Always wipe your disc records with cheesecloth moistened with 3 in One. It prevents dust gathering on them and spoiling their exchange value.

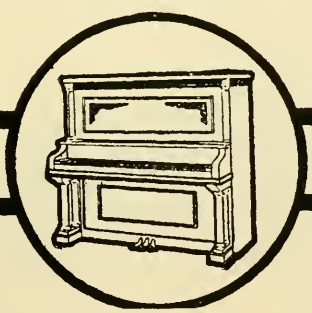
# FREE

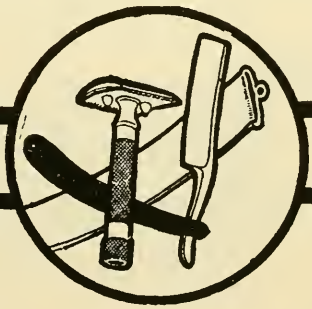
Send us your name and address on a postal and we will mail you a generous sample of 3 in One and the 3 in One Dictionary—**both free.** Get the bottle and book **now!**

3 in One is sold in all good stores in 3-size bottles: 10c., 25c., and **New ½-Pint for ½ Dollar Household Size.**

# 3 IN ONE OIL CO.

## 71 BROADWAY, NEW YORK CITY





# Overland

## 1 9 1 4

THE 1914 Overland production has been *increased* to 50,000 cars. This greatly increased production, combined with the natural manufacturing economy of restricting ourselves to *one chassis*, again enables us to make our customary annual offer of *considerably* more car for *considerably* less money.

¶ While the price has gone *down* the value has gone *up*.

¶ 1914 catalogue on request.

**The Willys-Overland Co.**

**TOLEDO, OHIO**

# $950

## *Overland Model 79*

35 horsepower
114-inch wheelbase
Electric head, side, dash and tail lights
Timken bearings
New Splitdorf magneto
Model R Schebler carbureter
Three-quarter floating rear axle
33x4 inch Q. D. tires
Cowl dash
Turkish upholstery
Genuine, hand-buffed leather
Clear-vision windshield
Mohair top, curtains and boot
Stewart speedometer
Electric horn
Flush U doors with disappearing hinges

MOTOR—Four cylinders, cast singly and set off center. Bore, 4⅛ inches; stroke, 4½ inches. Five bearing crankshaft; three bearing camshaft. Improved type of pushrods and guides, adjustable and easily removable.

CLUTCH—Leather-faced cone, with new type brake to stop spinning instantly when disengaged, thereby insuring noiseless gear changing.

TRANSMISSION—Selective, sliding-gear type, with three speeds forwa.d and reverse. Center control. Gear case, extra strong, cast in one piece, keeps all bearings in line. Main and counter shafts are short; preventing any springing. Imported annular bearings used throughout.

LUBRICATION—Splash system, pump-circulated, with sight-feed on dash.

BRAKES—Double, contracting and expanding on drums on rear-wheel hubs, easily adjustable. Either set of brakes will keep car under perfect control at any speed, with full load.

SPRINGS—Semi-elliptic front, three-quarter elliptic rear, with bronze eye-bushings all around and compression grease cups on all bolts.

FRONT AXLE—I-beam section, drop-forged in one heat, without welding. Timken bearings in front wheel hubs.

REAR AXLE—Three-quarter floating type. None of the weight of the car on the driving shafts. Hyatt bearings in rear wheel hubs.

BODY-FINISH—Brewster green, with light green striping. All exposed metal finished in nickel or aluminum.

BODY—Five passenger; metal reinforced with wood framing.

*Completely Equipped $950. With Gray & Davis Electric Starter and Generator—$1075 f. o. b. Toledo*

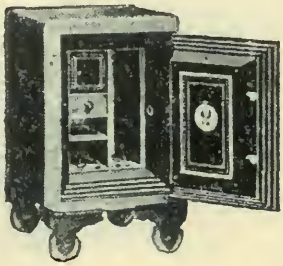
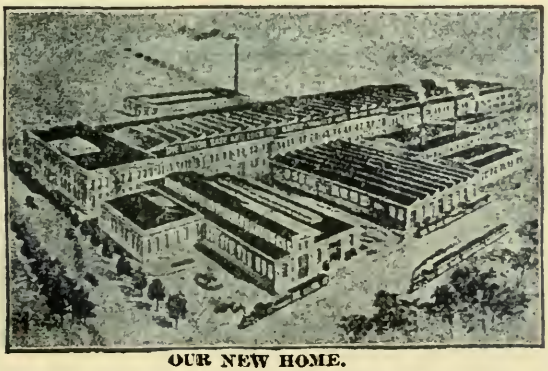
# Why Not Make $200.00 a Month—

## That's $50.00 a Week, Almost $10.00 a Day



selling Victor safes and fireproof boxes to merchants, doctors, lawyers, dentists and well-to-do farmers, all of whom realize the need of a safe, but do not know how easy it is to own one. Salesmen declare our proposition one of the best clean-cut money-making opportunities ever received. Without previous experience YOU can duplicate the success of others. Our handsomely illustrated 200-page catalogue will enable you to present the subject to customers in as interesting a manner as though you were piloting them through our factory. Men appointed as salesmen receive advice and instructions for selling safes, giving convincing talking points which it is impossible for a prospective customer to deny. Why don't YOU be the first to apply from your vicinity before some one else gets the territory? We can favor only one salesman out of each locality.



OUR NEW HOME.

Wide-awake men are prompt to take advantage of our special inducement, and notwithstanding that the completion of our new factory will enable us to double our output, indications point to an ever-increasing demand which will continue to tax our facilities. We are spending many thousands of dollars enlarging our sales organization, but to learn all particulars it will cost you only the price of a postal-card. Just ask for "New Offer 58."

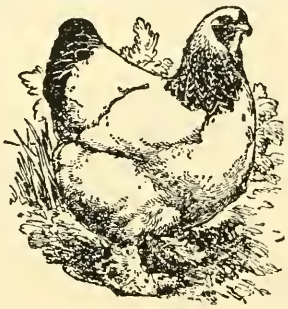
# Are You Satisfied With Your Income?



## Would $500 a Year or More on the Side Be an Object to You?

YOU can easily make that, and more too, if you have a back yard or a little land, and are willing to devote two hours a day to the work. The poultry business cannot be overdone. There are 91,000,000 people in the United States, and there will be more next year, and those people must be fed. The growth is in the cities. **Consumers are increasing twice as fast as producers.** High prices have come to stay. Start a business of your own and get your share of the billion dollars a year that is spent for poultry and eggs.

## "Side-Line Poultry Keeping"

***$1,188.05*** Is the amount cleared by F. H. Dunlap of West Salisbury, N. H., in 1910, from his hens. Mr. Dunlap is a country merchant and postmaster, and does not have over two hours a day on an average to devote to his hens. The full story of his success, his methods of feeding, marketing, etc., are described in the book, "Side-Line Poultry Keeping."

***$1,009.31*** R. A. Richardson of Haverhill, Mass., a shoe cutter, made his hens pay him $1,009.31 in 1910, and kept working at the bench at the same time. How he did it is told in "Side-Line Poultry Keeping."

## "Side-Line Poultry Keeping"

Is the name of a new book by Edgar Warren, the popular and reliable writer upon poultry topics. It is written for the man or woman who wants to add to their income in spare time that will not interfere with their present occupation. It is so plainly written that the person who never kept a hen, by following the instructions of the book, can make a success from the start. Tells what breeds pay and what do not. Discusses pigeon raising, fruit growing, berries and gardening in connection with poultry. Describes two simple, practical poultry houses which can be built at a low cost and sold when the owner gets through with them. Tells how to hatch and brood chicks, both naturally and artificially, and describes a wonderful brooder system that can be installed at low cost. Do you know how to pick out the layers? Can you tell with your eyes shut which hens are laying and which are not? "Side-Line Poultry Keeping" will show you. It will tell you what to feed for eggs, how to get fertile eggs, how to grow green food in winter, how to make lice powder that will kill the lice as soon as it touches them, what to do in case of sickness, etc., etc. Shows you how you can get the top-notch prices for what you have to sell. Has a chapter on "Laying Down Eggs," which gives the two methods which are absolutely safe and reliable. Lay down eggs in March and April, and sell them in November and December, and make 100 per cent. profit. Drawings and description of a trap nest with which to keep individual records. Gives Mr. Dunlap's cure for White Diarrhoea. Tells how to send dressed fowls to market with empty crops without shrinkage in weight. These are but a few of the good things in the book.

**Special Offer**

**Only $1.00**

**96 page book and the leading Poultry Paper for two years.**

Invaluable to every man who wishes to make money on the side, and indispensable to the man who is looking forward to the free, independent, healthful life of the poultry farm. # The Right Temperature Means Bigger Hatches of Strong, Sturdy Chicks

## The "Tycos" Incubator Thermometer

tells plainly the exact temperature in the egg-chamber. When you see the name "*Tycos*" on a thermometer, you may depend on its absolute reliability. "*Tycos*" stands for the accomplishment of 60 years' work and research in thermometer construction. A "*Tycos*" eliminates guess-work. It is absolutely accurate.

Each "*Tycos*" after filling, is "aged" and "pointed" to learn its correct individual scale.

**Use "*Tycos*" Thermometers in your Incubator** and produce good hatches of healthy, sturdy chicks. "*Tycos*" will quickly warn you of any fluctuations from the right temperature. "They always tell the truth." When buying an incubator or brooder, insist on getting "*Tycos*" Thermometers.

Write to-day for free booklet, "Thermometer Facts Worth Knowing."

If your dealer cannot supply you with "*Tycos*" Instruments, write us.

# Free—Six Big Issues of Investing for Profit

***If you will simply send me your name. Special Introductory FREE Offer. Six fine Monthly Issues—each worth $10 to $100 to you.***

**How much do *you* know about the Science of Investment? Do you know the *Real* Earning Power of your money? What is the difference between the *Rental* Power and *Earning* Power of money? Do you know how $100 grows into $2,200?**

Why you should get **Investing for Profit:** Only one man in a thousand knows the difference between the *rental* power and the *earning* power of his money. Few men know the underlying principles of incorporation. Not one wage earner in 10,000 knows how to invest his savings for profit, so he accepts a paltry 2% or 3% from his savings bank, while this same bank earns from 20% to 30% on *his money*—or he does not know the science of investing and loses his all.

Russell Sage said: "There is a common fallacy that, while for legal advice we go to lawyers, and for medical advice we go to physicians, and for the construction of a great work, to engineers—financing is everybody's business. As a matter of fact, *it is the most profound and complicated of them all.*"

So let me give you just a glimpse of the valuable investment information you will get in my six big issues, "The Little Schoolmaster of the Science of Investment," a guide to money-making:

**The Science of Investment.**
**The Root and Branch of the Investment Tree.**
**How to Judge a Business Enterprise.**
**Where New Capital Put Into a Corporation Really Goes.**
**"Watering"—Its Significance.**
**Idle Money vs. Active Money.**
**Capital Is Looking for a Job.**
**The REAL Earning Power of Your Money.**
**Investment Securities Are Not Investment Opportunities.**
**The Actual Possibilities of Intelligent Investment.**
**The Capitalization of Genius and of Opportunity.**

Wait till you see a good thing—but don't wait till everyone sees it. You will then be too late. Never was a time more auspicious for a public campaign of education on the logic of true investment. A revolution in the financial world is now going on—to the profit of the small investor.

You are now face to face with your opportunity—if you have the courage to enter the open gate to the road of fortune.

I believe you will find much interest in reading my six issues of **Investing for Profit.** From cover to cover it contains the fundamental principles of investment it has taken a lifetime to gather—from my own **experience** and from every available **authoritative** original source of information.

## If You Can Save $5 a Month or More

Don't invest a dollar in anything anywhere until you have read my wonderful magazine. **Investing for Profit** is for the man who intends to invest any money, however small, or who can save $5 or more per month, but who has not as yet learned the art of investing for profit. Learn how $100 grows into $2,200.

## Use This Coupon for the Six Issues and Financial Advice FREE.

If you know how to invest your savings—if you know all about the proposition in which you are about to invest your hard-earned savings—you need no advice. But if you don't, if there is a single doubt or misgiving in your mind—I shall be pleased to answer any inquiries you may make, or furnish any information I can regarding the art of saving and making money through wise investment.

So sign and mail this coupon now. Get **Investing for Profit FREE** for six months. Ask me to put you on my mailing list for Free Financial Advice. Don't put this off. It means too much to you now and in the future. Sign and mail this coupon at once.

# IMPROVE YOUR FARM WITH

DU PONT

## RED CROSS DYNAMITE

"FARMING WITH DYNAMITE" is approved and practised by the most prominent and practical agriculturists of America. Improvement in the quality of products, a larger income from their sale, adoption of Red Cross Dynamite. How to use this specially made explosive is fully explained by pictures, diagrams and non-technical descriptions in our Free Booklet of 160 pages.

**SEND THE COUPON**

*and obtain a copy of this valuable and authoritative HANDBOOK OF EXPLOSIVES No. 385.*

**LAND CLEARING** The quickest, cheapest and surest way to remove stumps and boulders is to blast them with Red Cross Dynamite. Fragments are easily handled without trouble to men and team.

**TREE PLANTING** Setting a tree in a dynamited hole assures wider and deeper root expansion, which hastens development and earlier bearing. Thousands of trees are being planted in soil dynamited with Red Cross Dynamite First-year losses are almost negligible Don't overlook this essential step in modern orchard methods.

**SUBSOILING** with Red Cross Dynamite gives six feet of root bed instead of the eight-inch one prepared by ordinary cultivation. Explosions shatter compact subsoil, make it porous, and so enable excess surface water to be stored until needed by the growing crops.

**EXPERIENCED BLASTERS AVAILABLE** If you prefer to have some one do the blasting for you, we can supply the address of an experienced blaster who will do the work properly. Plan to have stumps or boulders cleared, a few trees planted, a ditch made or an acre subsoiled with Red Cross Dynamite—the modern farm hand—and so improve your farm.

# THIN WOMEN BY THOUSANDS

have been amazed at the results of our generous Free Trial Treatment of Dr. Whitney's Nerve and Flesh Builder. We have been offering this Free Treatment for the past 15 years, and continue to do so to prove to any thin woman, without a penny of cost, just what it will do for you.

You will be surprised and delighted at the change in your appearance when the treatment has produced its effect. It has been astonishing how little additional flesh and bust development it has required to make many of our thin patrons attractive—even fascinating. They tell us they seem to be attracting a flattering attention which they never enjoyed and had ceased to expect.

No. 1 is the general flesh builder. No. 8 is for giving development to the bust alone without enlarging other parts of the body. Say which one you prefer.

Just let us prove to your satisfaction, and at our expense, that we can give you a full, round bust, and a superb figure—give you the additional flesh that will add so much to your attractiveness; also a clear and pretty complexion and better health. ## What Hiram Percy Maxim
Says About
## Noiseless Shooting

"For clean, human and enjoyable shooting, the Maxim *silenced* rifle makes the most satisfactory shooting outfit any sportsman ever had.

"The Maxim Silencer is an aid to marksmanship. It reduces the tendency to flinch when shooting. The muzzle blast is checked, allowing the generated gases to escape gradually and silently. There is no recoil. The Silencer robs the gun of its kick and realizes the hunter's long-standing wish for a noiseless gun.

"In the field, woods or backyard you can shoot without noise. You can practise all the time, **any time, anywhere.**"

# MAXIM SILENCER

### Attaches Easily to Any RIFLE

Most hardware and sporting dealers sell the Maxim Silencer. Ask your dealer to show it to you.

But if he hasn't it, write to us the make, model and calibre of your rifle (giving your dealer's name). We will tell you what Silencer you need, price, etc., and arrange to supply you. We make it easy for you to get a Silencer wherever you are.

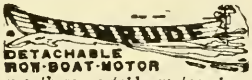
### *BOOK FOR SPORTSMEN FREE*

Full of interesting experiences of scores of sportsmen with the Maxim Silencer. Stories of actual records that will astonish you. You'll surely enjoy reading it. Write now for your Free copy.

**Maxim Silencer Co.**
**96 Huyshope Ave., Hartford, Conn.**

# "EVINRUDING"
## All Over the World

Wherever rowboats can go, wherever there is sufficient depth for even a canoe, wherever small boats are used for either commercial or pleasure uses you will find the



because these portable motors have provided a means for every one to enjoy the sport of motor boating without the expense and inconvenience of a motor boat. These motors, which weigh but fifty pounds, attach in less than one minute to any rowboat; they are simple to operate, clean to handle, and instead of being cranked like ordinary motors start with a fling of the flywheel.

**NO RUDDER TO CATCH IN THE WEEDS**

These motors are rudderless, steering being accomplished by simply turning the propeller, and as the propeller is weedless, one is never in danger of having the motor stop while running through the weeds. The motor developes 2 full H.P. and is constructed of nickel steel and bronze with the same care as is exercised in the construction of the finest automobile engine made. These motors must not be confused with makeshift stationary motors which have been transformed into a semblance of a portable rowboat motor, as "EVINRUDES" are constructed exclusively as portable motors. They are built by

**The Largest Manufacturers of Rowboat Motors in the World**

and the remarkable capacity of the "EVINRUDE" plant is over 200 rowboats per day.

A beautifully illustrated catalog showing the motor in use in all parts of the world will be sent free upon request. Write for it. You will find it highly interesting.

## WHITE ECONOMY IS ACTUAL ECONOMY

THE small bore, long stroke White Engine introduced actual engine economy in gasoline and oil, into this country nearly four years ago.

Now that the need for economy is becoming absolutely necessary, White supremacy in the efficiency of its simple engine is recognized. And White economy goes farther. It includes in its scope, wear, repair and tire cost.

Proportions of weight, engine power, and wheel base are carefully balanced to meet the requirements for which each model is specifically built. Add to this the wonderfully few parts in White Cars, and the care with which every piece of material is selected and finished, and White supremacy is acknowledged and White economy is the result.

SIXTY YEARS of fair dealing, resulting in the largest fire insurance company in America, should mean something to every insurer

# Never mind how STRONG You are

# What d'ye KNOW?

——That's the point—"What d'ye KNOW?" Today it's a battle of wits—and *brains win.* Muscle and brawn don't count so much as they used to.

The great question nowadays is "What d'ye KNOW?"—it draws the line between defeat and victory—between "wages" and "salary"—between *you* and the *Boss.*

What do *YOU* know? Are *YOU* so expert that you can "make good" as a foreman, superintendent, or manager? If not, the International Correspondence Schools can show you how you *CAN.*

For more than 21 years the I.C.S. have been showing men how to do better work and earn bigger salaries. They can do the same for *YOU.* No matter where you live, what hours you work, or how limited your education—if you can read and write—the I.C.S. can train you for a more important and better-paying position.

Mark and mail the attached coupon—it won't obligate you in the least—and the I.C.S. will show you how you can acquire this salary-raising ability in your *own home,* during your *spare time,* by their simple and easy methods.

It will cost you *nothing* to investigate—it *may* cost a lifetime of remorse if you don't.

**Mark the Coupon NOW**

**International Correspondence Schools**
**Box 801, SCRANTON, PA.,**

Please explain, without further obligation on my part, how I can qualify for a larger salary and advancement to the position, trade, or profession before which I have marked X.

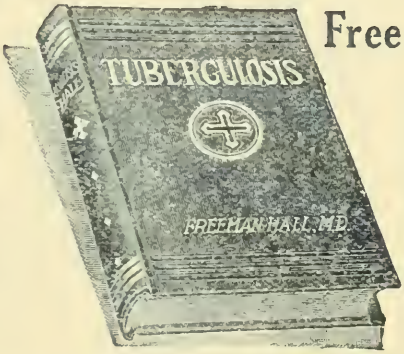
# Tuberculosis

## Its Diagnosis, Treatment and Cure



Free

## NEW TREATISE ON TUBERCULOSIS

*By FREEMAN HALL, M. D.*

This valuable medical book tells in plain, simple language how Tuberculosis can be cured in your own home. If you know of any one suffering from Tuberculosis, Catarrh, Bronchitis, Asthma or any throat or lung trouble, or are yourself afflicted, this book will help you. Even if you are in the advanced stage of the disease and feel there is no hope, it will instruct you how others, with its aid, cured themselves after all remedies tried had failed, and they believed their case hopeless.

**Write at once to the Yonkerman Co., 6039 Rose St., Kalamazoo, Mich. They will gladly send you the book by return mail FREE and also a generous supply of the new Treatment absolutely FREE,** for they want you to have this wonderful remedy before it is too late. Don't wait—write today. It may mean the saving of your life.

# Every Thin Woman Can Have a Pretty Figure

For fifteen years we have been giving ladies and gentlemen better figures and better health. To prove to YOU without any if's or and's that you can surely have an enviable figure with full, firm bust, well rounded neck and shoulders and perfectly developed limbs, no matter how thin you now are, we will send a generous trial treatment absolutely free. In nearly every case the trial alone gives better color which remains permanent. No. 1 is the general flesh builder, No. 8 is for giving development to the bust alone, without enlarging other parts of the body. Please write which treatment you prefer. We supply you a thousand testimonials, that you can write to if desired, showing what has been done for them. No other treatment is like it, none as good. Write us to-day and get your free trial in plain wrapper by return mail.

# The Multipost Stamp Affixer and Accountant

## Saves Money, Labor and Time

Used in your office it will account for every postage stamp purchased, even to the extent of preventing the use of YOUR stamps for personal mail; it will check your postage account from the check book to the mail bag.

It provides a convenient locked case for the care of the stamps and will pay for itself many times over from actual labor saved, irrespective of its preventing the diversion of stamps from proper channels.

It protects the operators against possible suspicion or false accusation and removes all temptations. Stamps may be mis-used by persons other than those authorized to handle them.

It will enable operators to at least double their speed in handling the mail. The MULTIPOST method has positively proven itself to be the fastest stamp affixing method known.

Its use is not limited to any size or form of mail, handling mailing tubes, packages, letters or post cards and putting the required number of stamps on each.

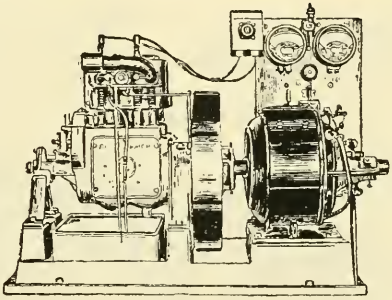
It is guaranteed against defects of workmanship or material for one year, and during that period will be repaired or replaced without cost to owner.

Over 10,000 are in use in the United States alone. Stamps for the MULTIPOST are obtainable at any Post Office. Send for free booklet, which tells all about it.

**Multipost Company**

**297 State St. Rochester, N. Y.**

# The Brush Electric Lighting Set



Made in sizes from 4 to 20 horse-power, engine direct-connected to dynamo, requires small floor space, and is suitable for use with gasoline, kerosene or gas.

The Brush Electric Lighting Set is a very compact unit, simple in design and construction, and can be readily handled and cared for by those who are not experts. The quality of electric light produced by this outfit is superior to that usually furnished by electric lighting stations, and the cost is from one-half to one-quarter the price charged by these stations.

There are very many uses to which the electric current may be put besides that of lighting, such as cooking, washing and ironing and the use of dozens of other household conveniences.

Our 125-page catalogue is the most complete work on isolated electric generating plants ever published, and will be sent post-paid to any address upon application.

**The Chas. A. Strelinger Co.**

**Detroit, Mich.**

Address Box 142.

# PUBLISHERS VISITING NEW YORK

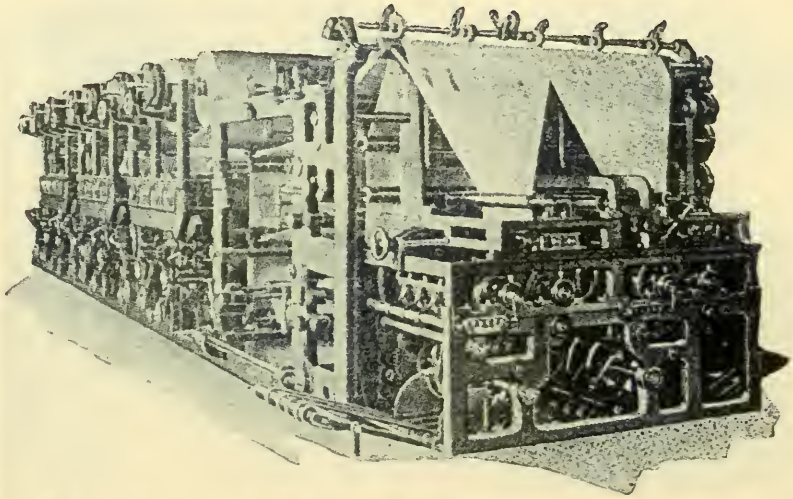
Are invited to call at the pressroom of *THE NEW YORK WORLD* and witness in operation daily the wonderful new

# "Augmented Octuple"

(72-PAGE)

# DUPLEX ROTARY PRESS

***which has upset all press traditions***



This press can be seen producing 37 PER CENT. of *The World's* total output in two deliveries out of eight, averaging 75 PER CENT. MORE PRODUCT than corresponding presses of other makes in the same plant. (Figures from *World* pressroom records.)

THE NEW YORK TRIBUNE is now printed exclusively upon DUPLEX ROTARY PRESSES, the whole equipment in pressroom and stereotyping departments having been recently installed, the old-style skyscraper machines being entirely discarded in favor of this modern low-down construction. Any publisher interested is invited to inspect these machines in operation. The management will be glad to issue permits to pressroom.

The great simplicity of this press and its remarkable convenience are obvious at a glance. Its superiority over the "skyscraper" construction of other press builders is so great that they are already compelled to offer to build, and some of them are already building, machines of a similar type, in plain violation of our patent rights. We have brought suit in defense of these rights in the United States Courts and we hereby caution publishers against the purchase of infringing machines.

## DUPLEX PRINTING PRESS COMPANY, Main

LONDON ADDRESS:
*Linotype & Machinery, Ltd., 188 Fleet St., E. C.*

EASTERN OFFICE, WORLD

# The Duplex Tubular Plate Rotary Press

***A New Feature Which Doubles the Productive Capacity of the Press***

In the Duplex Single-Plate Rotary there is no collecting, no associating, no tapes, no half-speed cylinders. All sheets are cut AFTER passing over the former—not before, as in other makes. ALL products delivered BOOK-FOLD and AT THE SAME RATE OF SPEED, and with NO DUPLICATE PLATES and NO WASTE SHEETS.

THE *DUPLEX* TUBULAR SINGLE-PLATE 16-PAGE PRESS. CAPACITY: ANY EVEN NUMBER OF PAGES UP TO AND INCLUDING 16. SPEED: 30,000 PER HOUR FOR ALL PRODUCTS.

The DUPLEX TUBULAR PLATE ROTARY PRESS, carrying an equal number of plates, will give TWICE THE PRODUCT of any other press IN THE SAME RUNNING TIME—or, putting it the other way, WILL DELIVER A REQUIRED PRODUCT IN ONE-HALF THE TIME.

These are important claims, but, more important still, they HAVE BEEN PROVED. The demonstration in a large number of important offices throughout the world is conclusive.

Assists Nursing Mothers

Rebuilds Overworked Physiques

# Your System Needs Such A Food as This

especially at this time of the year when winter has left you so susceptible to the ravages of sickness and disease. At this time, more than any other, your body requires a pure, wholesome, predigested liquid that is easily and quickly assimilated—one that will build up wasted tissues and weakened muscles—one that will strengthen and actually impart energy and vigor and life. That is why physicians everywhere recommend the use of

# Pabst Extract

## The "Best" Tonic

a perfect food welcomed by the weakest stomach—containing all the nutritive and digestive properties of pure, rich barley malt and the quieting and restorative qualities of choicest hops in predigested liquid form. It is the ideal spring food —giving men and women just the right energy and strength to take their part in the battle of life.

Pabst Extract, The "Best" Tonic, is used all over the world to strengthen the weak and build up the over-worked; to relieve insomnia and conquer dyspepsia: to help the anaemic and turn nerve exhaustion into active, healthy vim; to encourage listless convalescence to rapid recovery; to assist nursing mothers and reinvigorate old age.

Order a Dozen from Your Druggist--Insist Upon it Being Pabst

Encourages Listless Convalescence

Free booklet, "Health Darts" tells ALL uses and benefits of Pabst Extract. Write for it, a postal will do.

Library Slip, good for magazines and books with each bottle.

The U.S. Government specifically classifies Pabst Extract as an article of medicine—not an alcoholic beverage.

PABST EXTRACT CO. Dept. 25 Milwaukee, Wis.

Reinvigorates Old Age

# SONG POEMS WANTED

I have paid writers thousands of dollars in royalties. You may produce a "hit" and if properly published share in future profits. Send samples of your work to me for examination and free criticism. If available, I will publish, in fine style, under fairest, most liberal contract ever offered; secure copyright in your name and promote through only successful methods. Success depends largely upon selecting an absolutely reliable, competent and successful publisher. New York is the recognized market for songs and best place to publish. I have composed and published many of the greatest "hits." Established 16 years. If interested, do not fail to write for valuable free booklet and full particulars.

***JOHN T. HALL - A. Columbus Circle, New York***

# Are Your Eyes Affected in Any Way?

THE NORMAL EYE.

If So, Let Us Send You

## The Ideal Eye Masseur

For 10 days at our expense

It helps Nature in a purely natural way to strengthen the eye and restore the natural vision. Its action is in the nature of a gentle massage, which stimulates the eyes by restoring the normal circulation of blood —that is all that weak eyes require. But it does more—it moulds the eye painlessly but surely to its perfect shape. This is necessary to correct near-sight, far-sight, astigmatism, and kindred defects. It is absolutely safe—it does not come in direct contact with the eyes; and five minutes' manipulation in your own home, twice a day, is all that is necessary to counteract eyestrain and headache, and relegate eyeglasses to the rubbish box. Throw away your eyeglasses. See nature and read with your naked eye. Write for instructive booklet No. 137 and 10 days' test to

# PATENTS

**Trade Marks and Copyrights Secured or Fee Returned**

## Special Offer—Free Search of Patent Office Records

Send us a model or sketch and description of your invention, and we will make a *Free Search* of the *Patent Office Records* to ascertain if it is patentable. If we report the invention patentable we will guarantee to obtain a patent or return our fee, and furnish a certificate of patentability backed by a bonded contract to that effect.

**This Certificate of Patentability will protect the Inventor and serve as proof of the invention until the case can be filed in the U. S. Patent Office.**

**OBTAINING ASSISTANCE FOR INVENTORS**

Our certificate is of great assistance to inventors who require financial aid to obtain patents.

**OUR FIVE BOOKS MAILED FREE**

to any address. Send for these books—the finest publications ever issued for free distribution.

**HOW TO OBTAIN A PATENT**

Our illustrated eighty-page Guide Book is a book of reference for inventors, and contains 100 mechanical movements illustrated and described.

**MONEY IN PATENTS**

Tells how to invent for profit, and gives history of successful inventions.

**WHAT TO INVENT**

Contains a valuable **LIST OF INVENTIONS WANTED** and suggestions concerning profitable fields of invention; also information regarding prizes offered for inventions, among which is a **PRIZE OF ONE MILLION DOLLARS OFFERED FOR** one invention, and $10,000 for others.

**PATENTS THAT PAY**

Contains letters from our clients who have built up profitable enterprises founded upon patents procured by us; also indorsements from prominent inventors, manufacturers, Senators, Congressmen, Governors, etc.

**PATENT PROMOTION**

Gives valuable information regarding the sale and placing of patents.

**VICTOR BUILDING**

Our new $200,000 building opposite U. S. Patent Office SPECIALLY ERECTED by us for OUR own use.

**Foreign Patents**

WE HAVE DIRECT AGENCIES IN ALL THE PRINCIPAL FOREIGN COUNTRIES and secure FOREIGN PATENTS in the shortest possible TIME and at the LOWEST COST. Write for our Illustrated Guide Book on Foreign Patents, sent free to any address.

# Wanted Ideas

**LIST OF PATENT BUYERS contains requests from MANUFACTURERS and PROMOTERS for patents secured by us, and suggestions as to New Ideas they wish to purchase.**

**WE ADVERTISE OUR CLIENTS' INVENTIONS FREE**

in a list of Sunday newspapers with two million circulation, in manufacturers' journals and in the World's Progress. Sample Copy Free. We save you time and money in securing patents. After the patent is granted we assist you TO SELL YOUR PATENT.

If you do not, drop a postal card to

**Romeike's**

**Press Clipping Bureau**

and we will show you how Press Clippings can be used to your advantage.

Press Clippings are always interesting and profitable; they are indispensable to professional and business men alike.

Authors, artists, actors, singers and society leaders are supplied with reviews and criticisms.

We collect obituary notices and bind them in scrapbooks.

Lawyers, bankers, brokers, financial institutes depend largely on quick information from the columns of the press; we supply them.

To the manufacturer we show through the Clippings new markets for his products.

The inventor, the politician, the social reformer, in fact all who attract the attention of the press, are informed and kept up to date by Press Clippings.

*A postal card will bring all the Information.*

BUILDS AND OPERATES HIGH TENSION ELECTRIC LIGHT AND POWER SUBWAYS IN THE BOROUGHS OF MANHATTAN AND THE BRONX

# These Boys Learn While They Play

**GET YOUR BOY THIS WONDERFUL NEW GAME**

Besides delighting him, it will teach him mechanics—make him familiar with the great steel building operations of the day. The game is made of steel and brass, nickeled, and consists of beams, girders, angle irons, wheels, bolts, etc., in miniature, exactly as used by the big steel builders; also the necessary tools with which to build. Your boy and his chums can build by the hour—hundreds of things shown in our book of models and instructions; aeroplanes, draw bridges, printing presses, power derricks, signal towers, etc., etc., with

## The American Model Builder

Endorsed by leading educators everywhere. Used by schools and Y. M. C. A's on account of its great educational value. It's a quiet game—no noise in the house. Playmates won't quarrel. Outfits in seven sizes—$1.00 up. Can be added to any time. For sale by leading department sporting goods and toy stores. Write **today for free illustrated catalog,** and name of nearest dealer.

# Vigorous Nerve Force
# The Invisible Conquerer

**Human Electricity—Another Name for Personal Magnetism or Inherent Vital Power.**

An overflowing abundance of powerful health gives rise to a vigor and fire and determination that forms an invisible conqueror of all human attainments.

Without this a man is nothing—a non-entity; a slave for others; just manages to keep body and soul together and no more.

He is timid and unsuccessful, with heartaches, failures and bitter disappointments of every kind.

**VIGOROUS NERVE FORCE!**—That is the main thing in life to strive for, because with this as a foundation everything else comes without much effort: money, love, fame, infinite happiness and contentment. We say these things come without much effort, and it is so.

And more than that, these olessings flow in by themselves on the life of every man whose whole being radiates an all-conquering vigor of perfect manhood.

You can find actual proof of this in your own vicinity, for you know that every big successful business man does not do one-tenth as much **actual hard work** as you do, and his income is ten—perhaps a hundred times greater.

He has all the most beautiful things in life, while you, perhaps, have nothing. But if you have a normal body and sufficient determination, it is possible for you to be the same as he, and right here is where the Sanden Herculex Body Generator comes to your assistance. Thousands say it has built them up, making them big, vital men in every respect. A wonderful remedy, too, for rheumatism, lame back, kidney, liver, stomach and bladder trouble, for I claim that these ailments cannot exist in a body charged with electro-vital force.

## Let Me Send You THIS BOOK Free

Let me send you at once, free, postage paid, my illustrated book on electro-vitality and its relation to health and strength. It explains all about my wonderful appliance and is a word of hope, a carefully written, interesting book which should be in the posssession of everyone who aspires to be greater, bigger, happier and more successful in every phase of his existence. If in or near this city call at my office. Hours 9 to 6. Call or write

# YOUR HEART

Does it Flutter, Palpitate or Skip Beats? Have you Shortness of Breath, Tenderness, Numbness or Pain in left side, Dizziness, Fainting Spells, Spots before the eyes, Sudden Starting in sleep, Nightmare, Hungry or Weak Spells, Oppressed Feeling in chest, Choking Sensation in throat, Painful to lie on left side, Cold Hands or Feet, Difficult Breathing, Dropsy, Swelling of the feet or ankles, or Neuralgia around the heart? If you have one or more of the above symptoms don't fail to use **Dr. Kinsman's Celebrated Heart Tablets.** Not a secret or "patent" medicine. It is said that one person out of every four has a weak or diseased heart. Three-fourths of these do not know it, and thousands die who wrongfully treat themselves for the Stomach, Lungs, Kidneys or Nerves. Don't take any chances when **Dr. Kinsman's Heart Tablets** are within your reach.

## FREE TREATMENT

Any sufferer sending their name and P. O. address to **Dr. F. G. Kinsman, Box 860,** Augusta, Maine, will receive a box of Heart Tablets for trial by return mail, postpaid, free of charge. Don't risk death by delay. Send at once.

## MAKE BIG MONEY
EVERY DAY IN THE YEAR

**$7.50 AND UP.**

Get into a business that has no seasons, that's a big money maker day in, day out. A business that helps you to see the world—that doesn't tie you down. You can grow rich operating the

**DIAMOND POST CARD GUN**

The marvellous new camera that takes post cards (5 sizes), also photo buttons, and finishes them in less than a minute, ready to deliver.

**No Plates—No Films—No Darkroom.** Just click the bulb and turn out the finished job. No waste—no bother—just collect the money and keep on doing it.

**EXPERIENCE UNNECESSARY**

Anyone can operate the Diamond Post Card Gun. It's simple as falling off a log.

**$75 A WEEK** is easily made at fairs, resorts, beaches, carnivals, etc. Others are doing it. You can, too. So, PROFIT ON A DIME is what you pocket. It's the biggest money-maker of them all. Write for catalogues and sample of work.

MR. EWALD SAYS: I made $29.50 the first 2 days with my Diamond Post Card Gun.

**LEARN HOW YOU CAN RAISE MORE AND BETTER CHICKENS AND GET MORE EGGS AT LESS EXPENSE. YOUR POULTRY LITERATURE SHOULD INCLUDE A YEAR'S SUBSCRIPTION TO**

**SELLERSVILLE, PA.**

## Special Numbers Featuring Favorite Breeds

are now being issued—send for free copy. Each number is a veritable encyclopedia of sound, practical advice, brimful of poultry information. Mention your favorite breed when writing.

Its **PRACTICAL COURSE IN POULTRY CULTURE,** containing 25 Lectures, now being used at several agricultural colleges, comprehensively places before you the knowledge and experience necessary for success that would otherwise take you years to acquire.

**THE POULTRY ITEM** is splendidly illustrated. Nearly every page contains engravings of Prize Winners at the leading shows and fairs of the world.

Although **THE POULTRY ITEM** contained more reading pages than any other poultry magazine the past year its subscription price is no greater.

When your chickens are sick

## The "Questions and Answers" Department

treats your case individually, saving you needless expense of purchasing unfit medicines.

**POULTRY ITEM** tells you how to start right in this profitable and growing business; how to feed and house your birds; how to secure larger egg yield; how to market most profitably; how to prevent and cure disease; how to exhibit, mate and breed for better results. It's interesting to both beginner and expert, and is delivered promptly on time each month.

**POULTRY ITEM'S** two months' Summer Exposition on the Million Dollar Pier at Atlantic City has given it an international prestige enjoyed by no other poultry magazine.

Its Editor, Charles T. Cornman, Lecturer and Judge, engaged by various States as a poultry expert, has spent a lifetime in the chicken world, his ability again being recognized by being appointed on the Staff of Poultry Experts of the Panama Exposition at San Francisco in 1915.

## WHAT POULTRYMEN THINK OF "THE POULTRY ITEM."

Rockaway, N. J., Sept. 11, 1913.

The Item Publishing Co.:

Gentlemen—Your September number reached me right on the dot. You certainly make a specialty of promptness, among other things. There are many features incorporated in The Item that I do not find in the two other well known papers I get. Am boosting your publication wherever I can. ALFRED S. LEVI.

15 Webster Ave., Parkville, Brooklyn, N. Y.

The Item Publishing Co.:

Gentlemen—I consider The Poultry Item the best monthly poultry magazine being published to date. The price of 5c. per copy puts every 10c. and over monthly to shame for neatness, print, useful and helpful articles and general information of what is going on in the poultry world.

C. FEDDERALL.

Mount Road, Madras, India.

The Poultry Item:

Gentlemen—In continuation of my letter of the 16th current I have duly received a copy of The Poultry Item. Accept my best thanks for the same I am a subscriber to various English, American and Australian journals, etc., but I must say the get-up and reading matter and blocks, etc., of your publication are THE BEST I have ever seen. Wishing you every success.

A. C. BULLMORE.

Lebanon, N. H.

Gentlemen—I would say that I take four other poultry magazines besides yours, but THE POULTRY ITEM IS THE VERY BEST ONE I HAVE EVER SEEN. I don't see how you can sell it for 50c. a year. It is worth a dollar any time.

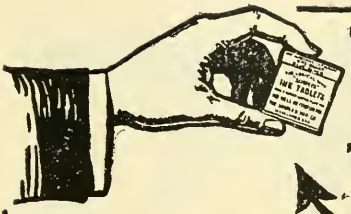
BERT A. GORDON.

**THE POULTRY ITEM** is unquestionably **The Leader.** Subscribe at once.

**ONLY 50c. THE YEAR. 3 YEARS FOR $1.00. CANADA, 75c. FOREIGN, $1.00.**

**THE POULTRY ITEM, Box 7, Sellersville, Pa.**

Send for Agent's Outfit and Earn Money Taking Subscriptions. It's Profitable.



# WHICH

## THE NEW OR THE OLD

# "SIMPLEX" Ink Tablets

contain all the essentials (but water) for making a standard writing fluid. They have been under observation in our laboratory and offices for more than three years with the result that the color substances now used have fulfilled all the requirements expected of commercial writing fluids, and we are supplying "SIMPLEX" INK TABLETS to dealers or consumers as fast as they are convinced of the superiority and desirability of tablet ink when used the "SIMPLEX" WAY.

## DON'T CONDEMN WITHOUT INVESTIGATION

You may have seen or heard of unsatisfactory Ink Tablets. What of it? Automobiles are ten thousand times better now than they were ten years ago; yes, five years ago. Air navigation is still a commercial failure but it's coming. Transportation is better; buildings are bigger; business is faster; homes are more comfortable. Everybody and everything expresses the spirit of progression. Antiquated people and antiquated methods are fast filling the ranks of the rear guard in the great march of progress.

## NOT A PRODUCT OF ANTIQUITY

Why buy ink made over antiquated formulas and use it in the antiquated way? Chemistry is advancing with the crowd. Color chemists are making new discoveries and perfecting old formulas every year. Brains are working while the world sleeps and with each dawn there are many bigger and better things waiting for all who awaken to their opportunities. "SIMPLEX" INK TABLETS are the result of much thought and experimental labor. *No snap shot judgments, but thorough practical tests have been made.* Therefore, "SIMPLEX" INK made from "SIMPLEX" INK TABLETS is dependable.

## NOTE THESE POINTS

**Quality standard.**
**Flow perfect.**
**Colors permanent.**
**Will make a good copy.**
**Non-corrosive.**
**Unaffected by climate.**
**Will not mould.**
**Will not gum the pen.**
**Will not freeze.**
**Storage space small.**
**Distribution economical.**
**Prices right.**

Made in colors—Black, blue-black, red, green, violet, blue. Packed in lithographed tin boxes, containing sufficient tablets to make gallons, quarts, pints and half-pints. SPECIAL SIZE FOR FOUNTAIN PENS—"SIMPLEX" INK TABLETS are also made just the right size to fill a Fountain Pen with high grade writing fluid in a minute. A tablet and any water will do it. Easy, isn't it?

**Great for Travelling Salesmen, Tourists, Campers, Sportsmen and all others using Fountain Pens. Bear in mind—No Loss, No Freezing, No Breakage, Costs Less, Storage Less, Distribution Less.**

You are a buyer of ink either for service or for sale. You are missing something good if you are not acquainted with "SIMPLEX" INK TABLETS and the "SIMPLEX" WAY.
SOLD ON OUR GUARANTEE of MONEY BACK IF NOT SATISFIED.

# "SIMPLEX" INK TABLETS

## *"PLEASE PARTICULAR PEOPLE"*

*THE REASON WHY* will be plain when you have tried them.

# THIS IS YOUR OPPORTUNITY

If you mention "The World Almanac" and send us 10c you will receive a liberal supply of "SIMPLEX" INK TABLETS for fountain pens and ink wells. You may select two colors, and address

# PATENTS

Member of bar of Supreme Court of U. S. Patent Practice before Courts and Patent Office. Patents secured in U. S. and in all foreign countries. Searches made and opinions rendered as to scope and validity of patents, and fee for services in prosecuting application before U. S. Patent Office **contingent upon success in securing patent.**

The value of a patent depends upon its scope and validity; therefore an invention should be intrusted to an experienced attorney, who will secure a patent which will fully protect the invention.

I place at the service of my clients an experience of more than 25 years' continuous practice before courts and Patent Office, and I insist in all cases upon **the grant of such patents as will fully cover every patentable feature involved in the invention and afford greatest possible degree of protection.**

Numerous applications for patents are rejected. Prosecution of many of these were intrusted to attorneys who required full payment of their fees at time of filing applications and who may not have exercised same degree of energy in their efforts to secure the patents that they might have exercised had payment of their fee depended upon their success. I am frequently able to revive applications thus rejected and to prosecute them to an allowance of patent.

In all cases in which I examine Patent Office records and report that in my judgment it will be able to secure a patent, **I back my judgment by making my fee contingent upon my success in securing the patent and not payable until it is officially allowed.**

A booklet containing full instructions, statement as to fees, addresses of inventors for whom I have secured patents and much other valuable information furnished free. Send for "INVENTORS' GUIDE."

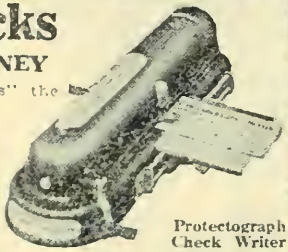
# How to Protect Checks

## A NEW WAY TO SAVE TIME AND MONEY



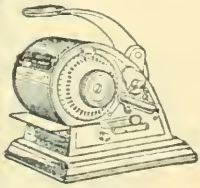
Protectograph Check Writer

This new model Check Writer Protectograph "shreds" the full amount, Dollars and Cents, in the body of the check, exact to the penny, in two colors—red, for denominations, blue for amounts. This makes a strikingly handsome, legible, up-to-date check.

Fastest system of writing and protecting checks ever devised—a complete word to each stroke of the handle—fast as the hands can move.

Protectograph system of "shredding" and inking the paper (patented) has stood the test for 14 years and is the world's standard. Any attempt to alter the work of the Protectograph destroys the check, makes it worthless. This is the way the new model writes out an amount, in two colors—

**THREE HUNDRED FIFTEEN DOLLARS TWENTY CENTS**



Protectograph

Wouldn't your checks look better if written this way? Write us on your business stationery for prices, samples of the work, and confidential information about check raising and check protection.

# A NEW AID FOR DEAFNESS

Have you been trying to get along without an Ear-Phone on account of its inconvenience? Then you will want to try our new lorgnette type of instrument.

It is the same in principle as our regular **GLOBE EAR-PHONES**, which are used by thousands of enterprising deaf people, but instead of being made in three separate parts with connecting wires it is made all in one piece with the battery in the handle. No cords to bother or break and no plugs to drop out. Compact and convenient, always ready for use. It uses the ordinary flash light batteries, which you can get anywhere. When through using it can be dropped into your pocket or handbag and the automatic switch will shut off the battery current.

Let us send you one of these new instruments for a

# The I.C.S. Can Raise *Your* Salary

For more than 21 years the International Correspondence Schools have been training men for better positions and larger salaries. They can do the same for *YOU*—right in your *own home* during your *spare time*.

Last year 5,143 I.C.S. Students voluntarily reported promotions or raises in salary as a direct result of I.C.S. training. And thousands more were helped who did not report their advancement.

What these men have done *YOU can do*. They were tied down to unpleasant, poorly paid jobs. They were face to face with the increasing cost of living with absolutely no hope of providing against it. And they had just as limited educations, just as hard work, and just as little spare time as you have.

They made up their minds that they would prepare for better jobs. And with the help of the I.C.S. they "made good." Today they are receiving three or four times their former salaries.

*You've* got just as much ability—just as high ambitions—and just as stiff a backbone as these men had. What they have done, *YOU can do.*

Mark and mail the attached coupon—it won't obligate you in the least—and the I.C.S. will show you how they can raise *YOUR* salary by training you for a good job in the occupation you like most.

**Mark the Coupon—NOW**

**International Correspondence Schools**
**Box 801, SCRANTON, PA.,**

Please explain, without further obligation on my part, how I can qualify for a larger salary and advancement to the position, trade, or profession before which I have marked X.

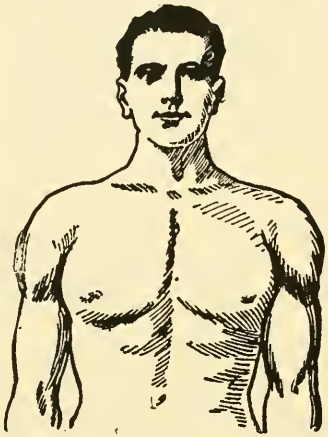
# GOOD LUNGS MEAN HEALTH



## Are They Weak or Painful?

**Do your lungs ever bleed?**
**Do you have night sweats?**
**Have you pains in chest and sides?**
**Do you spit yellow and black matter?**
**Are you continually hawking and coughing?**
**Do you have pains under your shoulder blades?**

**These Are Regarded Symptoms of Lung Trouble and**

# Tuberculosis

You should take immediate steps to check the progress of these symptoms. The longer you allow them to advance and develop, the more deep seated and serious your condition becomes.

## We Stand Ready to Prove to You

absolutely that Lung Germine, the German treatment, has cured completely and permanently case after case of Tuberculosis, Chronic Bronchitis, Catarrh of the Lungs, Catarrh of the Bronchial Tubes and other lung troubles. Many sufferers who had lost all hope and who had been given up by physicians have been permanently cured by Lung Germine. It is not only a cure for Tuberculosis but a preventative. If your lungs are merely weak and the disease has not yet manifested itself, you can prevent its development, you can build up your lungs and system to their normal strength and capacity. Lung Germine has cured advanced Tuberculosis, in many cases over five years ago, and the patients remain strong and in splendid health to-day.

## Let Us Send You the Proof---Proof That Will Convince Any Judge or Jury on Earth

We will gladly send you the proof of many remarkable cures, also a FREE TRIAL of Lung Germine together with our new 40-page book (in colors) on the treatment and care of Tuberculosis and lung trouble.

JUST SEND YOUR NAME

**LUNG GERMINE CO., 21 Rae Block, Jackson, Mich.**

# SANDHOLM'S ECZEMA LOTION

## AND DANDRUFF REMEDY

Hundreds of sufferers from skin and scalp diseases have been permanently cured. All who have used it have been greatly benefited, and when the treatment was faithfully continued a complete and permanent cure was the reward.

If you are troubled with Eczema, Dandruff, Sunburn, Scalp Eczema, Scald Head, Barber's Itch, Cuban Itch, Doby Itch, Tetter, Hives, Enlarged Pores, Insect Bites, Falling Hair, Pimples, Blackheads, Acne, Salt Rheum, Psoriasis, Oily Skin, Redness of the Skin, Old Sores, &c., YOU NEED SANDHOLM'S ECZEMA LOTION AND DANDRUFF REMEDY. It is used externally and shows beneficial results right from the start.

## It Cures by Absorption

Use it on your scalp—it is the best Tonic for the hair known. It kills the Dandruff Germ. Use it on your face—as a massage it has no equal.

Guaranteed under the Pure Food and Drugs Law of June 30, 1906. Serial No. 1646.

Send for $1.00 bottle, which will prove to you the merits of our preparation. Where we have no agents or dealers handling our goods we prepay express charges.

# SANDHOLM'S TONIC VITALIZER

For internal use is a scientific vegetable compound that upbuilds the entire system from whatever cause. Young women and mothers can use it with perfect safety for chronic constipation, and for the stomach, liver and kidneys. As a blood purifier it cannot be excelled. Sent anywhere in the United States, all charges prepaid, $1.00 a bottle. Literature of both of the wonderful preparations sent on request FREE of all cost.

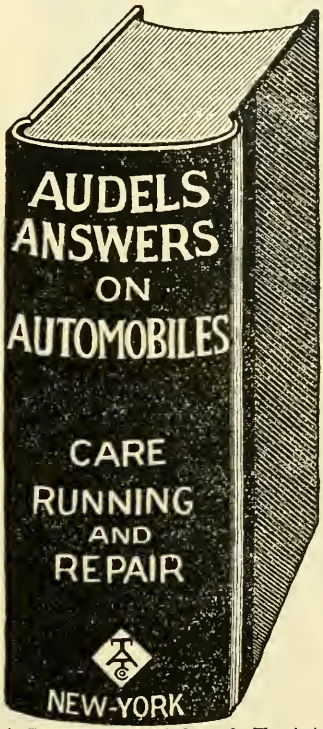
# HOW TO RUN AN AUTO

## IS SELF-TAUGHT IN AUDELS ANSWERS ON

# AUTOMOBILES



## A New Book from Cover to Cover

**LATEST—PRACTICAL—CONCISE—EXPLICIT—BEST**

THE object of this book is to give, in the easiest understood form, the information necessary for the proper **operation, care and maintenance** of an automobile.

To adapt the book to many needs the subject matter is presented in the form of **questions and answers.** Technical terms are explained or made clear by the wording of the answer, which is always brief and direct.

Any one of the definite chapters on **Carbureters, Ignition, Gas Engine Operation, How to Run an Automobile, and Overhauling the Car, Battery Troubles,** are alone worth the price asked for the 28 complete chapters contained in this book of 512 pages, illustrated by **380 illustrations.**

The form and size are such that it is convenient to handle and study.

This book is a self-educator, hence: "he who runs may read" and improve his present knowledge of automobile engineering and proficiency.

Handsomely bound in durable green cloth and full leather back.

**Audels Answers on Automobiles, $1.50**

## A BOOK WORTH HAVING

**"Understand Your Car," Explained in the Following Chapters:**

1. Ready Reference Index. 2. The Automobile. 3. The Gas Engine. 4. The Cycle of a Gas Engine. 5. Brief Outline of Gas Engine Principles. 6. Cooling Systems. 7. Fuels. 8. **Carbureters.** 9. **Ignition.** 10. Timing and Balancing. 11. **Gas Engine Operation.** 12. Clutches. 13. Transmissions. 14. The Drive. 15. The Differential. 16. The Running Gear. 17. Tires. 18. Brakes. 19. Ball and Roller Bearings. 20. Lubricants and Lubrication. 21. Motor Cycles. 22. Electrics. 23. Electricity. 24. Dynamos and Motors. 25. Storage Batteries. 26. Methods of Circuit Changing. 27. **How to Run an Automobile.** 28. **Overhauling the Car.**

# NONE OTHER JUST AS GOOD

## FREE EXAMINATION

We don't want you to take our word, or any one else's for it. We are willing to send you the book without deposit. Use it seven days in connection with your car. Then send back the book or remit $1.50. Could anything be fairer?

Cut out and fill in your name and address plainly at the bottom. Place it in an envelope and mail.

**This Book Will Speak for Itself**

**Theo. Audel & Co., 72 Fifth Ave., New York**

Kindly mail me copy of **Audels Answers on Automobiles,** and, if found satisfactory, I will immediately remit you $1.50, or return the book to you.

**SPRINGFIELD, OHIO**

# OUR SOBER NATION

## How Beer Is Aiding Temperance in This Country

IN this country, as in Sweden, Holland and Belgium, and in Switzerland, practical experiments have shown that legislation directed against alcoholism is of no effect, without tolerance and encouragement of the milder stimulants—often indeed it has but resulted in magnifying and intensifying the evil. And in this wise policy we mark the growth of that true temperance idea by which our country is now in the very forefront of sober nations.

Since the Civil War and the almost coincident setting up of the internal revenue system, the production and consumption of beer in this country have been truly astounding. To make this point clear, we quote a few tabular figures, noting therewith that the production of 1863 (the first year of internal revenue) was but 885,272 barrels, and taking only the statistics since 1900.

| | | |
|---|---|---|
| 1900 | 39,330,849 | barrels |
| 1901 | 40,517,078 | " |
| 1902 | 44,478,832 | " |
| 1903 | 46,650,730 | " |
| 1904 | 48,208,133 | " |
| 1905 | 49,459,540 | " |
| 1906 | 54,651,637 | " |
| 1907 | 58,546,111 | " |
| 1908 | 58,747,680 | " |
| 1909 | 56,303,497 | " |
| 1910 | 59,485,116 | " |
| 1911 | 63,216,851 | " |
| 1912 | 62,108,633 | " |
| 1913 | 65,245,544 | " |

Commenting on the wonderfully increased consumption of beer in this country and the sensible diminution in the quality of ardent spirits used within the past decade, the New York Sun, in an editorial (August 22, 1905), reaches the conclusion that "beer drives out hard drink." The Sun also notes as a consequence that public drunkenness is comparatively rare in all cities of America to-day, among all classes of society.

Mr. James Dalrymple, Glasgow's Commissioner of Municipal Railways, who was recently in this country, was constantly struck by the same fact as contrasted with conditions abroad. Drunken workingmen are rarely seen in any American community.

Yet the time is not so far back when a different state of affairs prevailed in this country. It is hardly a generation since drunkenness was the national vice. The change seems to have come through the more general use of malt liquors. As the Sun says, "beer drives out hard drink." Moderation and temperance are supplanting excess in the use of liquor. Can it be possible that the American people owe their present admirable sobriety to the brewer?

This is evidently the view of another great journal, the New York World, which not long ago expressed itself editorially as follows:

"Government reports show constantly in the United States a decrease in the quantity of alcoholic liquors consumed in a year, and an increase in the amount of beer consumed. The malt liquor gain in 1905 over 1904 was over a million barrels. Beer is held up, therefore, as one of the great agents by which this country is to be kept among the most temperate nations. It would seem that even Prohibitionists might hold a reasonable interest in the improvement of the hop fields of the land."

# Don't Wear A Truss!

**After Thirty Years' Experience I Have Produced an Appliance for Men, Women or Children That Cures Rupture.**

**I SEND IT ON TRIAL**

If you have tried most everything else, come to me. Where others fail is where I have my greatest success. Send attached coupon to-day and I

SEND each of your customers three assorted Hexagon pencils in a box as illustrated. His own name on each pencil will please him immensely and make him keenly appreciative of your favor. YOUR name on the cover of the box will be one of the most effective forms of publicity that you can imagine. It allows ample room for a good big ad. and will be read as you see under conditions very favorable to the consideration of your proposition.

This combination has an irresistible appeal to every man with a keen sense of publicity values. The cost is very little. Your name on the cover of the box—your customer's name in gold on each pencil.

Unconsciously to him you secure in this way your customer's good will and get his orders. Every time he sees his own name on his pencil he thinks of your clever advertising idea and is reminded to order of you.

**We also furnish DISPLAY ADVERTISING on ROUND PENCILS showing trade marks, etc., on NOVELTY and MECHANICAL PENCILS and PENHOLDERS.**

**Our full line comprises the wide range of**

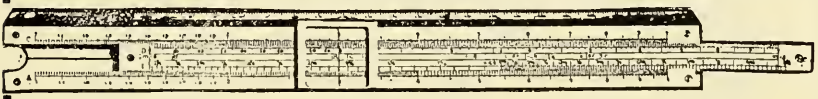
# Figure With Your Eyes and Fingers —Save Your Brain

At last, the slide rule—which for years has been an indispensable aid to the technical man, the engineer, the architect and the student for working out all sorts of numerical calculations—has been especially fitted for the use of every business man. It will save brain work for the banker, the exporter, the importer, manufacturer, auditor, cost-, bill- and price-clerk and for every one who does any calculation whatever.

# HUTTEN'S COMMERCIAL SLIDE RULE



## Will save time, effort and energy in all your calculations

### What It Does

This slide rule makes the most involved and difficult computations a matter of mere mechanics. It multiplies, divides, solves proportion, figures selling prices, costs, discounts, converts money, weights and measurements—in fact it will render you the same service as an expensive calculating machine.

Just consider that this device will figure interest at any amount, at any rate, for any number of days—IN ONE OPERATION—and that it will perform other involved calculations with the same speed and ease. Then you can realize better just how much time and work it can save you.

### Price $5

I will send you a Hutten Slide Rule on receipt of FIVE DOLLARS, and if, after testing it on your own work in your own office, you do not come to the conclusion that it is all I claim for it, you can send it back and I will refund your money.

The slide rule solves any problem accurately up to 3 or 4 figures of the result, which is sufficient for all practical purposes. A complete manual of instructions is furnished with every rule. You cannot afford to be without one—so SEND THE COUPON NOW.

Complete price list of technical slide rules for Engineers, Architects, Contractors, Students, Scientists, sent on request. Write

**JOS. H. HUTTEN**

**2 Stone Street New York**

**Representatives Wanted:** Dealers and agents capable of presenting this instrument to business men in the manner it should be presented are offered an exceptional opportunity to build up a profitable, permanent business. Write for my selling plan to-day.

**JOS. H HUTTEN**
**2 Stone St.**
**New York City**

Dear Sir:—Please send me one slide rule and complete manual of instructions. I enclose $5 in payment with the distinct understanding that this amount will be refunded to me if the rule does not come up to my expectations.

# FRECKLES

## Don't Hide Them With a Veil; Remove Them With The Othine Prescription

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by druggists under an absolute guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

**Othine can be bought by the ounce from any druggist.**

# $3,000 A YEAR

## REPAIRING AUTOMOBILE TIRES

Be first to enter this new big paying business in your town. Open your pockets. Let the dollars pour in. Act quick. Every auto sold means more tires to mend. Automobile business is growing fast—enormous field for tire repairing. Punctures and blowouts are common. Tires need retreading and vulcanizing. Something going wrong all the time. Thousands forced to buy new tires because they can't get old ones fixed.

Think of the old bicycle days—repair shops on every corner—all making money—busy day and night. Autos make same proposition over again—only ten times bigger and better. Users of Haywood Tire Repair Plants are making big money. Johnson, Tex., writes: **"I made as high as $18 profit in a day."** Another man who bought a plant September, 1911, writes he has **cleared over $3,000.00.** That's going some! Operate a plant as side line in connection with auto business—garage or as an independent business. Find neighborhood where there's a bunch of autos—get all the steady business besides transient work. Experience unnecessary. You learn quick. Simply follow directions—practice a few days on a couple of old tires and you'll be ready to coin money. Business comes fast and easy.

Send to-day for catalogue. See the wonderful possibilities in this marvelous field. Learn of the enormous money-making opportunities in this fascinating new business.

# This Wife and Mother

## Wishes to Tell You FREE

# How She Stopped Her Husband's Drinking

**By All Means Write to Her and Learn How She Did it**

For over 20 years James Anderson of 470 Elm Ave., Hillburn, N. Y., was a very hard drinker. His case seemed a hopeless one, but 10 years ago his wife in their own little home gave him a simple remedy which much to her delight stopped his drinking entirely.

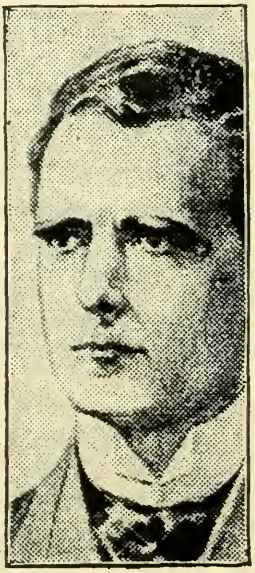
To make sure that the remedy was responsible for this happy result she also tried it on her brother and several of her neighbors. It was successful in every case. None of them has touched a drop of intoxicating liquor since.

She now wishes everyone who has drunkenness in their homes to try this simple remedy, for she feels sure that it will do as much for others as it has for her. It can be given secretly if desired, and without cost she will gladly and willingly tell you what it is. All you have to do is to write her a letter asking her how she cured her husband of drinking and she will reply by return mail in a sealed envelope. As she has nothing to sell do not send her money. Simply send a letter with all confidence to Mrs. Margaret Anderson at the address given above, taking care to write your name and full address plainly.

# Ask This Man to Read Your Life

## His Wonderful Power to Read Human Lives at Any Distance Amazes All Who Write to Him.

Thousands of people in all walks of life have benefited by this man's advice. He tells you what you are capable of, and how you can be successful. He mentions your friends and enemies and describes the good and bad periods in your life.



His description as to past, present and future events will astonish and help you. All he wants is your name (written by yourself), your birth date and sex to guide him in his work. Money is not necessary. Mention the World Almanac and get a Trial Reading free. If you want to take advantage of this special offer and obtain a review of your life simply send your full name, address, the date, month and year of birth (all clearly written), state whether Mr., Mrs. or Miss, and also copy the following verse in your own handwriting:

"Your advice is useful,
So thousands say,
I wish success and happiness,
Will you show me the way?"

If you wish you may enclose 10 cents (stamps of your own country) to pay postage and clerical work. Send your letter to Clay Burton Vance, suite 2901 Palais-Royal, Paris, France. Do not enclose coins in your letter. Postage on letters to France is 5 cents.

# I COULDN'T Give You a Better Hatcher if I Charged You $100 for It

# Yet My Price Is Only $7.55

Freight Paid East of Rockies

## Sold on One, Two or Three Months' Test

YOU can't get anything better than the best—then why pay more than I charge for my 8 times World's Championship Belle City Incubator? It has won the world's championship in over 18,000 hatches—that makes it best of all—no matter what the price. Order from this advertisement if you wish to. Thousands do. ## THE AMERICAN WELL WORKS

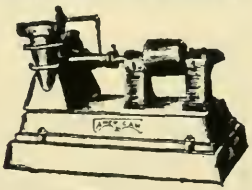
**General Office and Works, Aurora, Ill. Chicago, Office First Nat. Bank B'ldg.**



# Why Internal Bathing Preserves Perfect Health

You can not be healthy unless you keep your system absolutely free from waste matter. For when the bodily waste is not promptly removed, the blood passing through the intestines absorbs the deadly poisons, and carries them back into the vital organs.

Your powers of resistance against infection are thereby weakened. Headache, palpitation, sallowness, dizziness and a multitude of ills are the result. Moreover, you are exposed to the attacks of countless other serious and often incurable diseases.

The only *natural* way to keep the system absolutely free from this noxious waste is by means of the

## "J. B. L. CASCADE"

This is a scientific appliance built on the most approved medical principles. It thoroughly cleanses and purifies the system without the use of drugs. Moreover, it helps to strengthen the vital organs and aids the entire system to perform its functions naturally. It can be used by any one at home without the slightest trouble.

### Stopped Chronic Headache

Dear Doctor:—Some three months ago I ordered one of your "Cascades," thinking it might do something toward relieving me of violent headaches, to which I am subject every two or three weeks. I knew these headaches were due to clogging up of the system and to overwork, and looked forward to them with dread. I have used the "Cascade Treatment" about five times, and at such times as I feel the headache coming on. No treatment has ever relieved me as has yours. You may make use of this if you think it will save any one from suffering the distress that I have passed through since boyhood days.

Very truly yours,
D. B. HAND, M. D., Scranton, Pa.

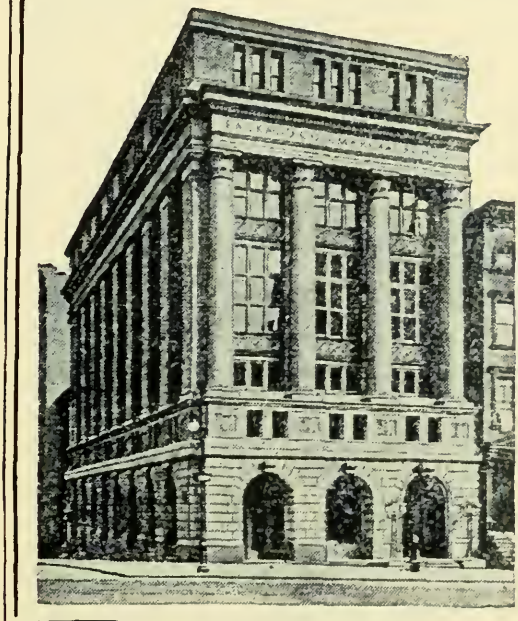
# Packard Commercial School

**255, 257, 259 Lexington Avenue, and 134, 136, 138, 140 East 35th Street, New York**



Few institutions in the city of New York have contributed more to the progress and benefit of the rising generation than the Packard Commercial School. Its purpose is purely practical. It aims to prepare young people for the activities of business life, and during the last half-century it has thus equipped thousands upon thousands of young men and women and started them on the road to success.

The history of the school is a history of progress. It began more than fifty years ago in two rooms of the Cooper Union Building. As its size increased, larger quarters were secured from time to time, until to-day it occupies, at Lexington Avenue and Thirty-fifth Street, its own magnificent new school building, accommodating six hundred students, and is one of the architectural ornaments of New York.

The new Packard Building is absolutely modern and up-to-date. Fireproof in construction and equipped with numerous exits, the building is first of all, safe; while abundant light, uniform temperature, and scientific ventilation conduce to the health and comfort of the students.

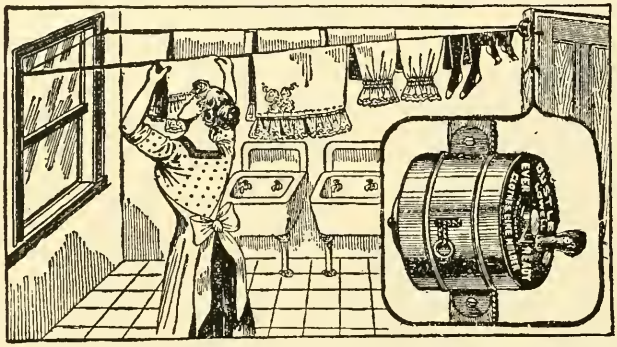
The courses of study at the Packard School embrace those subjects required by the competent accountant or amanuensis, and the whole system of instruction, conducted only by capable and well qualified instructors, is characterized by that conscientiousness and thoroughness which has given the Packard School the enviable reputation it bears to-day in the field of commercial education.

A new department of accounting and finance was recently added to the curriculum, the object of which is to furnish a broad technical training in advanced business subjects, as well as to prepare candidates to become certified public accountants.

# Here Is the Latest and Greatest of Household Utilities

Needed in every home—Wanted by every housewife—It is coining money for Agents, Supply Houses, Mail Order and Catalog Houses, Premium and Household Goods Dealers

## "Ever Ready" Dustless Clothes Line Reel



**Very Attractive Prices on Quantity Orders.**

**A SURE WINNER**

**50c Retail**

A neat and compact little cabinet into which 36 feet of strong line is wound. Protects the line from dust and dirt, keeps it free from knots and tangles and out of the way when not in use. Always in place—always ready for instant use. Only a few seconds necessary to withdraw the line or wind it up. Needed in every kitchen, bath room, laundry, back porch and in every bed room and nursery. Locks at any point when the necessary amount of line has been drawn out. Neatly finished, simple and strong. Comes complete with all necessary screws and hooks.

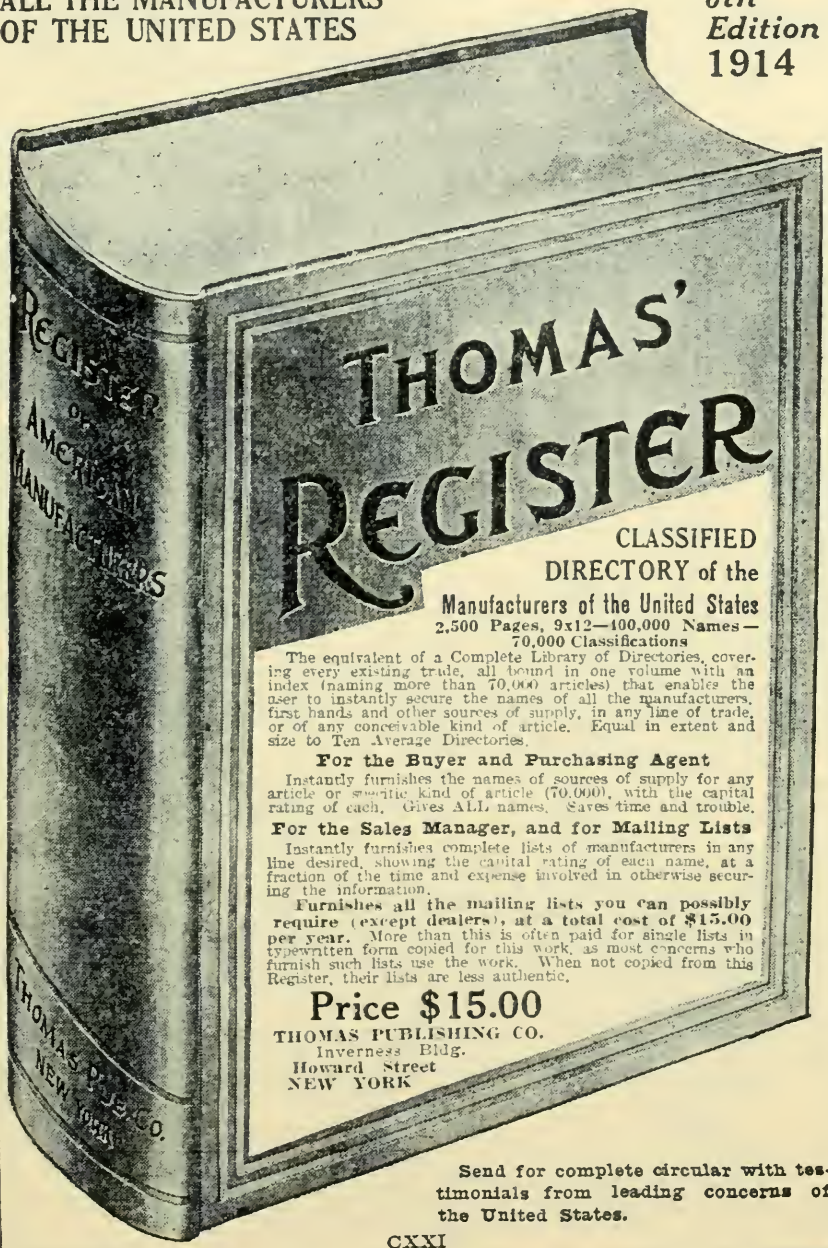
1914



# THOMAS' REGISTER

## CLASSIFIED DIRECTORY of the Manufacturers of the United States

**2,500 Pages, 9x12—100,000 Names—70,000 Classifications**

The equivalent of a Complete Library of Directories, covering every existing trade, all bound in one volume with an index (naming more than 70,000 articles) that enables the user to instantly secure the names of all the manufacturers, first hands and other sources of supply, in any line of trade, or of any conceivable kind of article. Equal in extent and size to Ten Average Directories.

**For the Buyer and Purchasing Agent**

Instantly furnishes the names of sources of supply for any article or specific kind of article (70,000), with the capital rating of each. Gives ALL names. Saves time and trouble.

**For the Sales Manager, and for Mailing Lists**

Instantly furnishes complete lists of manufacturers in any line desired, showing the capital rating of each name, at a fraction of the time and expense involved in otherwise securing the information.

**Furnishes all the mailing lists you can possibly require (except dealers), at a total cost of $15.00 per year.** More than this is often paid for single lists in typewritten form copied for this work, as most concerns who furnish such lists use the work. When not copied from this Register, their lists are less authentic.

# Three Garments of Health

Trade Mark PROF. CHAS. MUNTER'S **Nulife**

Registered and Patented U. S. and Europe.

**SHOULDER BRACE** for Everybody — **CORSET** for Women — **BELT** for Man, Woman and Child

**Highest awards, gold medals, crosses of honor and diplomas at 1912 International Expositions at England, France, Spain and Italy.**

PROF. CHAS. MUNTER HAS ACHIEVED WORLD-WIDE SUCCESS BY HIS WONDERFUL SCIENTIFIC **NULIFE** GARMENTS, WHICH ARE ENDORSED BY PHYSICIANS, PHYSICAL CULTURISTS, SINGERS AND MODISTES, AND TEACHERS OF DEEP BREATHING EVERYWHERE.

## NULIFE SHOULDER BRACE AND BODY SUPPORTER

easy to adjust, and comfortable to wear. It compels deep breathing, straightens round shoulders instantly, expands the chest two to six inches, supports the back, holds the body erect, reduces the abdomen, and imparts dignity, grace and ease of carriage. It is invaluable for growing children. Its results are immediate and permanent. **SEND $2 SPECIAL PRICE)**, and give your Height, Weight and Chest measure (not bust) and state whether male or female.

## NULIFE CORSET FOR EVERY WOMAN

**Makes every wearer a living model of perfection.**

Self-lacing, hip-reducing corset.

Guaranteed to fit any woman. Can be worn with comfort from the moment it is put on.

Gives the latest fashionable figure.

Is on and off in an instant.

Once tried, never discarded. It gives the same healthful benefits as all Nulife garments.

Send your name and address with your correct waist measure, and enclose $5.00, and state whether you desire long or medium hip corset, and we will send you the world's greatest invention for women and guarantee it satisfactory.

Write for illustrated booklet of all our models.

## THE NULIFE ABDOMINAL SUPPORTER

**For Men, Women and Children**

fashioned on the same scientific lines that govern all Nulife garments.

The NULIFE BELT immediately reduces the abdomen of stout people from 5 to 10 inches, without injury or pressure. It raises the body up and back on the center of gravity and forces the spine to carry the weight of the body, and compels the wearer to breathe away all excess tissue.

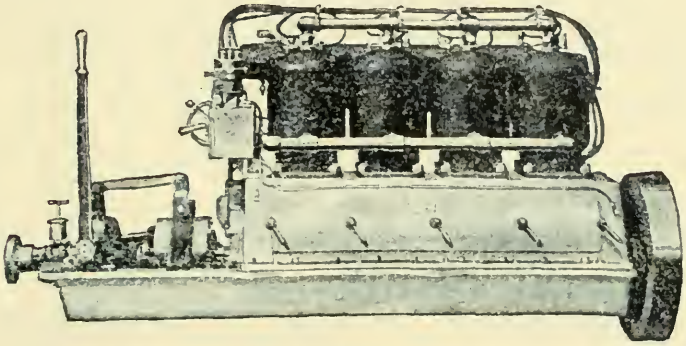
For slim persons it firmly supports the back and prevents sagging of the internal organs, thereby correcting all physical ailments and increasing weight and strength naturally.

**Special Introductory Price $3.00.** In ordering send waist measure.

Full information on all **NULIFE** garments in our illustrated booklet. Free on request.

**Professsor CHARLES MUNTER**

**Dept. 120 Nulife Building, 141-43-45 West Thirty-sixth Street, N. Y.**



# In a Crisis

The Scripps Complete Marine Power Plant has always demonstrated its great efficiency and reliability.

Twice it has successfully driven a motor boat through the terrible Rapids of Niagara.

Last year it drove the 35-foot motor boat "Detroit" across the Atlantic.

Daily it is rendering service in yachts, launches and work boats in all parts of the world.

Ploughing its way through the ice and snow of the North, skimming over the blue waters of the Tropics with equal ease—built for no one set of conditions, no one locality, it is equally efficient in all climes and waters.

Made in 1, 2, 4 and 6 cylinder sizes, 15 models, medium and extra heavy duty types.

Catalogue and information about self-starters, kerosene motors and the new high grade 7 horse-power tender motor sent upon request.

THE

## BALDWIN CAMP LAMP

Projects bright, white 14 candle power light 150 feet on the darkest night. Burns acetylene gas. Weight, 6 oz. Height 3½ inches. Burns three hours on one charge. No oil, glass or wicks. Never blows out, absolutely safe, simple in construction. Can be fastened to cap, belt, carried in hand, stood on table, hung on tree or stick. Fifty hours' light costs 25c.

No. 29, $1.50

**CAMPING**

Nights in camp made cheerful, reading and writing possible, plenty of light to overhaul guns, tackle, etc. Lamp hung on tree, etc. attracts mosquitos away from sleeping spot.

**FISHING**

A great lure for fish and frogs. All light concentrated on the fish, none in fisherman's eyes. Both hands free. Best light made for casting, gigging, spearing, netting.

No. 30, $1.00

**HUNTING**

Lamp on cap or belt casts bright circle upon trail. No stumbling over logs and into pools. Lamp spots game in highest trees. Both hands free for gun or knife. Great for coon, possum, turkey—big game.

**BOATING**

Absolute protection against motor boats. Very penetrating light—picks out rocks, shoals, snags, landing places. Lamp can be fastened on bow or worn on cap. Both hands free for paddle, oars or boat hook.

*Sold by leading Hardware and Sporting Goods dealers, or sent prepaid on receipt of price. Brass, $1.00, highly polished nickel with hinged handles, $1.50.*

Send for free illustrated catalogue and if you give your dealer's name and address we will send you instructive booklet, "Knots and How to Tie Them."

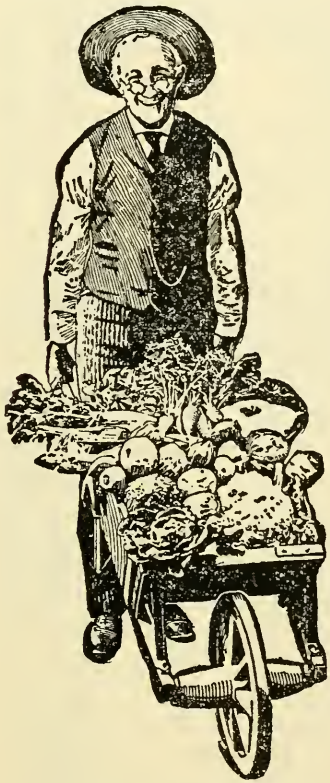
# A REMARKABLE OFFER OF HENDERSON'S SPECIALTIES

Henderson's Invincible Asters
Mammoth Butterfly Pansies
Giant Spencer Sweet Peas
Ponderosa Tomato
Big Boston Lettuce
Scarlet Globe Radish

*To demonstrate the superiority of Henderson's Tested Seeds, we have made up six of the best we have into a Henderson Collection, consisting of one packet each of these great specialties.*



To obtain for our annual catalogue, **"Everything for the Garden,"** described below, the largest possible distribution, we make the following unusual offer: To every one who will mail us ten cents, mentioning this publication, we will mail the catalogue and also send our Henderson Specialty Collection as above.

## Every Empty Envelope Counts as Cash

This collection is enclosed in a coupon envelope, which, when emptied and returned, will be accepted as 25c. cash payment on any order of one dollar or over, and we send full cultural directions, together with our new "Garden Plans."

**"Everything for the Garden,"**

our 1914 catalogue, is without exception the best we have ever issued; 204 pages, 14 colored plates, over 800 photo engravings, showing actual results without exaggeration, make it the most complete as well as beautiful horticultural publication of the year.

**PETER HENDERSON & CO.** 35 & 37 CORTLANDT ST. NEW YORK CITY

# SPHINX DEODORIZER AND AIR PERFUMER

A burning PERFUMED PASTILE which effectively destroys all offensive odors, however caused, and leaves a delicate perfume that lingers in the air for days. A delightful blend of oil of rose, united with barks and saps from the Orient.

A simple enough looking candle which resembles a cigarette in size and shape, but which emits a fragrant aroma when burned.

Each pastile burns one half hour, each box contains 8 pastiles and holder and retails at all druggists and toilet goods counters at **10c** or 3 boxes for **25c.**

If your dealer does not carry it in stock we will send it postpaid upon receipt of dealer's name and price.

THE WORLD ALMANAC ADDENDA ON PAGES 893 AND 894.

# "Pittsburgh Perfect" Fence

Gives 100% efficiency in strength, long life, freedom from repairs and best appearance under all conditions —ECONOMY in its broadest, fullest sense.

"Pittsburgh Perfect" Fence is scientifically designed in different styles and sizes to perfectly meet the most exacting requirements of any FIELD, FARM, RANCH, LAWN, CHICKEN, POULTRY and RABBIT YARD and GARDEN. Get the catalogue and pick out **exactly** the style you **need**—that's the secret of right fence-buying. The catalogue tells how the special Open Hearth wire used in all "Pittsburgh Perfect" Fences is made to possess greatest toughness, strength and durability; how the pure zinc galvanizing is applied; how the fence is formed by

## *THE* WELD *THAT* HELD

which joins by electricity the separate wires into a **one-piece fabric**—the exclusive feature that instantly established the superiority of "Pittsburgh Perfect."

**See Your Dealer**—We want you to fully investigate "Pittsburgh Perfect." The catalogue tells how to test wire for yourself; but don't wait to go to town for your copy—write us today and be posted in advance.

## PITTSBURGH STEEL CO., Pittsburgh, Pa.

**When at your dealer's always specify "Pittsburgh Perfect" Brands of Barbed Wire; Bright, Annealed and Galvanized Wire; Hard Spring Coil Wire; Twisted Cable Wire; Straightened and Cut Wire; Galvanized Telephone Wire; Bale Ties; Fence Staples; Poultry Netting Staples; Regular Wire Nails; Galvanized Wire Nails; Large Head Roofing Nails and "Pittsburgh Perfect" Fencing.**
